THE ISSUE WILL CONSTITUTE APPROXIMATELY [•]% OF THE POST-ISSUE SHARE CAPITAL OF OUR COMPANY AND THE NET ISSUE WILL CONSTITUTE APPROXIMATELY [•]% OF THE POST-ISSUE SHARE CAPITAL OF OUR COMPANY.

Our Company is considering a Pre – IPO Placement of up to 60,000,000 Equity Shares and / or aggregating up to ₹ 4,000 million with one or more investors ("Pre-IPO Placement"). The Pre-IPO Placement is at the discretion of our Company. Our Company will complete the issuance and allotment of Equity Shares pursuant to the Pre-IPO Placement prior to filing the Red Herring Prospectus with the RoC. If the Pre-IPO Placement is completed, the Issue size offered to the public would be reduced to the extent of such Pre-IPO Placement subject to the Net Issue being at least 10% of the post Issue paid-up capital of our Company.

THE FACE VALUE OF THE EQUITY SHARES IS 10 EACH AND THE ISSUE PRICE IS [•] TIMES THE FACE VALUE. OUR COMPANY IN CONSULTATION WITH THE LEAD MANAGERS MAY DECIDE TO OFFER A DISCOUNT OF UP TO [•]% OF THE ISSUE PRICE TO THE ELIGIBLE EMPLOYEES ("ELIGIBLE EMPLOYEE DISCOUNT"). THE EXCESS AMOUNT PAID AT THE TIME OF BIDDING SHALL BE REFUNDED TO THE ELIGIBLE EMPLOYEES.

THE PRICE BAND, MINIMUM BID SIZE AND ELIGIBLE EMPLOYEE DISCOUNT WILL BE DECIDED BY THE COMPANY IN CONSULTATION WITH THE JOINT GLOBAL COORDINATORS AND BOOK RUNNING LEAD MANAGERS. THE BOOK RUNNING LEAD MANAGERS AND THE CO-BOOK RUNNING LEAD MANAGER AND ADVERTISED BY THE COMPANY AT LEAST TWO (2) WORKING DAYS PRIOR TO THE BID/ISSUE OPENING DATE.

In case of revision in the Price Band, the Bidding / Issue Period will be extended for at least three additional Working Days after such revision of the Price Band subject to the Bidding/Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bidding/Issue Period, if applicable, will be widely disseminated by notification to the National Stock Exchange of India Limited (the "NSE") and the Bombay Stock Exchange Limited (the "BSE"), by issuing a press release, and also by indicating the change on the website of the Joint Global Coordinators and Book Running Lead Managers ("JGC/BRLMs"), of the Book Running Lead Managers ("BRLMs") and the Co-Book Running Lead Manager ("CBRLM") and together with the JGC/BRLMs and the BRLMs, the "Lead Managers") and at the terminals of the Syndicate Members.

In terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the "SCRR"), and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended (the "SEBI ICDR Regulations"), this is an issue for less than 25% of the post-Issue capital, subject to the Net Issue being at least 10% of the post Issue capital. Pursuant to Regulations 43(2) read with Regulation 26(2) of the SEBI ICDR Regulations at least 50% of the Net Issue shall be allotted on a proportionate basis to Qualified Institutional Buyers ("QIBs"), provided that our Company may allocate up to 30% of the QIB Portion to Anchor Investors on a discretionary basis out of which one-third shall be reserved for domestic Mutual Funds only. In the event of under subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders subject to valid Bids being received at or above the Issue Price. If at least 50% of the Net Issue cannot be Allotted to QIBs, then the entire application money shall be refunded forthwith. All potential investors (except Anchor Investors) may participate in this Issue through the Application Supported by Blocked Amount ("ASBA") process by providing details about the bank accounts in which corresponding bid amounts may be blocked by the Self Certified Syndicate Banks ("SCSBs"). For details, please refer to the section titled "Issue Procedure" on page 393 of this Draft Red Herring Prospectus.

RISKS IN RELATION TO FIRST ISSUE

This being the first public issue of the Equity Shares, there has been no formal market for the Equity Shares. The face value of the Equity Shares is ₹ 10 each and the Issue Price is [•] times the face value. The Issue Price (as determined and justified by our Company and the Lead Managers as stated in the section titled "Basis for Issue Price" on page 101 of this Draft Red Herring Prospectus) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of this Draft Red Herring Prospectus. Specific attention of the investors is invited to the section titled "Risk Factors" on page 17 of this Draft Red Herring Prospectus.

ISSUER'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Red Herring Prospectus contains all information with regard to our Company and the Issue that is material in the context of the Issue, that the information contained in this Draft Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which make this Draft Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading in any material respect.

IPO GRADING

This Issue has been graded by [•] as [•] and has been assigned "[•]" indicating "[•]", by way of its letter dated [•]. The IPO grading is assigned on a five point scale from 1 to 5 with "IPO Grade 5" indicating strong fundamentals and "IPO Grade 1" indicating poor fundamentals. CERTAIN CONVENTIONS - PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

Financial Data

Unless indicated otherwise, the financial data and other financial information included in this Draft Red Herring Prospectus are derived from the restated standalone and consolidated financial statements of our Company prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

Our fiscal year commences on April 1 each year and ends on March 31 of the following year. Accordingly, unless the context otherwise implies or requires, all references to a particular fiscal year are to the twelve-month period ended March 31 of that year.

There are significant differences between Indian GAAP, IFRS and U.S. GAAP. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information to a reader, is entirely dependent on the reader's level of familiarity with Indian accounting practices, Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices, Indian GAAP, the Companies Act and the SEBI ICDR Regulations on the financial statements and other financial information presented in this Draft Red Herring Prospectus should accordingly be limited. The Company has not attempted to quantify any such differences or their impact on the financial statements and other financial information included herein, and we urge you to consult your own advisors regarding such differences and their impact on the financial statements and other financial information included herein.

We cannot effectively compare the financial statements of L&T Infra for Fiscal Years 2009 and 2010 with the prior periods due to those prior periods having irregular terms of duration. Further, the consolidated financial statements of our Company are not comparable with the unconsolidated financial statements of L&T Finance and L&T Infra. For more information, refer to the section titled "*Risk Factors*" on page 17 of this Draft Red Herring Prospectus.

For more information on the results of operations and financial condition of our Company, refer to the sections titled "*Management's Discussion and Analysis of Financial Conditions and Results of Operations*" and "*Financial Information*" on pages 244 and F-1, respectively, of this Draft Red Herring Prospectus.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Red Herring Prospectus has been obtained from industry publications and certain public sources. Industry publications generally state that the information contained in such publications has been obtained from sources believed to be reliable, but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although our Company believes that the industry and market data used in this Draft Red Herring Prospectus is reliable, such data has not been independently verified by our Company. Further, the extent to which the market and industry data presented in this Draft Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of methodologies used in compiling such data.

Presentation of Currency

This Draft Red Herring Prospectus contains translations of certain U.S. Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of Clause 2(VIII)(G) of Part A of Schedule VIII of the SEBI ICDR Regulations. These convenience translations should not be construed as a representation that those U.S. Dollar or other currency amounts could have been, or can be, converted into Indian Rupees, at any particular rate, at the rates stated to below or at all.

In this Draft Red Herring Prospectus, all references to "**India**" are to the Republic of India, all references to "**Rupees**" or " ₹ " are to Indian Rupees, the official currency of the Republic of India and all references to "**US\$**", "**U.S. Dollar(s)**" or "**USD**" are to United States Dollars, the official currency of the United States of America.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off.

Exchange Rates

The U.S. Dollar exchange rate data as at the end of the last five fiscal years, as at September 29, 2010, and as at March 15, 2011 from www.rbi.org.in is as given below:

1 USD = ₹ 44.61 as on March 31, 2006

1 USD = ₹ 43.59 as on March 31, 2007

1 USD = ₹ 39.97 as on March 31, 2008

1 USD = ₹ 50.95 as on March 31, 2009

1 USD = ₹ 45.14 as on March 31, 2010

1 USD = ₹ 44.92 as on September 29, 2010

1 USD = ₹ 45.27 as on March 15, 2011

Except as otherwise stated, the USD amounts mentioned in this Draft Red Herring Prospectus have been translated into Indian Rupees using exchange rate as on March 15, 2011. Such conversions are for translations convenience purposes only.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "objective", "future", "goal", "plan", "contemplate", "propose", "seek to", "project", "should", "will", "will continue", "will pursue", "will likely result" or other words or phrases of similar import. All forward-looking statements are based on our current plans and expectations and are subject to a number of uncertainties and risks and assumptions that could significantly and materially affect our current plans and expectations and our future financial condition and results of operations. Important factors that could cause actual results, including our financial condition and results of operations to differ materially from our expectations include, but are not limited to, the following:

- General economic and business environment in India;
- Our ability to successfully implement our strategy and growth plans;
- Our ability to compete effectively and access funds at competitive cost;
- Effectiveness and accuracy of internal controls and procedures;
- Changes in domestic or international interest rates and liquidity conditions;
- Defaults by customers resulting in an increase in the level of non-performing assets in our portfolio;
- Rate of growth of our loan assets and ability to maintain concomitant level of capital;
- Downward revision in credit ratings;
- Potential mergers, acquisitions or restructurings and increased competition;
- Change in tax benefits and incentives and other applicable regulations, including various tax laws;
- Our ability to retain our management team and skilled personnel;
- Change in laws and regulations that apply to NBFCs in India, including laws that impact lending rates and our ability to enforce security; and
- Change in political conditions in India.

For further discussion of factors that could cause our actual results to differ, please refer to the sections titled "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 17, 132 and 244, respectively, of this Draft Red Herring Prospectus.

Neither our Company, our Directors and officers, any Underwriter, nor any of their respective affiliates or associates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchanges for the Equity Shares allotted pursuant to the Issue.

SECTION II: RISK FACTORS

An investment in our equity shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the trading price of our Equity Shares could decline, and all or part of your investment may be lost. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. The numbering of the risk factors has been done to facilitate ease of reading.

In this section, any reference to "we", "our" and "us" refers to our Company and our Subsidiaries on a consolidated basis, or to our Infrastructure Finance Group, Retail Finance Group, Corporate Finance Group and Investment Management Group, or the business segments of such respective business groups, as the context will indicate.

Any reference herein or elsewhere in this Draft Red Herring Prospectus to profits "as restated" are to profits which have been subjected to adjustments and on account of restatements in accordance with the SEBI ICDR Regulations, and any references to items of income or expenditure or extraordinary items or taxes on income are to such items as audited, but without making adjustments and on account of the corresponding restatements in accordance with the SEBI ICDR Regulations, if any. Also, any reference herein or elsewhere in this Draft Red Herring Prospectus to a balance as on a reporting date as contained in the Restated Summary Statement of Assets and Liabilities as on that reporting date is to a balance which has been subjected to restatements in accordance with the SEBI ICDR Regulations.

INTERNAL RISKS

Risks Relating to our Group

- Certain of the Company's Subsidiaries, Group Companies, Directors and our Promoter are involved in certain legal and other proceedings.***

Certain of our Company's Subsidiaries, Group Companies, Directors and our Promoter are currently involved in a number of legal proceedings in India. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. If any new developments arise, for example, a change in Indian law or rulings against us by the appellate courts or tribunals, we may face losses and we may have to make provisions in our financial statements, which could increase our expenses and our liabilities. Decisions in such proceedings adverse to our interests may have a material adverse effect on our business, future financial performance and results of operations.

Details of legal proceedings against the Company, L&T Finance Limited ("**L&T Finance**"), L&T Infrastructure Finance Company Limited ("**L&T Infra**"), L&T Investment Management Limited ("**L&TIM**") and our Directors, as of March 15, 2011, are set out below:

against various defaulters including ex-employees / associates; 5,845 are civil cases, which include inter alia execution proceedings, winding-up petitions, contempt petitions, appeals against the orders of Consumer Forums and arbitration proceedings.

For further details of these legal proceedings, refer to the section titled "*Outstanding Litigation and Material Developments*" on page 288 of this Draft Red Herring Prospectus.

2. ***As an NBFC, we face the risk of default and non-payment by borrowers and other counterparties. Any such defaults and non-payments would result in write-offs and/or provisions in our financial statements which may materially and adversely affect our profitability and asset quality. Further, the NPAs of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group has increased year-on-year, the continuation of which may materially and adversely affect our profitability and asset quality. As at September 30, 2010, net NPAs for our Infrastructure Finance Group and Retail and Corporate Finance Groups were 1.01% and 1.23%, respectively.***

Any lending or investment activity is exposed to credit risk arising from the risk of default and non-payment by borrowers and other counterparties. Our total loan portfolio, which combines the loan portfolios of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group, comprises a mix of infrastructure, retail and corporate assets and the gross loan size (excluding inter-corporate deposits) of the portfolio was ₹ 136,832.83 million and ₹ 114,459.45 million as of September 30, 2010 and March 31, 2010, respectively. As at September 30, 2010, the loans and advances of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group were ₹ 52,729.81 million, ₹ 51,123.53 million and ₹ 32,976.27 million, respectively, which accounted for 38.54%, 37.36% and 24.10%, respectively, of our total loans and advances.

The size of our loan portfolio is expected to grow as a result of our expansion strategy in existing as well as new products across our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group. Of our total loan portfolio as on September 30, 2010, 40.02% constitutes loans granted to small and medium enterprises and individuals, which include loans granted to transport equipment finance segment excluding corporate customers, construction equipment finance segment excluding corporate customers, rural product finance segment, microfinance segment, vendor finance excluding corporate customers and dealer finance excluding corporate customers. This will expose us to an increasing risk of defaults as our portfolio expands.

For our Infrastructure Finance Group, the gross NPAs as a percentage of total outstanding loans were 1.20%, 1.84%, 0% and 0% as of September 30, 2010, March 31, 2010, 2009 and 2008, respectively, while the net NPAs as a percentage of net outstanding loans were 1.01%, 1.66%, 0% and 0% as of September 30, 2010 and March 31, 2010, 2009 and 2008, respectively.

For our Retail and Corporate Finance Groups, the gross NPAs as a percentage of total loans and advances were 2.53%, 2.75%, 2.56% and 1.02% as of September 30, 2010, March 31, 2010, 2009 and 2008, respectively, while the net NPAs as a percentage of total loans and advances were 1.23%, 1.68%, 2.11% and 0.82% as of September 30, 2010, March 31, 2010, 2009 and 2008, respectively.

Furthermore, as at September 30, 2010, 11.96% of total loans of our Retail Finance Group were provided to customers of our microfinance segment and rural product finance segment (mostly light commercial vehicle operators) who were borrowers in the low income group.

For further details, refer to the section titled "*Our Business - Our Loan Portfolio and Policies - Non-Performing Assets*" on page 167 of this Draft Red Herring Prospectus.

Our loan portfolio consists of loans provided to large corporates, small and medium enterprises and individuals, with the latter segment constituting a significant portion of our portfolio. The loans provided to our top five corporate customers as of September 30, 2010 aggregate to ₹ 4,680.92 million, which amounts to 14.19% of our total corporate loans. Relatively large sized single exposures to corporate customers can impact profitability and result in higher NPAs on a small number of defaults.

The borrowers and/or guarantors and/or third parties may default in their repayment obligations due to various reasons including insolvency, a lack of liquidity, and operational failure. Besides macroeconomic conditions, we face risks of default specific to each of our businesses, which may also result in increased defaults.

In particular, the customers of the transportation equipment finance, rural product finance and microfinance segments of our Retail Finance Group may have relatively underdeveloped and unsophisticated banking and financial controls, practices and procedures, and individual borrowers are generally less financially robust than larger corporate borrowers and fleet owners, and, as a result, are

likely to be more severely affected by deteriorating economic conditions. In addition, a significant proportion of our Retail Finance Group, the microfinance customer-base, in particular, belongs to the low income group. Further, the owners and/or operators of commercial vehicles financed by us often do not have any credit history supported by tax returns and other related documents which would enable us to assess their creditworthiness, and we may also not receive updated information regarding any change in the financial condition of our customers or may receive inaccurate or incomplete information as a result of any fraudulent misrepresentation on the part of our customers. Furthermore, unlike several developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial information and related data available on the creditworthiness of individuals, particularly for the proportion of our customer-base who are mainly from the low income group and who typically have limited access to other financing sources. It is therefore difficult to carry out precise credit risk analyses of our customers, although our Retail Finance Group follows certain procedures to evaluate the credit profile of our customers at the time of sanctioning a loan. In deciding whether to extend credit to, or to enter into transactions with, customers and counterparties, we rely on published credit information relating to such parties and financial and other relevant information furnished to us by customers, based on which we perform our credit assessment. Refer to the section titled "*Our Business - Our Loan Portfolio and Policies - Lending Policies*" on page 158 of this Draft Red Herring Prospectus for details of the credit policies and approval processes of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group. We cannot be certain that our risk management controls will continue to be sufficient or that additional risk management policies for individual borrowers will not be required. Failure to continuously monitor the loan contracts, particularly for individual borrowers, could adversely affect our credit portfolio which could have a material and adverse effect on our business, future financial performance and results of operations.

If any of the aforesaid information, as obtained from customers and third parties, is misleading or inaccurate, the procedures that we follow may not be adequate or sufficient to provide accurate data as to the creditworthiness of our customers and counterparties. In the event that we do not accurately identify the risk of default, or if we rely on information that may not be true or may be materially misleading, our business, future financial performance and results of operations may be materially and adversely affected.

We cannot be certain, and cannot assure you, that we will be able to maintain or improve our collections and recoveries in relation to the NPAs across our Infrastructure Finance Group, Retail Finance Group or Corporate Finance Group, or otherwise adequately control our level of NPAs in future. Moreover, as our loan portfolio matures, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control or reduce our level of NPAs, the overall quality of our loan portfolio may deteriorate and our results of operations may be adversely affected.

We have provisions of ₹ 104.15 million and ₹ 1,087.30 million in respect of gross NPAs as of September 30, 2010 for our Infrastructure Finance Group and Retail and Corporate Finance Groups, respectively. In addition, our Infrastructure Finance Group maintains a provision against standard assets, as a matter of policy. As of September 30, 2010, we have provisions in the amount of ₹ 208.00 million in respect of standard assets. In accordance with the recent amendment to the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, with effect from January 17, 2011, every NBFC, including (our Infrastructure Group) L&T Infra and (our Retail and Corporate Finance Groups) L&T Finance, shall make a general provision of 0.25% of the outstanding standard assets. There can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of NPAs or otherwise, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. In the event of any further deterioration in our NPA portfolio, there could be a more significant and substantial material and adverse impact on our business, future financial performance and results of operations.

3. *Our business requires substantial capital, and any disruption in funding sources would have a material and adverse effect on our liquidity and financial condition.*

The liquidity and ongoing profitability of our business are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from a combination of shareholder funding, secured and unsecured loan funds, such as Rupee- and US Dollar-denominated term loans from banks and financial institutions, the issuance of redeemable non-convertible debentures and commercial paper and inter-corporate deposits from L&T. For further details, refer to the section titled "*Our Business - Our Funding Structure*" on page 155 of this Draft Red Herring Prospectus. Thus, our business depends and will continue to depend on our ability to access diversified funding sources. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy, investors' and/or lenders'

perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition.

Our funding strategy was adversely affected by the ongoing crisis in the global credit markets since 2008. Through the second half of 2008 and the first half of 2009, capital and lending markets remained highly volatile and access to liquidity was adversely affected. These conditions resulted in increased borrowing costs and difficulty in accessing funds in a cost-effective manner. Changes in economic and financial conditions or lack of liquidity in the market could make it difficult for us to access funds at competitive rates. As an NBFC, we also face certain restrictions on our ability to raise money from international markets which may further constrain our ability to raise funds at attractive rates.

Any disruption in our primary funding sources at competitive costs would have a material adverse effect on our liquidity and financial condition.

4. ***The financing industry is becoming increasingly competitive as more financial institutions target products and services similar to ours. As a result, our growth will depend on our ability to compete effectively and maintain a low effective cost of funds. Any inability to compete effectively could materially and adversely affect our business, future financial performance and results of operations which might further impede our competitive position and profitability.***

We face increasing competition from public and private sector Indian commercial banks and from other financial institutions that provide finance products or services. Many of our competitors have greater resources than we do. As of March 31, 2009, there were over 12,000 NBFC-NDs in India (*Source: RBI Annual Report 2009*). Potentially, these NBFCs, particularly the larger ones, could compete with us for business as well as procurement of funds at competitive rates. The competition we face from banks is increasing as more banks are targeting products and services similar to ours. Competition in our industry depends on, among other things, the ongoing evolution of government policies relating to the industry, the entry of new participants into the industry and the extent to which there is consolidation among banks and financial institutions in India.

Our ability to compete effectively is primarily dependent on our ability to maintain a low effective cost of funds. Our borrowing costs have been competitive in the past initially due to our strong credit rating, credit history, strong capital adequacy ratios and the "Larsen & Toubro" brand (refer to the section titled "Our Business - Our Competitive Strengths - Good financial and capital position, as well as access to multiple sources of capital" on page 136 of this Draft Red Herring Prospectus). With the growth of our business, we are increasingly dependent on funding from a combination of shareholder funding, secured and unsecured loan funds, such as Rupee- and US Dollar-denominated term loans from banks and financial institutions, the issuance of redeemable non-convertible debentures and commercial paper and inter-corporate deposits (refer to the section titled "Our Business - Our Funding Structure" on page 155 of this Draft Red Herring Prospectus). The market for such funds is competitive and our ability to obtain funds on acceptable terms will depend on various factors including our ability to maintain our credit ratings. If we are unable to access funds at an effective cost that is comparable to or lower than that of our competitors, we may not be able to offer competitive interest rates on our loans.

Furthermore, we also face significant competition from companies seeking to attract customers' financial assets, including traditional and online brokerage firms, mutual fund companies, other NBFCs, commercial banks and financial institutions who have a broad geographic presence and strong brand names.

As we enter new markets in the financial services industry, we are likely to face additional competition from such entities who may be better capitalized, have longer operating histories, have a greater retail and brand presence, and more experienced management in such new markets than we do. If we are unable to compete with these entities effectively in these new markets, this could materially and adversely affect our business, future financial performance and results of operations and it might impede our competitive position and profitability.

5. ***We face asset-liability mismatches which could affect our liquidity, and which may as a consequence have a material and adverse effect on our business, future financial performance and results of operations.***

Our Infrastructure Finance Group has an asset-liability management policy in place which categorizes all interest rate sensitive assets and liabilities into various time period categories according to contracted residual maturities or anticipated repricing dates, as may be relevant in each case.

The following table sets out an analysis of the maturity profile of certain of L&T Infra's interest-bearing assets and interest-bearing liabilities across time buckets as at September 30, 2010 and March 31, 2010 and 2009:

The difference between the value of assets and liabilities maturing, or being repriced, in any time period category provides the measure to which we are exposed to the risk of potential changes in the margins on new or repriced assets and liabilities.

Accordingly, we face potential liquidity risks due to varying periods over which our assets and liabilities mature. As is typical for NBFCs, a portion of our funding requirements is met through a combination of shareholder funding, secured and unsecured loan funds, such as Rupee- and US Dollar-denominated term loans from banks and financial institutions, the issuance of redeemable non-convertible debentures and commercial paper and inter-corporate deposits. However, a large portion of our loan assets mature over the medium term. Consequently, our inability to obtain additional credit facilities or renew our existing credit facilities, in a timely and cost-effective manner or at all, may lead to mismatches between our assets and liabilities, which in turn may adversely affect our business, future financial performance and results of operations.

In addition, such funding mismatches between our assets and liabilities are aggravated when our customers pre-pay any of the financing facilities we grant to them.

6. *As on September 30, 2010, 12.59% and 35.03%, respectively, of the loans made by our Retail Finance Group and Corporate Finance Group are unsecured, and if they become non-performing loans, it would result in write-offs and/or increased provisions in our financial statements which may materially and adversely affect our business, future financial performance and results of operations.*

The following table sets out the amount of unsecured loans and advances of our Retail Finance Group and Corporate Finance Group respectively, as at September 30, 2010:

Business Group	As at September 30, 2010			
	Loans and Advances (Unsecured)	Percentage of Total Loans and Advances	Net NPA	Ratio
	(₹ in million)			
Retail Finance Group.....	6,436.43	12.59%	17.70	27.00%
Microfinance ¹	5,516.15	10.79%	0.00	0.00%
Corporate Finance Group	11,551.64	35.03%	11.35	10.00%
Total	17,988.07	21.39%	29.05	16.00%

¹ Microfinance forms a segment of the Retail Finance Group. Non-performing or low credit quality loans which are unsecured can have a material and adverse effect on our business, future financial performance and results of operations.

7. *Microfinance lending poses unique risks not generally associated with other forms of lending in India, and, as a result, we may experience increased levels of non-performing loans and related provisions and write-offs that negatively impact our results of operations.*

The microfinance segment of our Retail Finance Group provides loans to fund the small businesses and other income generating activities of our microfinance customers. As of September 30, 2010 loans and advances for the microfinance segment were ₹ 5,516.15 million, which accounts for 10.79% of the total loans and advances of our Retail Finance Group. As at September 30, 2010, there were no net NPAs in the microfinance segment of our Retail Finance Group.

For the microfinance segment of our Retail Finance Group, the gross NPAs as a percentage of the total outstanding loans were 0.03%, 0%, 0% and 0% as of September 30, 2010, March 31, 2010, 2009 and 2008, respectively, while the net NPAs as a percentage of net outstanding loans were 0%, as of September 30, 2010 and March 31, 2010, 2009 and 2008.

Our microfinance customers typically belong to the economically weaker segments of the society in rural India, who have limited sources of income, savings and credit records, and who cannot provide us with any collateral or security for their borrowings. As a result, our microfinance customers present a higher credit risk of default than the customers of the other segments of our Corporate Finance Group and Retail Finance Group (who have greater financial resources and more established credit histories) and other borrowers living in urban areas with better access to education, employment opportunities, and social services. In addition, we rely on non-traditional guarantee mechanisms in connection with our loan products, which are generally secured by informal individual and group guarantees, rather than tangible assets. As a result, our microfinance loan products pose a higher degree of risk than loans secured with physical collateral. Due to the precarious financial and social circumstances of our microfinance customers and our non-traditional lending practices we may, in the future, experience increased levels of non-performing loans and related provisions and write-offs that could have a material and adverse effect on our business, future financial performance and results of operations.

In addition, political and social risks, such as the negative publicity surrounding the accessing of capital markets by the microfinance industry, public criticism of the microfinance industry by Indian politicians, the enactment of laws imposing strict regulation of the microfinance industry, and/or religious beliefs and convictions regarding the extension of credit and repayment of interest may deter our microfinance customers from discharging their obligations to us which may have a material and adverse effect on our business, future financial performance and results of operations.

8. *The repeal of or changes in the regulatory policies that currently encourage financial institutions to provide capital to the microfinance sector could adversely impact the cost and availability of capital. Further, any uncertainty regarding the implementation and enforcement of the recent Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 or as a result of the RBI's potential implementation of the recommendations set out by the Malegam Committee in its report, may result in delays and/or halts in repayment of loans as a result of which, microfinance institutions may experience losses and liquidity issues causing lenders and investors to lose confidence in the microcredit industry and consequently, lenders may discontinue lending to microfinance institutions.*

The RBI requires domestic commercial banks operating in India to maintain 40.0% of their adjusted net bank credit, or a credit equivalent amount of off-balance sheet exposure, whichever is higher, as "priority sector advances". These include advances to agriculture, including self help groups ("SHGs"), and joint liability groups ("JLGs"), of individual farmers, micro and small enterprises, microcredit, education loans and housing loans. In addition, the RBI also requires 18.0% of the adjusted net bank credit to be applied towards the agriculture sector and 10.0% towards the "weaker sections", which are defined to include small farmers owning five acres and less and artisans whose individual credit limit does not exceed ₹ 50,000.00. When banks are unable to meet these requirements, they often rely on specialized institutions, including microfinance institutions ("MFIs"), to provide them with access to qualifying advances through lending programs and loan assignments. These bank requirements result in significant funding for the microfinance sector. To the extent that changes in bank regulations eliminate or reduce banks requirements for priority sector advances, less capital would be available to MFIs. In such event, our access to funds and the cost of our capital would be negatively impacted, and our business, future financial performance and results of operations would be materially and adversely affected. Our lending model is in the nature of direct lending and disbursements of loans to our customers as opposed to the "intermediary model", where funds are lent to SHGs or NGOs who have microfinance operations. As such, our lending business is based on a JLG model, which has been used by MFIs for over 30 years internationally, including in Bangladesh. For further details, refer to the section titled "Our Business –

Our Business and Operations – Our Retail Finance Group – Microfinance Segment" on page 147 of this Draft Red Herring Prospectus.

With effect from January 1, 2011, the Government of Andhra Pradesh introduced the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 (Act No. 1 of 2011) (the "**MFI Act**"). The main object of the MFI Act is to protect women SHGs in the state of Andhra Pradesh from exploitation by microfinance institutions. The MFI Act provides for *inter alia* registration and cancellation of registration of microfinance institutions, filing of periodic returns by microfinance institutions, limits on interest recoverable by microfinance institutions, prohibition on security for loans provided to SHGs and prior approval for grant of further loans to SHGs. The MFI Act is relatively new and due to the uncertainty regarding the implementation and enforcement of the MFI Act, microcredit borrowers in the state of Andhra Pradesh may stop repaying their loans and microfinance institutions may experience losses and liquidity issues, which may lead to other consequences such as lenders and investors losing confidence in the microcredit industry and consequently, lenders may discontinue lending to microfinance institutions.

The operations of our microfinance segment are currently spread over seven states including Andhra Pradesh, as a result of which our Retail Finance Group is required to adhere to the provisions of the MFI Act. As of September 30, 2010, our total loans and advances to the microfinance segment in the state of Andhra Pradesh was approximately ₹ 2,354.71 million, or approximately 42.69% of the microfinance segment of the Retail Finance Group. Since introduction of the MFI Act, collections from customers in our microfinance segment have declined in Andhra Pradesh. We have reduced the disbursement of loans in general, and in the state of Andhra Pradesh there have been no disbursements since the promulgation of the MFI Ordinance and subsequently introduction of the MFI Act. The board of directors of the RBI, at their meeting held on October 15, 2010 formed a sub-committee of the board (the "**Malegam Committee**") to study issues and concerns in the microfinance sector in so far as they related to the entities regulated by the RBI. The Malegam Committee submitted its report on the issues and concerns in the microfinance sector on January 19, 2011. Key recommendations set out in the report include the creation of a separate category of NBFCs operating in the microfinance sector, such NBFCs being designated as NBFC-MFI, MFIs should lend to an individual borrower only as a member of a JLG and should have the responsibility of ensuring that the borrower is not a member of another JLG. Not more than two MFIs should lend to the same borrower and bank advances to MFIs shall continue to enjoy "priority sector lending" status. For further details please see "*Regulations and Policies in India - Report of the Sub-Committee of the Central Board of Directors of Reserve Bank of India to Study Issues and Concerns in MFI Sector*" on page 190 of this Draft Red Herring Prospectus.

Given the uncertainty regarding the implementation and enforcement of the MFI Act or as a result of RBI's potential implementation of the Malegam Committee report on the regulatory framework of the microfinance industry, we may re-evaluate the business model, strategy and structure of our microfinance segment, including potentially migrating the business from L&T Finance into a new company within our Group. While L&T Finance is currently registered in accordance with the provisions of the MFI Act, we cannot assure you that we will be able to continually comply with the provisions of the MFI Act and/or maintain registration under the MFI Act. Further, L&T Finance has also received a notice from certain Government authorities in the state of Andhra Pradesh in relation to compliance with the MFI Ordinance, pursuant to which L&T Finance has obtained the requisite approvals under the MFI Ordinance for continuing its micro financing activities in the respective areas as permitted. For further details please see "*Government Approvals for our Operating Subsidiaries – L&T Finance – Business approvals*". The MFI Act provides for imposition of penalties on MFIs on account of coercive action by MFIs, carrying on business without registration and contravening the provisions of the MFI Act. Such penalties include imprisonment up to a period of three years as well as fines which may extend to ₹ 100,000 and can be imposed on all persons who are connected with and responsible for the day-to-day control and management of an MFI. Any failure by L&T Finance to comply with the provisions of the MFI Act could result in imposition of any of the penalties set forth above and, in certain cases, cancellation of our registration as an MFI, which may have an adverse effect on our business, financial condition and results of operations as well as adversely affect our reputation and the demand for our microfinance related products. For further details of our microfinancing activities, refer to the section titled "*Our Business – Our Business and Operations – Our Retail Finance Group – Microfinance Segment*" on page 147 of this Draft Red Herring Prospectus.

Further, other state governments may promulgate similar or stricter regulations, resulting in increased levels of non-performing loans and related provisions and write-offs that could materially and adversely affect our results of operation and prospects.

9. ***We are a holding company and all our business operations are conducted through our Subsidiaries and the performance of our Subsidiaries may adversely affect our results of operations.***

We are a holding company and all our business operations are conducted through our Subsidiaries – principally L&T Finance, L&T Infra and L&TIM. Our financial condition and results of operations are thus heavily dependent upon the performance of our Subsidiaries and the dividends we receive from them. Our financial condition and results of operations could be adversely affected should our equity stake in our Subsidiaries be diluted or in the event they cease to be Subsidiaries.

10. ***We cannot effectively compare the financial statements of L&T Infra for Fiscal Years 2009 and 2010 with the prior periods due to those prior periods having irregular terms of duration. Further, the consolidated financial statements of our Company are not comparable with the unconsolidated financial statements of L&T Finance and L&T Infra.***

Our Company was incorporated on May 1, 2008, meaning our Fiscal Year 2009 was for a period of less than twelve months. Furthermore, prior to March 31, 2009, we had minimal operations in the form of various passive investments. On March 31, 2009, we acquired both L&T Finance and L&T Infra. As a result, our Fiscal Year 2009 is for an irregular period with very limited business activity, and our Fiscal Years 2009 and 2010 are not comparable.

L&T Infra was incorporated on April 18, 2006, and received its certificate of registration as an NBFC from the RBI on January 10, 2007. Prior to January 10, 2007, L&T Infra did not have any business operations, and the period from January 10, 2007 to March 31, 2007 was not a full quarter. Accordingly, the management of L&T Infra concluded that the audited financial statements for the period ended March 31, 2007 would not provide a useful reflection of the financial affairs and condition of L&T Infra, and the first audited financials were prepared for the period ended June 30, 2007. Subsequently, the fiscal year end was changed to coincide with the fiscal year end of L&T (March 31), beginning on April 1, 2008. As a result of the foregoing, L&T Infra's first two fiscal years are for irregular terms (i.e. from April 18, 2006 to June 30, 2007; and from July 1, 2007 to March 31, 2008), and are not comparable with one another, nor are they comparable with the financial statements for Fiscal Year 2010 and Fiscal Year 2009.

The financial statements of L&T Infra and L&T Finance are presented in this Draft Red Herring Prospectus on an unconsolidated basis, while those of our Company are consolidated. Although the business and operations of L&T Infra and L&T Finance make up most of our business and operations our Company also derives revenues and incurs expenses from other sources, primarily investments in certain infrastructure and finance-related entities. Similarly, the financial statements for L&T Finance are presented in this Draft Red Herring Prospectus on an unconsolidated basis; however, L&T Finance also derives revenue and incurs expenses from its subsidiaries, L&TIM and L&T Mutual Fund Trustee Limited. See the section titled "Our Business – Our Group Structure and Subsidiaries" on page 133 of this Draft Red Herring Prospectus. As a result of the foregoing, the unconsolidated financial statements of each of L&T Infra and L&T Finance, when taken together, are not necessarily comparable to the consolidated financial statements of our Company.

11. ***We may be exposed to potential losses due to a decline in value of assets secured in our favor, and due to delays in the enforcement of such security upon default by our borrowers.***

As of September 30, 2010, approximately 86.85% of our total loan portfolio (excluding inter-corporate deposits), which combines the loan portfolios of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group, is secured by a mix of both movable and immovable assets or other forms of collateral, depending on the nature of the transaction. The value of certain types of assets may decline due to inherent operational risks, the nature of the asset secured in our favor and adverse market and economic conditions (both global and domestic). For example:

- for the asset-backed loans of the transportation equipment finance segment of our Retail Finance Group, the vehicles purchased by our customers are hypothecated in our favor as security interests for the loans provided by us. For further details, refer to the section titled "Our Business - Our Business and Operations - Our Retail Finance Group - Transportation Equipment Finance Segment" on page 147 of this Draft Red Herring Prospectus. The value of the vehicle, however, is subject to depreciation, deterioration, and/or a reduction in value on account of a number of external factors (such as wear and tear), over the course of time. Consequently, the realizable value of the collateral for the loan provided by us, when liquidated, may be lower than the outstanding loan from such customers. Any default in repayment of the outstanding credit obligations by our customers may expose us to losses. Furthermore, in the case of a default, we typically repossess the commercial vehicles financed and sell such vehicles through auctions. The hypothecated vehicles, being movable

property, may be difficult to locate or seize in the event of any default by our customers. There can also be no assurance that we will be able to sell such vehicles provided as collateral at prices sufficient to cover the amounts under default; and

- In the capital markets finance segment of our Corporate Finance Group, our loan portfolio includes assets such as equity shares, offered to us as main security or collateral, as the case may be, the value of which is inherently volatile in nature and may decline in value. For further details, refer to the section titled "*Our Business - Our Business and Operations - Our Corporate Finance Group - Capital Markets Finance Segment*" on page 152 of this Draft Red Herring Prospectus.

The value of the security or collateral granted in our favor, as the case may be, may also decline due to delays in insolvency, winding-up and foreclosure proceedings, defects in title or documentation relevant to the assets, difficulty in locating movable assets and the necessity of obtaining regulatory approvals and/or court orders for the enforcement of our collateral over those assets, and as such, we may not be able to recover the estimated value of the assets, which would materially and adversely affect our business, future financial performance and results of operations.

In the event of default by our borrowers, we cannot guarantee that we will be able to realize the full value of our collateral, due to, among other things, unforeseen delays in our ability to take immediate action, bankruptcy foreclosure proceedings, stock market downturns, defects in the perfection of collateral and fraudulent transfers by borrowers. In the event a specialized regulatory agency gains jurisdiction over the borrower, creditor actions can be further delayed.

12. If we are unable to manage our rapid growth effectively, our business, future financial performance and results of operations could be materially and adversely affected.

The businesses of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group have grown rapidly during the last two years.

From March 31, 2008 to March 31, 2010, the gross loans outstanding of our:

- Infrastructure Finance Group increased by a CAGR of 52.95%; and
- Retail and Corporate Finance Groups increased by a CAGR of 25.36%.

We intend to continue to grow the businesses of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group rapidly, which could place significant demands on our operational, credit, financial and other internal risk controls. It may also exert pressure on the adequacy of our capitalization, making management of asset quality increasingly important.

Our future business plan is dependent on our ability to borrow to fund our growth. We may have difficulty obtaining funding on attractive terms. Adverse developments in the Indian credit markets may significantly increase our debt service costs and the overall cost of our funds. An inability to manage our growth effectively and failure to secure the required funding therefore on favorable terms, or at all, could have a material and adverse effect on our business, future financial performance and results of operations.

13. We have entered into certain related party transactions with several related parties. Such transactions and any future transactions with such related parties have involved or could potentially involve conflicts of interest.

For the six month period ended September 30, 2010, we have entered into transactions, aggregating to ₹ 16,204.45 million, with several related parties, including our Promoter and Promoter Group entities. The transactions we have entered into and any future transactions with our related parties have involved or could potentially involve conflicts of interest. For more information regarding our related party transactions, refer to the section titled "*Financial Information - Related Party Transactions*" on page F-25 of this Draft Red Herring Prospectus.

14. Any negative cash flows in the future would adversely affect our cash flow requirements.

We have in the past, and may in the future, experience negative cash flows. For example, our net cash used in operating activities, on a consolidated basis, after working capital adjustments, in the six month period ended September 30, 2010 and in Fiscal Years 2010 and 2009 amounted to ₹ 22,929.32 million, ₹ 37,140.01 million and ₹ 0.07 million, respectively. Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, future financial performance and results of operations could be materially and adversely affected. For further details, refer

to the section titled "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on page 244 of this Draft Red Herring Prospectus.

15. *Some of our Group Companies and Subsidiaries have incurred losses in the past.*

Some of our Group Companies and Subsidiaries have incurred losses in the last three fiscal years. For further details in relation to the losses incurred by our Group Companies and Subsidiaries, refer to the sections titled "*History and Certain Corporate Matters*" and "*Group Companies*" on pages 199 and 224 of this Draft Red Herring Prospectus, respectively.

We can give you no assurance that our Group Companies and Subsidiaries will not continue to incur losses in future, that their net worth will be positive in the future or that any of the foregoing will not materially affect our business, future financial performance and results of operations.

16. *We require certain statutory and regulatory approvals for conducting our business and our failure to obtain, retain or renew them in a timely manner, or at all, may adversely affect our operations.*

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain approvals, licenses, registrations and permissions for operating our business, including registration with the RBI as an NBFC-ND. Each of our Company, L&T Finance, L&T Infra and India Infrastructure Developers Limited is registered as an NBFC-ND with the RBI. The RBI has classified L&T Finance as an "asset finance company", and L&T Infra as an "infrastructure finance company". L&TIM has been issued licenses by the SEBI in relation to the business of our Investment Management Group. For the various approvals, licenses, registrations and permissions that we have obtained or applied for our business, refer to the section titled "*Government and Other Approvals*" on page 366 of this Draft Red Herring Prospectus. Further, such approvals, licenses, registrations and permissions must be maintained and/or renewed over time, applicable requirements may change and we may not be aware of or comply with all requirements all of the time. Additionally, we may need additional approvals from regulators to introduce new insurance and other fee-based products to our customers. In particular, we are required to obtain and maintain a certificate of registration for carrying on business as an NBFC that is subject to numerous conditions. For further details, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

In addition, our various branches, meeting centers, KGSK centers and customer care centers are required to be registered under the relevant shops and establishment laws of the states in which they are located. The shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. Some of our branches have not applied for such registration while other branches still have applications for registration pending.

Given the extensive regulation of the financial services industry, it is possible that we could be found, by a court, arbitration panel or regulatory authority not to have complied with applicable legal or regulatory requirements. Further, we may be subject to lawsuits or arbitration claims by customers, employees or other third parties in the different state jurisdictions in India in which we conduct our business. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled and we shall not be able to carry on such activities. We may also incur substantial costs related to litigation if we are subject to significant legal action, which may materially and adversely affect our business, future financial performance and results of operations. For further details, refer to the section titled "*Government and Other Approvals*" on page 366 of this Draft Red Herring Prospectus.

17. *We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to decline and adversely affect our return on assets and profitability.*

The businesses of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group are dependent on interest income from the loans they disburse. Accordingly, we are affected by volatility in interest rates in our lending operations. Being a non-deposit taking NBFC, we are exposed to greater interest rate risk compared to banks or deposit taking NBFCs. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility.

If interest rates rise we may have greater difficulty in maintaining a low effective cost of funds compared to our competitors, who may have access to low-cost deposit funds. Further, in case our borrowings are linked to market rates, we may have to pay interest at a higher rate as compared to other lenders.

Fluctuations in interest rates may also adversely affect our treasury operations. In a rising interest rate environment, especially if the rise were sudden or sharp, we could be adversely affected by the decline in the market value of our securities portfolio and other fixed income securities. In addition, the value of any interest rate hedging instruments we may enter into in the future would be affected by changes in interest rates.

When interest rates decline, we are subject to greater repricing and prepayment risks as borrowers take advantage of the attractive interest rate environment. When assets are repriced, our spread on our loans, which is the difference between our average yield on loans and our average cost of funds, could be affected. During periods of low interest rates and high competition among lenders, borrowers may seek to reduce their borrowing cost by asking lenders to reprice loans. If we reprice loans, our results may be adversely affected in the period in which the repricing occurs. If borrowers prepay loans, the return on our capital may be impaired as any prepayment premium we receive may not fully compensate us for the redeployment of such funds elsewhere.

Further, as at September 30, 2010, 84.86% of the total loans provided by us are long-term in nature (i.e. with a maturity at issuance of more than one year) and may be on a fixed rate basis, and which may not have escalation clauses. Any increase in interest rates over the duration of such loans may result in us losing interest income. Our inability to effectively and efficiently manage interest rate variations may adversely affect our business, future financial performance and result of operations.

18. *Our Infrastructure Finance Group has a significant concentration in certain sectors and to certain borrowers and if these exposures become non-performing, such exposure could increase the level of non-performing assets in our portfolio and materially and adversely affect our business, future financial performance and results of operations.*

As at September 30, 2010, our five largest single sector exposures were in the power, telecommunications, roads, oil and gas and ports sectors, which constituted 34.99%, 15.70%, 13.59%, 6.55% and 4.52% (aggregating to total percentage exposure of 75.35% for these five sectors), respectively, of our total exposure of ₹ 52,729.81 million. For the foreseeable future, we expect to continue to have a significant concentration of loans in these five sectors and to certain borrowers. As at September 30, 2010, the loans and advances of our Infrastructure Finance Group accounted for 38.54% of our total loans and advances. Any negative trends or financial difficulties in the power, telecommunications, roads, oil and gas or ports sectors, particularly among our large borrowers, could increase the level of non-performing assets in our portfolio and materially and adversely affect our business, future financial performance and results of operations.

As at September 30, 2010, the ten largest borrowers in our Infrastructure Finance Group in the aggregate accounted for 33.26% of our total exposure and the ten largest borrower groups in the aggregate accounted for 40.79% of our total exposure. As at September 30, 2010, our largest single borrower and our largest borrower group accounted for 4.74% and 5.22%, respectively, of the total exposure of our Infrastructure Finance Group. Credit losses on our significant single borrower and group exposures could materially and adversely affect our business, future financial performance and results of operations.

The customers of our Infrastructure Finance Group may default on their obligations to us as a result of their bankruptcy, lack of liquidity, operational failure, breach of contract, government or other regulatory intervention and other reasons such as their inability to adapt to changes in the macro business environment. Historically, borrowers or borrower groups have been adversely affected by economic conditions in varying degrees. For example, in Fiscal Year 2009, L&T Infra restructured three loans originally amounting to ₹ 500 million, ₹ 750 million and ₹ 750 million granted to certain companies in the infrastructure real estate sector. At the time of such restructuring, ₹ 465.61 million, ₹ 659.09 million and ₹ 740.00 million were outstanding on these loans, respectively. Such restructuring of loans affects our ability to recover the dues from the borrowers and the predictability of cash flows. Credit losses due to financial difficulties of these borrowers or borrower groups in the future could materially and adversely affect our business, future financial performance and results of operations.

19. *Poor investment performance may lead to loss of customers and a decline in assets under management and revenues in our Investment Management Group.*

Our ability to achieve investment returns for customers that meet or exceed investment returns for comparable asset classes and competing investment services is a key consideration when customers decide to keep their assets with us or invest additional assets, as well as a prospective client's decision to invest with us. For example, the L&T Gilt Fund, which is benchmarked to ISEC-LI-BEX, has given a return of 7.58% since its inception, whilst its benchmark index, has delivered a return of 8.06% over the same period (*Source: MFIE (Calculations are based on Growth Plan – Cumulative Option).*). Our

inability to meet or exceed relevant investment benchmarks could result in redemptions or customers withdrawing assets and in prospective customers choosing to invest with competitors. This could also result in lower investment management fees, including minimal or no performance-based fees, which could result in a decline in the revenue of our Investment Management Group.

20. ***We do not own the "L&T" trademark and logo. In addition, we may be unable to adequately protect our intellectual property since a number of our trademarks, logos and other intellectual property rights may not be registered and therefore do not enjoy any statutory protection. Further, we may be subject to claims alleging breach of third party intellectual property rights.***

Third parties may infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. Our efforts to protect our intellectual property may not be adequate and any third party claim on any of our unprotected brands may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and a favorable outcome cannot be guaranteed. We may not be able to detect any unauthorised use or take appropriate and timely steps to enforce or protect our intellectual property. We cannot assure you that any unauthorised use by third parties of the trademarks will not similarly cause damage to our business prospects, reputation and goodwill.

Further, the "L&T" trademark is registered in favour of our Promoter. Pursuant to a trademark license agreement dated December 1, 2010 (the "**Trademark License Agreement**") with our Promoter, our Company, L&T Finance, L&T Infra, L&T MFTL and L&TIM have been granted a global non-exclusive, non-transferrable license to use the "L&T" trademark and logo for a consideration of up to 0.15% of the consolidated assets of L&T Finance Holdings Limited or 5% of the consolidated PAT of L&T Finance Holdings Limited, whichever is lower plus service tax. The Trademark License Agreement can be terminated by the parties thereto upon written notice in accordance with its terms. Furthermore, the Trademark License Agreement can also be terminated by any party upon change in management control of any of the licensees or upon breach of the terms of the Trademark License Agreement by any of the licensees. In the event that the Trademark License Agreement is terminated, we may have to discontinue the use of the "L&T" trademark and logo.

21. ***Our success depends in large part upon our management team and skilled personnel and our ability to attract and retain such persons.***

Our future performance will be affected by the continued service of our management team and skilled personnel. We also face a continuing challenge to recruit and retain a sufficient number of suitably skilled personnel, particularly as we continue to grow. There is significant competition for management and other skilled personnel in the various segments of the financial services industry in which we operate, and it may be difficult to attract and retain the personnel we need in the future. The loss of key personnel may have a material and adverse effect on our business, future financial performance, results of operations and ability to grow in line with our strategy and future plans.

22. ***Our business is based on the trust and confidence of our customers; any damage to that trust and confidence may materially and adversely affect our business, future financial performance and results of operations.***

We are dedicated to earning and maintaining the trust and confidence of our customers, and we believe that the good reputation created thereby, and inherent in the "Larsen & Toubro" or the "L&T" brand name, is essential to our business. As such, any damage to our reputation, or that of the "Larsen & Toubro" or the "L&T" brand name, could substantially impair our ability to maintain or grow our business. In addition, any action on the part of any of the Larsen & Toubro group companies that negatively impact the "Larsen & Toubro" brand could have a material adverse effect on our business, future financial performance and results of operations.

23. ***The private infrastructure development industry in India is still at a relatively early stage of development and is linked to the continued growth of the Indian economy, the sectors on which we focus and stable and experienced regulatory regimes. In the event that central and state government initiatives and regulations in the infrastructure industry do not proceed in the desired direction, or if there is any downturn in the macroeconomic environment in India or in specific sectors, our business, future financial performance and results of operations could be materially and adversely affected.***

We believe that the further development of India's infrastructure is dependent on the formulation and effective implementation of state and central government programs and policies that facilitate and

encourage private sector investment in infrastructure projects in India. Many of these programs and policies are developing and evolving and their success will depend on whether they are properly designed to address the issues facing infrastructure development in India and are effectively implemented. Additionally, these programs will need continued support from stable and experienced regulatory regimes that not only encourage the continued movement of private capital into infrastructure development but also lead to increased competition, appropriate allocation of risk, transparency, effective dispute resolution and more efficient and cost-effective services to the end-consumer.

The availability of private capital and the continued growth of the infrastructure development industry are also linked to the continued growth of the Indian economy. Many specific factors within each industry sector may also influence the success of the projects within those sectors, including changes in policies, regulatory frameworks and market structures. While there has been progress in sectors such as telecommunications, transportation, energy, tourism and industrial and commercial infrastructure, other sectors such as urban infrastructure and healthcare have not progressed to the same degree. Further, since infrastructure services in India have historically been provided by the central and state governments without charge or at a low charge to consumers, the growth of the infrastructure industry will be impacted by consumers' income levels and the extent to which they would be willing to pay or can be induced to pay for infrastructure services. If the central and state governments' initiatives and regulations in the infrastructure industry do not proceed in the desired direction, or if there is any downturn in the macroeconomic environment in India or in specific sectors, our business, future financial performance and results of operations could be materially and adversely affected.

- 24. Changes in financial market levels have a direct and significant impact on our assets under management. Specifically, any downward movement in the performance of the financial markets could result in a significant reduction in our assets under management which could result in a material adverse effect on the results of operations and business prospects of our Investment Management Group.***

Performance of financial markets (both domestic and international), global economic conditions, industry trends, interest rates, inflation rates, tax regulation changes and other factors that are difficult to predict affect the mix, market value and level of assets under management. Investment advisory and services fees, the largest component of revenues in our Investment Management Group, are generally calculated as a percentage of the value of assets under management and vary with the type of account managed. Accordingly, fee income generally increases or decreases as assets under management increase or decrease and is affected by market appreciation or depreciation, inflow of new client assets (including purchases of mutual fund shares) and outflow of client assets (including redemption of mutual fund shares). In addition, changing market conditions and investment trends, particularly with respect to retirement savings, may reduce interest in certain of our investment products and may result in a reduction in assets under management.

Significant weakness and volatility in global credit markets, particularly the rapid deterioration of the mortgage markets in the United States and Europe, during the second half of 2007 and early in 2008 was followed by global economic turmoil during the second half of 2008 and early in 2009. Although global markets improved during 2009, there can be no assurance that market conditions will not deteriorate again, which may have a material and adverse impact on our business, future financial performance and results of operations.

- 25. In the recent past, we have ventured into new lines of business, including investment management (since January 2010) and financial products distribution (since September 2007), and have introduced new products and services in existing lines of business. There can be no assurance that such initiatives in the future in new lines of business or in introducing new products and services will be profitable.***

We have, and may continue to venture into new areas of business in the financial services industry in India and are also aiming to increase our market share in our existing businesses, including through the introduction of new products and services. There are inherent risks in entering a market for the first time or in expanding a particular product or service portfolio.

In the recent past, we have commenced distribution of financial products and investment management. We may incur expenses, such as increases in staff and administrative expenses, as we expand, and in the event that the expected growth is not achieved, such expenses may adversely affect our profitability. The systems, processes and resources required for any new businesses that we may start may need significant improvements or the products themselves may not find a sufficient level of acceptability in the market. Any new business may be subject to strong competition from existing participants in that market, high barriers to entry and changes in the economic, political and regulatory conditions, both generally and

specifically to that market, all of which may have a material and adverse effect on our business, future financial performance and results of operations.

In addition, we are introducing new products and services in our existing lines of business. We may incur substantial costs to expand our range of products and services and cannot guarantee that such new products will be successful once they are offered, due to our own shortcomings or as a result of circumstances beyond our control, such as general economic conditions. In addition, we may not correctly anticipate our customers' needs or desires, which may change over time. In the event that we fail to develop and launch new products or services successfully, we may lose any or all of the investments that we have made in promoting them, and our reputation would be harmed and our market position or market share would be at risk. If our competitors are better able to anticipate the needs of our current and potential customers in our target market, our market share could decrease.

26. Our Promoter and/or our Directors and related entities may be subject to conflicts of interest because of their interests in other portfolio management companies which could have a material adverse effect on our operations.

Our Promoter and/or our Directors and related entities hold interests (direct and indirect) in L&T Investment Management Limited and L&T Capital Company Limited both of which are engaged in, *inter alia*, the asset/ portfolio management business. Furthermore, certain of our Group Companies have similar main objects clauses as our Company in their respective memoranda of association, and may be engaged in the financial services business and hence may compete with us to the extent permitted. Situations may therefore arise where such persons are presented with, or identify, opportunities that may be or are perceived to be in competition with us. They may also be subject to conflicts of interest with respect to decisions concerning our operations, financial structure or commercial transactions. These or other conflicts of interest may not be resolved in an impartial manner and could have a material adverse effect on our operations.

27. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and lending markets and, as a result, would negatively affect our net interest margin and our business.

The cost and availability of capital is also dependent on our short-term and long-term credit ratings. Ratings reflect a rating agency's opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. In relation to the NCDs issued by L&T Finance in September 2009 and March 2010, we currently have long term ratings of CARE AA+ from CARE, which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk, and LAA+ by ICRA which indicates high credit quality and that the instruments rated carry a low credit risk, (refer to the section titled "*Our Business - Our Funding Structure*" on page [●] of this Draft Red Herring Prospectus). In relation to the bonds issued by L&T Infra in November 2010 and in March 2011, we currently have a CARE rating of AA+, which indicates that such instruments offer high safety for timely servicing of debt obligations and such instruments carry very low credit risk, and an ICRA rating of LAA+, which indicates high credit quality and that the rated instrument carries low credit risk.

Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, future financial performance and results of operations.

28. Infrastructure projects carry certain risks which, to the extent they materialize, could adversely affect our business and result in our loans and investments declining in value which could have a material and adverse effect on our business, future financial performance and results of operations.

Our Infrastructure Finance Group primarily provides debt, equity or hybrid financing, and financial advisory services related to infrastructure projects in India. As at September 30, 2010 loans and advances for our Infrastructure Finance Group were ₹ 52,729.81 million, which accounts for 38.54% of our total loans and advances. Infrastructure projects are characterized by project-specific risks as well as general risks. These risks are generally beyond our control, and include:

- political, regulatory and legal actions that may adversely affect project viability;

- interruptions or disruption in domestic or international financial markets, whether for equity or debt funds;
- changes in government and regulatory policies;
- delays in the construction and operation of infrastructure projects;
- adverse changes in market demand or prices for the products or services that the project, when completed, is expected to provide;
- unwillingness or inability of consumers to pay for infrastructure services;
- shortages of, or adverse price developments for, raw materials and key project inputs such as oil and natural gas;
- potential defaults under financing arrangements with lenders and investors;
- failure of third parties to perform on their contractual obligations;
- adverse developments in the overall economic environment in India;
- interest rate or currency exchange rate fluctuations or changes in tax regulations;
- economic, political and social instability or occurrences, such as natural disasters, armed conflict and terrorist attacks, particularly where projects are located or in the markets they are intended to serve; and
- other risks discussed in the sub-section "*External Risks - Risks Relating to India*", on page 40 of this Draft Red Herring Prospectus.

To the extent these or other risks relating to the projects we finance materialize, the quality of our asset portfolio and our profitability may decline, which would have a material and adverse effect on our business, future financial performance and results of operations.

29. *We may experience delays in enforcing collateral when the borrowers who are customers of our Infrastructure Finance Group default on their obligations to us, which may result in failure to recover the expected value of collateral and may materially and adversely affect our business and future financial performance.*

Our Retail Finance Group and Corporate Finance Group may experience delays in enforcing collateral when our customers default on their obligations. Refer to the risk factor entitled "*Risks relating to our Group - We may be exposed to potential losses due to a decline in value of assets secured in our favor, and due to delays in the enforcement of such security upon default by our borrowers*", on page 25 of this Draft Red Herring Prospectus. However, we believe that, owing to the level of complexity and customized structuring of the products of our Infrastructure Finance Group, such delays in enforcement of collateral present additional risk.

As at September 30, 2010, 100% of the loans of our Infrastructure Finance Group were secured by project assets and other collateral:

- for debt provided on a senior basis (comprising 50.98% of the value of our outstanding loan assets, excluding equity), we have a general first ranking charge on the project assets; and
- for loans provided on a mezzanine basis (comprising 49.02% of the value of our outstanding loan assets, excluding equity), we have a general second or subservient charge on the assets or other collateral securities of companies having established cash flows.

Although we seek to maintain a collateral value-to-loan ratio of at least 100% for our secured loans, an economic downturn or the other project risks could result in a fall in collateral values. Additionally, the realizable value of our collateral in a liquidation may be lower than its book value.

Moreover, foreclosure of such collateral may require court or tribunal intervention that may involve protracted proceedings and the process of enforcing security interests against collateral can be difficult. Additionally, the realizable value of our collateral in liquidation may be lower than its book value, particularly in relation to projects which are not completed when default and enforcement of security occurs. Further, as at September 30, 2010, loans provided on a mezzanine basis (comprising 49.02% of

the value of our outstanding loan assets, excluding equity) were made on a non-recourse or limited recourse basis. With respect to disbursements made on a non-recourse basis, only the related project assets are available to repay the loan in the event the borrowers are unable to meet their obligations under the loan agreements. With respect to disbursements made on a limited recourse basis, project sponsors generally give undertakings for funding shortfalls and cost overruns.

We cannot guarantee that we will be able to realize the full value of our collateral, due to, among other things, defects in the perfection of collateral, delays on our part in taking immediate action in bankruptcy foreclosure proceedings, stock market downturns, claims of other lenders, legal or judicial restraint and fraudulent transfers by borrowers. In the event a specialized regulatory agency gains jurisdiction over the borrower, creditor actions can be further delayed.

30. *Our equity investments in infrastructure projects can be particularly volatile and may not be recovered.*

We make direct minority equity investments in infrastructure projects through our wholly-owned subsidiary, L&T Infra. As at September 30, 2010, our equity investments accounted for 1.32% of our total infrastructure loans and investments. The value of these investments depends on the success and continued viability of these projects. In addition to the project-specific risks described in the above risk factors, we have limited control over the operations or management of these projects. Therefore, our ability to realize expected gains as a result of our equity interest in a project is highly dependent on factors outside of our control. Write-offs or write-downs in respect of our equity portfolio may materially and adversely affect our business, future financial performance and results of operations.

31. *Business development activities are inherently risky, and integrating our operations with businesses we acquire may be difficult and, if unsuccessfully executed, may have a material adverse effect on our business.*

We plan to selectively enhance our business from time to time through business development activities, such as strategic acquisitions, investments and alliances. However, these plans are subject to the availability of appropriate opportunities and competition from other companies seeking similar opportunities. Moreover, the success of any such effort may be affected by a number of factors, including our ability to properly assess and value the potential business opportunity, and to integrate it into our business. The success of our strategic alliances depends not only on our contributions and capabilities, but also on the property, resources, efforts and skills contributed by our strategic partners. Further, disputes may arise with strategic partners, due to conflicting priorities or conflicts of interests.

Each acquisition involves the integration of a separate company that was previously operated independently and has different systems, processes, policies and cultures. Integration of acquisitions involves a number of risks, including the diversion of management's attention to the assimilation of the operations of businesses we have acquired, difficulties in the integration of operations and systems and the realization of potential operating synergies, the assimilation and retention of the personnel of the acquired companies, challenges in retaining the customers of the combined businesses, and potential adverse effects on operating results. The process of combining companies may be disruptive to our businesses and may cause an interruption of, or a loss of momentum in, such businesses as a result of the following difficulties, among others:

- loss of key customers or employees;
- difficulty in standardizing information and other systems;
- difficulty in consolidating facilities and infrastructure;
- failure to maintain the quality or timeliness of services that our Company has historically provided;
- diversion of management's attention from the day-to-day business of our Company as a result of the need to deal with the foregoing disruptions and difficulties; and
- the added costs of dealing with such disruptions.

If we are unable successfully to integrate strategic acquisitions in a timely manner, our business and our growth strategies could be adversely affected. Even if we are able to successfully complete the integration of the operations of other companies or businesses we may acquire in the future, we may not be able to realize all or any of the benefits that we expect to result from such integration, either in monetary terms or in a timely manner.

32. *We are exposed to various operational risks, including the risk of fraud and other misconduct by employees or outsiders. Further, the contractors and employees of the microfinance segment of our Retail Finance Group may be the target of violent crimes which may adversely affect our business, operations, and ability to recruit and retain employees.*

As with other financial intermediaries, we are exposed to various operational risks such as fraud or misconduct by our employees or by an outsider, unauthorized transactions by employees or third parties, misreporting of and non-compliance with various statutory and legal requirements and operational errors. It may not always be possible to deter employees from or otherwise prevent misconduct or misappropriation of cash collections, and the precautions we take to detect and prevent these activities may not always be effective. Any instance of employee misconduct, fraud or improper use or disclosure of confidential information could result in regulatory and legal proceedings, which, if unsuccessfully defended, could materially and adversely affect our business, future financial performance and results of operations.

In addition, the transportation equipment finance, rural product finance and microfinance segments of our Retail Finance Group handle a large amount of cash through a high volume of small transactions taking place in our network, which comprises 113 branches, 330 meeting centers, 33 KGSK centers and 414 customer care centers. As such, the risk of fraud or other misconduct by employees or outsiders is further exaggerated by the high level of delegation of power and responsibilities our business model requires. Fraud and other misconduct can be difficult to detect and deter. For further details, refer to the section titled "*Outstanding Litigation and Material Developments*" on page 288 of this Draft Red Herring Prospectus.

Given the high volume of transactions processed by our Retail and Corporate Finance Groups in particular, certain instances of fraud and misconduct may go unnoticed for some time before they are discovered and successfully rectified. Even when we discover such instances of fraud or theft and pursue them to the full extent of the law or with our insurance carriers, there can be no assurance that we will recover any such amounts. In addition, our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

We believe that the potential for violent crimes such as murder and robbery to be perpetrated against the contractors and employees of the microfinance segment of our Retail Finance Group is highest in the more remote villages we serve, where our contractors and employees may be forced to transport cash further due to the lack of local banking facilities. In addition, our contractors and employees have in the past been the targets of attacks by local parties. To the extent that our contractors and employees are subject to violent attacks, theft or robbery in the course of their duties, our ability to service such areas will be adversely affected and our employee recruitment and retention efforts may be curtailed which would negatively impact our expansion and growth. In addition, if we determine that certain areas of India pose a significantly higher risk of crime or political strife and instability, our ability to service such areas will be adversely affected and our expansion and growth may be curtailed.

33. *A failure of our operational systems or infrastructure, or those of third parties, could impair our liquidity, disrupt our businesses, cause damage to our reputation and result in losses.*

Our business is highly dependent on our ability to process a large number of transactions. While we operate a disaster recovery site at Chennai with continuous live data replication, we cannot assure you that this system will not cease to operate on account of various factors which may be wholly or partially beyond our control. Furthermore, our financial, accounting, data processing or other operating systems and facilities may fail to operate properly or become disabled as a result of events that are wholly or partially beyond our control, adversely affecting our ability to process these transactions. As we grow our business, the inability of our systems to accommodate an increasing volume of transactions could also constrain our ability to expand our businesses. Additionally, shortcomings or failures in our internal processes or systems could lead to an impairment of our financial condition, financial loss, disruption of our business and reputational damage.

Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to, and received by, our management through our existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate our growing customer base and range of products. Our failure to maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations.

We may also be subject to disruptions of our operating systems, arising from events that are wholly or partially beyond our control including, for example, computer viruses or electrical or telecommunication service disruptions, which may result in a loss or liability to us.

34. *The transportation equipment finance segment of our Retail Finance Group primarily provides commercial vehicle finance for new and used commercial vehicles and any adverse developments in this sector would adversely affect our business, future financial performance and results of operations.*

As we continue to provide financing for new and used commercial vehicles, our loan and NPA portfolios have, and will likely continue in the future to have, a high concentration of new and used commercial vehicle financing arrangements. Moreover, our customer base has, and will likely continue in the future to have, a high concentration of first time users ("FTUs"), small road transporter operators ("SRTOS") and small truck owners ("STOs"). Our business is, therefore, entirely dependent on various factors that impact this customer segment, such as the demand for transportation services in India, changes in Indian regulations and policies affecting pre-owned commercial vehicles, natural disasters and calamities, and the macroeconomic environment in India and globally. In addition, we believe that individual borrowers and FTUs generally are less financially robust than larger corporate borrowers or fleet owners, and, as a result, are likely to be more severely affected by deteriorating economic conditions. Such factors may result in a decline in the sales or value of new and used commercial vehicles, with a corresponding decline in the demand for finance for new and used commercial vehicles, which consequently may adversely affect our business, future financial performance and the results of our operations. Refer to the section titled "Industry Overview - The Retail Finance Industry in India - Transport Equipment Finance Overview" on page 147 of this Draft Red Herring Prospectus.

During Fiscal 2009, the commercial vehicle sector was the worst hit segment of the automobile industry due to a reduction in freight availability and an unfavourable credit environment. Rising defaults led to deterioration in asset quality, with players curtailing their exposure to SFOs and FTUs. Government took several initiatives to increase demand including a reduction in excise duty and service tax by 2% and a special credit line for NBFCs (Source: CRISIL Research, Retail Finance, Auto, Annual Review, January, 2010).

A slowdown in industrial activity, an unfavourable credit scenario and strained profitability for transporters had adversely affected the commercial vehicle sector. Lower growth in industrial production led to a reduction in freight availability and capacity utilization levels which deteriorated transporters' repayment capability and eventually, asset quality. However, in Fiscal 2010 interest rates for commercial vehicle finance fell by around 150 bps resulting in improved liquidity in the financial system leading to a fall in cost of funds for the financiers and ultimately benefiting the customers in the form of lower interest rates (Source: CRISIL Research, Retail Finance, Auto, Annual Review, January, 2010).

Further, the ability of commercial vehicle owners and/or operators to perform their obligations under existing financing agreements may be adversely affected if their businesses suffer as a result of the aforesaid factors.

35. *Our failure to comply with financial and other restrictions imposed on us under the terms of our borrowings could adversely affect our ability to conduct our business and operations.*

In connection with the borrowings of our Subsidiaries from lenders, we have agreed to restrictive covenants that require, among other things, that we maintain certain levels of debt, capital and asset quality. These restrictive covenants require that we either obtain the prior approval of, or provide notice to, our lenders in connection with certain activities, such as undertaking any merger, amalgamation or restructuring or making substantial changes in the composition of our management. Our ability to execute expansion plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be severely and negatively impacted as a result of these restrictions and limitations. Our failure to comply with any of these covenants could result in an event of default, which could accelerate our need to repay the related borrowings and trigger cross-defaults under other borrowings which could materially and adversely affect our liquidity, financial condition and business operations. An event of default would also affect our ability to raise new funds or renew maturing borrowings as needed to conduct our operations and pursue our growth initiatives.

36. *As a consequence of being regulated as an NBFC, an AFC and an IFC, we will have to adhere to certain individual and borrower group exposure limits under the RBI regulations.*

Each of our Company, L&T Finance and L&T Infra is regulated by the RBI as an NBFC. In terms of the Prudential Norms Directions, each of these companies is required to comply with the prescribed exposure limits.

L&T Infra has been classified as an IFC by the RBI, which classification is subject to certain conditions including a minimum 75% of the total assets of such NBFC being deployed in infrastructure loans (as defined under the Prudential Norms Directions), net owned funds of ₹ 3,000.00 million or more, a minimum credit rating of "A" or an equivalent credit rating of CRISIL, FITCH, CARE or ICRA or any other credit rating agency accredited by the RBI and a capital to risk-weighted asset ratio of 15%. As an IFC, L&T Infra's single borrower limit for lending may exceed the concentration of credit norms applicable to an NBFC that is not an IFC by an additional 10% of its owned fund, and its single group limit for infrastructure lending may exceed such credit norms by an additional 15% of its owned fund. As at September 30, 2010, our largest single borrower accounted for 4.74% of the total exposure of our Infrastructure Finance Group. Further, L&T Finance has been classified as an AFC by the RBI, which classification is subject to certain conditions including that the principal business should relate to financing the physical assets which support various productive and economic assets in India. In this regard, the "Principal business" means that the aggregate of financing real/physical assets supporting economic activity and income arising therefrom should not be less than 60% of total assets and total income respectively.

In the event that any of our companies is unable to comply with the exposure norms within the specified time limit, or at all, such company may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC or IFC. L&T Infra's inability to continue being classified as an IFC may impact our growth and expansion plans by affecting our competitiveness in relation to our competitors. For further details, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus. We cannot assure you that we may not breach the exposure norms in the future. Any levy of fines or penalties or the cancellation of our registration as an NBFC or IFC by the RBI due to the breach of exposure norms may adversely affect our business, prospects, results of operations, financial condition and the trading price of our Equity Shares.

37. *We face labor risks, including the risk of our employees joining a labor union.*

Currently our employees are not members of a labor union. We can give you no assurance that they will not, in the future, join a labor union. In the event of a labor dispute, protracted negotiations and/or strike action may impair our ability to carry on our day-to-day operations which would materially and adversely affect our, business, future financial performance and results of operations.

38. *Some of our borrowers are dependent on receiving timely payment for the provision of their products and services from their customers in order to meet their obligations to us. Any material delay by their customers could adversely affect their ability to repay the principal and interest on the loans we provide.*

Certain of our borrowers, as at September 30, 2010, to the extent of 86.29% of our total loan portfolio, are suppliers of products and services (which is comprised of our Retail Finance Group, Corporate Finance Group except for our corporate loans and leases segment, our capital markets finance segment and our Infrastructure Finance Group), and are therefore dependent on receiving timely payment from their customers in order to repay the principal and interest on the loans we provide to them. As such, any material delay in payment by their customers, whether as a result of a natural disaster, terrorist attack or a change in government, could adversely affect the ability of our borrowers to meet their obligations to us. We are therefore subject to the risks associated with borrower defaults occasioned by the failure and or delay in payment by their customers, and which include default or delay by our borrowers in repayment of principal or interest on our loans which could materially and adversely affect our business, future financial performance and results of operations.

39. *Compliance with, and changes in labor laws and regulations could materially and adversely affect our business, future financial performance and results of operations.*

Our workforce consists of employees, outsourced personnel and personnel retained on a contractual basis. As at February 28, 2011, our workforce comprised 1,647 employees and 2,711 outsourced personnel and personnel retained on a contractual basis (such as for specific assignments, and those on retainer for business development purposes). Our full-time employees are employed by L&T Finance, L&T Infra and L&TIM, as the case may be, and are entitled to statutory employment benefits, such as retirement

benefits. For further details, refer to the section titled "*Our Business - Employees*" on page 177 of this Draft Red Herring Prospectus.

We are subject to various labor laws and regulations governing our relationships with our employees and contractors, including in relation to minimum wages, working hours, overtime, working conditions, hiring and terminating the contracts of employees and contractors, contract labor and work permits.

We cannot assure you that we will be in compliance with current and future health and safety and labor laws and regulations at all times, and any potential liability arising from any failure to comply therewith (such as a change of law which requires us to treat (and extend benefits) our outsourced personnel and personnel retained on a contractual basis as being full-time employees), could materially and adversely affect our business, future financial performance and results of operations.

40. *Prolonged weakness in asset values may result in impairment of goodwill, intangible assets and the deferred sales commission asset.*

If market conditions deteriorate significantly and securities valuations are depressed for prolonged periods of time, the assets under management, revenues, profitability and unit price may be adversely affected. As a result, goodwill and intangible assets may become impaired. The occurrence of any impairment would require a material charge to the earnings of our Investment Management Group. For additional information about our impairment testing, refer to the section titled "*Our Business - Our Business and Operations - Our Investment Management Group*" on page 152 of this Draft Red Herring Prospectus.

41. *We will continue to be controlled by our Promoter after the completion of the Issue.*

After the completion of this Issue, our Promoter will control, directly or indirectly, [\bullet] % of our outstanding Equity Shares. As a result, our Promoter will continue to exercise significant control over us, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other shareholders will be unable to affect the outcome of such voting. Our Promoter may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us.

In addition, and in the event of any such change of control, merger, consolidation, takeover or other business combination involving us, a transfer of shares by our Promoter, or actions such as a preferential allotment to any investor or a conversion of any convertible instruments, our ability to leverage the "*Larsen & Toubro*" brand may be adversely affected and the benefits of being a Larsen & Toubro group company, which includes access to capital and human resources (particularly key managerial personnel), various operational synergies and our ability to leverage business from other Larsen & Toubro group companies, may no longer be possible and as a result, could materially and adversely affect our business, future financial performance and results of operations.

We cannot assure you that our Promoter and members of our Promoter Group will act in our interest, or in the interests of minority shareholders, while exercising their rights in such entities.

42. *Any increase in or realization of our contingent liabilities could adversely affect our financial condition.*

As at September 30, 2010, our financial statements disclosed and reflected the following contingent liabilities:

- (i) income tax liability in respect of matters on appeal in the amount of ₹ 248.49 million;
- (ii) sales tax liability in respect of matters on appeal in the amount of ₹ 49.59 million; and
- (iii) bond executed in respect of certain legal matters in the amount of ₹ 1.00 million.

If at any time we are compelled to realize all or a material proportion of these contingent liabilities, it would have a material and adverse effect on our business, future financial performance and results of operations.

43. Our yield ratios or cost ratios are indicative only, and may not accurately reflect our average yield and average cost of funds.

Our yields are indicative to the extent that there could be interest income earned on certain short-term assets which may not form part of our closing book of loans and advances, particularly in Fiscal Years 2008 and 2009 during which our yields on loans and advances were 14.24% and 15.47%, respectively, and our cost of funds was 10.21% and 12.10%, respectively. This has contributed to a higher overall average yield compared to Fiscal Year 2007 during which our yield on loans and advances was 11.50% and our cost of funds was 7.38%.

In addition, our average cost of funds are indicative to the extent that there will be costs incurred on certain short-term loans (to finance short-term assets), which may not form part of our closing borrowings, particularly for Fiscal Years 2008 and 2009. This has contributed to a higher overall average cost of funds compared to Fiscal Year 2007.

In addition, the average financing costs for Fiscal Year 2009 were impacted by the costs incurred on derivatives (in respect of cash and mark-to-market losses), which aggregated to ₹ 291.70 million, the revaluation of foreign currency loans, and a higher level of borrowings in the first half of the year compared to the second half. This resulted in lower average yearly balances and relatively higher borrowing expenses, which resulted in a higher average cost of funds.

Accordingly, our yield ratios or cost ratios may not be an accurate reflection of our average cost of funds.

For more details on our yield ratios and cost ratios, refer to the section titled, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Note on Certain Variations" on page 258 of this Draft Red Herring Prospectus.

44. We may be required to increase our capital ratio or amount of reserve funds, which may result in changes to our business and accounting practices that may materially and adversely affect our business and results of operations. Compliance with capital adequacy norms in line with our expected asset growth may require us to issue more capital and may also affect our ability to pay dividends in future.

Each of our Company, L&T Finance and L&T Infra is subject to the RBI minimum capital to risk weighted assets ratio regulations. Pursuant to Section 45-IC of the RBI Act, every NBFC is required to create a reserve fund and transfer thereto a sum not less than 20.0% of its net profit every year, as disclosed in the profit and loss account and before any dividend is declared. We are also required to maintain a minimum capital adequacy ratio of 12% in relation to our aggregate risk-weighted assets on balance sheet and risk adjusted value of off-balance sheet items. The ratio must equal or exceed 15% by March 31, 2011. The following table presents the Capital to Risk (Weighted) Average Ratio maintained by our Company as of September 30, 2010 and as of March 31, 2009 and 2010:

	As of March 31,		As of September 30,
	2009	2010	2010
	(₹ in million, except ratios)		
Tier I capital ⁽¹⁾	1,098.90	3,146.33	3,296.78
Tier II capital	0.00	0.00	0.00
Risk weighted assets on balance sheet	1,078.57	3,147.75	3,312.95
Risk weighted assets off balance sheet.....	0.00	0.00	0.00
Total capital to risk assets ratio ⁽²⁾	100.00%	99.96%	99.51%
Tier I capital to risk assets ratio.....	100.00%	99.96%	99.51%
Tier II capital to risk assets ratio	0.00%	0.00%	0.00%
Total capital to risk asset ratio required by RBI	10%	12%	N.A.

⁽¹⁾ Tier I capital includes equity share capital and reserves and surplus, reduced by investments in certain categories specified by RBI which exceed prescribed ceilings, and other intangible assets.

⁽²⁾ The total capital to risk assets ratio is calculated as capital funds (Tier I capital plus Tier II capital) divided by risk weighted assets (the weighted average of funded and non-funded items after applying the risk weights as assigned by the RBI).

L&T Finance is subject to the capital adequacy requirements for NBFCs prescribed by the RBI. In Fiscal Year 2009, L&T Finance was required to maintain a minimum capital to risk asset ratio of 10%. This limit was increased to 12% for Fiscal Year 2010, and will increase to 15% as on March 31, 2011. As on March 31, 2009 and 2010, respectively, L&T Finance's total capital to risk asset ratio was 16.41% and 15.43%, respectively. As on September 30, 2010, L&T Finance's total capital to risk asset ratio was 15.30%.

L&T Infra has been designated an Infrastructure Finance Company as from July 2010, and as such, must maintain a capital to risk asset ratio of 15%. In Fiscal Year 2009, L&T Infra was subject to the general NBFC capital to risk asset ratio requirement of 10%. This limit was increased to 12% for Fiscal Year 2010. As on March 31, 2009 and 2010, L&T Infra's total capital to risk asset ratio was 26.16% and 23.27%, respectively. As on September 30, 2010, L&T Infra's total capital to risk asset ratio was 18.03%.

For a complete discussion of regulations relating to capital adequacy ratios, see the section titled "*Regulations and Policies in India – The Reserve Bank of India Act, 1934 – Prudential Norms – Capital Adequacy Norms*" on page 188 of this Draft Red Herring Prospectus.

The RBI may also in the future require compliance with other financial ratios and standards. Compliance with such regulatory requirements in the future may require us to alter our business and accounting practices or take other actions that could materially and adversely affect our business and operating results.

45. *Our insurance coverage may not adequately protect us against losses, and successful claims against us that exceed our insurance coverage could harm our results of operations and diminish our financial position.*

We maintain insurance coverage of the type and in the amounts that we believe are commensurate with our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage. In addition, there are various types of risks and losses for which we do not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to us on acceptable terms. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, future financial performance and results of operations.

46. *Our business is dependent on investment advisory, selling and distribution agreements that are subject to termination or non-renewal on short notice.*

We have entered into various selling and distribution agreements with AMFI/NISM registered mutual fund distributors/financial intermediaries to sell the units of L&T Mutual Fund. The selling and distribution agreements are terminable by either party by mutual consent or upon notice (generally 30 days) and do not obligate the financial intermediary to sell any specific amount of fund units. In addition, investors in L&T Mutual Fund can generally redeem their investments without notice. Any termination of, or failure to renew, a significant number of these agreements, or a significant increase in redemption rates, could have a material and adverse effect on our business, future financial performance and results of operations.

47. *Our management will have broad discretion over the use of the Net Proceeds for the purposes described in the "Objects of the Issue" and the Net Proceeds might not be applied in ways that increase the value of your investment.*

We intend to use the Net Proceeds for the purposes described in the "*Objects of the Issue*" on page 98 of this Draft Red Herring Prospectus. We currently intend to use the Net Proceeds to repay an intercorporate deposit issued in favour of our Company by our Promoter and to augment our capital base to meet our future capital requirements arising out of growth in our business. Our management will have broad discretion to use the Net Proceeds and you will be relying on the judgment of our management regarding the application of these Net Proceeds. However, any discretion exercised by our management in the utilization of the Net Proceeds shall be subject to the "*Objects of the Issue*" on page 98 of this Draft Red Herring Prospectus and applicable law.

Expenditure of the Net Proceeds in our business may not lead to an increase in the value of your investment. Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. For example, our growth plans and any other future plans could be delayed due to failure to receive regulatory approvals, technical difficulties, human resources, technological or other resource constraints, or for other unforeseen reasons,

events or circumstances. We may not be able to attract personnel with sufficient skill or sufficiently train our personnel to manage our growth plans. Accordingly, use of the Net Proceeds to meet our future capital requirements, fund our growth and for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

Pending utilization of the Net Proceeds, we intend to invest such Net Proceeds in high quality interest bearing liquid investments as approved by our Board of Directors in accordance with our investment policy. As such, there will be significant flexibility on interim investments including investments in short-term deposits with banks or financial institutions and other Money Market instruments, that we can make using such Net Proceeds. For more details, refer to the section titled "*Objects of the Issue*" on page 98 of this Draft Red Herring Prospectus.

48. *Some of our Group Companies and Subsidiaries have unsecured loans, which may be recalled by the relevant lenders at any time. Any recall of such loans may have an adverse effect on our financial condition and the financial condition of such Group Companies and Subsidiaries.*

Our Company does not have any outstanding unsecured loans. However, some of our Subsidiaries and our Group Companies have unsecured loans, which may be recalled at any time at the option of the lender. If such unsecured loans are recalled at any time our financial condition and the financial condition of such Subsidiaries and Group Companies may be adversely affected.

49. *We do not own our Registered Office and Corporate Office from which we operate.*

We do not own the premises on which our Registered Office and Corporate Office are situated. The premises are owned by our Promoter. We cannot assure you that we will own, or have the right to occupy, these premises in the future, or that we will be able to continue with the uninterrupted use of these properties, which may impair our operations and adversely affect our financial condition. For further details of certain premises of L&T Finance and L&T Infra, refer to the section titled "*Our Business - Properties*" on page 178 of this Draft Red Herring Prospectus.

50. *We have issued Equity Shares in the year prior to the date of the Draft Red Herring Prospectus and the price of such Equity Shares may be lower than the Issue Price.*

We have issued Equity Shares to our shareholder in the year prior to the date of the Draft Red Herring Prospectus at a price that may be lower than the Issue Price. Details of these issuances are set forth in the table below:

Name of the allottee	Part of Promoter Group	Date of allotment	No. of Equity Shares issued	Price (per Equity Share)	Reasons for the issue
Larsen & Toubro Limited	Yes	September 20, 2010	63,432,835	67	Preferential allotment to L&T

EXTERNAL RISKS

Risks Relating to India

1. *Governmental and statutory regulations, including the imposition of an interest-rate ceiling, may adversely affect our operating results and financial position.*

As an NBFC-ND, each of our Company, L&T Finance, L&T Infra and India Infrastructure Developers Limited is subject to regulation by Indian governmental authorities, including the RBI. These laws and regulations impose numerous requirements on us, including asset classifications and prescribed levels of capital adequacy, cash reserves and liquid assets. There may be future changes in the regulatory system or in the enforcement of the laws and regulations that could adversely affect us.

For instance, a number of states in India have enacted laws to regulate money lending transactions. These state laws establish maximum rates of interest that can be charged by a person lending money. For unsecured loans, these maximum rates typically range from 12.0% to 15.0% per annum. Although the report of the sub-committee of RBI's central board of directors to study issues and concerns in the micro finance institutions sector released on January 19, 2011 recommends certain caps on margin on loans granted by micro finance institutions, the RBI has not yet established a ceiling on the rate of interest that can be charged by an NBFC in the microfinance sector. Currently, the RBI requires that the board of all NBFCs adopt an interest rate model taking into account relevant factors such as the cost of funds, margin

and risk premium. It is unclear whether NBFCs are required to comply with the provisions of state money lending laws that establish ceilings on interest rates. In January 2010, the High Court of Gujarat held that the provisions of the RBI Act have an overriding effect upon state money lending laws. However, the subject matter is pending before the Supreme Court of India in a different case and the final decision has not been passed.

In the event that the government of any state in India requires us to comply with the provisions of their respective state money lending laws, or imposes any penalty against us, our Directors or our officers, including for prior non-compliance, our business, future financial performance and results of operations may be materially and adversely affected.

2. *Political instability or changes in the Government in India or in the government of the states where we operate could cause us significant adverse effects.*

We are incorporated in India and all of our operations, assets and personnel are located in India. Consequently, our performance and the market price and liquidity of our Equity Shares may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India. The central government has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our businesses are also impacted by regulations and conditions in the various states in India where we operate. Our businesses, and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in central government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive central governments have pursued policies of economic liberalization and financial sector reforms. However, there can be no assurance that such policies will be continued. A significant change in the central government's policies, in particular, those relating to the banking and finance industry in India, could adversely affect our business, financial condition and results of operations and could cause the price of our Equity Shares to decline.

3. *Regional hostilities, terrorist attacks, civil disturbances or social unrest, regional conflicts could adversely affect the financial markets and the trading price of our Equity Shares could decrease.*

Certain events that are beyond our control, such as terrorist attacks and other acts of violence or war, may adversely affect worldwide financial markets and could potentially lead to a severe economic recession, which could adversely affect our business, results of operations, financial condition and cash flows, and more generally, any of these events could lower confidence in India's economy.

India has also experienced social unrest in some parts of the country. If such tensions occur in other parts of the country leading to overall political and economic instability, it could have a materially adverse effect on our business, future financial performance, results of operations and the trading price of our Equity Shares.

4. *The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our financial statements, including the financial statements provided in this Draft Red Herring Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of the International Financial Reporting Standards ("IFRS") or U.S. GAAP on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For further details, refer to "*Certain Conventions - Presentation of Financial, Industry and market data*" on page 14. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

However we may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, IFRS announced by the Ministry of Corporate Affairs, GoI in January, 2010. The convergence of certain Indian Accounting Standards with IFRS was notified by the Ministry of Corporate Affairs on February 25, 2011. The date of implementing such converged Indian accounting standards has not yet been determined, and will be notified by the Ministry of Corporate Affairs in due course after various tax-related and other issues are resolved.

Because there is significant lack of clarity on the adoption of and convergence with IFRS and there is not yet a significant body of established practice on which to draw in forming judgments regarding its

implementation and application, we have not determined with any degree of certainty the impact that such adoption will have on our financial reporting. There can be no assurance that our financial condition, results of operations, cash flows or changes in shareholders' equity will not appear materially worse under IFRS than under Indian GAAP, which could have a material adverse effect on the price of our Equity Shares.

As we transition to IFRS reporting, we may encounter difficulties in the ongoing process of implementing and enhancing our management information systems. Moreover, there is increasing competition for the small number of IFRS-experienced accounting personnel available as more Indian companies begin to prepare IFRS financial statements. There can be no assurance that our adoption of IFRS will not adversely affect our reported results of operations or financial condition and any failure to successfully adopt IFRS by an agreed deadline could have a material adverse effect on the price of our Equity Shares.

5. *The market value of an investor's investment may fluctuate due to the volatility of the Indian securities markets.*

Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities. The Sensex, BSE's benchmark index, increased by more than 76%, representing approximately 7,560 points, in the calendar year 2009. The stock exchanges in India, in line with global developments, have witnessed substantial volatility in 2008 and continued to be volatile in 2010. As per Bloomberg data, the percentage increase in Sensex as in calendar year 2010 stood at 17%, as compared to a 9% increase for the Dow Jones Industrial Average, 6% increase for the Hang Seng Index, and 10% increase for the Strait Times Index (Singapore) (all measured in their respective local currencies). As per Bloomberg data, the year-to-date percentage decline in Sensex as of March 15, 2011 stood at 12%, as compared to a 2% increase for the Dow Jones Industrial Average, a 3% decline for the Hang Seng Index, and a 9% decline for the Strait Times Index (Singapore) (all measured in their respective local currencies). However, as of March 15, 2011 the 90 day historical volatility of the Sensex as per Bloomberg data stood at 23.79% as compared to a 13.19% for Dow Jones Industrial Average, 20.97% for the Hang Seng Index and 15.39% for Strait Times Index (Singapore) (all computed in their respective local currencies).

6. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.*

Our articles of association, regulations of our board of Directors and Indian law govern our corporate affairs. Legal principles related to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

7. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on the trading price of our Equity Shares.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, its ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

8. *Outbreaks of epidemic diseases may adversely affect our operations.*

Pandemic disease, caused by a virus such as H5N1 (the "avian flu" virus), or H1N1 (the "swine flu" virus), could have a severe adverse effect on our business. A new and prolonged outbreak of such diseases may have a material adverse effect on our business and financial conditions and results of operations. Although the long-term effect of such diseases cannot currently be predicted, previous occurrences of avian flu and swine flu had an adverse effect on the economies of those countries in which they were most prevalent. In the case of any of such diseases, should the virus mutate and lead to human-to-human transmission of the disease, the consequence for our business could be severe. An outbreak of a communicable disease in India or in the particular region in which we conduct business operations would adversely affect our business, future financial performance and results of operations.

Risks Associated with our Equity Shares

1. *The price of our Equity Shares may be highly volatile after the Issue.*

The price of our Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including: volatility in the Indian and global securities market; our operations and performance; performance of our competitors and the perception in the market about investments in the banking and finance industry; adverse media reports on us or the Indian banking and finance industry; changes in the estimates of our performance or recommendations by financial analysts; significant developments in India's economic liberalization and deregulation policies; and significant developments in India's fiscal regulations. There can be no assurance that the prices at which our Equity Shares are initially traded will correspond to the prices at which our Equity Shares will trade in the market subsequently.

2. *Our Equity Shares have no prior public market and the price of our Equity Shares may decline after the Issue, and an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. We will apply for final approval for listing only after closing and allotment. Further, once we are listed on the Stock Exchanges, an active public trading market for our Equity Shares may not develop or, if it develops, may not be maintained. Our Company, in consultation with the Lead Managers, will determine the Issue Price. The Issue Price may be higher than the trading price of our Equity Shares following this Issue. As a result, investors may not be able to sell their Equity Shares at or above the Issue Price or at the time that they would like to sell. The market price of our Equity Shares after the Issue may be subject to significant fluctuations in response to factors such as, variations in our results of operations, market conditions specific to the banking and finance sector in India, the economic conditions of India and volatility of the securities markets in India and elsewhere in the world.

3. *You will not be able to immediately sell any of our Equity Shares you purchase in the Issue on an Indian stock exchange.*

The Equity Shares will be listed on the NSE and the BSE. Pursuant to Indian regulations, certain actions must be completed before our Equity Shares can be listed and trading may commence. Investors' book entry, or "demat", accounts with depository participants in India are expected to be credited within two working days of the date on which the basis of allotment is approved by NSE and BSE. The Equity Shares are required to be listed within 12 working days of the closure of the Issue. We cannot assure you that our Equity Shares will be credited to investors' demat accounts, or that trading in our Equity Shares will commence, within the time periods specified above. Any failure or delay in obtaining the approval may restrict your ability to dispose of your Equity Shares as allotted.

4. *We are required to ensure that the public shareholding in our Company is 25%, which may require our Company or Promoter to issue/transfer our Equity Shares thereby diluting your shareholding in our Company.*

Under the Securities Contracts (Regulation) Rules, 1957, as amended ("SCRR"), listed companies are required to maintain public shareholding of at least 25% of their issued share capital. Pursuant to the Securities Contracts (Regulation) (Amendment) Rules, 2010, notified on June 4, 2010, the SCRR were amended to define 'public shareholding' to refer to persons other than a company's promoter, promoter group, subsidiaries and associates, and excluding shares held by a custodian against which depository receipts have been issued overseas. Companies, such as our Company, whose post issue capital calculated at offer price is more than ₹ 40,000 million and whose draft offer document has been filed with the SEBI after commencement of the Securities Contracts (Regulation) (Amendment) Rules, 2010, on listing are required to increase their public shareholding to at least 25% of its issued share capital within three years from the date of the listing. Failure to comply with the minimum public shareholding provision would result in penalties which may include delisting and in penal action being taken against the listed company pursuant to the SEBI Act.

In order to ensure that the public shareholding in our Company is at least 25%, we may either undertake equity issuances in the future which may include a primary offering (which may dilute your shareholding) or there may be a further sale of our shareholding by our Promoter. Any future equity issuances by us or sales of our Equity Shares by our Promoter may adversely affect the trading price of our Equity Shares. In addition, any perception by potential investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

5. ***Future issuances or sales of our Equity Shares by any existing shareholders could significantly affect the trading price of our Equity Shares.***

The future issuances of Equity Shares by us, including pursuant to the ESOP Scheme, or the disposal of Equity Shares by any of the major shareholders, or the perception that such issuance or sales may occur, may significantly affect the trading price of our Equity Shares. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or otherwise encumber their Equity Shares.

6. ***You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.***

Sale of Equity Shares by any holder may give rise to tax liability in India, as discussed in the section titled "Statement of Possible Tax Benefits Available to the Company and its Shareholders" on page 104 of this Draft Red Herring Prospectus.

7. ***There can be no assurance that we will be able to pay dividends in the future.***

We currently intend to invest our future earnings, if any, to fund our growth. We have no specified dividend policy. The amount of our future dividend payments, if any, will depend upon our future earnings, financial condition, cash flows, performance of our Subsidiaries and working capital requirements. There can be no assurance that we will be able to pay dividends in the future.

Prominent Notes:

1. Public issue of [•] Equity Shares of ₹ 10 each at a price of ₹ [•] per Equity Share (including a share premium of ₹ [•] per Equity Share) aggregating up to ₹ 17,500 million including a reservation of up to [•] Equity Shares for subscription by Eligible Employees for cash at a price of ₹ [•] per Equity Share (including a share premium of ₹ [•] per Equity Share) aggregating up to ₹ 500 million and a reservation of up to [•] Equity Shares for subscription by L&T Shareholders Reservation for cash at a price of ₹ [•] per Equity Share (including a share premium of ₹ [•] per Equity Share) aggregating up to ₹ 1,250 million. The Issue will constitute approximately [•]% of the post-Issue share capital of our Company and the Net Issue will constitute approximately [•]% of the post-Issue share capital of our Company. Our Company, in consultation with the Lead Managers, may decide to offer a discount of up to [•]% of the Issue Price, to the Eligible Employees.
2. Our Company is considering a Pre – IPO Placement of up to 60,000,000 Equity Shares and / or aggregating up to ₹ 4,000 million with one or more investors. The Pre-IPO Placement is at the discretion of our Company. Our Company will complete the issuance and allotment of Equity Shares pursuant to the Pre-IPO Placement prior to filing the Red Herring Prospectus with the RoC. If the Pre-IPO Placement is completed, the Issue size offered to the public would be reduced to the extent of such Pre-IPO Placement subject to the Net Issue being at least 10% of the post Issue paid-up capital of our Company.
3. The Company's net worth on a consolidated basis as at September 30, 2010 was ₹ 27,001.67 million.
4. The net asset value per Equity Share was ₹ 19.06 as at September 30, 2010 as per the Company's consolidated financial statements.
5. The average cost of acquisition per Equity Share by the Promoter is ₹ 12.55.
6. For details of the related party transactions entered into by the Company with the Subsidiaries and the Group Companies, please refer to the section titled "Financial Information - Related Party Transactions" on page F-25 of this Draft Red Herring Prospectus.
7. There are no financing arrangements whereby the Promoter Group, the Directors of our Promoter, our Directors or their relatives have financed the purchase by any other person of securities of the Issuer other than in the normal course of the business of the financing entity during the period of six months immediately preceding the date of filing this Draft Red Herring Prospectus.
8. Investors may contact any of the Lead Managers for complaints, information or clarifications pertaining to the Issue.

STRUCTURE OF INDIA'S FINANCIAL SERVICES INDUSTRY

The RBI is the central regulatory and supervisory authority for the Indian financial system. The Board for Financial Supervision ("BFS"), constituted in November 1994, is the principal body responsible for the enforcement of the RBI's statutory regulatory and supervisory functions. SEBI and IRDA regulate the capital markets and the insurance sector respectively.

A variety of financial institutions and intermediaries, in both the public and private sector, participate in India's financial services industry. These include:

- commercial banks;
- Non-Banking Finance Companies;
- specialized financial institutions, such as the National Bank for Agriculture and Rural Development, the Export-Import Bank of India, the Small Industries Development Bank of India and the Tourism Finance Corporation of India;
- securities brokers;
- investment banks;
- insurance companies;
- mutual funds; and
- venture capital funds.

NON-BANKING FINANCE COMPANIES

NBFCs are rapidly emerging as an important component of the overall Indian financial system. NBFCs are a group of institutions which perform the function of financial intermediation in a wide variety of ways, for example, by accepting deposits, making loans and advances and financing leasing and hire purchase transactions. NBFCs typically advance loans to various wholesale and retail traders, small-scale industries and self-employed persons, which means that they offer a broad and diversified range of products and services. Key characteristics of NBFCs include:

- customer-oriented services;

- simplified procedures for transaction execution;
- attractive rates of return on deposits; and
- flexibility and timely reaction in meeting the credit needs of specified sectors.

THE INFRASTRUCTURE FINANCE INDUSTRY IN INDIA

The primary providers of infrastructure finance in India are financial institutions, public sector banks and other public sector institutions, private banks, foreign banks and multilateral development institutions.

In February 2010, the RBI introduced IFCs as a new category of infrastructure funding entities. IFCs are entitled to various benefits such as a lower risk weight on their bank borrowings, higher permissible bank borrowings, permission to raise external commercial borrowings on lending to the infrastructure sector and permission to have a higher loan exposure than other NBFCs, to a single borrower and a single business group. For further details, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

Sectoral Focus

The Power Sector

Electricity demand has grown at a CAGR of 7% between Fiscal Year 2005 and Fiscal Year 2010. Power demand is expected to grow at a CAGR of 7.8% between Fiscal Year 2010 and Fiscal Year 2015. This growth in demand is due to growth in India's GDP and increased power generation in India, which is expected to lead to increased and improved availability of power. (Source: Power Update, CRISIL Research, Power, November June 2010)

Roads Sector

According to CRISIL Research, government investments in the roads and highway sector over the next five years is likely to be approximately ₹ 6.3 trillion. National highways are expected to comprise a large share of the total investments at approximately 43% followed by state highways and rural roads at approximately 30% and 27%, respectively. (Source: *Roads and Highways Annual Review*, CRISIL Research, June 2010 ("*Roads and Highways Annual Review, June 2010*")

Ports Sector

With the Indian economy expected to continue on its growth path, the country's external trade is also likely to keep growing. Thus Indian ports are expected to see an increase in traffic over the next few years. CRISIL Research estimates this traffic will grow at a CAGR of approximately 7% to 978 million tonnes from Fiscal Year 2010 to Fiscal Year 2012, led by coal and container traffic. CRISIL (Source: *Ports Annual Review*, CRISIL Research, November 2010)

Oil and Gas Sector

The oil and gas sector contributes to approximately 45% of India's primary energy requirements. Crude oil demand is approximately 146 MMT while the domestic production of crude oil is approximately 34 MMT. Natural gas demand is approximately 179 MMSCMD while the domestic supply is approximately 80 MMSCMD. The demand-supply disparity is likely to decrease in the near future due to several major gas discoveries, particularly those in the Krishna Godavari basin. (Source: *The Investment Commission, Government of India*, http://www.investmentcommission.in/oil_&_gas_exploration.htm, accessed on November 24, 2010)

Telecommunications Sector

The telecommunications sector has grown at a rapid pace in the last five years, largely due to the growth of the mobile services segment. In Fiscal Year 2009, the mobile subscriber base grew to 391 million from 57 million in Fiscal Year 2005. As on December 31, 2010, the mobile subscriber base had grown to 752 million. (Source: Press Release No. 11/2011, Telecom Regulatory Authority of India). CRISIL Research estimates revenues of mobile service providers grew by approximately 20% year-on-year in Fiscal Year 2009. During April to September 2009, revenue growth dropped to 12% year-on-year, despite a 23% growth in its subscriber base, reflecting growing competition and pricing pressure in the market. (Source: CRISIL Research, *Telecom Services*, January 2010)

THE RETAIL FINANCE INDUSTRY IN INDIA

Construction Equipment Finance

Construction activity forms an important part of a growing economy such as India. The share of construction in GDP of India has increased from 6.1% in Fiscal Year 2003 to 8.3% in Fiscal Year 2010. The increase in the share of the construction sector in GDP has primarily been due to increased government spending on physical infrastructure in the last few years. (Source: Ministry of Statistics and Programme Implementation, India http://mospi.nic.in/Mospi_New/site/PressRelease.aspx?status=1&menu_id=15, accessed on November 24, 2010; 11th Five Year Plan for Agriculture, Rural Development, Industry, Services and Physical Infrastructure (the "11th Five Year Plan") http://planningcommission.nic.in/plans/planrel/fiveyr/11th/11_v3/11th_vol3.pdf, accessed on November 24, 2010)

The construction industry is experiencing an upsurge in the quantum of the work load, and has grown at the CAGR of 16.5% since Fiscal Year 2006. (Source: 11th Five Year Plan; CSO, India) It is estimated that a total investment of ₹ 14,500 billion will be required in the eleventh five year plan of India for execution of the planned infrastructure construction. In addition, ₹ 1,800 billion will be required for construction equipment. (Source: 11th Five Year Plan)

Transport Equipment Finance

The Indian automotive industry is the second largest two-wheeler market in the world, the fifth largest commercial vehicle market in the world, and the ninth largest passenger vehicle market in the world. (Source: <http://www.indiainbusiness.nic.in/industry-infrastructure/industrial-sectors/automobile.htm>, accessed on March 23, 2011) As one of the largest industrial sectors in India, turnover of the automotive industry represents approximately 5.0% of India's GDP, while contributing nearly 17.0% to total indirect taxes. Although the automotive industry provides direct and indirect employment to over 13 million people, the penetration levels for vehicles in India are amongst the lowest in the world. (Source: The Automotive Mission Plan, 2006-16, <http://www.siamindia.com/upload/AMP.pdf> accessed on November 24, 2010)

All segments of the automobile industry registered positive growth in sales during Fiscal Year 2010, with domestic sales in the commercial vehicle industry reaching 531,395 units in Fiscal Year 2010. The commercial vehicle segment registered positive growth at 38.31% during Fiscal Year 2010 as compared to the same period last year. (Source: Society of Indian Automobile Manufacturers, <http://www.siamindia.com/scripts/domestic-sales-trend.aspx>, accessed on March 23, 2011)

Rural Finance

Since 2001, approximately 72.2% of the Indian population live in rural areas. (Source: http://www.censusindia.gov.in/Census_Data_2001/India_at_glance/rural.aspx, accessed on March 23, 2011). The rural economy of India is largely dependent on agriculture and allied activities. Agriculture provides the principal means of livelihood for over 58.4% of India's population and contributes approximately one-fifth to the total GDP. (Source: <http://india.gov.in/sectors/agriculture/index.php>, accessed on March 23, 2011)

The Government of India, along with the state governments, have implemented strategies and programmes directed at enabling farmers to own tractors, power tillers, harvesters and other agricultural machinery. (Source: http://india.gov.in/sectors/agriculture/agricultural_mechanisation.php, accessed on March 23, 2011).

Microfinance

Microfinance in the Indian context is formally defined as the provision of financial credit through loans of up to ₹ 50,000 (US\$ 1,104) to households that are traditionally considered not to be credit worthy, and typically lack access to banking and related financial services. (Source: *Inverting the Pyramid*, 2009, Indian Microfinance Coming of Age, Intellect ("Inverting the Pyramid"))

In the past two decades, different types of financial service providers have emerged, including non-government organizations; cooperatives, community-based development institutions such as SHGs and credit unions, commercial and state banks and MFIs.

The MFI channel includes organizations under a host of different legal forms that can be classified into two groups: for-profit organizations and not-for-profit organizations.

With effect from January 1, 2011, the Government of Andhra Pradesh introduced the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 (Act No. 1 of 2011) (the "**MFI Act**"). The main object of the MFI Act is to protect women SHGs in the state of Andhra Pradesh from exploitation by microfinance institutions. The MFI Act provides for *inter alia* registration and cancellation of registration of microfinance institutions, filing of periodic returns by microfinance institutions, limits on interest recoverable by microfinance institutions, prohibition on security for loans provided to SHGs and prior approval for grant of further loans to SHGs. For further details, refer to the sections titled, "*Risk Factors*", "*Industry Overview*" and "*Regulations and Policies in India*" on pages 17, 113 and 186, respectively.

The board of directors of the RBI, at their meeting held on October 15, 2010 formed a sub-committee of the board (the "**Malegam Committee**") to study issues and concerns in the microfinance sector in so far as they related to the entities regulated by the RBI. The Malegam Committee submitted its report on the issues and concerns in the MFI sector on January 19, 2011.

Distribution of Financial Products Overview

Financial products in India are distributed by corporate houses specializing in broking and distribution, as well as by individuals. The key financial products which are distributed in India are investment and risk assurance products, including the following:

- (1) Equity and Futures and Options, listed on recognized exchanges;
- (2) Mutual Funds;
- (3) Life Insurance Policies;
- (4) Fixed deposits of NBFCs and corporates; and
- (5) General insurance policies (such as health Insurance and motor insurance).

THE MUTUAL FUND INDUSTRY IN INDIA

The functions of a mutual fund in India are managed by the trustees and an AMC. The investments made by the fund are managed on a regular basis by fund managers employed by the AMC. The fund manager constructs the portfolio in light of the fund's objectives and size, internal guidelines, prudential exposure norms and regulatory restrictions, and the liquidity required for income distribution or redemption. The income earned through these investments and the capital appreciation realized are shared by its unit holders in proportion to the number of units owned by them.

According to AMFI, at the end of 2004, there were 29 mutual fund providers managing assets of ₹ 1,531 billion invested in 421 different individual funds. As of September 2010, there were 45 individual registered mutual fund providers, with a total average AUM, for the month of September, excluding funds of funds, of ₹ 7,131 billion. SUMMARY OF OUR BUSINESS, STRENGTHS AND STRATEGIES

In this section, any reference to "we", "our" and "us" refers to our Company and our Subsidiaries on a consolidated basis, or to our Infrastructure Finance Group, Retail Finance Group, Corporate Finance Group and Investment Management Group (each as defined below), or the business segments of such respective business groups, as the context will indicate. Any reference herein or elsewhere in this Draft Red Herring Prospectus to profits "as restated" are to profits which have been subjected to adjustments and on account of restatements in accordance with the Securities SEBI ICDR Regulations, and any references to items of income or expenditure or extraordinary items or taxes on income are to such items as audited, but without making adjustments and on account of the corresponding restatements in accordance with the SEBI ICDR Regulations, if any. Also, any reference herein or elsewhere in this Draft Red Herring Prospectus to a balance as on a reporting date as contained in the Restated Summary Statement of Assets and Liabilities as on that reporting date is to a balance which has been subjected to restatements in accordance with the SEBI ICDR Regulations.

OVERVIEW

We are a financial holding company offering a diverse range of financial products and services across the corporate, retail and infrastructure finance sectors, as well as mutual fund products and investment management services, through our direct and indirect wholly-owned subsidiaries. Our Company is registered with the RBI as an NBFC-ND-SI. We are promoted by Larsen & Toubro Limited ("**L&T**"), one of the leading companies in India, with interests in engineering, construction, electrical and electronics manufacturing and services, information technology and financial services. As of March 17, 2011, the market capitalisation of L&T was ₹ 927,640 million (Source: www.bseindia.com).

We are headquartered in Mumbai, and have a presence in 23 states in India. As at February 28, 2011, we had 890 points-of-presence across India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers (refer to the section titled "*Sales and Marketing*", below) and 414 customer care centers across all of our business groups and segments. Our network of offices has been established to cater to the growing business needs of our diverse customer base, which includes individual retail customers as well as large companies, banks, multinational companies and small and medium-enterprises, and to provide them with satisfactory customer service according to their varying requirements.

Our operations are arranged into four business groups, being the Infrastructure Finance Group, the Retail Finance Group, the Corporate Finance Group and the Investment Management Group, each as defined below.

Our wholly-owned subsidiary, L&T Infrastructure Finance Company Limited ("**L&T Infra**"), conducts our infrastructure finance business (our "**Infrastructure Finance Group**"), which provides financial products and services to our customers engaged in infrastructure development and construction, with a focus on the power, roads, telecommunications, oil and gas and ports sectors in India. Our Infrastructure Finance Group comprises the segments of project finance and corporate loans, equity investments and financial advisory services. L&T Infra is registered with the RBI as an NBFC-ND-SI and an IFC, which allows it to optimize its capital structure by diversifying its borrowings and accessing long-term funding resources, thereby expanding its financing operations while maintaining its competitive cost of funds. The total income of our Infrastructure Finance Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 3,090.85 million and ₹ 4,504.23 million, respectively, which accounted for 32.26% and 31.63% of our total income, respectively. The total loans and advances outstanding of our Infrastructure Finance Group as at September 30, 2010 were ₹ 52,729.81 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 17,518.36 million (excluding ₹ 3,000 million for subscriptions of preference shares and debentures in the normal course of business activity in non-related companies) and ₹ 37,955.14 million, respectively.

Our wholly-owned subsidiary, L&T Finance Limited ("**L&T Finance**"), conducts our retail finance business and our corporate finance business (our "**Retail Finance Group**" and "**Corporate Finance Group**", respectively). L&T Finance is registered with the RBI as an NBFC-ND-SI and an AFC.

Our Retail Finance Group provides financing to our retail customers for the acquisition of income-generating assets and income-generating activities generally, and comprises the segments of construction equipment finance, transportation equipment finance, rural products finance and microfinance. In addition, our Retail Finance Group caters to the non-financing needs of our retail customers through the distribution of third party financial products such as insurance and mutual funds.

Our Corporate Finance Group provides financial products and services to our corporate customers, and comprises the segments of corporate loans and leases (in the form of asset-backed loans, term loans,

receivables discounting, short-term working capital facilities and operating and finance leases), supply chain finance (which includes vendor and dealer finance products) and capital markets products.

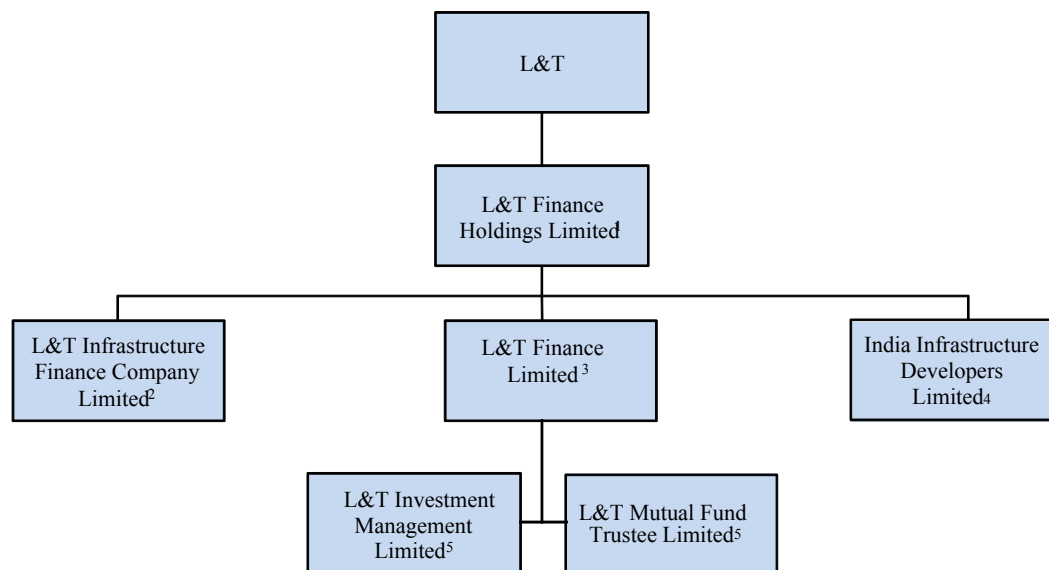

The total income of our Retail and Corporate Finance Groups for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 6,390.22 million and ₹ 9,657.30 million, respectively, which accounted for 66.71% and 67.83% of our total income, respectively. The total loans and advances outstanding of our Retail and Corporate Finance Groups as at September 30, 2010 were ₹ 84,099.80 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 67,144.60 million and ₹ 114,809.42 million, respectively.

As at September 30, 2010, on a consolidated basis, we had total loans and advances outstanding of ₹ 136,832.83 million, and for the six months ended September 30, 2010, we made total disbursements of ₹ 84,662.96 million across our Infrastructure Finance Group, Corporate Finance Group and Retail Finance Group.

Our wholly-owned indirect subsidiary (a wholly-owned subsidiary of L&T Finance) L&T Investment Management Limited ("**L&TIM**"), conducts our investment management business (our "**Investment Management Group**"), which comprises the mutual fund segment (including the management, administration and distribution of L&T Mutual Fund) and the portfolio management services segment (including portfolio management and sub-advisory services). L&TIM (formerly DBS Cholamandalam Asset Management Limited) was acquired by L&T Finance on January 20, 2010, together with L&T Mutual Fund Trustee Limited (formerly DBS Cholamandalam Trustee Limited), the trustee company for L&T Mutual Fund. The total income of our Investment Management Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 32.14 million and ₹ 44.20 million, respectively, which represented 0.34% and 0.31% of our total income, respectively. Of the total income for Fiscal Year 2010, ₹ 16.74 million (or 0.12% of our total income for Fiscal Year 2010) was attributable to L&TIM following L&T Finance's acquisition of this business. Our AUM as at September 30, 2010 was ₹ 31,642.13 million.

OUR GROUP STRUCTURE AND SUBSIDIARIES

Set forth below is a diagram of our corporate structure:

1. **L&T Finance Holdings Limited**, our Company, was incorporated in 2008, and is registered with the RBI as an NBFC-ND-SI.
2. **L&T Infra** was incorporated in 2006, and is registered with the RBI as an NBFC-ND-SI and is classified as an IFC. L&T Infra is the entity through which we conduct the operations of our Infrastructure Finance Group. Refer to the section titled "*Our Business and Operations – Our Infrastructure Finance Group*", below, for a description of the operations of our Infrastructure Finance Group.
3. **L&T Finance** was incorporated in 1994, and is registered with the RBI as an NBFC-ND-SI and classified as an AFC. L&T Finance is the entity through which we conduct the operations of our

Retail and Corporate Finance Groups. Refer to the section titled "*Our Business and Operations – Our Retail Finance Group*", and "*Our Corporate Finance Group*", below, for a description of the operations of our Retail Finance Group and Corporate Finance Group, respectively.

4. **India Infrastructure Developers Limited ("IIDL")** was incorporated in 1997, and is registered with the RBI as an NBFC-ND. IIDL was originally established as a special purpose vehicle for financing a captive power plant for Indian Petrochemicals Limited. While we do not currently conduct any material financing operations through IIDL, we intend to begin doing so in the course of Fiscal Year 2012. Subject to applicable regulatory approvals, IIDL plans to support the working capital requirements of small and medium enterprises and of other corporate entities. IIDL would initially provide non asset-backed loans and facilities under our Corporate Finance Group's supply chain finance segment, which are currently provided through L&T Finance, and may consider extending its operations to include other types of non asset-backed financing. In order for IIDL to meet the capital requirements arising out of planned growth in its loan portfolio, our Company has, on March 28, 2011, infused equity capital by way of subscribing to fresh equity shares aggregating to ₹ 450 million.
5. **L&TIM**, formerly DBS Cholamandalam Asset Management Limited, was acquired by L&T Finance on January 20, 2010, together with DBS Cholamandalam Trustees Limited, the trustee company for DBS Chola Mutual Fund. DBS Cholamandalam Asset Management Limited, DBS Cholamandalam Trustees Limited and DBS Chola Mutual Fund were renamed "L&T Investment Management Limited", "L&T Mutual Fund Trustee Limited" and "L&T Mutual Fund" respectively in February 2010. L&TIM is the entity through which we conduct the operations of our Investment Management Group. Refer to the section titled "*Our Business and Operations – Our Investment Management Group*", below, for a description of the operations of our Investment Management Group.
6. In addition to the above, we have made the following investments:
 - We hold less than 5% interest in each of Federal Bank Limited and City Union Bank Limited;
 - We hold an 8.90% interest in Invent ARC (having made an equity investment of ₹ 159.75 million), an ARC which is permitted to resolve and/or reconstruct NPAs under and in terms of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interests Act, 2002. We hold an 8.90% interest in the Invent/10-11/S3 Trust (having made an equity investment of ₹ 316.45 million), which is aimed at raising funding for the acquisition of distressed assets from banks and financial institutions. In addition to financial returns, we believe that we will benefit from these investments by learning about, and employing, new techniques of distressed debt resolution and NPA management to our businesses; and
 - L&T Finance Holdings Limited holds a 30% interest in NAC Infrastructure & Equipment Limited, which was formed as a joint venture between India Infrastructure Equipment Limited, the National Academy of Construction, Nagarjuna Construction Company Limited and L&T Finance, with the main object of leasing equipment to the infrastructure and construction sectors. The joint venture also provides financing for the acquisition of construction equipment.

OUR COMPETITIVE STRENGTHS

We believe that our competitive strengths are as follows:

Diversified and balanced mix of high growth businesses

We have a highly diversified business model covering a variety of many complementary, high growth business segments across our four core business groups, including infrastructure finance, construction equipment finance, transportation equipment finance, rural products finance, microfinance, corporate loans and leases, supply chain finance, capital markets finance, the distribution of financial products and investment management products and services. Many of our businesses operate in industries or sectors, such as agricultural and rural development, infrastructure and energy, that have been identified by the Government of India as focus areas under its latest Five Year Plan. Furthermore, we also believe that some of our businesses, such as rural finance and microfinance, are not always directly affected by cyclicity in macroeconomic and industry activity. We believe that this balanced mix of high growth businesses has provided us with the ability to produce a steady, growing revenue stream.

As we offer a broad spectrum of financial products and services, we are also better able to cater to the needs of a diverse customer base, from construction equipment hirers, truck owners, farmers and shopkeepers in the small-business segment, to medium-sized vendors, dealers, contractors and fleet owners and large infrastructure developers and companies, including multi-national corporations.

We believe that our presence in diversified businesses across asset classes and customer segments has contributed significantly to our strong revenue growth and reduces the risks associated with product and customer concentration.

Strong distribution network, with a presence throughout India

We have established a presence in 23 states in India. As at February 28, 2011, we had 890 points-of-presence across India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers (refer to the section titled, "*Sales and Marketing*", below) and 414 customer care centers across all of our business groups and segments. In the last few years, we have increased our geographic coverage from 226 points-of-presence in March 2008 to 890 points-of-presence as at February 28, 2011. Our investment management business alone has increased its number of branch offices from 19 to 52 since January 2010, when we acquired L&TIM. Our workforce (comprising full-time employees, outsourced personnel and personnel retained on a contractual basis) has similarly increased more than three times in order to support this physical and geographic growth, up from a head-count of 1,214 in March 2008 to 4,358 as at February 28, 2011. Refer to the section titled "*Employees*", below.

This pan-India presence allows us to cater to a large customer base across our various business segments, from retail customers and small and medium enterprises to large companies. Our extensive network also enables us to maintain and grow business, diversify our risk profile and service and support customers from proximate locations, thus providing customers with convenient access to our products and services. Furthermore, by maintaining such an extensive network, we have been able to accrue a portable knowledge base and apply the experiences and best practices developed in one region in order to further develop business in other regions.

In particular, we have established a strong reach in rural areas in India, where we maintain more than 500 points of presence (predominantly in the form of meeting centers, KGSK centers and customer care centers) in order to service the customers of the rural product finance and microfinance segments of our Retail Finance Group. We believe that there are inherent difficulties in establishing an effective sales and distribution network in the rural areas of India, and as such, our success in establishing this network infrastructure will provide with us a competitive advantage and help us to achieve our strategic goal of expanding our business in rural development. Refer to the section titled "*Our Strategy - Continue to focus on two key Indian growth stories: infrastructure and rural development*", below.

Experienced management team and employees with a proven track record of establishing and growing new lines of business

We have an experienced senior management team which is supported by a capable and talented pool of employees. Our managers have diverse experience in various financial services and other industries, as well as in specific geographic regions in India, which we believe allows them, in turn, to attract and nurture talent. Our managers and employees have a deep understanding of not only finance, but also the specific industry, products and geographic regions that they cover. This allows us to form strong relationships with customers and provide knowledgeable support, for example in the areas of appraisals and project monitoring.

In addition, our management has a proven track record of establishing and growing new lines of business, such as microfinance (since June 2008), financial products distribution (since September 2007) and infrastructure finance (since January 2007).

Our senior managers have, on average, 20 years of experience in financial services, their respective industries and/or in specific geographic areas in India.

Our management, supported by our knowledgeable employee service teams, will continue to be an important driver of growth and success in all of our existing and new business ventures.

High quality loan portfolio comprising the funding of mainly income-generating assets and activities

We believe that one of our major strengths is the quality of our asset portfolio, which comprises the funding of primarily income-generating assets and activities. For each of our businesses, we have established a strong credit check and asset valuation framework to evaluate and monitor credit risk at the time of origination.

We do not typically buy loan portfolios, but rather, our philosophy is to focus on originating and retaining our own portfolio with the objective of maintaining asset quality according to our own standard. As such, we place an emphasis on financing income-generating activities and assets as a means of controlling

portfolio quality, as we believe that this has a direct bearing on the quality of our loan portfolio, both by reference to repayment (as the asset or activity financed should generate sufficient revenue and cash flow for our customer to service the loan) and recovery (as the asset financed typically forms the security for the loan we disburse). Although we source and secure financing business from third-party intermediaries through referral arrangements, we primarily rely on our own sales and marketing function to do so, and are therefore not dependent on third party intermediaries (refer to the section titled "*Sales and Marketing*", below). In addition, our current provisioning and write-off policies and principles exceed the minimum required standard for NBFCs set by the RBI. Refer to the section titled "*Our Business – Our Loan Portfolio and Policies – Provisioning and Write-off Policies*", below, for a description of these policies and principles.

We also have an established collection system which allows us to manage recoveries efficiently and minimize our losses, thereby preserving the value of our assets. The recovery process is tailored specifically to each of our lines of business and is not outsourced, thus allowing us to directly control the recovery process.

In addition, both L&T Infra and L&T Finance have developed their own respective floating "prime lending rates", which are used to model the pricing of loans and advances. These prime lending rates reflect movements in money markets and interest rates generally, and allow us to take such movements into account when pricing loans, thus focusing our loan portfolio on returns and managing interest rate risk effectively. In addition, the asset-liability management committee of our Retail and Corporate Finance Groups has established a pricing matrix which reflects the marginal costs of borrowing. We believe the use of the pricing matrix ensures that all operating risks and interest rate movements are taken into account when pricing both the short- and long-term loans and advances of our Retail and Corporate Finance Groups. Refer to the section titled "*Risk Management – Interest Rate Risk – Retail and Corporate Finance Groups*", below, for a description of this pricing matrix.

Good financial and capital position, as well as access to multiple sources of capital

Our ability to secure reliable and steady sources of capital allows us to grow and fund our businesses in line with our business strategy and our customers' requirements.

We have strong credit ratings from both CARE and ICRA. As at February 28, 2011, L&T Finance had a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which indicates high credit quality and that the rated instrument carries low credit risk), and L&T Infra had a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which rating was upgraded to LAA+ on October 6, 2010, and which indicates high credit quality and that the rated instrument carries low credit risk). These credit ratings, coupled with our strong brand equity (refer to "*Strong parentage and brand equity of L&T*", below) enables us to access funds at competitive rates from a wide variety of market participants across a diverse array of products, including secured and unsecured loans from banks and financial institutions, commercial paper and long term debentures in the institutional and retail markets. L&T Finance and L&T Infra have also successfully accessed the Indian public debt market through issues of non-convertible debentures and long term infrastructure bonds, respectively. Refer to the section titled "*Our Funding Structure*", below, for a description of the non-convertible debentures and long term infrastructure bond offerings of L&T Finance and L&T Infra, respectively.

In addition, our capital structure, which is currently comprised of predominantly equity share capital, provides us with the opportunity to grow our business by raising additional Tier II capital. As at September 30, 2010, the capital structure of L&T Finance included Tier II capital of ₹ 750 million, which was significantly below regulatory limits. As at September 30, 2010, the capital structure of L&T Infra did not include any Tier II capital (refer to the section titled "*Regulations and Policies in India*", on page 186 of this Draft Red Herring Prospectus). As such, we have the ability to access additional funding in the form of Tier II capital in order to meet our growth requirements.

As a part of our operational philosophy, we ordinarily maintain CARs higher than those statutorily prescribed by the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007. The CAR for L&T Finance as at September 30, 2010, March 31, 2010 and March 31, 2009 was 15.30%, 15.43% and 16.41%, respectively. The CAR for L&T Infra as at September 30, 2010, March 31, 2010 and March 31, 2009 was 18.03%, 23.27% and 26.16%, respectively.

Strong parentage and brand equity of L&T

We believe that the L&T brand is one of the most well respected brands in India, and that this provides us

with a significant competitive advantage, particularly in attracting new customers and talent and accessing capital.

L&T, which was established in Mumbai in 1938, is one of the leading companies in India in various industries, including engineering, construction, electrical and electronics manufacturing and services, information technology and financial services. L&T has a demonstrated track record of consistent year-on-year growth in business, and is currently one of the largest companies in India by market capitalization. As at March 17, 2011, the market capitalization of L&T was ₹ 927,640 million (*Source: www.bseindia.com*).

L&T has received numerous awards and recognition from both domestic and international bodies over the years, including *Company of the Year* (February 2010) from *The Business Standard*, one of India's leading business periodicals. In addition, the Reputation Institute, a private advisory and research firm specializing in corporate reputation management, ranked L&T as one of *The World's 50 Most Reputable Firms*, ranking 47th out of the top 200 firms in a study published by Forbes, which we believe indicates that L&T enjoys a high level of trust, admiration and esteem with the general public.

The L&T Group also provides us with access to management talent and professionals with deep industry knowledge in those sectors for which we provide financing, such as infrastructure and construction equipment. As our promoter, L&T has also made significant capital contributions to our business, infusing a total share capital, including share premium, of ₹ 17,785.92 million into our Company to date.

We believe that the reputation of the L&T brand has facilitated our entry and consolidation in several industries, particularly in the construction equipment and infrastructure finance sectors, and will continue to help us achieve our strategic objectives to expand our business, increase our market penetration and continue to attract and retain talented professionals. We further believe that the L&T brand will help us to grow the business of our Investment Management Group.

OUR STRATEGY

The key elements of our strategy are as follows:

Continue to expand our business to include new products and services, as well as entirely new lines of business

We currently have four business groups offering a broad spectrum of financial products and services. We intend to explore opportunities to expand our operations by developing new products and services within our existing lines of business as well as selectively identifying opportunities to expand into new lines of business, as we have done in investment management (January 2010), microfinance (June 2008), financial products distribution (September 2007) and infrastructure finance (January 2007). In each case, we will endeavour to introduce products and services which have the potential for long-term growth.

We believe that the growth of the distribution of financial products segment (in our Retail Finance Group), financial advisory services segment (in our Infrastructure Finance Group) and our Investment Management Group will increase the contribution of fee-based income to our total income. For example, we intend to offer capital raising and strategic advisory services as part of the financial advisory services segment of our Infrastructure Finance Group, which we believe will enable our Infrastructure Finance Group to increase its fee-based income. Our Infrastructure Finance Group is currently in the process of establishing an infrastructure-focused private equity fund, which we believe will help to strengthen our competitive position in the infrastructure finance industry, add to our income streams and provide us with additional opportunities to make equity investments in infrastructure-related projects and companies.

It is our belief that further expanding our business lines and product and service offerings will allow us to build on the existing diversification and balance of our business (refer to the section titled "*Our Competitive Strengths - Diversified and balanced mix of high growth businesses*", above), thereby enabling us to maintain growth and profitability while mitigating the risks associated with product concentration. Diversifying our products and services will also provide us with greater opportunities for cross-selling and allow us to offer increasingly innovative and tailored financial solutions to our customers. Notwithstanding our expansion strategy, we currently anticipate that the financing of income-generating assets and activities will continue to be our principal business activity.

We believe that we have effective procedures in place for evaluating and managing market, credit, reputational and other relevant risks associated with new business and product development. All new lines of business and product launches will follow our current internal approval process that requires assessing risk and customer suitability, as well as understanding the regulatory environment and internal compliance procedures prior to launch.

Increase the market penetration of our existing products and services

We also seek to expand our business by increasing the penetration of our existing products and services in the Indian market. We intend to do this by expanding our overall customer base, with an emphasis on strategic, physical and geographic growth, and strengthening and expanding our relationships with our current corporate and retail customers.

Though our broader objective is to increase our presence across India, our present and immediate focus is on expanding our operations to reach the rural and semi-urban hinterlands of India and create new markets where there exists a significant opportunity to increase revenue. In particular, we plan to continue to explore opportunities in small towns where access to organized financial channels is limited. Since March 31, 2008, our points of presence increased by more than three times, from 226 to 890 as at February 28, 2011 and which included the expansion of our points-of-presence in rural and semi-urban areas. We believe that this expansion plan will not only provide benefits in terms of adding customers and increasing revenues, but will also mitigate risks associated with geographic concentration in urban areas.

Following the expansion of our distribution network over the last three years, we believe that we are in a position to exploit our existing distribution infrastructure in order to expand our reach. We believe that this will increase the volume of products and services that we deliver to our customers in a more cost-effective manner, thereby lowering our cost of operations as a proportion of our total assets.

We intend to continue physical and geographic expansion for as long as it serves the purpose of expanding both our customer base and the market penetration of our products and services in a profitable manner.

We will continue to seek to leverage the significant network of vendors, dealers and customers of various companies in the L&T Group for referrals of new customers, and increasingly engage in brand building campaigns. We will also seek to increase the total share of expenditure by each customer on our products and services. In connection with this, we will make greater use of cross-selling in order to introduce existing customers of one product or service to new products or services.

Continue to focus on two key Indian growth stories: infrastructure and rural development

Four of the business sectors in which we operate, being construction equipment finance, infrastructure finance, rural finance and microfinance, are aligned with the Indian growth stories of infrastructure and rural development, both of which have been identified as strategic initiatives by the Government of India.

We believe the infrastructure sector in particular has demonstrated consistent growth over the years, driven by increases in government and private sector spending, and there is potential for continued growth in spending. We believe that this will have positive consequences for our Infrastructure Finance Group, as well as for the construction equipment segment of our Retail Finance Group. Refer to the section titled "*Industry Overview – The Infrastructure Finance Industry in India*", on page 117 of this Draft Red Herring Prospectus.

Our Infrastructure Finance Group aims to be a comprehensive financial solutions provider in the infrastructure sector, and in connection therewith, we intend to explore the development of products for various infrastructure-related sectors, such as power, roads, telecommunications, oil and gas and ports. The RBI has granted L&T Infra the status of an Infrastructure Finance Company, which accords it certain benefits, notably the ability to raise funds at a lower cost compared to other NBFCs. Refer to the sections titled "*Industry Overview – The Infrastructure Finance Industry in India – Infrastructure Finance Companies*" and "*Regulations and Policies in India*" on pages 118 and 186, respectively, of this Draft Red Herring Prospectus. We will continue to utilize these benefits in order to provide cost-effective financing solutions for our customers and further grow our infrastructure finance business.

With respect to rural development, we intend to continue to grow our rural finance and microfinance business segments, where we believe there is potential for significant growth. In order to capitalize on this growth in rural development, we are looking to increase our presence in rural finance in general, while maintaining our commitment to corporate social responsibility and our aim of achieving financial inclusion in rural India in a commercially viable manner.

Our traditional rural finance business involves the financing of farming equipment and agricultural implements, such as harvesters to farmers, as well as providing finance for the purchase of rural transport vehicles, such as three-wheelers and utility vehicles. We intend to expand our product offering as the needs of the rural community expand and evolve.

Our microfinance business was launched in June 2008, and by September 30, 2010 had already resulted

in 1,116,508 individual loans with cumulative disbursements of ₹ 12,949.43 million. Notwithstanding this growth, as well as recent developments in the microfinance industry in India, we believe that there continues to be a significant demand-supply gap for microcredit in India. Refer to the section titled "*Industry Overview – The Retail Finance Industry in India – Microfinance Overview*", on page 126 of this Draft Red Herring Prospectus. In the medium- to long-term, we will seek to deepen our reach in states where we are already present, expanding our microfinance products to new locations and extending our range of product offerings targeting microfinance consumers.

Notwithstanding the recent developments and new laws and regulations in the microfinance industry in India (and in particular, in the state of Andhra Pradesh), we continue to believe in the medium- to long-term growth prospects of the microfinance industry. However, in the short-term, and owing to the promulgation of new laws and regulations in the microfinance industry and the decline in collections from customers of our microfinance segment in Andhra Pradesh, we have reduced the disbursement of loans in general, and in the state of Andhra Pradesh there have been no disbursements since the promulgation of the MFI Ordinance and the subsequent enactment of the MFI Act in view of the uncertainties and the regulatory process involved in any new disbursements. Refer to the section titled "*Risk Factors – Risks Relating to Our Group – The repeal of or changes in the regulatory policies that currently encourage financial institutions to provide capital to the microfinance sector could adversely impact the cost and availability of capital. Further, any uncertainty regarding the implementation and enforcement of the recent Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 or as a result of the RBI's potential implementation of the recommendations set out by the Malegam Committee in its report, may result in delays and/or halts in repayment of loans as a result of which, microfinance institutions may experience losses and liquidity issues causing lenders and investors to lose confidence in the microcredit industry and consequently, lenders may discontinue lending to microfinance institutions.*" on page 23 of this Draft Red Herring Prospectus for a discussion of new laws and regulations relevant to the microfinance industry. Given the uncertainty regarding the implementation and enforcement of the MFI Act and the potential impact of the Malegam Committee report on the regulatory framework of the microfinance industry, we may re-evaluate the business model, strategy and structure of our microfinance segment, including potentially migrating the business from L&T Finance into a new company within our Group.

Develop our financial products distribution business segment

We anticipate further growth in our financial products distribution business, initially through targeted cross-selling to our existing customer base. We also anticipate that, in the medium to longer term, there will be further opportunities to grow this business as our customer base and geographic reach expands within India. As a result, we plan to pursue financial products distribution as a focus area for growth and profitability. We currently have a dedicated team of trained sales staff offering a wide variety of financial products to our customers, including insurance, mutual funds, bonds, shares in initial public offerings and time deposits. We believe that knowledgeable sales staff and relationships with reputable product providers offering high quality products are integral elements of a successful distribution business. Therefore, we intend to continue to improve the advisory capabilities of our sales team through specialized training, and pursue further distribution arrangements with high quality financial products providers in order to build our reputation and presence in this business.

Continue to attract and retain talented professionals

We recognize that our business is largely dependent on human resources, and we intend to continue taking a proactive approach to the retention and recruitment of human capital to further enhance and grow our business. We have been successful in recruiting and retaining talented professionals from a wide variety of backgrounds, including banks and NBFCs, and our senior management team has witnessed a low rate of attrition.

Accordingly, as our business has continued to grow and diversify, we believe that we have been able to keep pace with this growth by hiring professionals with deep industry knowledge, while our management team retains its core institutional knowledge. We believe that our senior management, the reputation and goodwill of the L&T Group, and our proactive recruitment and retention initiatives will enable us to continue to attract and retain talented professionals. As discussed in greater detail in the section titled "*Our Business – Our Business Support Services – Human Resources*", below, we have instituted various recruitment and retention initiatives, including an on-campus recruitment program, incentive-based pay, employee feedback surveys and professional training.

Continue to focus on the growth of our retail loan portfolio

L&T Finance commenced its operations by focusing on the financing needs of small and medium

enterprises and corporate entities. However, it has grown its retail portfolio over the last three years with the addition of products such as transportation equipment finance, rural products finance and microfinance. As at September 30, 2010, the loans and advances of our Retail Finance Group were ₹ 51,123.53 million, which accounted for 37.36% of the total loans and advances made by our Company. We believe that this provides our loan portfolio with a strong balance and diversification, and also represents an improvement on our yields and returns, although with a concomitant increase in operating expenses (as result of the relatively small size of retail loans and large volume of retail loan transactions) and levels of NPAs. It is our intention to continue to focus on the loan portfolio of our Retail Finance Group, and we expect that the total loans and advances of our Retail Finance Group as a proportion of the total loans and advances of our Company will increase, or at least be maintained.

The IPO grading is assigned on a five point scale from 1 to 5 with "IPO Grade 5" indicating strong fundamentals and "IPO Grade 1" indicating poor fundamentals. The rationale furnished by the IPO Grading Agency for its grading will be included in the Red Herring Prospectus.

Further, a copy of the report provided by [●], furnishing its rationale for its grading will be annexed to the Red Herring Prospectus and will be available for inspection at our Registered Office from 10:00 am to 4:00 p.m. on Working Days from the date of filing the Red Herring Prospectus until the Bid/Issue Closing Date.

The Company had filed a draft red herring prospectus dated September 27, 2010 with SEBI. Based on such draft red herring prospectus, Credit Analysis & Research Limited and ICRA Limited had assigned "CARE IPO Grade 5" and "IPO Grade 5" through their letters dated November 29, 2010 and December 2, 2010, respectively.

Trustees

As this is an issue of equity shares, the appointment of trustees is not required.

Monitoring Agency

[•] has been appointed as the monitoring agency for the purposes of monitoring the utilisation of the proceeds of the Issue in accordance with Regulation 16 of the SEBI ICDR Regulations.

Appraising Entity

The objects of this Issue have not been appraised by any agency. The objects of this Issue and means of finance therefore are based on internal estimates of our Company.

Book Building Process

Book building refers to the collection of Bids from investors within the Price Band, on the basis of the Red Herring Prospectus and the Bid cum Application Forms. The principal parties involved in the Book Building Process are:

1. our Company;
2. the Lead Managers;
3. the Syndicate Members who are intermediaries registered with the SEBI or registered as brokers with any of the Stock Exchanges and eligible to act as underwriters;
4. the Registrar to the Issue;
5. the Escrow Collection Banks; and
6. the SCSBs.

In terms of Rule 19(2)(b) of the SCRR, and the SEBI ICDR Regulations this is an issue for less than 25% of the post-Issue capital, subject to the Net Issue being at least 10% of the post Issue capital. Pursuant to Regulation 43(2) read with Regulation 26(2) of the SEBI ICDR Regulations at least 50% of the Net Issue shall be allotted on a proportionate basis to QIBs, provided that our Company may allocate up to 30% of the QIB Portion to Anchor Investors on a discretionary basis out of which one-third shall be reserved for domestic Mutual Funds only. In the event of under subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders subject to valid Bids being received at or above the Issue Price. If at least 50% of the Net Issue cannot be Allotted to QIBs, then the entire application money shall be refunded forthwith. All potential investors (except Anchor Investors) may participate in this Issue through the ASBA process by providing details about the bank accounts in which corresponding bid amounts may be blocked by the SCSBs. For details, please refer to the section titled "*Issue Procedure*" on page 393 of this Draft Red Herring Prospectus.

QIBs are not allowed to withdraw their Bid(s) after the QIB Bid/Issue Closing Date. For further details, please refer to the section titled "*Terms of the Issue*" on page 386 of this Draft Red Herring Prospectus.

The Book Building Process under the SEBI ICDR Regulations is subject to change from time to time and investors are advised to make their own judgment about investment through this process prior to making a Bid in the Issue.

Steps to be taken by the Bidders for making a Bid or application in this Issue:

- Check eligibility for making a Bid. For further details, please refer to the section titled "*Issue Procedure*" on page 393 of this Draft Red Herring Prospectus. Specific attention of ASBA Bidders is invited to the section titled "*Issue Procedure – ASBA Process*" on page 393 of this Draft Red Herring Prospectus;
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;

- Ensure that the Bid cum Application Form is duly completed as per the instructions given in the Red Herring Prospectus and in such form;
- Ensure that you have mentioned your PAN in the Bid cum Application Form (please refer to the section titled "Issue Procedure" on page 393 of this Draft Red Herring Prospectus); and
- Bids by QIBs (other than ASBA Bids) will have to be submitted to the Lead Managers or the affiliates only.

Illustration of the Book Building Process and of the price discovery process

Investors should note that the following is solely for the purpose of illustration and is not specific to this Issue; the following excludes bidding by Anchor Investors or under the ASBA process.

Bidders can bid at any price within the price band. For instance, assuming a price band of ₹ 20 to ₹ 24 per equity share, an issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centres during the bidding period. The illustrative book as shown below indicates the demand for the shares of a company at various prices and is collated from bids from various investors.

Bid Quantity	Bid Price (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the company is able to issue the desired number of shares is the price at which the book cuts off, i.e., ₹ 22 in the above example. The company, in consultation with the lead managers, will finalise the issue price at or below such cut-off, i.e., at or below ₹ 22. All bids at or above the issue price and cut-off price are valid bids and are considered for allocation in the respective categories.

Withdrawal of the Issue

Our Company, in consultation with the Lead Managers, reserves the right not to proceed with the Issue at any time after the Bid/Issue Opening Date but before the Allotment. In such event, our Company shall issue a public notice, which shall include reasons for such withdrawal, within two days of closure of the Issue. The public notice shall be issued in the same newspapers where the pre- Issue advertisements had appeared and our Company shall also promptly inform the Stock Exchanges.

If our Company withdraws the Issue after the Bid/Issue Closing Date and thereafter determines that it will proceed with an initial public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI. Notwithstanding the foregoing, the Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC.

Any further issue of Equity Shares by our Company shall be in compliance with applicable laws.

Bid/Issue Programme

BID/ISSUE OPENS ON	[●]*
BID/ISSUE CLOSES ON	[●]**

* Our Company, in consultation with the Lead Managers, may consider participation by Anchor Investors. The Anchor Investor Bidding Date shall be one day prior to the Bid/Issue Opening Date.

** Our Company, may close the Bidding/Issue Period for QIBs one day prior to the Bid/Issue Closing Date.

Bids including any revision in Bids shall be accepted **only between 10.00 a.m. and 5.00 p.m. IST** during the Bidding/Issue Period as mentioned above at the Bidding Centres mentioned on the Bid cum Application Form or, in the case of Bids submitted through ASBA, at the Designated Branches. On the QIB Bid/Issue Closing Date, Bids by QIBs shall be accepted only between **10.00 a.m. and 3.00 p.m. IST** and uploaded until 4.00 p.m. IST. On the Bid/Issue Closing Date, Bids shall be accepted only between **10.00 a.m. and 1.00 p.m. IST** and uploaded until (i) 4.00 p.m. IST in case of Bids by Non-Institutional Bidders, Eligible Employees bidding under the Employee Reservation Portion and L&T Shareholders bidding under the L&T Shareholders Reservation Portion; and (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders. It is clarified that the Bids not uploaded in the book would be rejected. Bids by the ASBA Bidders shall be uploaded by the SCSBs in the electronic system to be provided by the Stock Exchanges.

In case of any discrepancy in the data entered in the electronic book *vis-a-vis* the data contained in the physical or electronic Bid cum Application Form, for a particular ASBA Bidder, the Registrar to the Issue will request rectified data from the relevant SCSB.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 1.00 p.m. (Indian Standard Time) on the Bid/Issue Closing Date. On the QIB Bid/Issue Closing Date, Bids by QIBs shall be accepted only between 10.00 a.m. and 3.00 p.m. IST. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date or QIB Bid/Issue Closing Date, as is typically experienced in public offerings, which may lead to some Bids not being uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will only be accepted on Working Days, i.e. any day other than Saturday or Sunday on which commercial banks in Mumbai, India are open for business.

On the Bid/Issue Closing Date, extension of time will be granted by the Stock Exchanges only for uploading the Bids received by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of the time period for acceptance of Bid cum Application Forms as stated herein and reported by the Lead Managers and the Syndicate Members to the Stock Exchanges within half an hour of such closure.

The Company reserves the right to revise the Price Band during the Bidding/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on either side *i.e.* the Floor Price can move up or down to the extent of 20% of the Floor Price disclosed in the Red Herring Prospectus or the Issue advertisement, as the case may be, and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bidding/Issue Period will be extended for a minimum three additional Working Days, subject to the total Bidding/Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bidding/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a press release and also by indicating the changes on the websites of the Lead Managers and at the terminals of the Syndicate.

Underwriting Agreement

After the determination of the Issue Price and the allocation of our Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for certain of the Equity Shares proposed to be offered in this Issue. Pursuant to the terms of the Underwriting Agreement, the Lead Managers will be responsible for bringing in the amount devolved in the event that their respective Syndicate Members do not fulfill their underwriting obligations. The Underwriting Agreement is dated [•]. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters are several and are subject to certain conditions to closing, as specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

The above-mentioned amounts are provided for indicative purposes only and will be finalised after the determination of the Issue Price and actual allocation of the Equity Shares.

In the opinion of the Board of Directors (based on certificates given to them by the Underwriters), the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations. All the above-mentioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchanges.

Allocation among Underwriters may not necessarily be in proportion to their underwriting commitments. Notwithstanding the above table, the Underwriters will be severally responsible for ensuring payment with respect to the Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure subscriptions for / subscribe to Equity Shares to the extent of the defaulted amount.

(b) Details of Promoters' contribution locked in for three years:

The Equity Shares that are being locked-in are not ineligible for computation of Promoter's contribution under Regulation 33 of the SEBI ICDR Regulations. In this connection, as per Regulation 33 of the SEBI ICDR Regulations, our Company confirms that the Equity Shares locked as Promoters' contribution do not consist of:

- (i) The Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalization of intangible assets or bonus shares out of revaluations reserves or unrealised profits or bonus shares which are otherwise ineligible for computation of Promoters' contribution;

- (ii) The Equity Shares acquired during the one year preceding the date of this Draft Red Herring Prospectus, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- (iii) The Equity Shares issued to the Promoter upon conversion of a partnership firm;
- (iv) The Equity Shares held by the Promoter that are subject to any pledge; and
- (v) The Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of their subscription in the minimum Promoters' contribution subject to lock-in.

The Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as "Promoters" under Regulation 2 (za) of the SEBI ICDR Regulations.

The SEBI ICDR Regulations require that an aggregate of 20% of the post-Issue shareholding of the Promoters be considered as Promoters' contribution and locked-in for a period of three years. Such lock-in is required to commence from the date of Allotment in the Issue and end on the date that is three years subsequent to the date of Allotment in the Issue. The Promoter of the Company holds 99.99% in the Company and approximately 1,353,591,386 Equity Shares aggregating to 95.52% of the pre-Issue capital is eligible to be included under minimum Promoters' contribution under Regulation 33 of the SEBI ICDR Regulations. Accordingly, [•] Equity Shares held by L&T will be subject to such lock-in, the details of such lock-in are given below:

Name of Promoter	Date on which Equity Shares were allotted	Nature of payment of consideration	Nature of Allotment / Transaction	Face Value	Issue Price	Number of Equity Shares locked in	% of pre-Issue paid up capital	% of post-Issue paid up capital
L&T*	[•]	[•]	[•]	[•]	[•]	[•]	[•]	[•]

* This table will be updated at the time of filing the Prospectus with the RoC post determination of Issue Price.

(c) Details of share capital locked in for one year

In addition to the lock-in of the Promoters' contribution specified above, the entire pre-Issue share capital of our Company will be locked in for a period of one year from the date of Allotment of the Equity Shares in this Issue.

(d) Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoter, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' contribution for three years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Pursuant to Regulation 40 of the SEBI ICDR Regulations, Equity Shares held by the Promoters may be transferred to and amongst the Promoters, the Promoter Group or to new promoters or persons in control of our Company subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the Takeover Code.

Further, pursuant to Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoter prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI ICDR Regulations has ended, subject to compliance with the Takeover Code, as applicable.

In terms of Schedule XI of the SEBI ICDR Regulations, the Equity Shares allotted to Anchor Investors shall be locked in for a period of 30 days from the date of Allotment of such Equity Shares.

OBJECTS OF THE ISSUE

The Issue

The objects of the Issue are to augment the capital base of L&T Finance and L&T Infra to meet the capital requirements arising out of expected growth in their assets, primarily the loan portfolio, compliance with regulatory requirements and for other general corporate purposes including meeting the expenses of the Issue.

We intend to utilise the proceeds of the Issue for the following objects:

1. Repayment of intercorporate deposit issued by our Promoter to our Company;
2. To augment the capital base of L&T Finance and L&T Infra, to meet the capital adequacy requirements to support the future growth in their business;
3. To achieve the benefits of listing on the Stock Exchanges; and
4. For other general corporate purposes including meeting the expenses of the Issue.

The main objects clause of our Memorandum of Association and objects incidental to the main objects enable us to undertake our existing activities and the activities for which funds are being raised by us through the Issue.

The details of proceeds of the Issue are summarized in the following table:

Description	Amount
	(₹ million)
Gross proceeds of the Issue	17,500*
Issue Expenses	[•]
Net proceeds of the Issue	[•]

** This includes any funds that may be raised through the Pre-IPO Placement*

Requirement of Funds

We intend to utilize the net proceeds of the Issue of ₹ [•] million ("Net Proceeds") for financing the objects as set forth below:

S. No	Expenditure Items	Total
		(₹ in million)
1	Repayment of intercorporate deposit issued by our Promoter to our Company	3,450
2	Infusion of capital in L&T Finance Limited	5,700
3	Infusion of capital in L&T Infrastructure Finance Company Limited	5,350
4	General Corporate Purposes	[•]

The fund requirements in the table above are based on our current business plan and estimates, and are inclusive of the Pre-IPO Placement that we may complete. In view of the dynamic and competitive business environment in which our Subsidiaries operate, we may have to revise our capital infusion plans. This may include rescheduling of our investments or increase or decrease the capital allocation out of the issue proceeds to our subsidiaries, in line with the requirements of the business and at the discretion of our management.

Details of the Objects

1. Repayment of intercorporate deposit issued by our Promoter to our Company

Our Promoter has issued an intercorporate deposit ("ICD") to our Company, on March 28, 2011, for an aggregate amount of ₹ 3,450 million. The terms of the ICD are as follows:

Coupon rate – 9%;

Repayment – Bullet repayment at the end of 12 months; and

Interest payment – Quarterly basis

The ICD was utilised by our Company on March 28, 2011 to subscribe to shares of its subsidiaries, L&T Finance, L&T Infra and IIDL, on the following terms:

Sr. No.	Subsidiary	Particulars of capital infusion*
1.	L&T Finance Limited	1,12,50,000 equity shares of ₹ 10 each, at a premium of ₹ 190, aggregating to ₹ 2,250 million
2.	L&T Infrastructure Finance Company Limited	1,87,50,000 equity shares of ₹ 10 each, at a premium of ₹ 30, aggregating to ₹ 750 million
3.	India Infrastructure Developers Limited	4,50,00,000 equity shares of ₹ 10 each, , at par, aggregating to ₹ 450 million

*As certified by way of a certificate dated March 29, 2011 issued by M/s Sharp & Tannan.

2. To augment the capital base of L&T Finance and L&T Infra, to meet the capital adequacy requirements to support the future growth in their business

Our subsidiaries, L&T Finance and L&T Infra, are NBFC-ND-SI regulated by RBI. RBI guidelines require these companies to maintain a minimum ratio of capital to risk adjusted assets and off-balance sheet items. For further details please refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus for a discussion on the capital adequacy requirements. We expect that additional capital would be required by L&T Finance and L&T Infra on account of future asset growth and compliance with regulatory requirements. Neither of the aforesaid subsidiaries has a stated dividend policy.

General Corporate Purposes

We will have flexibility in applying ₹ [•] million of the Net Proceeds for general corporate purposes, including (i) brand building and other marketing efforts; (ii) acquiring fixed assets including land, building, furniture and fixtures and vehicles; (iii) meeting any expense of the Company and its Subsidiary, including salaries and wages, rent, administration, insurance, repairs and maintenance, payment of taxes and duties; (iv) repayment of loans; (v) meeting expenses incurred in the ordinary course of business; (vi) inorganic or other growth opportunities; (vii) infusion of funds in our subsidiaries by way of equity or debt ; and (viii) any other purpose as may be approved by our Board of Directors or a duly appointed committee from time to time.

Our management, in accordance with the policies of the Board, will have flexibility in utilizing any amounts for general corporate purposes under the overall guidance and policies of our Board.

Issue Related Expenses

The expenses of this Issue include, among others, underwriting and management fees, printing and distribution expenses, legal fees, advertisement expenses and listing fees. The estimated Issue expenses are as follows:

Activity	Expenses [*]	% of Issue Size [*]	% of Issue expenses [*]
	(₹ in million)		
Lead management fee and underwriting commissions			
Advertising and marketing expenses			
Printing and stationery			
IPO grading expenses			
Others (SCSB commission, Registrar's fee, legal fees, auditor fees, Stamp Duty, Listing Charge etc)			
Total			

^{*} To be finalized upon determination of the Issue Price.

Interim use of funds

The management of our Company, in accordance with the policies established by our Board from time to time and subject to the relevant regulations of RBI, will have flexibility in deploying the proceeds of the Issue. Pending utilization for the purposes described above, we intend to invest the funds in high quality interest bearing liquid instruments, including investments in short-term deposits with banks or financial institutions and other money market instruments.

Monitoring Utilization of Funds

Our Board and Audit Committee and the Monitoring Agency will monitor the utilization of the Issue proceeds. We will disclose the details of the utilization of the Issue proceeds, including interim use, under a separate head in our financial statements until the completion of utilisation of the Issue proceeds, specifying the purpose for which such proceeds have been utilized or otherwise disclosed as per the disclosure requirements of our listing agreements with the Stock Exchanges. We will indicate investments, if any, of unutilized Net Proceeds in our balance sheet. In connection with the utilisation of the Net Proceeds, our Company shall comply with the listing agreements with the Stock Exchanges, including Clauses 43A and 49, as amended from time to time.

Pursuant to Clause 49 of the listing agreements with the Stock Exchanges, our Company shall on a quarterly basis disclose to the Audit Committee, the uses and applications of the Net Proceeds. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than those stated in this Draft Red Herring Prospectus and place it before the Audit Committee. Such disclosure shall be made only until such time that all the Net Proceeds have been utilised in full. The statement will be certified by our statutory auditors. In addition, the report submitted by the monitoring agency will be placed before the Audit Committee of our Company, so as to enable the Audit Committee to make appropriate recommendations to the Board.

Our Company shall, in accordance with Clause 43A of the listing agreements with the Stock Exchanges, be required to inform material deviations in the utilization of Net Proceeds to the Stock Exchanges and shall also be required to simultaneously make the material deviations and adverse comments of the Audit Committee or monitoring agency public through advertisements in newspapers.

Other confirmations

No part of the proceeds of the Issue will be paid by us as consideration to our Promoter, our Directors, Group Companies, associates or Key Management Personnel, except as set out above, in the normal course of business and in compliance with applicable law.

BASIS FOR ISSUE PRICE

The Issue Price shall be determined by our Company in consultation with the Lead Managers on the basis of assessment of market demand for the Equity Shares determined through the Book Building Process and on the basis of the following qualitative and quantitative factors. The face value of the Equity Shares is ₹ 10 each and the Issue Price is [•] times the face value at the lower end of the Price Band and [•] times the face value at the higher end of the Price Band. Investors should review the entire Draft Red Herring Prospectus, including the sections "*Risk Factors*", "*Industry Overview*", "*Our Business*" "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" and "*Financial Information*" on pages 17, 113, 132, 244 and F-1, respectively, of this Draft Red Herring Prospectus before making an investment decision.

Special Tax Benefits to the Company

There are no special benefits accruing to the company.

General Tax Benefits to the Shareholders of the Company

(I) Under the Income-tax Act,1961

A) Residents

1. Dividends earned on shares of the domestic company are exempt from tax in accordance with and subject to the provisions of Section 10(34) read with section 115-O. However, as per Section 94(7), losses arising from sale/ transfer of shares, where such shares are purchased within three months prior to the record date and sold within three months from the record date, will be disallowed to the extent such loss does not exceed the amount of dividend claimed exempt.
2. Shares of the company held as capital asset for a period of more than twelve months preceding the date of transfer will be treated as a long-term capital asset.
3. Long-term capital gain arising on sale of equity shares or unit of an equity oriented fund is fully exempt from tax in accordance with the provisions of Section 10(38), where the sale is made on or after 1st October, 2004 on a recognized stock exchange and the transaction is chargeable to securities transaction tax.

4. Section 14A restricts claim for deduction of expenses incurred in relation to incomes which do not form part of the total income under the Act. Thus, any expenditure incurred to earn tax exempt income (i.e. dividend) is not a tax deductible expenditure.
5. Under Section 36(1)(xv), securities transaction tax paid by a shareholder in respect of taxable securities transactions entered into in the course of its business, would be allowed as a deduction if the income arising from such taxable securities transactions is included in the income computed under the head 'Profits and gains of business or profession'.
6. As per the provision of Section 71(3), if there is a loss under the head 'Capital gains', it cannot be set-off against the income under any other head. Section 74 provides that the short-term capital loss can be set-off against both short-term and long-term capital gain. But long-term capital loss cannot be set-off against short-term capital gain. The unabsorbed short-term capital loss can be carried forward for next eight assessment years and can be set off against any capital gains in subsequent years. The unabsorbed long-term capital loss can be carried forward for next eight assessment years and can be set off only against long-term capital gains in subsequent years.
7. Taxable long term capital gains would arise [if not exempt under Section 10(38) or any other section of the Act] to a resident shareholder where the equity shares or units or zero coupon bonds are held for a period of more than 12 months prior to the date of transfer of the shares. In accordance with and subject to the provisions of Section 48, in order to arrive at the quantum of capital gains, the following amounts would be deductible from the full value of consideration:
 - (a) Cost of acquisition/ improvement of the shares as adjusted by the cost inflation index notified by the Central Government; and
 - (b) Expenditure incurred wholly and exclusively in connection with the transfer of shares. Under Section 112, taxable long-term capital gains are subject to tax @20% (plus applicable surcharge and education cess) after indexation, as provided in the second proviso to Section 48. However, in case of listed securities or units, the amount of such tax could be limited to 10% (plus applicable surcharge and education cess), without indexation, at the option of the shareholder.
8. Short-term capital gains on the transfer of equity shares or units of an equity oriented fund where the shares are held for a period of not more than 12 months would be taxed @15% (plus applicable surcharge and education cess), where the sale is made on or after 1st October, 2004 on a recognized stock exchange and the transaction is chargeable to securities transaction tax. In all other cases, the short-term capital gains would be taxed at the normal rates of tax (plus applicable surcharge and education cess) applicable to the resident investor. Cost indexation benefits would not be available in computing tax on short-term capital gain.
9. Under Section 54EC, long-term capital gain arising on the transfer of shares of the company [other than the sale referred to in Section 10(38)] is exempt from tax to the extent the same is invested in certain 'Long term specified asset' within a period of six months from the date of such transfer (upto a maximum limit of Rs 5.00 million) for a minimum period of three years.
10. In accordance with Section 54F, long-term capital gains arising on the transfer of the shares of the company held by an individual or Hindu Undivided Family and on which securities transaction tax is not payable, shall be exempt from capital gains tax if the net consideration is utilised, within a period of one year before, or two years after the date of transfer, in the purchase of a new residential house, or for construction of a residential house within three years. Such benefit will not be available if the individual-
 - (a) owns more than one residential house, other than the new residential house, on the date of transfer of the shares; or
 - (b) purchases another residential house within a period of one year after the date of transfer of the shares; or
 - (c) constructs another residential house within a period of three years after the date of transfer of the shares; and

- (d) the income from such residential house, other than the one residential house owned on the date of transfer of the original asset, is chargeable under the head Income from house property.

If only a part of the net consideration is so invested, so much of the capital gains as bears to the whole of the capital gain the same proportion as the cost of the new residential house bears to the net consideration shall be exempt.

If the new residential house is transferred within a period of three years from the date of purchase or construction, the amount of capital gains on which tax was not charged earlier, shall be deemed to be income chargeable under the head Capital Gains of the year in which the residential house is transferred.

However, as per Section 94(7) of the Act, losses arising from sale/ transfer of shares, where such shares are purchased within three months prior to the record date and sold within three months from the record date, will be disallowed to the extent such loss does not exceed the amount of dividend claimed exempt.
- Long term capital gain arising on sale of Company's Equity shares or units of an equity oriented fund, is fully exempt from tax in accordance with the provisions of Section 10(38) of the Act, where the sale is made on or after 1st October, 2004 on a recognized stock exchange and the transaction is chargeable to securities transaction tax.
- In accordance with Section 48 of the Act, capital gains arising out of transfer of capital assets being shares in the company shall be computed by converting the cost of acquisition, expenditure in connection with such transfer and the full value of the consideration received or accruing as a result of the transfer into the same foreign currency as was initially utilised in the purchase of the shares and the capital gains computed in such foreign currency shall be reconverted into Indian currency, such that the aforesaid manner of computation of capital gains shall be applicable in respect of capital gains accruing/arising from every reinvestment thereafter in, and sale of, shares and debentures of, an Indian company including the Company. Cost indexation benefit will not be available in such a case.
- As per the provisions of Section 90(2) of the Act, the Non Resident shareholder has an option to be governed by the provisions of the tax treaty, if they are more beneficial than the domestic law wherever India has entered into Double Taxation Avoidance Agreement (DTAA) with the relevant country for avoidance of double taxation of income.
- In accordance with Section 112 of the Act, the tax on capital gains on transfer of listed securities or units or zero coupon bonds where the transaction is not chargeable to Securities Transaction Tax,

held as long term capital assets will be at the rate of 10% (plus applicable surcharge and Education Cess and Secondary and Higher Secondary Education Cess). A non-resident will not be eligible for adopting the indexed cost of acquisition and the indexed cost of improvement for the purpose of computation of long-term capital gain on sale of shares.

6. In accordance with Section 111A of the Act, the tax on capital gains arising from the transfer of a short term asset being an equity share in a company or a unit of an equity oriented fund, is chargeable to tax at the rate of 15% (plus applicable surcharge and Education Cess and Secondary and Higher Secondary Education Cess), where such transaction is chargeable to Securities Transaction Tax. If the provisions of Section 111A are not applicable to the short term capital gains, then the tax will be chargeable at the applicable normal rates plus surcharge and education cess as applicable.
7. Section 115A deals with tax on dividend, royalty, interest, fees for technical services etc, in case of non-residents. Whereas the section provides for taxation at the rate of 20% in the case of interest received from Government or an Indian concern on monies borrowed or debt incurred by Government or the Indian concern in foreign currency, a lower rate of tax of 5% is being proposed in the case of interest received from an infrastructure debt fund referred to in section 10(47). This amendment will take effect from 1st June 2011 as proposed in Finance bill 2011.

A new section 194LB is proposed to be inserted providing for deduction of tax at the rate of 5% from any interest payable to a non-resident or a foreign company by an infrastructure debt fund referred in section 10(47) as proposed in Finance bill 2011

8. Under Section 54EC of the Act, long term capital gain arising on the transfer of shares of the Company [other than the sale referred to in Section 10(38) of the Act] is exempt from tax to the extent the same is invested in certain “Long term specified asset” within a period of six months from the date of such transfer (upto a maximum limit of Rs 5.0 million) for a minimum period of three years.
9. In accordance with Section 54F of the Act, long-term capital gains arising on the transfer of the shares of the Company held by an individual or Hindu Undivided Family and on which Securities Transaction Tax is not payable, shall be exempt from capital gains tax if the net consideration is utilised, within a period of one year before, or two years after the date of transfer, in the purchase of a new residential house, or for construction of a residential house within three years subject to regulatory feasibility. Such, benefit will not be available if the individual-
 - (i) owns more than one residential house, other than the new residential house, on the date of transfer of the shares; or
 - (ii) purchases another residential house within a period of one year after the date of transfer of the shares; or
 - (iii) construct another residential house within a period of three years after the date of transfer of the shares; and
 - (iv) the income from such residential house, other than the one residential house owned on the date of transfer of the original asset, is chargeable under the head Income from house property.

If only a part of the net consideration is so invested, so much of the capital gains as bears to the whole of the capital gain the same proportion as the cost of the new residential house bears to the net consideration shall be exempt.

If the new residential house is transferred within a period of three years from the date of purchase or construction, the amount of capital gains on which tax was not charged earlier, shall be deemed to be income chargeable under the head ‘Capital gains’ of the year in which the residential house is transferred.

C) Non-Resident Indians

Further, a Non-Resident Indian has the option to be governed by the provisions of Chapter XII-A of the Act, which reads as under:

1. In accordance with Section 115E, income from investment or income from long-term capital gains on transfer of assets other than specified asset shall be taxable at the rate of 20% (plus education cess and secondary and higher secondary education cess). Income by way of long term capital gains in

respect of a specified asset (as defined in Section 115C (f)), shall be chargeable at 10% (plus education cess and secondary and higher secondary education cess).

2. In accordance with Section 115F, subject to the conditions and to the extent specified therein, long-term capital gains arising from transfer of shares of the company acquired out of convertible foreign exchange and on which securities transaction tax is not payable, shall be exempt from capital gains tax, if the net consideration is invested within six months of the date of transfer in any specified new asset.
3. In accordance with Section 115G, it is not necessary for a Non-Resident Indian to file a return of income under Section 139(1), if his total income consists only of investment income earned on shares of the company acquired out of convertible foreign exchange or income by way of long-term capital gains earned on transfer of shares of the company acquired out of convertible foreign exchange or both, and the tax deductible has been deducted at source from such income under the provisions of Chapter XVII-B.
4. In accordance with Section 115-I, where a Non-Resident Indian opts not to be governed by the provisions of Chapter XII-A for any assessment year, his total income for that assessment year (including income arising from investment in the company) will be computed and tax will be charged according to the other provisions of the Act.

As per Section 115H, where a non-resident Indian becomes assessable as a resident in India, he may furnish a declaration in writing to the assessing officer, along with his return of income for that year under Section 139, to the effect that the provision of Chapter XII-A shall continue to apply to him in relation to such investment income derived from the specified assets for that year and subsequent assessment years until such assets are converted into money.

The tax rates and consequent taxation mentioned above will be further subject to any benefits available under Tax Treaty, if any, between India and the country in which the non-resident has fiscal domicile. As per provisions of Section 90(2), would prevail over the provisions of the Tax Treaty to the extent they are more beneficial to the non-resident.

5. As per the provisions of Section 90(2), the NRI shareholder has an option to be governed by the provisions of the Tax Treaty, if they are more beneficial than the domestic law wherever India has entered into DTAA with the relevant country for avoidance of double taxation of income.
6. In accordance with Section 10(38), any income arising from the transfer of a long term capital asset being an equity share in a company is not includible in the total income, if the transaction is chargeable to securities transaction tax.
7. In accordance with Section 10(34), dividend income declared, distributed or paid by the Company (referred to in Section 115-O) will be exempt from tax.
8. In accordance with Section 111A, capital gains arising from the transfer of a short term asset being an equity share in a company or a unit of an equity oriented fund where such transaction has suffered securities transaction tax is chargeable to tax at the rate of 15% (plus applicable surcharge and education cess and secondary and higher secondary education cess). If the provisions of Section 111A, are not applicable to the short term capital gains, then the tax will be chargeable at the applicable normal rates plus surcharge and education cess and secondary and higher secondary education cess.
9. Under Section 54EC, long term capital gain arising on the transfer of shares of the Company [other than the sale referred to in Section 10(38)] is exempt from tax to the extent the same is invested in certain notified bonds within a period of six months from the date of such transfer (upto a maximum limit of Rs 5.00 million) for a minimum period of three years.
10. In accordance with Section 54F, long-term capital gains arising on the transfer of the shares of the Company held by an individual or Hindu Undivided Family on which securities transaction tax is not payable, shall be exempt from capital gains tax if the net consideration is utilised, within a period of one year before, or two years after the date of transfer, in the purchase of a new residential house, or for construction of a residential house within three years subject to regulatory feasibility. Such benefit will not be available if the individual or Hindu Undivided Family-

- (a) owns more than one residential house, other than the new residential house, on the date of transfer of the shares; or

- (b) purchases another residential house within a period of one year after the date of transfer of the shares; or
- (c) constructs another residential house within a period of three years after the date of transfer of the shares; and
- (d) the income from such residential house, other than the one residential house owned on the date of transfer of the original asset, is chargeable under the head 'Income from house property'.

If only a part of the net consideration is so invested, so much of the capital gains as bears to the whole of the capital gain the same proportion as the cost of the new residential house bears to the net consideration shall be exempt.

If the new residential house is transferred within a period of three years from the date of purchase or construction, the amount of capital gains on which tax was not charged earlier, shall be deemed to be income chargeable under the head 'Capital gains' of the year in which the residential house is transferred.

D) Foreign Institutional Investors (FIIs)

1. In accordance with Section 10(34), dividend income declared, distributed or paid by the domestic company (referred to in Section 115-O) will be exempt from tax.
2. In accordance with Section 115AD, FIIs will be taxed at 10% (plus applicable surcharge and education cess) on long-term capital gains (computed without indexation of cost and foreign exchange fluctuation), if securities transaction tax is not payable on the transfer of the shares and at 15% (plus applicable surcharge and education cess and secondary and higher secondary education cess) in accordance with Section 111A on short-term capital gains arising on the sale of the shares of the company which is subject to securities transaction tax. If the provisions of Section 111A are not applicable to the short-term capital gains, then the tax will be charged at the rate of 30% plus applicable surcharge and education cess and secondary and higher secondary education cess, as applicable.

In accordance with Section 10(38), any income arising from the transfer of a long term capital asset being an equity share in a company is not includible in the total income, if the transaction is chargeable to securities transaction tax.

3. As per the provisions of Section 90(2), the Non Resident shareholder has an option to be governed by the provisions of the Tax Treaty, if they are more beneficial than the domestic law wherever India has entered into Double Taxation Avoidance Agreement (DTAA) with the relevant country for avoidance of double taxation of income.
4. Under Section 196D (2), no deduction of tax at source will be made in respect of income by way of capital gain arising from the transfer of securities referred to in Section 115AD.
5. Under Section 54EC, long term capital gain arising on the transfer of shares of the Company [other than the sale referred to in Section 10(38)] is exempt from tax to the extent the same is invested in certain 'Long term specified asset' within a period of six months from the date of such transfer (upto a maximum limit of Rs 5.0 million) for a minimum period of three years.

E) Persons carrying on business or profession in shares and securities.

Under Section 36(1)(xv), securities transaction tax paid by a shareholder in respect of taxable securities transactions entered into in the course of its business, would be allowed as a deduction if the income arising from such taxable securities transactions is included in the income computed under the head 'Profits and Gains of Business or Profession'.

A non resident taxpayer has an option to be governed by the provisions of the Act or the provisions of a Tax Treaty that India has entered into with another country of which the investor is a tax resident, whichever is more beneficial (Section 90(2)).

F) Mutual Funds

Under Section 10(23D), exemption is available in respect of income (including capital gains arising on transfer of shares of the Company) of a Mutual Fund registered under the Securities and Exchange Board of India Act, 1992 or such other Mutual fund set up by a public sector bank or a public

financial institution or authorized by the Reserve Bank of India and subject to the conditions as the Central Government may specify by notification.

2. Gift tax is not leviable in respect of any gifts made on or after 1st October, 1998. Any gift of shares of the Company is not liable to gift-tax. However, in the hands of the Donee the same will be treated as income subject to certain conditions unless the gift is from a relative as defined under Explanation to Section 56(vi) of Income-tax Act, 1961.

Special Tax Benefits to the Shareholders of the Company.

There are no special benefits accruing to the Shareholders of the company.

Notes:

1. The above statement of possible tax benefits are as per the current direct tax laws relevant for the assessment year 2011-12. Several of these benefits are dependent on the Company or its shareholder fulfilling the conditions prescribed under the relevant tax laws. However, proposed amendments wherever applicable have been specifically mentioned as per Finance bill 2011.
2. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant DTAA, if any, between India and the country in which the non-resident has fiscal domicile.
3. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.
4. Direct Tax Code Bill, 2010, which is going to substitute the existing Indian Income-tax Act, 1961 and Wealth-tax Act, 1957, is placed before the Parliament and is not considered in the above statement.

THE INDIAN ECONOMY

Overview

India is the world's largest democracy in terms of population (approximately 1.17 billion people) as at July 2010 with a GDP, on a purchasing power parity basis ("PPP"), of approximately US\$ 4,046 billion i.e. ₹ 183,162.42 million in 2010. (Source: www.cia.gov/library/publications/the-world-factbook/index.html, accessed on March 21, 2011 ("CIA World Factbook") and International Monetary Fund, World Economic Outlook Database, April 2010, accessed on November 24, 2010). This makes it the fifth largest economy in the world in terms of GDP after the European Union, United States of America, China and Japan. (Source: CIA World Factbook) In the past, India has experienced rapid economic growth, with its GDP growing at an average growth rate of 8.8% between Fiscal Year 2003 and Fiscal Year 2008. As a result of the global economic downturn, this high growth trajectory was impeded in Fiscal Year 2009, with the growth rate of India's GDP decelerating to 5.9% in the second half of Fiscal Year 2009, compared to 7.3% in Fiscal Year 2008. (Source: RBI, Macroeconomic and Monetary Developments: First Quarter Review: 2009-10 ("RBI First Quarter Review"))

However, in Fiscal Year 2010, according to the Indian Ministry of Statistics and Programme Implementation, India's GDP grew by 8.8%. During the third quarter of Fiscal Year 2011, India's GDP growth rate was 8.2% (over the corresponding quarter of the previous year), compared with a growth rate of 7.3% during the third quarter of Fiscal Year 2010 (over the corresponding quarter of the previous year). The table below sets out the comparison between India's Real GDP Growth in 2008 and 2009, and its expected GDP growth during the 2010 and 2011 calendar years, as compared to that of the European Union, United States of America, China, Japan and other Newly Industrialized Asian Economies²:

	Real GDP			
	Actual		Projected	
	2009	2010	2011	2012
Euro Area ¹	-4.1	1.8	1.5	1.7
United States.....	-2.6	2.8	3.0	2.7
China.....	9.2	10.3	9.6	9.5
Japan	-6.3	4.3	1.6	1.8
India.....	5.7	9.7	8.4	8.0
Newly Industrialized Asian Economies ²	-0.9	8.2	4.7	4.3

¹ The Euro Area is comprised of Germany, France, Italy, Spain, Netherlands, Belgium, Greece, Austria, Portugal, Finland, Ireland, Slovak Republic, Slovenia, Luxembourg, Cyprus and Malta.

² Newly Industrialized Asian Economies comprises Korea, Taiwan Province of China, Hong Kong SAR and Singapore.

(Source: International Monetary Fund, World Economic Outlook Update, January 2011 ("IMF World Economic Outlook Update January 2011"))

The table above illustrates that positive real GDP growth was experienced in 2010. According to the IMF World Economic Outlook Update January 2011, there have been four principal factors that have supported Asia's recovery: firstly, the rapid normalization of trade, following the financial dislocation in late 2008, benefited Asia's export-driven economies; secondly, the bottoming out of the inventory cycle, both domestically and in major trading partners such as the United States, is boosting industrial production and exports; thirdly, a resumption of capital inflows into the region has created abundant liquidity in many economies; and fourthly, domestic demand has been resilient, owing to strong public and private companies in many of the region's economies. The IMF believes that, in both China and India, particularly, strong domestic demand will support the recovery. In India, the growth in real GDP will be supported by rising private demand, with consumption strengthening as a result of improvements in the labor market, and a boost to investment brought about by strong profitability, rising business confidence and favorable financing conditions.

The IMF estimates that in both 2011 and 2012, growth in emerging and developing economies is expected to remain buoyant at 6.5%, a modest slowdown from the 7% growth registered last year and broadly unchanged from the October 2010 World Economic Outlook. POLICY INITIATIVES AND ECONOMIC REFORMS IN INDIA

Since 1991, India has witnessed comprehensive reforms across the policy spectrum in the areas of fiscal and industrial policy, trade and finance. Some of the key reform measures are:

- **Industrial Policy Reforms:** Removal of capacity licensing and opening up most sectors to Foreign Direct Investment ("FDI");
- **Trade Policy Reforms:** Lowering of import tariffs across industries, minimal restrictions on imports; and
- **Monetary Policy and Financial Sector Reforms:** Lowering interest rates, relaxation of restrictions on fund movement and the introduction of private participation in insurance sector.

In addition, FDI has been recognized as one of the important drivers of economic growth in the country. The Government of India has taken a number of steps to encourage and facilitate FDI, and FDI is allowed in many key sectors of the economy, such as manufacturing, services, infrastructure and financial services. For many sub-sectors, 100% FDI is allowed on an automatic basis, without prior approval from the Foreign Investment Promotion Board.

FDI inflows into India have accelerated since Fiscal Year 2007. From April 2000 through January 2011, FDI equity inflows into the services sector (both financial and non-financial) of India amounted to ₹ 1,189 billion (US\$ 26,265 million). In addition, from August 1991 to January 2011, the cumulative amount of FDI equity inflows amounted to ₹ 6,303 billion (US\$ 139,231 million). FDI inflows into India were US\$ 34,835 million (₹ 1,576,980 million), US\$ 37,838 million (₹ 1,712,926 million) and US\$ 37,763 million (₹ 1,709,531 million) in Fiscal Years 2008, 2009, and 2010, respectively, and US\$ 22,058 million (₹ 998,566 million) up to January 2011 in Fiscal Year 2011. STRUCTURE OF INDIA'S FINANCIAL SERVICES INDUSTRY

The RBI is the central regulatory and supervisory authority for the Indian financial system. The Board for Financial Supervision ("BFS"), constituted in November 1994, is the principal body responsible for the enforcement of the RBI's statutory regulatory and supervisory functions. SEBI and IRDA regulate the capital markets and the insurance sector respectively.

A variety of financial institutions and intermediaries, in both the public and private sector, participate in India's financial services industry. These include:

- commercial banks;

- Non-Banking Finance Companies;
- specialized financial institutions, such as the National Bank for Agriculture and Rural Development, the Export-Import Bank of India, the Small Industries Development Bank of India and the Tourism Finance Corporation of India;
- securities brokers;
- investment banks;
- insurance companies;
- mutual funds; and
- venture capital funds.

NON-BANKING FINANCE COMPANIES

NBFCs are an important component of the overall Indian financial system. NBFCs are a group of institutions which perform the function of financial intermediation in a wide variety of ways, for example, by accepting deposits, making loans and advances and financing leasing and hire purchase transactions. NBFCs typically advance loans to various wholesale and retail traders, small-scale industries and self-employed persons, which means that they offer a broad and diversified range of products and services. Key characteristics of NBFCs include:

- customer-oriented services;
- simplified procedures for transaction execution;
- attractive rates of return on deposits; and
- flexibility and timely reaction in meeting the credit needs of specified sectors.

The structure and operations of NBFCs are regulated by the RBI, within the framework of Chapter III B of the RBI Act and the directions issued by it under the RBI Act. As set out in the RBI Act, a "non-banking financial company" is defined as:

- a financial institution which is a company;
- a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or
- such other non-banking institution or class of such institutions, as the bank may, with the previous approval of the central Government and by notification in the Official Gazette, specify.

Under the provisions of the RBI Act, it is mandatory for a NBFC to be registered with the RBI. For such registration with the RBI, a company incorporated under the Companies Act and which wishes to commence business as a NBFC, must have a minimum net owned fund ("**NOF**") of ₹ 20,000,000. A NOF refers to funds (paid-up capital and free reserves, less accumulated losses, deferred revenue expenditure and other intangible assets) less, (i) investments in shares of subsidiaries/companies in the same group or all other NBFCs; and (ii) the book value of debentures/bonds/outstanding loans and advances, including hire-purchase and lease finance made to, and deposits with, subsidiaries/companies in the same group, in excess of 10% of the owned funds.

The registration process involves the submission of an application by the company in a prescribed format along with the necessary documents for the RBI's consideration. If the RBI is satisfied that the conditions set out in the RBI Act are fulfilled, it issues a "Certificate of Registration" to the company. Not all NBFCs are entitled to accept public deposits. Only those NBFCs holding a valid Certificate of Registration with authorization to accept public deposits can accept and hold public deposits. In addition to having the minimum stipulated NOF, NBFCs should also comply with directions issued by the RBI, which include investing a portion of the funds in liquid assets as well as maintaining reserves and ratings. The NBFCs accepting public deposits should comply with the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998, as issued by the RBI, which stipulate that:

- NBFCs are allowed to accept or renew public deposits for a minimum period of 12 months and maximum period of 60 months;

- NBFCs cannot accept deposits repayable on demand;
- NBFCs cannot offer interest rates higher than the ceiling rate prescribed by RBI from time to time;
- NBFCs cannot offer gifts, incentives or any other additional benefit to the depositors;
- NBFCs should have a minimum of an investment grade credit rating;
- NBFCs deposits are not insured; and
- The repayment of deposits by NBFCs is not guaranteed by RBI.

NBFCs are required to adhere to the Prudential Norms Directions which, amongst other requirements, prescribe guidelines regarding income recognition, asset classification, provisioning requirements, constitution of audit committee, capital adequacy requirements, concentration of credit/investment and norms relating to infrastructure loans.

NBFCs are also required to put in place appropriate internal principles and procedures in determining interest rates and processing and other charges in terms of the RBI circular dated May 24, 2007. In addition to the aforesaid, NBFCs are required to adopt an interest rate model for regulating the rates of interest charged by them in accordance with the Master Circular on Fair Practices Code dated July 1, 2010 issued by the RBI to all NBFCs. See the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

Initially, NBFCs were classified into the following categories by the RBI:

- equipment leasing companies** - any financial institution whose principal business is that of leasing equipment or the financing of equipment leasing;
- hire-purchase companies** - any financial intermediary whose principal business relates to hire-purchase transactions or financing of hire-purchase transactions;
- loan companies** - any financial institution whose principal business is that of providing finance, whether by making loans or advances or otherwise for any commercial activity other than its own (excluding any equipment leasing or hire-purchase finance activity); and
- investment companies** - any financial intermediary whose principal business is that of buying and selling securities.

However, with effect from December 6, 2006, these types of NBFCs have been reclassified as follows:

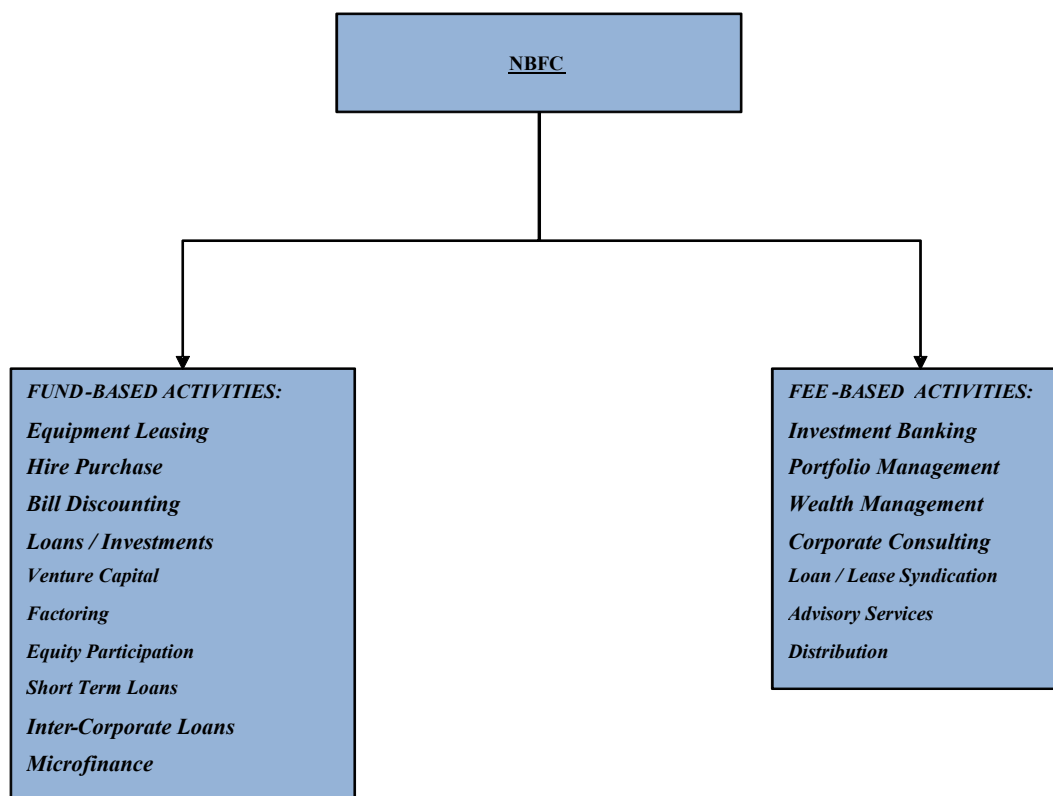

- asset finance companies** - NBFCs whose principal business is that of financing the physical assets which support various productive and economic assets in India. "Principal business" for this purpose means that the aggregate of financing real/physical assets supporting economic activity and income arising therefrom is not less than 60% of total assets and total income respectively;
- investment companies** - NBFCs whose principal business is that of the acquisition of securities; and
- loan companies** - NBFCs whose principal business is that of providing finance whether by making loans or advances or otherwise for any activity other than its own, but does not include an equipment leasing company or a hire-purchase finance company.

The above mentioned companies may be further classified into those accepting deposits or those not accepting deposits. (Source: www.rbi.org.in/scripts/FAQView.aspx?Id=71, accessed on March 23, 2011)

In addition, and following the Second Quarter Review of the Monetary Policy for the Year 2009-10, the RBI introduced a fourth category of NBFCs known as "Infrastructure Finance Companies", which were defined as entities which hold a minimum of 75% of their total assets for the purposes of financing infrastructure projects. See the section titled "*Providers of Infrastructure Finance - Infrastructure Finance Companies*", below. (Source: <http://rbi.org.in/scripts/NotificationUser.aspx?Id=5326&Mode=0#P178> accessed on March 23, 2011)

The indicative list of commercial activities that NBFCs typically undertake in India is illustrated in the following diagram:

Core Investment Companies

NBFCs carrying on the business of the acquisition of shares and securities, and which hold not less than 90% of its total assets in the form of investments in equity shares, preference shares, debt or loans in group companies and are in compliance with other conditions provided in the RBI Circular dated August 12, 2010, are eligible to be classified as CICs.

Every CIC that complies with the conditions described in the RBI Circular dated August 12, 2010 is eligible to apply to the RBI for an exemption from the requirements of maintaining the statutory minimum NOF and the requirements of the Prudential Norms Directions, including requirements of capital adequacy and exposure norms. For further details, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

THE INFRASTRUCTURE FINANCE INDUSTRY IN INDIA

Providers of Infrastructure Finance

The primary providers of infrastructure finance in India are financial institutions, public sector banks and other public sector institutions, private banks, foreign banks and multilateral development institutions.

Financial institutions

Financial institutions provide medium- and long-term financial assistance across various industries to establish new projects and for the expansion and modernization of existing facilities. These institutions provide both fund-based and non-fund based assistance in the form of loans, underwriting, direct subscription to shares, debentures and guarantees. The primary long-term lending institutions include India Infrastructure Finance Company Limited, IFCI Limited, Industrial Development Bank of India Limited and Small Industries Development Bank of India.

In addition, there are various specialized financial institutions which cater to the specific needs of various sectors. These include the National Bank for Agricultural and Rural Development, Export-Import Bank of India, IFCI Venture Capital Funds Limited (formerly the Risk Capital and Technology Finance Corporation Limited), Tourism Finance Corporation of India Limited, Housing and Urban Development

Corporation Limited, Power Finance Corporation Limited, Infrastructure Leasing & Financial Services Limited, Rural Electrification Corporation Limited and Indian Railway Finance Corporation Limited.

State level financial institutions

State financial corporations, such as Maharashtra State Financial Corporation, Delhi Financial Corporation and Madhya Pradesh Financial Corporation, were set up to finance and promote small and medium term enterprises at a state level and they form an integral part of the institutional financing system. There are also state industrial development corporations operating at state level, which provide finance primarily to medium- to large-sized enterprises. These include Maharashtra Industrial Development Corporation, Gujarat Industrial Development Corporation and Madhya Pradesh Industrial Development Corporation

Public sector banks and other public sector institutions

Public sector banks make up the largest category of banks in the Indian banking system. The primary public sector banks operating in the infrastructure finance sector include IDBI Bank, State Bank of India, Punjab National Bank, Canara Bank and the Bank of Baroda. Other public sector entities, for example, the Life Insurance Corporation of India, also provide financing to the infrastructure sector.

Private sector banks

After completion of the first phase of the bank nationalization in 1969, the majority of Indian banks were public sector banks. Some existing private sector banks, which showed signs of an eventual default, were merged with state-owned banks. In July 1993, as part of the banking reform process and to induce competition in the banking sector, the RBI permitted entry by the private sector into the banking system resulting in the introduction of nine private sector banks which are collectively known as the "new" private sector banks.

Infrastructure Finance Companies

In February 2010, the RBI introduced IFCs as a new category of infrastructure funding entities. NBFC-NDs which satisfy the following conditions are eligible to apply to the RBI to seek IFC status:

- a minimum of 75% of its assets deployed in infrastructure loans;
- net owned funds of at least ₹ 3,000.00 million;
- minimum credit rating "A" or an equivalent rating by CRISIL, FITCH, CARE, ICRA or any other accrediting agencies; and
- Capital to Risk (Weighted) Assets Ratio of 15% (with a minimum Tier 1 capital of 10%).

IFCs enjoy benefits which include a lower risk weight on their bank borrowings (from a flat 100% to as low as 20% for AAA-rated borrowers), higher permissible bank borrowing (up to 20% of the bank's net worth compared to 15% for an NBFC that is not an IFC), access to external commercial borrowings (up to 50% of owned funds under the automatic route) and relaxation in their single party and group exposure norms. These benefits should enable a highly rated IFC to raise more funds, of longer tenors and at lower costs, and in turn to lend more to infrastructure companies.

Sectoral Focus

The Planning Commission estimates that approximately ₹ 20.5 trillion will be required in the 11th Five Year Plan. The major contributors are expected to be the electricity, roads, telecommunications, railways and irrigation sectors. The table below sets forth the details of these projected investments (the figures in brackets indicate the percentage of the total):

The Power Sector

Electricity demand has grown at a CAGR of 7% between Fiscal Year 2005 and Fiscal Year 2010. Power demand is expected to grow at a CAGR of 7.8% between Fiscal Year 2010 and Fiscal Year 2015. This growth in demand is due to growth in India's GDP and increased power generation in India, which is expected to lead to increased and improved availability of power. (**Source:** CRISIL Research, Power, November 2010)

CRISIL Research estimates capacity additions in the power sector to be approximately 82 GW over the next five years between Fiscal Year 2011 and Fiscal Year 2015. In addition, captive capacity additions of 13.0 GW are estimated for the same period. The private sector is expected to lead these capacity additions with a share of 45.5 GW. (**Source:** CRISIL Research, Power, November 2010)

P - Projected

(**Source:** Power Update, CRISIL Research, June 2010)

These capacity additions are expected to present an investment potential of ₹ 9.3 trillion over the next five years, with generation (both utilities and captive) contributing a portion of ₹ 5.8 trillion. (*Source: Power Update, CRISIL, June 2010*)

Though generation capacity addition in the first half of Fiscal Year 2011 continued from the momentum gained in Fiscal Year 2010, fuel supply has emerged as a major challenge with plant load factors dropping across sectors. This is especially worrisome considering that fuel supply is posing challenges even though capacity additions still lag government targets. (*Source: CRISIL Research, Power, November 2010*)

Investment in the transmission and distribution sector (the "T&D Sector") is expected to grow at a CAGR of 16% over the next five years, vis-a-vis a CAGR growth of approximately 15% in generation. Over the next five years, CRISIL Research expects total investment in the generation segment (i.e. utilities) to be approximately ₹ 5.1 trillion, with the private sector likely to account for approximately 57% of it. Whilst an investment of approximately ₹ 0.75 trillion is anticipated in respect of captive generation and an investment of ₹ 3.4 trillion is expected in the T&D sector. (*Source: CRISIL Research, Power, November 2010*)

Roads Sector

According to CRISIL Research, government investments in the roads and highway sector over the next five years is likely to be approximately ₹ 6.3 trillion. National highways are expected to comprise a large share of the total investments at approximately 43% followed by state highways and rural roads at approximately 30% and 27%, respectively. (*Source: Roads and Highways Annual Review, CRISIL Research, June 2010 ("Roads and Highways Annual Review, June 2010")*)

Of the ₹ 6.3 trillion funding required in the roads and highways sector over the next five years, approximately ₹ 4.4 trillion is expected to be contributed by the public sector mainly in the form of grants and annuity payments. While the remaining ₹ 1.9 trillion is expected to be funded by the private sector primarily through BOT-Toll and BOT-Annuity contracts. (*Source: CRISIL Research, Roads and Highways June 2010*)

As road projects are highly leveraged, banks and financial institutions play a vital role in financing road projects. The outstanding portfolio of banks for roads and ports has grown at a compounded rate of 29% in the last five years. During this period, the total incremental lending by banks to the roads and ports sectors amounted to ₹ 3145 billion. (*Source: CRISIL Research, Roads and Highways June 2010*)

In addition, the Government has approved refinancing through IIFCL amounting to ₹ 1 trillion towards infrastructure sectors, out of which nearly ₹ 30 billion has been refinanced in Fiscal Year 2010 pursuant to the Union Budget 2010-11. (*Source: Roads : CRISIL Research, Roads and Highways June 2010*)

Ports Sector

With the Indian economy expected to continue on its growth path, the country's external trade is also likely to keep growing. Thus Indian ports are expected to see an increase in traffic over the next few years. CRISIL Research estimates this traffic will grow at a CAGR of approximately 7% to 978 million tonnes from Fiscal Year 2010 to Fiscal Year 2012, led by coal and container traffic (*Source: Ports, CRISIL Research, November 2010 ("Ports Update, November 2010")*).

Traffic at Non-major ports is expected to grow at 12.8% to 367 million tonnes from Fiscal Year 2010 to Fiscal Year 2012, mainly driven by coal traffic since many power plants are being established in close proximity to the non-major ports and given congestion, connectivity issues and other operational inefficiencies at major ports. CRISIL Research estimates that traffic at major ports will grow at 4.4% to 611 million tonnes in Fiscal Year 2012. (*Source: Ports Update, November 2010*)

Between Fiscal Year 2011 and Fiscal Year 2015, CRISIL Research expects approximately ₹ 838 billion to be invested in the ports sector, with approximately ₹ 469.00 billion expected to be invested towards planned capacity addition of 328 million tonnes in major ports such as Paradip, Visakhapatnam, Chennai and the Jawaharlal Nehru Port Trust by Fiscal Year 2015. Whilst an investment of ₹ 369.00 billion is expected to be invested in non-major ports towards a planned capacity expansion of 491 million tonnes in the same period. This includes new ports such as Dhamra and Kalinga and additional capacity ports such as Mundra and Krishnapatnam. (*Source: Ports Update, November 2010*)

Oil and Gas Sector

The oil and gas sector contributes to approximately 45% of India's primary energy requirements. Crude oil demand is approximately 146 MMT while the domestic production of crude oil is approximately 34 MMT. Natural gas demand is approximately 179 MMSCMD while the domestic supply is approximately 80 MMSCMD. The demand-supply disparity is likely to decrease in the near future due to several major gas discoveries, particularly those in the Krishna Godavari basin. (*Source: The Investment Commission, Government of India, http://www.investmentcommission.in/oil_&_gas_exploration.htm, accessed on November 24, 2010*)

The consumption of all petroleum products in India has risen from 100 M MT in Fiscal Year 2002 to 138 MMT in Fiscal Year 2010. It is further estimated by Fiscal Year 2010 demand for petroleum products will be approximately 146 MMT.

The table below sets forth the consumption of petroleum products for the periods indicated:

On a per capita basis, energy consumption in India is relatively low in comparison to the rest of the world. In 2008, India's per capita energy consumption was approximately 17.5 million BTUs, compared to a global average of approximately 73.6 million BTUs (*Source: The U.S. Energy Information Administration, November 2010, <http://tonto.eia.doe.gov/cfapps/ipdbproject/IEDIndex3.cfm>*). Currently, there is however a mismatch between the demand and supply for both natural gas and crude oil in India, with the demand for both sources of energy outweighing the domestic production.

According to the Investment Commission of India, crude oil demand is likely to increase to approximately 235 MMT by 2012. Rising global crude oil prices have triggered increased exploration and production focus to expand domestic production. Similarly, gas demand is expected to reach 279 MMSCMD by 2012 which translates to a CAGR of 12% from 2007. This increase is due to the increased use of gas for power generation, petrochemicals, fertilizers and city gas distribution. (*Source: The Investment Commission, Government of India, http://www.investmentcommission.in/oil_&_gas_exploration.htm, accessed on November 24, 2010*)

A growing demand-supply mismatch provides opportunities for investment in the oil and gas sector, particularly in the exploration and production of crude oil, gas and coal-bed methane gas. The government is actively promoting the creation of strategic oil and gas reserves through partnerships with the private sector. Approximately 22% of the Indian sedimentary area is unexplored. Discovery of oil fields by investors such as Cairn Energy and companies such as Reliance Industries Limited and Oil and Natural Gas Corporation indicate potential for profitable investment in exploration. It is estimated that approximately US\$ 40 billion (₹ 1,811 billion) is required for exploration and production by 2012.

Telecommunications Sector

The telecommunications sector has grown at a rapid pace in the last five years, largely due to the growth of the mobile services segment. In Fiscal Year 2009, the mobile subscriber base grew to 391 million from 57 million in Fiscal Year 2005. As on December 31, 2010, the mobile subscriber base had grown to 752 million. (Source: Press Release No. 11/2011, Telecom Regulatory Authority of India). CRISIL Research estimates revenues of mobile service providers grew by approximately 20% year-on-year in Fiscal Year 2009. During April to September 2009, revenue growth dropped to 12% year-on-year, despite a 23% growth in its subscriber base, reflecting growing competition and pricing pressure in the market. (Source: CRISIL Research, Telecom Services January 2010)

CRISIL Research estimates cumulative investments of ₹ 2.5 trillion to flow into the telecommunications sector between Fiscal Year 2010 and Fiscal Year 2014. With the mobile subscriber base expected to expand at an 11% CAGR during the same period, over 90% of the projected investments are expected to be utilized in the mobile services sector, a large proportion of which will be committed to active equipment. THE RETAIL FINANCE INDUSTRY IN INDIA

Construction Equipment Finance Overview

Construction activity forms an important part of a growing economy such as India. The share of construction in GDP of India has increased from 6.1% in Fiscal Year 2003 to 8.3% in Fiscal Year 2010. The increase in the share of the construction sector in GDP has primarily been due to increased government spending on physical infrastructure in the last few years, with programmes such as the National Highway Development Programme, Pradhan Mantri Gram Sadak Yojana and Bharat Nirman Programme. (Source: Ministry of Statistics and Programme Implementation, India http://mospi.nic.in/Mospi_New/site/PressRelease.aspx?status=1&menu_id=15, accessed on November 24, 2010; 11th Five Year Plan for Agriculture, Rural Development, Industry, Services and Physical Infrastructure (the "11th Five Year Plan") http://planningcommission.nic.in/plans/planrel/fiveyr/11th/11_v3/11th_vol3.pdf, accessed on November 24, 2010)

The contribution of construction to the GDP at current prices in Fiscal Year 2010 was ₹ 488,345 million, registering an increase of 8.5% from the previous year. The construction industry is experiencing an upsurge in the quantum of the work load, and has grown at the CAGR of 16.5% since Fiscal Year 2006. (*Source: 11th Five Year Plan; CSO, India*)

The construction industry in India is faced with high operation, maintenance, and financial costs. This aspect is further exacerbated by inadequate access to institutional finance, especially for small contractors who execute over 90% of the total construction works in India. It is estimated that a total investment of ₹ 14,500 billion will be required in the eleventh five year plan of India for execution of the planned infrastructure construction. In addition, ₹ 1,800 billion will be required for construction equipment. (*Source: 11th Five Year Plan*)

In the private sector, approximately 200 manufacturers cater to the construction equipment market. Public limited companies (including public sector units) constitute approximately 71% of the sector, while private limited companies or joint ventures constitute approximately 29%. India imports construction machinery worth approximately US\$ 181 million (₹ 8,194 million) in 2009. (*Source: India Brand Equity Foundation, Construction Equipment, April 2010*)

Transport Equipment Finance Overview

On a global scale, the Indian automotive industry is the second largest two-wheeler market in the world, the fifth largest commercial vehicle market in the world, and the ninth largest passenger vehicle market in the world. (*Source: <http://www.indiainbusiness.nic.in/industry-infrastructure/industrial-sectors/automobile.htm>, accessed on March 23, 2011*) As one of the largest industrial sectors in India, turnover of the automotive industry represents approximately 5.0% of India's GDP, while contributing nearly 17.0% to total indirect taxes. Although the automotive industry provides direct and indirect employment to over 13 million people, the penetration levels for vehicles in India are amongst the lowest in the world. (*Source: The Automotive Mission Plan, 2006-16, <http://www.siamindia.com/upload/AMP.pdf> accessed on March 23, 2011*)

The transport equipment finance segment has experienced growing demand due to several factors, which include:

- a large network of roads being constructed across the country thereby facilitating better connectivity between destinations;
- construction of four lane and six lane highways, expressways and bypass roads which has reduced congestion and improved turnaround time of commercial vehicles;
- increasing GDP growth rates that necessitate transportation requirements for industries;
- Government regulations prohibiting use of commercial vehicles that are more than eight years old;
- several international manufacturers setting up production units in India such as Volvo, Mercedes Benz, Tata;
- shift in the market towards usage of high tonnage vehicles capable of carrying long cargo volumes speedily;
- majority of the commercial vehicles sold are with financial assistance either from banks or NBFCs; and
- small road transport operators have been included in the priority sector list by the RBI.

The commercial vehicle industry is segmented into "light commercial vehicles" (for vehicles with gross vehicle weight of less than 7.5 tons) and "medium and heavy commercial vehicles" (for vehicles weighing more than 7.5 tons). The performance of the medium and heavy commercial vehicle industry bears a high correlation with industrial growth, and is driven by economic development, improved road infrastructure (such as the Golden Quadrilateral) for long haulage transportation, and a favorable regulatory environment. In this regard, it is estimated that the sharp rise in demand in 2006 and 2007 was partly attributable to the strict enforcement of overloading restrictions and age norms.

The performance of the light commercial vehicle industry tends to be less cyclical in nature, and is driven by GDP growth and demand for last mile distribution. The LCV goods vehicle segment has grown strongly in the past few years, with the introduction of the sub-one tonne category (post the launch of Tata Ace in 2005-06). So far in 2010-11, (April-November 2010) the LCV segment grew 27.6 per cent (y-o-y).

This growth was driven by new model launches by Mahindra and Piaggio and growth in the agriculture, FMCG and consumer durables sectors. Going forward, the LCV segment is expected to grow 24-26 per cent in 2010-11 and about 18-20 per cent in 2011-12. (*Source: CRISIL Research, Commercial vehicles, December 2010*)

The following table illustrates the sale of commercial vehicles for the periods indicated:

Commercial Vehicles Sales Trends							Number of Vehicles

All segments of the automobile industry registered positive growth in sales during Fiscal Year 2010, with domestic sales in the commercial vehicle industry reaching 531,395 units in Fiscal Year 2010. The commercial vehicle segment registered positive growth at 38.31% during Fiscal Year 2010 as compared to the same period last year. (*Source: Society of Indian Automobile Manufacturers, <http://www.siamindia.com/scripts/domestic-sales-trend.aspx>, accessed on March 23, 2011*)

The vehicle finance industry registered a healthy growth in Fiscal Year 2010. CRISIL Research estimates disbursements towards new vehicles have risen to ₹ 796.00 billion, representing a year-on-year growth of 34%. CRISIL Research further estimates that disbursements towards commercial vehicles are expected to grow by 32% and 23% in Fiscal Year 2011 and Fiscal Year 2012, respectively. (*Source: Retail Finance-Auto, CRISIL Research, November 2010*)

The commercial vehicles industry is expected to grow by 23-25% in Fiscal Year 2011 due to sustained growth in economic activity and rise in consumption expenditure. The industry is expected to grow by 16-18% in Fiscal Year 2012 owing to sustained freight demand in line with the expected GDP growth of 8-9%. Rural Finance Overview

According to the 2001 Census Data, approximately 72.2% of the Indian population live in rural areas. (Source: http://www.censusindia.gov.in/Census_Data_2001/India_at_glance/rural.aspx, accessed on March 23, 2011). The rural economy of India is largely dependent on agriculture and allied activities. Agriculture provides the principal means of livelihood for over 58.4% of India's population and contributes approximately one-fifth to the total GDP. (Source: <http://india.gov.in/sectors/agriculture/index.php>, accessed on March 23, 2011)

The Government of India, along with the state governments, have implemented strategies and programmes directed at enabling farmers to own tractors, power tillers, harvesters and other agricultural machinery. (Source: http://india.gov.in/sectors/agriculture/agricultural_mechanisation.php, accessed on March 23, 2011). Since the rural economy is linked to agriculture, rural finance is primarily linked to financing agriculture and allied activities and financing equipment, particularly tractors and other farm equipment.

India is the largest manufacturer of tractors in the world. (Source: <http://www.indiainbusiness.nic.in/industry-infrastructure/industrial-sectors/automobile.htm>, accessed on March 23, 2011)

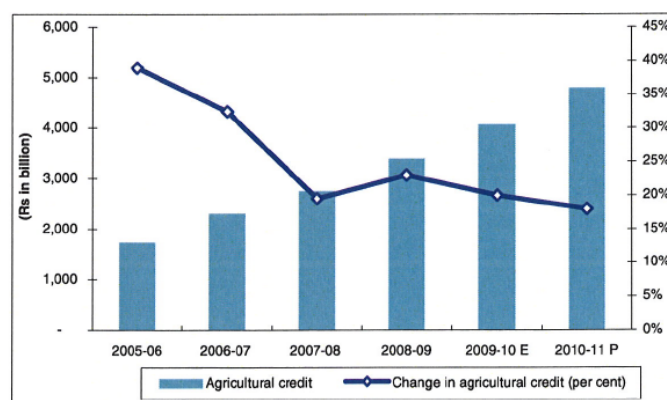

The key factors which affect rural demand, particularly in relation to tractors, are depicted in the diagram below:

(Source: Tractors, CRISIL Research, September 2010 ("CRISIL Research, Tractors, September 2010"))

CRISIL Research estimates total tractor volumes to grow by 17-19% in Fiscal Year 2011, with domestic sales growing by 15-16% and exports increasing by 42-45%. Sustained growth in farm income levels with expectation of good crop is expected to aid growth. According to CRISIL Research, the industry has grown at a CAGR of 18-20% from Fiscal Year 2005 to Fiscal Year 2010, to reach a size of around ₹ 200 billion in Fiscal Year 2010. The Indian tractor industry is expected to reach ₹ 320-330 billion by Fiscal Year 2015, a CAGR of 8-10%. (Source: CRISIL Research, Tractors, September 2010)

Microfinance Overview

Microfinance in the Indian context is formally defined as the provision of financial credit through loans of up to ₹ 50,000 (US\$ 1,104) to households that are traditionally considered not to be credit worthy, and

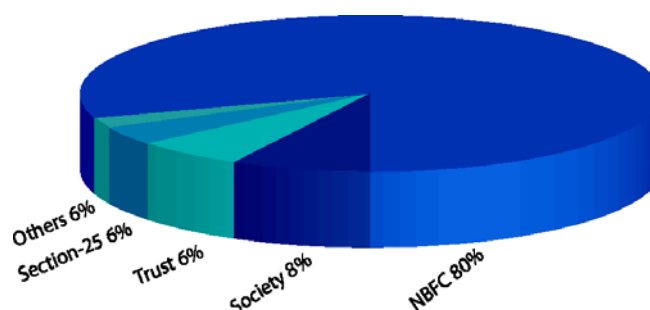

typically lack access to banking and related financial services. (*Source: Inverting the Pyramid, 2009, Indian Microfinance Coming of Age, Intelicap ("Inverting the Pyramid")*)

In the past two decades, different types of financial service providers have emerged, including non-government organizations; cooperatives, community-based development institutions such as SHGs and credit unions, commercial and state banks and MFIs.

The MFI channel includes organizations under a host of different legal forms that can be classified into two groups: for-profit organizations and not-for-profit organizations.

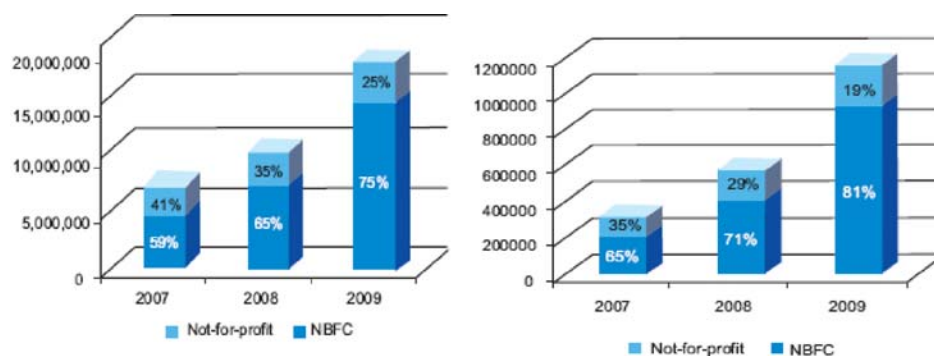

In terms of contribution to the aggregate portfolio of the MFI channel in 2009, NBFCs account for 80% of the total outstanding portfolio of ₹ 11,734 (US\$ 2.6 billion). The top three Indian MFIs, all of which are NBFCs, contributed to 48% of the total MFI portfolio. The share of NBFCs grew from 65% of the total portfolio in 2007 to 71% of the total in 2008, and to 80% in 2009. (*Source: Inverting the Pyramid*)

The following graph illustrates the NBFC share in the MFI portfolio:

(*Source: Inverting the Pyramid*)

In terms of the number of clients, NBFCs hold 75% of the approximately 18 million clients across India. The total number of clients served by the MFI channel over the years has grown from 7.3 million in 2007 to 10.3 million in 2008 and the shares of NBFCs has been growing, as shown in the tables below:

(*Source: Inverting the Pyramid*)

Demographics and demand

The measure of a person who is poor or is living in poverty is generally classified across various thresholds of daily income. The World Bank uses reference lines set at US\$ 1.25 (₹ 57) and US\$ 2 (₹ 91) per day at 2005 PPP terms. While the international poverty line is assumed at US\$ 1.25 (₹ 57) a day, a less frugal standard of US\$ 2 (₹ 90) per person per day is applied for developing countries or regions such as Latin America and Eastern Europe. (*Source: World Bank, <http://web.worldbank.org>, accessed on November 24, 2010*)

In 2008, the World Bank estimated that 1.4 billion people in the developing world were living on less than US\$ 1.25 (₹ 57) in 2005, and 2.6 billion people were living on less than US\$ 2.00 (₹ 91) per day. The World Bank also estimated that 41.6% of the population in India is below the US\$ 1.25 (₹ 57) a day PPP and 75.6% of the population are below the US\$ 2.0 (₹ 91) a day PPP poverty line, as of 2005. On a population of nearly 1.1 billion, this translates to nearly 832 million poor people below US\$ 2.00 (₹ 91) a day PPP, or approximately 177 million poor households, in India, assuming an average family size of 4.7. (*Source: World Bank, <http://data.worldbank.org>, accessed on March 23, 2011*)

According to Intellectap, the current market potential for microfinance in India is approximately ₹ 330,049 million (US\$ 73 billion). MFIs currently meet only 3.6% of this demand. (*Source: Inverting the Pyramid*)

The following table sets out the estimated demand for micro-credit:

	No. of target	Total Credit	Total Credit	Demand per	Average Credit Average Credit demand per
	households	demand	demand	household	household
		(INR crore)	(USD billion)	(INR)	(USD)

Recent developments in the microfinance industry

The state of Andhra Pradesh is said to have a unique position of leadership within Indian microfinance, evidenced by the presence of the four largest MFIs in India in the state. The state government made significant investments in subsidizing financial inclusion through self help group ("SHGs") programmes. However, tensions between the Andhra Pradesh government and MFIs grew, as MFIs began to increase financing to their customers. In addition, large capital raising exercises by MFIs has stirred political and social discord in the state and throughout the country. (*Source: Intellectap, Indian Microfinance Crisis, 2010: Turf War or a Battle of Intentions, October 2010*)

As a result, on October 15, 2010, the Government of Andhra Pradesh promulgated the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Ordinance, 2010 (the "**MFI Ordinance**") to protect women SHGs in Andhra Pradesh from exploitation by private MFIs through usurious interest rates and coercive means of recovery by regulating money lending transactions by MFIs and for achieving greater transparency with respect to such transactions in Andhra Pradesh. The MFI Ordinance provides for *inter alia* registration and cancellation of registration of MFIs, limits on interest recoverable by MFIs, prohibition on security for loans provided to SHGs and prior approval for grant of further loans to SHGs.

The MFI Ordinance provides for imposition of penalties on MFIs on account of coercive action by MFIs, carrying on business without registration and contravening the provisions of the MFI Ordinance. Such penalties include imprisonment up to a period of three years as well as fines which may extend to ₹ 100,000 and can be imposed on all persons who are connected with and responsible for the day-to-day control and management of an MFI. Subsequently, with effect from January 1, 2011, the Government of Andhra Pradesh introduced the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 (Act No. 1 of 2011) (the "**MFI Act**"). The main object of the MFI Act is to protect women SHGs in the state of Andhra Pradesh from exploitation by microfinance institutions. The MFI Act provides for *inter alia* registration and cancellation of registration of microfinance institutions, filing of periodic returns by microfinance institutions, limits on interest recoverable by microfinance institutions, prohibition on security for loans provided to SHGs and prior approval for grant of further loans to SHGs. For further details, refer to the sections titled, "*Risk Factors*" and "*Regulations and Policies in India*" on pages 17 and 186, respectively.

However according to Intellectap, certain foundations and development agencies are still ready to commit substantial amounts to the sector evidenced by the recent investment of US\$ 10 million (₹ 452.7 million) in Lok Capital by the United Kingdom's development finance arm of the government. (*Source: Intellectap, Indian Microfinance Crisis of 2010: Finding the Silver Lining, October 25, 2010*)

The board of directors of the RBI, at their meeting held on October 15, 2010 formed a sub-committee of the board (the "**Malegam Committee**") to study issues and concerns in the microfinance sector in so far as they related to the entities regulated by the RBI. The Malegam Committee submitted its report on the issues and concerns in the MFI sector on January 19, 2011. Key recommendations set out in the report include creation of separate category of NBFCs operating in the microfinance sector, such NBFCs being designated as NBFC-MFI, MFIs should lend to an individual borrower only as a member of a JLG and should have the responsibility of ensuring that the borrower is not a member of another JLG. Not more than two MFIs should lend to the same borrower and bank advances to MFIs shall continue to enjoy

“priority sector lending” status. For further details please see “*Regulations and Policies in India - Report of the Sub-Committee of the Central Board of Directors of Reserve Bank of India to Study Issues and Concerns in MFI Sector*” on page 190.

Distribution of Financial Products Overview

Financial products in India are distributed by corporate houses specializing in broking and distribution, as well as by individuals. The key financial products which are distributed in India are investment and risk assurance products, including the following:

- (1) Equity and Futures and Options ("F&O"), listed on recognized exchanges;
- (2) Mutual Funds;
- (3) Life Insurance Policies;
- (4) Fixed deposits of NBFCs and corporates; and
- (5) General insurance policies (such as health insurance and motor insurance).

Equity and F&O are mainly distributed by SEBI registered brokers and sub-brokers.

There are 8,652 brokers, 4,079 corporate brokers and 62,471 sub-brokers in India, registered with SEBI, as of Fiscal Year 2009. (**Source:** SEBI, *Handbook of Statistics on the Indian Securities Market 2009*, <http://www.sebi.gov.in/Index.jsp?contentDisp=Database>)

Mutual Funds in India are distributed only by AMFI registered Mutual Fund Advisors ("ARMFA"). As of March 2010, there were 105,300 such ARMFAs, spread over the country. (**Source:** <http://www.amfiindia.com/spages/aqu-vol9-issueIV.pdf>, accessed on November 24, 2010) Most advisors are individuals who help the mutual fund industry to reach small investors across the country.

Pursuant to the Insurance Act, 1938, insurance policies can be distributed by IRDA registered agents only. Insurance policies are distributed by an estimated 2.7 million individual agents, as of December 2010, and 2,930 corporate brokers, as of March 31, 2010. THE MUTUAL FUND INDUSTRY IN INDIA

The functions of a mutual fund in India are managed by the trustees and an AMC. The investments made by the fund are managed on a regular basis by fund managers employed by the AMC. The fund manager constructs the portfolio in light of the fund's objectives and size, internal guidelines, prudential exposure norms and regulatory restrictions, and the liquidity required for income distribution or redemption. The income earned through these investments and the capital appreciation realized are shared by its unit holders in proportion to the number of units owned by them.

History of the Mutual Fund Industry

The history of mutual funds in India can be broadly divided into four distinct phases:

First Phase - 1964-87 (The formation of the Unit Trust of India)

The Unit Trust of India ("UTI") was established as a statutory corporation in 1963 by an act of Parliament. It was initially regulated by the RBI and then, beginning in 1978, by the Industrial Development Bank of India ("IDBI"). According to the AMFI, the first fund launched by UTI was Unit Scheme 1964. At the end of 1988, UTI had ₹ 67 billion of AUM.

Second Phase - 1987-1993 (Entry of other state owned funds)

In 1987, other mutual funds were set up by state owned banks and insurance companies. State Bank of India Mutual Fund was established in June 1987 followed by Canbank Mutual Fund (December 1987), Punjab National Bank Mutual Fund (August 1989), Indian Bank Mutual Fund (November 1989), the Bank of India (June 1990), the Bank of Baroda Mutual Fund (in October 1992), Life Insurance Corporation of India (June 1989) and General Insurance Corporation of India (December 1990). According to AMFI, at the end of 1993, the mutual fund industry had AUM of ₹ 470 billion.

Third Phase - 1993-2003 (Entry of privately owned funds)

In 1993, the SEBI promulgated the Securities and Exchange Board of India (Mutual Fund) Regulations 1993 ("**1993 Regulations**"), pursuant to which all mutual funds, except UTI, were to be registered and regulated by SEBI in accordance with its provisions. The 1993 Regulations allowed privately owned entities to enter the mutual funds industry and compete with state owned funds. In 1996, SEBI promulgated a more comprehensive set of regulations, which substituted and replaced the 1993 Regulations. The SEBI (Mutual Fund) Regulations 1996 remains in force today. For details on the regulatory framework of mutual funds in India, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

The entry of private owned funds marked the start of a new era in the Indian mutual fund industry. It gave the Indian investor the opportunity to choose from a wider variety of funds in which to invest. In July 1993, the erstwhile Kothari Pioneer (now merged with Franklin Templeton) became the first registered private sector mutual fund.

The number of mutual fund providers steadily increased and many foreign mutual funds started setting up funds in India. The industry also witnessed a phase of consolidation among privately owned mutual fund providers. According to AMFI, at the end of January 2003, there were 33 mutual fund providers, with total assets of ₹ 1,218 billion, of which Unit Trust of India (excluding the assured and monthly plans, as described below) represented ₹ 138.9 billion.

Fourth Phase - February 2003 to Present (Bifurcation of UTI and Growth of AUM)

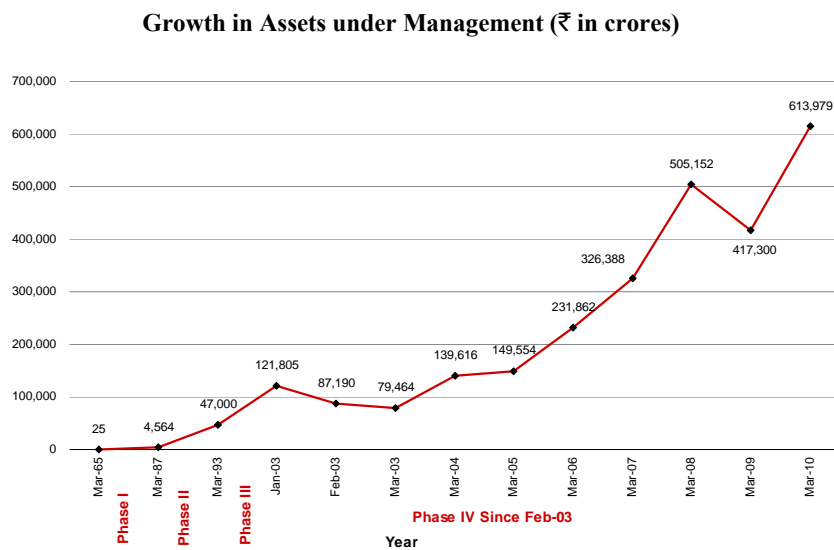

In July 2001, amidst the global recession and equity markets downturn, UTI suspended dealings in its flagship fund, Unit Scheme 1964 ("**US-64**"), because there was a material gap between the underlying net asset value of the fund and the repurchase price of the units. The Government of India intervened to protect the interests of the unit holders, and in October 2002, the Unit Trust of India Act, 1963, was repealed by Parliament pursuant to the UTI (Transfer of Undertaking and Repeal) Act, 2002 (the "**2002 Act**"). As a result, UTI was bifurcated into two separate entities. The first entity was the Specified Undertaking of Unit Trust of India ("**SUUTI**"), which was vested with the assets of UTI's US-64 and assured return funds. After bifurcation SUUTI issued tax-free bonds to the investors in its US-64 and assured return funds who did not elect to receive cash in exchange for their fund units. The bonds matured in 2008 and 2009. The second entity established was UTI Mutual Fund, which was established as a SEBI registered mutual fund with State Bank of India, Life Insurance Corporation of India, Punjab National Bank and Bank of Baroda as its sponsors (collectively, the "**Sponsors**").

Pursuant to the 2002 Act and a transfer agreement dated January 15, 2003, among the President of India and the Sponsors, 37 SEBI compliant funds, five overseas funds and the Senior Citizens Unit Plan, 1993, of Unit Trust of India were transferred to the UTI Mutual Fund. UTI Asset Management Company Private Limited was incorporated in November 2002 and appointed by UTI Trustee Company Private Limited (the trustee of the UTI Mutual Fund) to manage the funds of UTI Mutual Fund. UTI Asset Management Company Private Limited commenced operations with effect from February 1, 2003.

After the bifurcation of the UTI and entry of domestic and international privately owned fund providers, the industry entered into a phase of consolidation and growth. Examples of the consolidation that has taken place in the Indian mutual fund industry include Franklin Templeton Mutual Fund's acquisition of Pioneer ITI Mutual Fund in 2002 and Birla Sun Life Financial Services' acquisition of Alliance Capital Asset Management (India) Private Limited in 2003.

According to AMFI, at the end of 2004, there were 29 mutual fund providers managing assets of ₹ 1,531 billion invested in 421 different individual funds. As of September 2010, there were 45 individual registered mutual fund providers, with a total average AUM, for the month of September, excluding funds of funds, of ₹ 7,131 billion. OVERVIEW

We are a financial holding company offering a diverse range of financial products and services across the corporate, retail and infrastructure finance sectors, as well as mutual fund products and investment management services, through our direct and indirect wholly-owned subsidiaries. Our Company is registered with the RBI as an NBFC-ND-SI. We are promoted by Larsen & Toubro Limited ("**L&T**"), one of the leading companies in India, with interests in engineering, construction, electrical and electronics manufacturing and services, information technology and financial services. As of March 17, 2011, the market capitalisation of L&T was ₹ 927,640 million (Source: www.bseindia.com).

We are headquartered in Mumbai, and have a presence in 23 states in India. As at February 28, 2011, we had 890 points-of-presence across India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers (refer to the section titled "*Sales and Marketing*", below) and 409 customer care centers across all of our business groups and segments. Our network of offices has been established to cater to the growing business needs of our diverse customer base, which includes individual retail customers as well as large companies, banks, multinational companies and small and medium-enterprises, and to provide them with satisfactory customer service according to their varying requirements.

Our operations are arranged into four business groups, being the Infrastructure Finance Group, the Retail Finance Group, the Corporate Finance Group and the Investment Management Group, each as defined below.

Our wholly-owned subsidiary, L&T Infrastructure Finance Company Limited ("**L&T Infra**"), conducts our infrastructure finance business (our "**Infrastructure Finance Group**"), which provides financial products and services to our customers engaged in infrastructure development and construction, with a focus on the power, roads, telecommunications, oil and gas and ports sectors in India. Our Infrastructure Finance Group comprises the segments of project finance and corporate loans, equity investments and financial advisory services. L&T Infra is registered with the RBI as an NBFC-ND-SI and an IFC, which allows it to optimize its capital structure by diversifying its borrowings and accessing long-term funding resources, thereby expanding its financing operations while maintaining its competitive cost of funds. The total income of our Infrastructure Finance Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 3,090.85 million and ₹ 4,504.23 million, respectively, which accounted for 32.26% and 31.63% of our total income, respectively. The total loans and advances outstanding of our Infrastructure Finance Group as at September 30, 2010 were ₹ 52,729.81 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 17,518.36 million (excluding ₹ 3,000 million for subscriptions of preference shares and debentures in the normal course of business activity in non-related companies) and ₹ 37,955.14 million, respectively.

Our wholly-owned subsidiary, L&T Finance Limited ("**L&T Finance**"), conducts our retail finance business and our corporate finance business (our "**Retail Finance Group**" and "**Corporate Finance Group**", respectively). L&T Finance is registered with the RBI as an NBFC-ND-SI and an AFC.

Our Retail Finance Group provides financing to our retail customers for the acquisition of income-generating assets and income-generating activities generally, and comprises the segments of construction equipment finance, transportation equipment finance, rural products finance and microfinance. In addition, our Retail Finance Group caters to the non-financing needs of our retail customers through the distribution of third party financial products such as insurance and mutual funds.

Our Corporate Finance Group provides financial products and services to our corporate customers, and comprises the segments of corporate loans and leases (in the form of asset-backed loans, term loans,

receivables discounting, short-term working capital facilities and operating and finance leases), supply chain finance (which includes vendor and dealer finance products) and capital markets products.

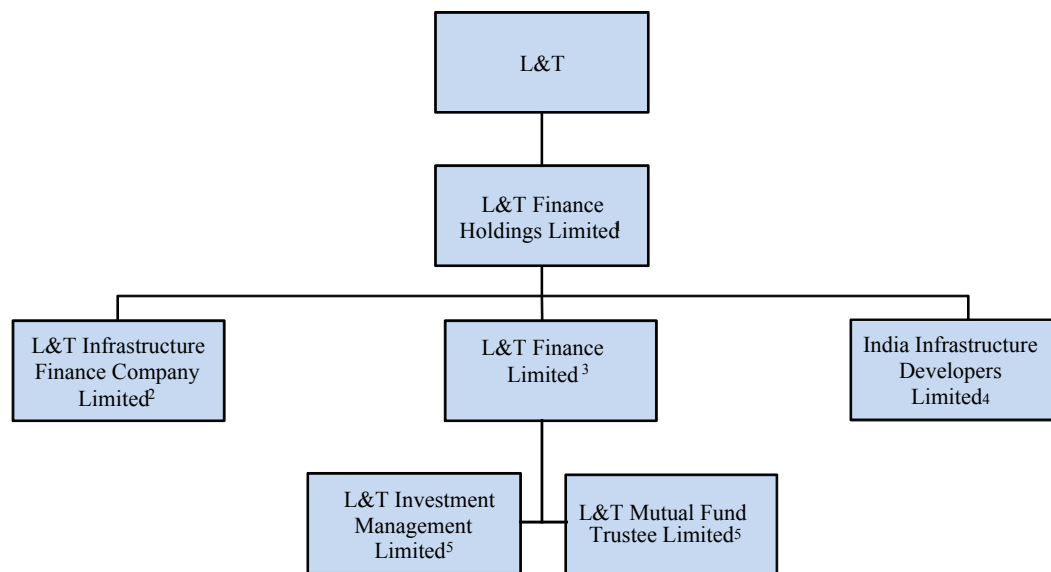

The total income of our Retail and Corporate Finance Groups for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 6,390.22 million and ₹ 9,657.30 million, respectively, which accounted for 66.71% and 67.83% of our total income, respectively. The total loans and advances outstanding of our Retail and Corporate Finance Groups as at September 30, 2010 were ₹ 84,099.80 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 67,144.60 million and ₹ 114,809.42 million, respectively.

As at September 30, 2010, on a consolidated basis, we had total loans and advances outstanding of ₹ 136,832.83 million, and for the six months ended September 30, 2010, we made total disbursements of ₹ 84,662.96 million across our Infrastructure Finance Group, Corporate Finance Group and Retail Finance Group.

Our wholly-owned indirect subsidiary (a wholly-owned subsidiary of L&T Finance) L&T Investment Management Limited ("**L&TIM**"), conducts our investment management business (our "**Investment Management Group**"), which comprises the mutual fund segment (including the management, administration and distribution of L&T Mutual Fund) and the portfolio management services segment (including portfolio management and sub-advisory services). L&TIM (formerly DBS Cholamandalam Asset Management Limited) was acquired by L&T Finance on January 20, 2010, together with L&T Mutual Fund Trustee Limited (formerly DBS Cholamandalam Trustee Limited), the trustee company for L&T Mutual Fund. The total income of our Investment Management Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 32.14 million and ₹ 44.20 million, respectively, which represented 0.34% and 0.31% of our total income, respectively. Of the total income for Fiscal Year 2010, ₹ 16.74 million (or 0.12% of our total income for Fiscal Year 2010) was attributable to L&TIM following L&T Finance's acquisition of this business. Our AUM as at September 30, 2010 was ₹ 31,642.13 million.

OUR GROUP STRUCTURE AND SUBSIDIARIES

Set forth below is a diagram of our corporate structure:

1. **L&T Finance Holdings Limited**, our Company, was incorporated in 2008, and is registered with the RBI as an NBFC-ND-SI.
2. **L&T Infra** was incorporated in 2006, and is registered with the RBI as an NBFC-ND-SI and is classified as an IFC. L&T Infra is the entity through which we conduct the operations of our Infrastructure Finance Group. Refer to the section titled "*Our Business and Operations – Our Infrastructure Finance Group*", below, for a description of the operations of our Infrastructure Finance Group.
3. **L&T Finance** was incorporated in 1994, and is registered with the RBI as an NBFC-ND-SI and classified as an AFC. L&T Finance is the entity through which we conduct the operations of our

Retail and Corporate Finance Groups. Refer to the section titled "*Our Business and Operations – Our Retail Finance Group*", and "*Our Corporate Finance Group*", below, for a description of the operations of our Retail Finance Group and Corporate Finance Group, respectively.

4. **India Infrastructure Developers Limited ("IIDL")** was incorporated in 1997, and is registered with the RBI as an NBFC-ND. IIDL was originally established as a special purpose vehicle for financing a captive power plant for Indian Petrochemicals Limited. While we do not currently conduct any material financing operations through IIDL, we intend to begin doing so in the course of Fiscal Year 2012. Subject to applicable regulatory approvals, IIDL plans to support the working capital requirements of small and medium enterprises and of other corporate entities. IIDL would initially provide non asset-backed loans and facilities under our Corporate Finance Group's supply chain finance segment, which are currently provided through L&T Finance, and may consider extending its operations to include other types of non asset-backed financing. In order for IIDL to meet the capital requirements arising out of planned growth in its loan portfolio, our Company has, on March 28, 2011, infused equity capital by way of subscribing to fresh equity shares aggregating to ₹ 450 million.
5. **L&TIM**, formerly DBS Cholamandalam Asset Management Limited, was acquired by L&T Finance on January 20, 2010, together with DBS Cholamandalam Trustees Limited, the trustee company for DBS Chola Mutual Fund. DBS Cholamandalam Asset Management Limited, DBS Cholamandalam Trustees Limited and DBS Chola Mutual Fund were renamed "L&T Investment Management Limited", "L&T Mutual Fund Trustee Limited" and "L&T Mutual Fund" respectively in February 2010. L&TIM is the entity through which we conduct the operations of our Investment Management Group. Refer to the section titled "*Our Business and Operations – Our Investment Management Group*", below, for a description of the operations of our Investment Management Group.
6. In addition to the above, we have made the following investments:
 - We hold less than 5% interest in each of Federal Bank Limited and City Union Bank Limited;
 - We hold an 8.90% interest in Invent ARC (having made an equity investment of ₹ 159.75 million), an ARC which is permitted to resolve and/or reconstruct NPAs under and in terms of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interests Act, 2002. We hold an 8.90% interest in the Invent/10-11/S3 Trust (having made an equity investment of ₹ 316.45 million), which is aimed at raising funding for the acquisition of distressed assets from banks and financial institutions. In addition to financial returns, we believe that we will benefit from these investments by learning about, and employing, new techniques of distressed debt resolution and NPA management in our businesses; and
 - L&T Finance Holdings Limited holds a 30% interest in NAC Infrastructure & Equipment Limited, which was formed as a joint venture between India Infrastructure Equipment Limited, the National Academy of Construction, Nagarjuna Construction Company Limited and L&T Finance, with the main object of leasing equipment to the infrastructure and construction sectors. The joint venture also provides financing for the acquisition of construction equipment.

OUR COMPETITIVE STRENGTHS

We believe that our competitive strengths are as follows:

Diversified and balanced mix of high growth businesses

We have a highly diversified business model covering a variety of many complementary, high growth business segments across our four core business groups, including infrastructure finance, construction equipment finance, transportation equipment finance, rural products finance, microfinance, corporate loans and leases, supply chain finance, capital markets finance, the distribution of financial products and investment management products and services. Many of our businesses operate in industries or sectors, such as agricultural and rural development, infrastructure and energy, that have been identified by the Government of India as focus areas under its latest Five Year Plan. Furthermore, we also believe that some of our businesses, such as rural finance and microfinance, are not always directly affected by cyclicity in macroeconomic and industry activity. We believe that this balanced mix of high growth businesses has provided us with the ability to produce a steady, growing revenue stream.

As we offer a broad spectrum of financial products and services, we are also better able to cater to the needs of a diverse customer base, from construction equipment hirers, truck owners, farmers and shopkeepers in the small-business segment, to medium-sized vendors, dealers, contractors and fleet owners and large infrastructure developers and companies, including multi-national corporations.

We believe that our presence in diversified businesses across asset classes and customer segments has contributed significantly to our strong revenue growth and reduces the risks associated with product and customer concentration.

Strong distribution network, with a presence throughout India

We have established a presence in 23 states in India. As at February 28, 2011, we had 890 points-of-presence across India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers (refer to the section titled, "*Sales and Marketing*", below) and 414 customer care centers across all of our business groups and segments. In the last few years, we have increased our geographic coverage from 226 points-of-presence in March 2008 to 890 points-of-presence as at February 28, 2011. Our investment management business alone has increased its number of branch offices from 19 to 52 since January 2010, when we acquired L&TIM. Our workforce (comprising full-time employees, outsourced personnel and personnel retained on a contractual basis) has similarly increased more than three times in order to support this physical and geographic growth, up from a head-count of 1,214 in March 2008 to 4,358 as at February 28, 2011. Refer to the section titled "*Employees*", below.

This pan-India presence allows us to cater to a large customer base across our various business segments, from retail customers and small and medium enterprises to large companies. Our extensive network also enables us to maintain and grow business, diversify our risk profile and service and support customers from proximate locations, thus providing customers with convenient access to our products and services. Furthermore, by maintaining such an extensive network, we have been able to accrue a portable knowledge base and apply the experiences and best practices developed in one region in order to further develop business in other regions.

In particular, we have established a strong reach in rural areas in India, where we maintain more than 500 points of presence (predominantly in the form of meeting centers, KGSK centers and customer care centers) in order to service the customers of the rural product finance and microfinance segments of our Retail Finance Group. We believe that there are inherent difficulties in establishing an effective sales and distribution network in the rural areas of India, and as such, our success in establishing this network infrastructure will provide with us a competitive advantage and help us to achieve our strategic goal of expanding our business in rural development. Refer to the section titled "*Our Strategy - Continue to focus on two key Indian growth stories: infrastructure and rural development*", below.

Experienced management team and employees with a proven track record of establishing and growing new lines of business

We have an experienced senior management team which is supported by a capable and talented pool of employees. Our managers have diverse experience in various financial services and other industries, as well as in specific geographic regions in India, which we believe allows them, in turn, to attract and nurture talent. Our managers and employees have a deep understanding of not only finance, but also the specific industry, products and geographic regions that they cover. This allows us to form strong relationships with customers and provide knowledgeable support, for example in the areas of appraisals and project monitoring.

In addition, our management has a proven track record of establishing and growing new lines of business, such as microfinance (since June 2008), financial products distribution (since September 2007) and infrastructure finance (since January 2007).

Our senior managers have, on average, 20 years of experience in financial services, their respective industries and/or in specific geographic areas in India.

Our management, supported by our knowledgeable employee service teams, will continue to be an important driver of growth and success in all of our existing and new business ventures.

High quality loan portfolio comprising the funding of mainly income-generating assets and activities

We believe that one of our major strengths is the quality of our asset portfolio, which comprises the funding of primarily income-generating assets and activities. For each of our businesses, we have established a strong credit check and asset valuation framework to evaluate and monitor credit risk at the time of origination.

We do not typically buy loan portfolios, but rather, our philosophy is to focus on originating and retaining our own portfolio with the objective of maintaining asset quality according to our own standard. As such, we place an emphasis on financing income-generating activities and assets as a means of controlling

portfolio quality, as we believe that this has a direct bearing on the quality of our loan portfolio, both by reference to repayment (as the asset or activity financed should generate sufficient revenue and cash flow for our customer to service the loan) and recovery (as the asset financed typically forms the security for the loan we disburse). Although we source and secure financing business from third-party intermediaries through referral arrangements, we primarily rely on our own sales and marketing function to do so, and are therefore not dependent on third party intermediaries (refer to the section titled "*Sales and Marketing*", below). In addition, our current provisioning and write-off policies and principles exceed the minimum required standard for NBFCs set by the RBI. Refer to the section titled "*Our Business – Our Loan Portfolio and Policies – Provisioning and Write-off Policies*", below, for a description of these policies and principles.

We also have an established collection system which allows us to manage recoveries efficiently and minimize our losses, thereby preserving the value of our assets. The recovery process is tailored specifically to each of our lines of business and is not outsourced, thus allowing us to directly control the recovery process.

In addition, both L&T Infra and L&T Finance have developed their own respective floating "prime lending rates", which are used to model the pricing of loans and advances. These prime lending rates reflect movements in money markets and interest rates generally, and allow us to take such movements into account when pricing loans, thus focusing our loan portfolio on returns and managing interest rate risk effectively. In addition, the asset-liability management committee of our Retail and Corporate Finance Groups has established a pricing matrix which reflects the marginal costs of borrowing. We believe the use of the pricing matrix ensures that all operating risks and interest rate movements are taken into account when pricing both the short- and long-term loans and advances of our Retail and Corporate Finance Groups. Refer to the section titled "*Risk Management – Interest Rate Risk – Retail and Corporate Finance Groups*", below, for a description of this pricing matrix.

Good financial and capital position, as well as access to multiple sources of capital

Our ability to secure reliable and steady sources of capital allows us to grow and fund our businesses in line with our business strategy and our customers' requirements.

We have strong credit ratings from both CARE and ICRA. As at February 28, 2011, L&T Finance had a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which indicates high credit quality and that the rated instrument carries low credit risk), and L&T Infra had a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which rating was upgraded to LAA+ on October 6, 2010, and which indicates high credit quality and that the rated instrument carries low credit risk). These credit ratings, coupled with our strong brand equity (refer to "*Strong parentage and brand equity of L&T*", below) enables us to access funds at competitive rates from a wide variety of market participants across a diverse array of products, including secured and unsecured loans from banks and financial institutions, commercial paper and long term debentures in the institutional and retail markets. L&T Finance and L&T Infra have also successfully accessed the Indian public debt market through issues of non-convertible debentures and long term infrastructure bonds, respectively. Refer to the section titled "*Our Funding Structure*", below, for a description of the non-convertible debenture and long term infrastructure bond offerings of L&T Finance and L&T Infra, respectively.

In addition, our capital structure, which is currently comprised of predominantly equity share capital, provides us with the opportunity to grow our business by raising additional Tier II capital. As at September 30, 2010, the capital structure of L&T Finance included Tier II capital of ₹ 750 million, which was significantly below regulatory limits. As at September 30, 2010, the capital structure of L&T Infra did not include any Tier II capital (refer to the section titled "*Regulations and Policies in India*", on page 186 of this Draft Red Herring Prospectus). As such, we have the ability to access additional funding in the form of Tier II capital in order to meet our growth requirements.

As a part of our operational philosophy, we ordinarily maintain CARs higher than those statutorily prescribed by the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007. The CAR for L&T Finance as at September 30, 2010, March 31, 2010 and March 31, 2009 was 15.30%, 15.43% and 16.41%, respectively. The CAR for L&T Infra as at September 30, 2010, March 31, 2010 and March 31, 2009 was 18.03%, 23.27% and 26.16%, respectively.

Strong parentage and brand equity of L&T

We believe that the L&T brand is one of the most well respected brands in India, and that this provides us

with a significant competitive advantage, particularly in attracting new customers and talent and accessing capital.

L&T, which was established in Mumbai in 1938, is one of the leading companies in India in various industries, including engineering, construction, electrical and electronics manufacturing and services, information technology and financial services. L&T has a demonstrated track record of consistent year-on-year growth in business, and is currently one of the largest companies in India by market capitalization. As at March 17, 2011, the market capitalization of L&T was ₹ 927,640 million (*Source: www.bseindia.com*).

L&T has received numerous awards and recognition from both domestic and international bodies over the years, including *Company of the Year* (February 2010) from *The Business Standard*, one of India's leading business periodicals. In addition, the Reputation Institute, a private advisory and research firm specializing in corporate reputation management, ranked L&T as one of *The World's 50 Most Reputable Firms*, ranking 47th out of the top 200 firms in a study published by Forbes, which we believe indicates that L&T enjoys a high level of trust, admiration and esteem with the general public.

The L&T Group also provides us with access to management talent and professionals with deep industry knowledge in those sectors for which we provide financing, such as infrastructure and construction equipment. As our promoter, L&T has also made significant capital contributions to our business, infusing a total share capital, including share premium, of ₹ 17,785.92 million into our Company to date.

We believe that the reputation of the L&T brand has facilitated our entry and consolidation in several industries, particularly in the construction equipment and infrastructure finance sectors, and will continue to help us achieve our strategic objectives to expand our business, increase our market penetration and continue to attract and retain talented professionals. We further believe that the L&T brand will help us to grow the business of our Investment Management Group.

OUR STRATEGY

The key elements of our strategy are as follows:

Continue to expand our business to include new products and services, as well as entirely new lines of business

We currently have four business groups offering a broad spectrum of financial products and services. We intend to explore opportunities to expand our operations by developing new products and services within our existing lines of business as well as selectively identifying opportunities to expand into new lines of business, as we have done in investment management (January 2010), microfinance (June 2008), financial products distribution (September 2007) and infrastructure finance (January 2007). In each case, we will endeavour to introduce products and services which have the potential for long-term growth.

We believe that the growth of the distribution of financial products segment (in our Retail Finance Group), financial advisory services segment (in our Infrastructure Finance Group) and our Investment Management Group will increase the contribution of fee-based income to our total income. For example, we intend to offer capital raising and strategic advisory services as part of the financial advisory services segment of our Infrastructure Finance Group, which we believe will enable our Infrastructure Finance Group to increase its fee-based income. Our Infrastructure Finance Group is currently in the process of establishing an infrastructure-focused private equity fund, which we believe will help to strengthen our competitive position in the infrastructure finance industry, add to our income streams and provide us with additional opportunities to make equity investments in infrastructure-related projects and companies.

It is our belief that further expanding our business lines and product and service offerings will allow us to build on the existing diversification and balance of our business (refer to the section titled "*Our Competitive Strengths - Diversified and balanced mix of high growth businesses*", above), thereby enabling us to maintain growth and profitability while mitigating the risks associated with product concentration. Diversifying our products and services will also provide us with greater opportunities for cross-selling and allow us to offer increasingly innovative and tailored financial solutions to our customers. Notwithstanding our expansion strategy, we currently anticipate that the financing of income-generating assets and activities will continue to be our principal business activity.

We believe that we have effective procedures in place for evaluating and managing market, credit, reputational and other relevant risks associated with new business and product development. All new lines of business and product launches will follow our current internal approval process that requires assessing risk and customer suitability, as well as understanding the regulatory environment and internal compliance procedures prior to launch.

Increase the market penetration of our existing products and services

We also seek to expand our business by increasing the penetration of our existing products and services in the Indian market. We intend to do this by expanding our overall customer base, with an emphasis on strategic, physical and geographic growth, and strengthening and expanding our relationships with our current corporate and retail customers.

Though our broader objective is to increase our presence across India, our present and immediate focus is on expanding our operations to reach the rural and semi-urban hinterlands of India and create new markets where there exists a significant opportunity to increase revenue. In particular, we plan to continue to explore opportunities in small towns where access to organized financial channels is limited. Since March 31, 2008, our points of presence increased by more than three times, from 226 to 890 as at February 28, 2011 and which included the expansion of our points-of-presence in rural and semi-urban areas. We believe that this expansion plan will not only provide benefits in terms of adding customers and increasing revenues, but will also mitigate risks associated with geographic concentration in urban areas.

Following the expansion of our distribution network over the last three years, we believe that we are in a position to exploit our existing distribution infrastructure in order to expand our reach. We believe that this will increase the volume of products and services that we deliver to our customers in a more cost-effective manner, thereby lowering our cost of operations as a proportion of our total assets.

We intend to continue physical and geographic expansion for as long as it serves the purpose of expanding both our customer base and the market penetration of our products and services in a profitable manner.

We will continue to seek to leverage the significant network of vendors, dealers and customers of various companies in the L&T Group for referrals of new customers, and increasingly engage in brand building campaigns. We will also seek to increase the total share of expenditure by each customer on our products and services. In connection with this, we will make greater use of cross-selling in order to introduce existing customers of one product or service to new products or services.

Continue to focus on two key Indian growth stories: infrastructure and rural development

Four of the business sectors in which we operate, being construction equipment finance, infrastructure finance, rural finance and microfinance, are aligned with the Indian growth stories of infrastructure and rural development, both of which have been identified as strategic initiatives by the Government of India.

We believe the infrastructure sector in particular has demonstrated consistent growth over the years, driven by increases in government and private sector spending, and there is potential for continued growth in spending. We believe that this will have positive consequences for our Infrastructure Finance Group, as well as for the construction equipment segment of our Retail Finance Group. Refer to the section titled "*Industry Overview – The Infrastructure Finance Industry in India*", on page 117 of this Draft Red Herring Prospectus.

Our Infrastructure Finance Group aims to be a comprehensive financial solutions provider in the infrastructure sector, and in connection therewith, we intend to explore the development of products for various infrastructure-related sectors, such as power, roads, telecommunications, oil and gas and ports. The RBI has granted L&T Infra the status of an Infrastructure Finance Company, which accords it certain benefits, notably the ability to raise funds at a lower cost compared to other NBFCs. Refer to the sections titled "*Industry Overview – The Infrastructure Finance Industry in India – Infrastructure Finance Companies*" and "*Regulations and Policies in India*" on pages 118 and 186, respectively, of this Draft Red Herring Prospectus. We will continue to utilize these benefits in order to provide cost-effective financing solutions for our customers and further grow our infrastructure finance business.

With respect to rural development, we intend to continue to grow our rural finance and microfinance business segments, where we believe there is potential for significant growth. In order to capitalize on this growth in rural development, we are looking to increase our presence in rural finance in general, while maintaining our commitment to corporate social responsibility and our aim of achieving financial inclusion in rural India in a commercially viable manner.

Our traditional rural finance business involves the financing of farming equipment and agricultural implements, such as harvesters to farmers, as well as providing finance for the purchase of rural transport vehicles, such as three-wheelers and utility vehicles. We intend to expand our product offering as the needs of the rural community expand and evolve.

Our microfinance business was launched in June 2008, and by September 30, 2010 had already resulted

in 1,116,508 individual loans with cumulative disbursements of ₹ 12,949.43 million. Notwithstanding this growth, as well as recent developments in the microfinance industry in India, we believe that there continues to be a significant demand-supply gap for microcredit in India. Refer to the section titled "*Industry Overview – The Retail Finance Industry in India – Microfinance Overview*", on page 126 of this Draft Red Herring Prospectus. In the medium- to long-term, we will seek to deepen our reach in states where we are already present, expanding our microfinance products to new locations and extending our range of product offerings targeting microfinance consumers.

Notwithstanding the recent developments and new laws and regulations in the microfinance industry in India (and in particular, in the state of Andhra Pradesh), we continue to believe in the medium- to long-term growth prospects of the microfinance industry. However, in the short-term, and owing to the promulgation of new laws and regulations in the microfinance industry and the decline in collections from customers of our microfinance segment in Andhra Pradesh, we have reduced the disbursement of loans in general, and in the state of Andhra Pradesh there have been no disbursements since the promulgation of the MFI Ordinance and the subsequent enactment of the MFI Act in view of the uncertainties and the regulatory process involved in any new disbursements. Refer to the section titled "*Risk Factors – Risks Relating to Our Group – The repeal of or changes in the regulatory policies that currently encourage financial institutions to provide capital to the microfinance sector could adversely impact the cost and availability of capital. Further, any uncertainty regarding the implementation and enforcement of the recent Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 or as a result of the RBI's potential implementation of the Malegam Committee report, may result in delays and/or halts in repayment of loans as a result of which, microfinance institutions may experience losses and liquidity issues causing lenders and investors to lose confidence in the microcredit industry and consequently, lenders may discontinue lending to microfinance institutions*" on page 23 of this Draft Red Herring Prospectus for a discussion of new laws and regulations relevant to the microfinance industry. Given the uncertainty regarding the implementation and enforcement of the MFI Act and the potential impact of the Malegam Committee report on the regulatory framework of the microfinance industry, we may re-evaluate the business model, strategy and structure of our microfinance segment, including potentially hiving off the business from L&T Finance into a new company within our Group.

Develop our financial products distribution business segment

We anticipate further growth in our financial products distribution business, initially through targeted cross-selling to our existing customer base. We also anticipate that, in the medium to longer term, there will be further opportunities to grow this business as our customer base and geographic reach expands within India. As a result, we plan to pursue financial products distribution as a focus area for growth and profitability. We currently have a dedicated team of trained sales staff offering a wide variety of financial products to our customers, including insurance, mutual funds, bonds, shares in initial public offerings and time deposits. We believe that knowledgeable sales staff and relationships with reputable product providers offering high quality products are integral elements of a successful distribution business. Therefore, we intend to continue to improve the advisory capabilities of our sales team through specialized training, and pursue further distribution arrangements with high quality financial products providers in order to build our reputation and presence in this business.

Continue to attract and retain talented professionals

We recognize that our business is largely dependent on human resources, and we intend to continue taking a proactive approach to the retention and recruitment of human capital to further enhance and grow our business. We have been successful in recruiting and retaining talented professionals from a wide variety of backgrounds, including banks and NBFCs, and our senior management team has witnessed a low rate of attrition.

Accordingly, as our business has continued to grow and diversify, we believe that we have been able to keep pace with this growth by hiring professionals with deep industry knowledge, while our management team retains its core institutional knowledge. We believe that our senior management, the reputation and goodwill of the L&T Group, and our proactive recruitment and retention initiatives will enable us to continue to attract and retain talented professionals. As discussed in greater detail in the section titled "*Our Business – Our Business Support Services – Human Resources*", below, we have instituted various recruitment and retention initiatives, including an on-campus recruitment program, incentive-based pay, employee feedback surveys and professional training.

Continue to focus on the growth of our retail loan portfolio

L&T Finance commenced its operations by focusing on the financing needs of small and medium enterprises and corporate entities. However, it has grown its retail portfolio over the last three years with

the addition of products such as transportation equipment finance, rural products finance and microfinance. As at September 30, 2010, the loans and advances of our Retail Finance Group were ₹ 51,123.53 million, which accounted for 37.36% of the total loans and advances made by our Company. We believe that this provides our loan portfolio with a strong balance and diversification, and also represents an improvement on our yields and returns, although with a concomitant increase in operating expenses (as result of the relatively small size of retail loans and large volume of retail loan transactions) and levels of NPAs. It is our intention to continue to focus on the loan portfolio of our Retail Finance Group, and we expect that the total loans and advances of our Retail Finance Group as a proportion of the total loans and advances of our Company will increase, or at least be maintained.

OUR BUSINESS AND OPERATIONS

Our operations are arranged into four core business groups, being the Infrastructure Finance Group, the Retail Finance Group, the Corporate Finance Group and the Investment Management Group.

Our Infrastructure Finance Group, through our wholly-owned subsidiary, L&T Infra, provides financial products and services to our customers engaged in infrastructure development and construction, with a focus on the power, roads, telecommunications, oil and gas and ports sectors in India. L&T Infra is classified by the RBI as an IFC, which allows it to optimize its capital structure by diversifying its borrowings and accessing long-term funding resources, thereby expanding its financing operations while maintaining its competitive cost of funds. The products and services of our Infrastructure Finance Group include a variety of customized debt and equity financing solutions, as well as the provision of financial advisory services (such as debt and equity advisory and syndication services).

Our Retail Finance Group, through our wholly-owned subsidiary, L&T Finance, provides financing to our retail customers for the acquisition of income-generating assets, and comprises the segments of construction equipment finance, transportation equipment finance, rural products finance and microfinance. In addition, our Retail Finance Group caters to the non-financing needs of our retail customers through the distribution of third party financial products such as insurance and mutual funds.

Our Corporate Finance Group, through our wholly-owned subsidiary, L&T Finance, provides financial products and services to our corporate customers, and comprises the segments of corporate loans and leases (in the form of asset-backed loans, term loans, receivables discounting, short-term working capital facilities and operating and finance leases), supply chain finance (which includes vendor and dealer finance products) and capital markets products. In the course of Fiscal Year 2012, we plan for IIDL, subject to applicable regulatory approvals, to begin providing non asset-backed loans and facilities under our Corporate Finance Group's supply chain finance segment.

Our Investment Management Group, through our wholly-owned subsidiary, L&T TIM, comprises the mutual fund segment, which includes the management, administration and distribution of L&T Mutual Fund, and the portfolio management services segment, which includes portfolio management and sub-advisory services.

The following table sets out the key business segments of each of our four core business groups:

CORE BUSINESS GROUP SEGMENTS

¹ As at September 30, 2010, our Investment Management Group had total AUM of ₹ 31,642.13 million.

² Includes:

- income from other group companies, and L&T General Insurance Company Limited, which was a subsidiary of L&T Finance from April 1, 2009 to November 30, 2009 prior to being transferred to L&T; and
- Loans and advances made by our other group companies, including IIDL (refer to the section titled "Our Group Structure and Subsidiaries", above).

Our Infrastructure Finance Group

The operations of our Infrastructure Finance Group are divided into the following business segments:

Project Finance Segment

The project finance segment of our Infrastructure Finance Group provides customized debt financing products to infrastructure projects and their sponsor companies. The following table illustrates the sectors and sub-sectors on which our project finance segment focuses:

POWER	ROADS
Generation	Construction and Development
Transmission	Operation
Distribution	Maintenance
TELECOMMUNICATIONS	OIL & GAS
Passive infrastructure	Exploration
Telecommunications and broadband	Extraction
	Transportation
PORTS	OTHER INFRASTRUCTURE
Greenfield construction	Urban infrastructure
Expansion and modernization of existing ports	Water and sanitation
	Logistics
	SEZs

We seek to distinguish the products and services of our project finance segment from those of our competitors by customizing each of our offerings to the specific requirements of our customers and their projects, providing efficient transaction processing and management capabilities and acting as a single point of contact for all of our customers' project financing requirements.

As at September 30, 2010, our total infrastructure loans were ₹ 52,729.81 million, and for the six months ended September 30, 2010, we recorded total infrastructure loan disbursements of ₹ 17,518.36 million. For Fiscal Year 2010, we recorded total infrastructure loan disbursements of ₹ 37,955.14 million, compared to total loans of ₹ 22,660.47 million and total disbursements of ₹ 14,235.98 million in Fiscal Year 2009. From January 2007 to September 30, 2010 we made cumulative loan disbursements of ₹ 89,670.08 million.

In order to provide our customers with an optimal capital structure for the customized solutions that we offer, we typically make use of the following types of products:

Senior Debt Products

Our senior debt financing products are provided in the form of term loans, debentures and securitized debt that is collateralized by the cash flow receivables of the project. Senior debt ranks preferentially as to security and right of payment ahead of all other debt obligations of a borrower. Our senior debt financing products are fully secured, and generally have recourse to the underlying assets of the projects they are intended to finance, in the event of a default.

Mezzanine Products

Our mezzanine products are principally comprised of subordinated debt financing (in the form of subordinated loans), preference shares and convertible debentures. These mezzanine products are typically layered between equity and senior debt in our customers' capital structures, and effectively act as an additional tier in the overall capital structure of a company. Mezzanine products are generally subordinate to senior debt in rights of payment and may only have a second or subservient charge over the underlying assets of the borrower they are intended to finance. Whilst mezzanine products carry a higher risk of default and recovery in comparison to senior debt products, they generally earn higher returns.

The following table sets out the allocation of our total loans and total disbursements by product-type in our project finance segment as at September 30, 2010 and March 31, 2010, and for the six months ended September 30, 2010 and the financial year ended March 31, 2010, respectively:

Debt Product	Total Loans (as at September 30, 2010)		Total Disbursements (for the six months ended September 30, 2010)		Total Loans (as at March 31, 2010)		Total Disbursements (for the financial year ended March 31, 2010)

* This figure does not include ₹ 3,000 million for subscriptions of preference shares and debentures in the normal course of business activity, in non-related companies. Refer to the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Cash Flows – L&T Infra" on page 272 of this Draft Red Herring Prospectus.

Our loan products typically have a floating rate interest rate (linked to a benchmark such as L&T Infra's own prime lending rate, or the prime lending rates of the lead banks in the consortium financing the project), or have a periodic interest rate- and/or spread- resets, dependent on the structure of the project being financed and/or our customers' financing requirements for a project.

In addition, we frequently also structure our loans with put and call options and interest rate resets, in order to maximize opportunities presented by prevailing economic conditions.

In certain circumstances, the project finance segment originates, assesses and prices loans in the normal

and ordinary course of its operations, but the loan is ultimately referred to and disbursed by L&T Finance. The credit approval of these loans is based on the appraisal process carried out by L&T Infra (refer to the section titled "*Our Loan Portfolio and Policies – Lending Policies – Infrastructure Finance Group: Investment and Credit Policy and Approval Process*", below).

The tenor and repayment schedules of the loans we provide varies depending on our assessment of the cash flows from the borrower. As at September 30, 2010, all of our loans are secured. The security is designed following our assessment of the borrower in question, and includes forms of security such as charges (over the project assets or assets of the borrower (as the case may be), a project escrow account, debt service repayment accounts and/or residual cash flows of the borrower), or collateral such as guarantees from the project promoters or sponsors, corporate guarantees or pledges of shares, or a combination of one or more of these forms of security.

Equity Investment Segment

We provide equity-related project financing through proprietary minority equity investments in infrastructure companies. Such equity-related investments may take the form of equity shares, preference shares or hybrid debt and equity instruments. Our equity financing products can be offered in conjunction with our debt financing products in order to optimize the capital structure of our customers' projects, as well as our overall returns from a given project.

We have a dedicated team within the equity investment segment of our Infrastructure Finance Group, which focuses on the identification, analysis and recommendation of suitable equity investment opportunities in the infrastructure sector and its sub-sectors. Its function includes undertaking appropriate due diligence investigations, document preparation, negotiations with customers and counterparties, valuation exercises and researching and advising on the optimal structure for the investment. Following our investment in a given project, we continue to assist our customers with developing relationships in the infrastructure space, monitoring the capital structure and assisting in arranging funding, if necessary.

One of the important factors considered at the time of investment is the possibility of an exit from the investment, over a period of three-to-five years, through initial public offerings or strategic sales.

As at September 30, 2010, our equity portfolio in this business segment was carried at ₹750.28 million, at acquisition cost.

Financial Advisory Services Segment

As part of our Infrastructure Finance Group's products and services, we provide a variety of advisory services to infrastructure companies and sponsors. The financial advisory services segment was started in April 2008, in order to complement the business of our project finance segment and diversify the revenues of L&T Infra to include fee-based income. Owing to our specialized sector-specific knowledge and experience (refer to the section titled "*Industry and Sector Focus*", below), our financial advisory services segment is able to leverage off of the existing relationships and sector-specific expertise of our project finance segment in the industry when advising our infrastructure finance customers on projects.

The financial advisory services segment of our Infrastructure Finance Group provides the following services:

Corporate and Project Advisory Services

Our corporate and project advisory services are focused on advising our corporate customers on various operational aspects of project finance and infrastructure development transactions, such as project appraisals (including feasibility analyses and project risk assessment), the composition and submission of project information memoranda to lenders and other financiers of projects, advising on bid and application processes for project tenders, and the development and structuring of products and solutions to meet the specific commercial and funding requirements of our corporate customers and their projects.

Debt Advisory and Debt Arranging Services

Our debt advisory team aims to be appointed as the lead arranger for a variety of term loan and structured debt facilities for project finance transactions. As a lead arranger, our responsibilities include conducting the syndication of project debt obligations among a variety of other financial institutions for both new and expansion projects, the general syndication of long-term and short-term debt for corporate customers, and designing, financing and implementing structured products.

New Services

It is our intention to offer the following new services as part of the financial advisory services segment of our Infrastructure Finance Group:

- Capital raising advisory services - We intend to provide advice and assistance to corporate customers in the infrastructure sector related to optimizing their capital structure and managing the process of raising private equity capital, mezzanine funding and the issue of convertible instruments. This would include the placement of equity and equity-linked instruments to investors such as private equity funds, financial institutions and investors; and
- Strategic advisory services - We have recently started offering strategic advice to our infrastructure finance customers on the acquisition of strategic assets and/or strategic interests in target companies. We have recently received our first mandate for this new service, which relates to the proposed acquisition of a hydropower asset by a hydropower development company in India.

We believe that the introduction of these services will enable our Infrastructure Finance Group to increase its fee-based income as a proportion of its total income.

The following table sets out the major projects on which we have advised on debt funding, up to and including September 30, 2010:

Customers	Nature of Project	Project Cost*	Debt component*

*Based on project memorandum prepared by L&T Infra

Private Equity Infrastructure Fund

Our Infrastructure Finance Group is currently in the process of establishing an infrastructure-focused private equity fund, which we believe will help to strengthen our competitive position in the infrastructure finance industry, add to our income streams and provide us with additional opportunities to make equity investments in infrastructure-related projects and companies.

Industry and Sector Focus

Our Infrastructure Finance Group has provided financial products and services to *inter alia* the power, roads, telecommunications, oil and gas and ports sectors. Although we measure our industry exposures, we do not place strategic emphasis or focus on any one or more sectors.

The following table sets out the allocation of our loans as at September 30, 2010 and March 31, 2010, and the total disbursements for the six months ended September 30, 2010 and the financial year ended March 31, 2010, by sector:

¹ Includes projects related to urban infrastructure, water and sanitation, rail container and logistics operations, agricultural infrastructure, industrial and IT parks and SEZs.

Our industry focus is principally on the following sectors:

Power Sector

We finance and advise on projects for electricity generation, transmission and distribution. As at September 30, 2010, our total loans outstanding in the power sector were ₹ 18,450.35 million, which accounted for 34.99% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 5,033.66 million in the power sector, which accounted for 28.73% of the total disbursements of our Infrastructure Finance Group.

Our projects in the power sector have included projects for independent power producers (with power plants spread across states in India such as Maharashtra, Gujarat, Chhattisgarh, Karnataka, Tamil Nadu, Andhra Pradesh, Punjab, Himachal Pradesh, Orissa and Rajasthan), coal, coal rejects, gas, lignite, hydropower and biomass projects. These projects have also included greenfield projects, expansion projects, merchant power plants, group captive power plants and captive power plants for energy-intensive projects. We have provided senior and subordinated debt products, bridge financing facilities and equity and equity-related products to our customers in the power sector. In addition, the financial advisory services segment has acted as the lead arranger for the syndication of loans for a variety of large thermal power and hydropower projects.

Roads Sector

We finance and advise on projects involving the construction, operation and maintenance of new and existing stretches of national and state highways and expressways, focusing on National Highway Authority of India projects and state-sponsored projects. As at September 30, 2010, our total loans outstanding in the roads sector were ₹ 7,167.02 million, which accounted for 13.59% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 2,020.00 million in the roads sector, which accounted for 11.53% of the total disbursements of our Infrastructure Finance Group.

Telecommunications Sector

We finance and advise on the construction and development of telecommunications projects for established pan- Indian and regional telecommunications services operators and passive infrastructure and broadband services providers. As at September 30, 2010, our total loans outstanding in the telecommunications sector were ₹ 8,276.62 million, which accounted for 15.70% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 3,850.00 million in the telecommunications sector, which accounted for 21.98% of the total disbursements of our Infrastructure Finance Group.

In addition, the financial advisory services segment has acted as the lead arranger for the syndication of loans for one of the leading passive telecommunications infrastructure providers in India, and we have also participated as a member of a syndicate of lenders for an expansion project of passive telecommunications infrastructure, which was led by international sponsors.

Oil and Gas

We finance oil and gas projects which involve the exploration, extraction and transportation of oil and gas. As at September 30, 2010, our total loans outstanding in the oil and gas sector was ₹ 3,453.80 million, which accounted for 6.55% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 2,300.00 million in the oil and gas sector, which accounted for 13.13% of the total disbursements of our Infrastructure Finance Group.

Ports

We finance and advise on port projects which involve the construction of new, or "greenfield" port projects, and the expansion and modernization of cargo-handling facilities in existing ports. In addition, we have acted as arrangers for the syndication of a loan for the construction of a shipyard-cum-port. As at September 30, 2010, our total loans outstanding in the ports sector were ₹ 2,381.00 million, which accounted for 4.52% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 680.00 million in the telecommunications sector, which accounted for 3.88% of the total disbursements of our Infrastructure Finance Group.

Other Sectors

In addition, we also finance and advise on urban infrastructure, water and sanitation, rail container and logistics operations, agricultural infrastructure, industrial and IT parks and SEZ infrastructure projects. As at September 30, 2010, our total loans outstanding in these sectors were ₹ 13,001.02 million, which accounted for 24.65% of the total loans of our Infrastructure Finance Group. For the six months ended September 30, 2010, our total disbursements were ₹ 3,634.70 million in these sectors, which accounted for 20.75% of the total disbursements of our Infrastructure Finance Group.

Our Retail Finance Group

Our Retail Finance Group provides finance to our retail customers, primarily for the acquisition of income-generating assets such as construction equipment, transportation equipment and rural products. Our Retail Finance Group is also engaged in the provision of microfinance and the distribution of financial products.

The following table sets out the allocation of our loans and advances as at September 30, 2010 and March 31, 2010, and total disbursements for the six months ended September 30, 2010 and the financial year ended March 31, 2010, between secured loans and unsecured loans in our Retail Finance Group:

¹ In June 2009, L&T Finance conducted an internal operational restructuring of its business groups into the Retail Finance Group and Corporate Finance Group. Prior to that restructuring, L&T Finance's business groups consisted of an "enterprise finance division" (comprising corporate loans and leases, construction equipment finance, transportation equipment finance and supply chain finance segments), and a "retail finance division" (comprising rural products finance and microfinance segments). Accordingly, prior year financial information of loans and advances and total disbursements is not comparable.

² Includes -

- ₹ 5,516.15 million in respect of loans and advances made by the microfinance segment of our Retail Finance Group, which accounted for 10.79% of the total loans and advances of our Retail Finance Group, as at September 30, 2010; and
- ₹ 5,022.50 million in respect of loans and advances made by the microfinance segment of our Retail Finance Group, which accounted for 11.24% of the total loans and advances of our Retail Finance Group, as at March 31, 2010; and
- ₹ 4,370.70 million in respect of loans disbursed by the microfinance segment of our Retail Finance Group for the six months ended September 30, 2010; and
- ₹ 7,626.37 million in respect of loans disbursed by the microfinance segment of our Retail Finance Group for the financial year ended March 31, 2010

All of the loans made by our microfinance segment are unsecured. See the section titled "Microfinance Segment", below.

The operations of our Retail Finance Group are divided into the following business segments:

Construction Equipment Finance Segment

We provide financing for a wide range of construction equipment including earthmoving equipment, heavy-duty cranes, road construction equipment and mining equipment. These products are widely used in industries such as power generation, irrigation, highway development, mining, transportation and urban infrastructure projects.

We provide secured term loans for the financing of both new and used construction equipment for our retail customers. Typically, the tenor of a construction equipment loan is between one and four years, and a charge on the relevant asset is created in our favor as security for repayment of the loan.

In addition to secured term loans, we provide unsecured short-term working capital facilities to existing customers of our construction equipment finance segment.

Transportation Equipment Finance Segment

We provide financing to our retail customers, which include FTUs, small truck owners, small road transport operators, and business fleet owners, for the acquisition of a wide range of commercial passenger and goods vehicles, across the four sub-segments of the commercial vehicle industry in India (being small, light, medium and heavy commercial vehicles) (refer to the section titled "*Industry Overview – The Retail Finance Industry in India – Transport Equipment Finance Overview*", on page 147 of this Draft Red Herring Prospectus), **provided that** the end-use of the asset acquired by our retail customer is for an income-generating purpose.

We provide secured term loans for the financing of both new and used commercial, passenger and goods vehicles for our retail customers. Typically, the tenor of a transportation equipment loan is between two and five years, and a charge on the vehicle is created in our favor as security for repayment of the loan.

Rural Product Finance Segment

We provide secured and unsecured term loans for the financing of a variety of assets and products in the rural economy in India.

The products of our rural finance segment are typically standardized, and are not customized to the particular needs of individual customers in the same manner as those products and services of our other Retail Finance Group segments. Our existing range of rural products includes the following:

- *Kisan Gaurav and Kisan Mitra* - these schemes are aimed at financing the acquisition by farmers of a variety of farm equipment for their own use, such as tractors, trailers, harvesters and planters. This is typically a secured loan with a tenor of up to five years;
- *Kisan Vanijya* - this is a scheme aimed at financing the acquisition by rural entrepreneurs of tractors for rental to farmers. This is typically a secured loan with a tenor of up to five years;
- *Kisan Bandhu* - this is a scheme aimed at financing the acquisition of small commercial vehicles for carrying goods and passengers. This is typically a secured loan with a tenor of up to four years; and
- *TracFin* - this is a scheme aimed at financing the acquisition of farm equipment and small sized transport vehicles by dealers, as working capital, for resale to the public. This is a revolving unsecured loan which remains valid for one year.
- In addition to the above, we recently launched Apna Car, which is a scheme aimed at financing the acquisition of cars and multi-utility vehicles for personal use. This is a secured loan with a tenor of up to seven years.

Microfinance Segment

We commenced our microfinance operations in June 2008, and this segment of our Retail Finance Group is integral to our aim of contributing to financial inclusion in the Indian economy in a commercially viable manner. The operations of our microfinance segment are currently spread over seven states, namely, Andhra Pradesh, Tamil Nadu, Maharashtra, Karnataka, Gujarat, West Bengal and Orissa.

Our Microfinance Model and Methodology

Our lending model is in the nature of direct lending and disbursement of loans to our customers, as opposed to the "intermediary model", where funds are lent to self-help groups, or non-governmental organizations who have microfinance operations. As such, our lending business is based on a JLG model, which has been used by MFIs for over 30 years internationally, including in Bangladesh. The operations of our microfinance segment are premised on the belief that the poor, who form the customer-base for microfinance products, have skills that are under-utilized, and that if they are given access to credit, will be able to identify new income-generating opportunities and grow existing business activities such as operating local retail shops (known as *kirana* stores), tailoring, basket-weaving and rearing of livestock. We believe that by providing access to microfinance loans, the economic opportunities for poor families can be substantially enhanced. Since inception of this business in June 2008, we have disbursed approximately one million loans.

Our microfinance operations comprise the following elements:

- *Village Identification and Appraisal*: Our field staff identifies various villages which are a potential source of business for our microfinance segment. As such, our field staff conducts surveys in order to determine whether or not a particular village is suitable for our lending business before we commence operations in that area. Such a survey includes an evaluation of local conditions and operational suitability based on the total population and economic profile of the village, transportation links (primarily roads), political stability and safety and security.
- *Joint-Liability Group Formation and Individual Credit Appraisal*: a joint-liability group is an arrangement under which microfinance loan borrowers are grouped together in order to guarantee each others' loans, which we believe helps to engender a culture of mutual support between borrowers and presents a lower risk of default. As such, potential members of a JLG are individually assessed and appraised, and if approved, are formed into JLGs with other individuals.
- *Documentation and Disbursement*: once a joint-liability group is formed, all requisite documentation is completed and the loans are disbursed at one of our meeting centers. (refer to the section titled "*Sales and Marketing – Retail and Corporate Finance Groups - Microfinance*", below).
- *Collections*: following disbursement of the loan, our field staff travels to the villages where the various joint-liability groups are based in order to collect payments, dependant on the repayment schedule of the loans for each joint-liability group.

Gram Bandhu

Gram Bandhu is our principal loan product, and is aimed at providing essential capital for small business endeavours and entrepreneurial initiatives, in accordance with the business model and methodology described above. In the farming sector, these loans are intended to finance activities such as agricultural inputs, dairy, goat-rearing and nurseries. In other sectors, these loans are intended to finance a variety of business activities such as grocery shops', hawkers' and vegetable vendors' operations. Loans granted as part of the Gram Bandhu loan product range in principal amount from ₹ 5,000 to ₹ 50,000. The term may be from one to two years for repayment. Principal and interest repayments are due on a weekly or monthly basis, dependent on the area of lending. The ultimate credit decision is based on both village- and borrower-specific credit appraisals (refer to the section titled "*Our Microfinance Model and Methodology*", above, for a discussion of the credit and approval process).

During Fiscal Year 2010, we disbursed loans aggregating ₹ 7,626.37 million to 677,801 customers of our microfinance segment, compared to ₹ 803.80 million to 87,369 customers in Fiscal Year 2009. For the six months ended September 30, 2010, we disbursed loans aggregating ₹ 4,370.70 million to 350,807 customers. As at September 30, 2010, the loans and advances in our microfinance segment was ₹ 5,516.15 million, which accounted for 10.79% of the aggregate loans outstanding of our Retail Finance Group. On a cumulative basis, from June 2008, up to September 30, 2010, our total disbursements were ₹ 12,949.43 million. Our microfinance customer base grew approximately ten times between March 31, 2009 and September 30, 2010, from 80,177 customers to 808,078 customers.

The following table sets out the distribution of the total loans and advances of our microfinance segment across the seven States in India in which our microfinance segment operates, as at September 30, 2010:

Insurance Products

We provide life insurance products which cover the life of both the borrower and the borrower's spouse for the term of the loan. We also provide non-life insurance products covering risks to property and the underlying asset (for example, cattle).

However, and due recent developments and the requirements of new laws and regulations in the microfinance industry in the Andhra Pradesh, we have discontinued offering insurance products to the customers of the microfinance segment in this province (refer to the section titled "*Risk Factors – Risks Relating to Our Group – The repeal of or changes in the regulatory policies that currently encourage financial institutions to provide capital to the microfinance sector could adversely impact the cost and availability of capital. Further, any uncertainty regarding the implementation and enforcement of the recent Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 or as a result of the RBI's potential implementation of the recommendations set out by the Malegam Committee in its report, may result in delays and/or halts in repayment of loans as a result of which, microfinance institutions may experience losses and liquidity issues causing lenders and investors to lose confidence in the microcredit industry and consequently, lenders may discontinue lending to microfinance institutions.*" on page 23 of this Draft Red Herring Prospectus).

Recent Developments

The board of directors of the RBI, at their meeting held on October 15, 2010 formed a sub-committee of the board (the "**Malegam Committee**") to study issues and concerns in the microfinance sector in so far as they related to the entities regulated by the RBI. The Malegam Committee submitted its report on the issues and concerns in the MFI sector on January 19, 2011. Key recommendations set out in the report include creation of separate category of NBFCs operating in the microfinance sector, such NBFCs being designated as NBFC-MFI, MFIs should lend to an individual borrower only as a member of a JLG and should have the responsibility of ensuring that the borrower is not a member of another JLG. Not more than two MFIs should lend to the same borrower and bank advances to MFIs shall continue to enjoy "priority sector lending" status. For further details please see "*Regulations and Policies in India - Report of the Sub-Committee of the Central Board of Directors of Reserve Bank of India to Study Issues and Concerns in MFI Sector*" on page 190 of this Draft Red Herring Prospectus.

Given the uncertainty regarding the implementation and enforcement of the MFI Act and the potential impact of the Malegam Committee report on the regulatory framework of the microfinance industry, we may re-evaluate the business model, strategy and structure of our microfinance segment, including potentially hiving off the business from L&T Finance into a new company within our Group.

Distribution of Financial Products Segment

Our distribution of financial products segment is focused on the distribution of life and non-life insurance products, as well as investment funds, to our retail customers (including credit life insurance products to the customers of our microfinance segment). We typically distribute such third party financial products through cross-selling efforts with our existing customers. We generate commission fees from the third party providers of these financial products.

Our Third Party Financial Products

The third party financial products that we distribute are as follows:

- *Life insurance products* – we are the corporate agent of life insurance products issued and underwritten by LIC;
- *Non-life insurance products* – subject to applicable regulatory approvals, we are currently seeking to become the corporate agent of non-life insurance products issued and underwritten by L&T General Insurance Company Limited; and
- *Investment fund products* - we are the distributor of various mutual fund products on behalf of third party fund-providers, such as liquid, debt and equity funds.

Our Corporate Finance Group

Our Corporate Finance Group provides financial products and services to a wide array of companies, from small and medium enterprises to large, multinational corporations. We provide these customers with a diverse range of products and services, including term loans, operating leases, finance leases, receivables discounting, supply chain financing and capital markets financing.

In certain circumstances, the project finance segment of our Infrastructure Finance Group originates, assesses and prices loans in the normal and ordinary course of its operations, but the loan is ultimately referred to and disbursed by L&T Finance. The credit approval of these loans is based on the appraisal process carried out by L&T Infra. (refer to the section titled "*Our Loan Portfolio and Policies – Lending Policies – Infrastructure Finance Group – Investment and Credit Policy and Approval Process*", below).

The following table sets out the allocation of our loans and advances as at September 30, 2010 and March 31, 2010, and total disbursements for the six months ended September 30, 2010 and for the financial year ended March 31, 2010, between secured loans and unsecured loans in our Corporate Finance Group:

- ₹ 5,921.21 million in respect of total disbursements made by the capital markets finance segment of our Corporate Finance Group (excluding loans made to facilitate investment in public capital markets offerings) for the financial year ended March 31, 2010; and
- ₹ 5,138.99 million in respect of loans and advances made by the capital markets finance segment of our Corporate Finance Group, which accounted for 15.58% of the total loans and advances of our Corporate Finance Group, as at September 30, 2010; and
- ₹ 4,841.64 million in respect of loans and advances made by the capital markets finance segment of our Corporate Finance Group, which accounted for 19.25% of the total loans and advances of our Corporate Finance Group, as at March 31, 2010.

All of the loans made by our capital markets finance segment are secured. See the section titled "*Capital Markets Finance Segment*", below.

The operations of our Corporate Finance Group are divided into the following business segments:

Corporate Loans and Leases Segment

We provide the following products and services as part of the offering of our corporate loans and leases

segment:

Asset-backed Term Loans

We provide secured term loans for financing of assets such as plant and machinery, IT equipment, furniture and fixtures and vehicles for the corporate sector. A charge on the relevant asset is created in our favor as security for repayment of the loan.

Our term loans are customized by tenor and repayment schedules (for example, to match the cash flow projections of the customer), in order to meet the specific commercial requirements and financial profile of our corporate customers.

Unsecured Term Loans

We provide unsecured term loans primarily for the general working capital requirements of our corporate customers. These loans are typically for a shorter tenor (of approximately six to twelve months) than our asset-backed term loan products, and as they are unsecured, we conduct enhanced credit checks on the customer. Owing to the enhanced credit risk inherent in short-term unsecured loans, this product is only extended to selected customers on a case-by-case basis.

Receivables Discounting

We provide discounting facilities to customers who lease a variety of assets, such as office equipment and furniture and fixtures, with a view to financing the acquisition of such assets by the customer (who is the lessor). The periodic rental receivables from a lease are assigned to us by the lessor of the asset, and to the extent assignment is allowed under the lease agreement, notice of the assignment is given to, and consent for the assignment is obtained from, the lessee.

Whether or not we agree to provide discounting facilities is based entirely on the underlying credit quality of the lessee of the asset. Such discounting facilities are also typically secured by the underlying assets of the lessee.

We register charges over the underlying asset of the leasing transaction as security for the discounting facilities we provide.

Finance and Operating Leases

We offer operating and finance lease facilities to our customers for assets, such as (primarily new) vehicles for corporate use, IT equipment and plant and machinery. This product is restricted to assets which can be redeployed, so that in the event of a default by the lessee, we can repossess the asset for lease to another customer as a used asset.

We have also entered into a variety of referral arrangements with asset manufacturers, in terms of which we provide financing for operating leases that are required by their customers.

Supply Chain Finance Segment

Our supply chain finance segment provides working capital loans and facilities to corporate entities in the supply chain of a variety of industries. Initially, these loans and facilities were designed for and provided to the vendors and suppliers of the L&T Group, such as component and raw materials suppliers, and in 2008, we expanded our vendor and dealer finance products to include the vendors and suppliers of companies outside of the L&T Group. However, the vendors and dealers of the L&T Group currently account for approximately 80% of our vendor finance product. We provide the following products to our customers as part of our supply chain finance segment:

Vendor Finance

This product primarily caters to the requirements of vendors and suppliers of a variety of products. We aim to support the financing of working capital requirements of vendors and suppliers by providing short term unsecured loans and facilities to vendors in order to finance the acquisition of their inventories and receivables.

The tenor of such financing is typically between one and six months.

Dealer Finance

This product is structured to provide credit terms to distributors for the purchase of trading inventory,

primarily engineering and electrical equipment. Typically, we provide automatic revolving credit facilities for distributors.

The tenor of such financing is typically between one and six months.

This division focuses on distributors of the products of the various operating divisions of the L&T Group, as well as other corporate customers. We typically source referrals and recommendations for the provision of dealer financing products from original equipment manufacturers with whom we have a relationship.

In the course of Fiscal Year 2012, we plan for IIDL, subject to applicable regulatory approvals, to begin providing non asset-backed loans and facilities under our Corporate Finance Group's supply chain finance segment.

Capital Markets Finance Segment

We provide loans to customers of our capital markets segment (principally corporate entities, their promoters and high net worth individuals), against the pledge of securities. In order for these securities to qualify as security for a capital markets loan provided by us, they typically need to meet the following criteria:

- the securities must be either equity shares or mutual fund units; and
- in the case of equity shares, generally, the securities must be listed on a recognized Indian stock exchange (such as the NSE or BSE), and be actively traded. However, and in the case of unlisted companies, if the valuation of the underlying shares provides sufficient asset-cover, such shares are acceptable.

Following sanctioning of the loan, our capital markets team monitors the performance of the portfolio of securities pledged on a daily basis.

The tenor of such loans against securities typically varies between six months and three years.

This product is also available to employees who have vested options under employee stock option programmes ("**ESOPs**") of corporate entities whose credit quality is acceptable to us. These transactions are typically arranged by companies for their employees in order to finance the exercise of vested options granted to their employees under ESOPs. As such, the proceeds of the loans are used to finance the exercise of options granted under ESOPs in respect of the shares. Once exercised, the shares are pledged to us as security for the loan.

In addition, we provide short-term loans to high net worth individuals in order to facilitate investment in public capital markets offerings. These loans, which typically have a tenor of 12 to 15 days, are used by our customers to subscribe for securities in public offerings.

Our Investment Management Group

Our Investment Management Group currently consists of two business segments: the Mutual Fund Segment, which is comprised of the management, administration and distribution of L&T Mutual Fund; and the Portfolio Management Services Segment, which is comprised of portfolio management and sub-advisory services. On January 20, 2010, we acquired DBS Cholamandalam Asset Management Limited (which was renamed "**L&T Investment Management Limited**" on February 15, 2010) and DBS Cholamandalam Trustee Limited (which was renamed "**L&T Mutual Fund Trustee Limited**" on February 11, 2010). L&TIM is a wholly-owned subsidiary of L&T Finance, and is registered as an AMC with SEBI.

L&T Mutual Fund offers a wide range of schemes, including equity, fixed income and hybrid, each adhering to distinct investment styles to suit different investment needs. Through our portfolio management services business segment, we intend to offer portfolio management services to high net worth individuals and sub-advisory services to institutional customers, including third-party investment funds. L&TIM obtained a license from SEBI to perform portfolio management activities on May 31, 2010, and we commenced operations of this business segment in October, 2010 with two products, namely the Dynamic Alpha fund, and a Fund of Funds.

Our funds and portfolio management services are available to both Indian and non-resident Indian retail customers, as well as Indian and foreign institutional customers.

Our objective is to establish L&TIM as a leader in the Indian asset management business. We endeavour to accomplish this by providing our customers with favorable investment returns and superior customer service. We are also continually evaluating opportunities to develop further services and products to better serve the investing needs of our customers. For example, we recently launched a daily investment plan which will allow our customers to more easily take advantage of rupee-cost averaging.

Our investment philosophy, research and disciplines

We believe in utilizing research-based stock selection and active portfolio management to provide long-term gains for our customers.

We have established the infrastructure required to conduct fundamental research backed by effective analysis, as evidenced by our research teams and portfolio managers with experience in their respective disciplines. Our research teams apply fundamental research, quantitative research, and micro- and macro-economic research models. In our analyses of industry sectors we tend to utilize a top-down approach, while for individual stock selection we utilize a bottom-up approach. We apply both growth and value models in the research and selection of securities, with growth targeting stocks having under-appreciated growth potential and value targeting stocks that may currently be out of favor and trading at bargain prices.

Our investment disciplines are generally focused on market capitalization (e.g., large-, mid-, and small-cap equities) and term (for example, long-, intermediate-, and short-duration debt securities). Our current geographic exposure is focused entirely on India.

Mutual Fund Segment

L&T Mutual Fund is a SEBI-registered mutual fund with 26 individual schemes as at September 30, 2010. Of these 26 schemes, eleven are equity schemes, fourteen are fixed income schemes (including liquid funds and fixed maturity plans) and one is a hybrid equity/fixed income scheme. L&T Mutual Fund is established as a trust under the Indian Trust Act, 1882, with L&T Finance acting as the sponsor/settler, L&T Mutual Fund Trustee Limited acting as the trustee company and L&TIM acting as the investment manager to the various schemes.

The equity schemes include L&T Opportunities Fund, L&T Growth Fund, L&T Midcap Fund, L&T Multi-Cap Fund, L&T Global Advantage Fund, L&T Tax Saver Fund, L&T Contra Fund, L&T Hedge Equity Fund, L&T Infrastructure Fund, L&T Small Cap Fund and L&T Tax Advantage Fund Series-I. Our three largest equity funds are L&T Opportunities Fund, L&T Midcap Fund and L&T Infrastructure Fund, which have AUMs of ₹ 783.67 million, ₹ 484.55 million and ₹ 369.10 million, respectively, as at September 30, 2010. Of these three funds, L&T Opportunities Fund is rated 3-star by Value Research¹ and L&T Midcap Fund is rated 4-star by Value Research¹ as at February 28, 2011. L&T Infrastructure Fund is unrated. L&T Opportunities Fund and L&T Midcap Fund are also rated "Silver" by the *Economic Times Intelligence Group*² as at February 28, 2011. The balance of our equity funds are either unrated or rated below "Gold".

The fixed income schemes include L&T Triple Ace Fund, L&T Freedom Income - Short Term Fund, L&T Gilt Fund, L&T Liquid Fund, L&T Short Term Floating Rate Fund, L&T Select Income Fund -- Flexi Debt Plan and eight fixed maturity plans as at September 30, 2010. Our three largest fixed income funds are L&T Freedom Income - Short Term Fund, L&T Select Income Fund, and L&T Liquid Fund, which have AUMs of ₹ 10,463.66 million, ₹ 2,204.12 million and ₹ 7,122.78 million, respectively, as at

¹ Value Research Fund Ratings are a composite measure of historical risk-adjusted returns. In the case of equity and hybrid funds this rating is based on the weighted average monthly returns for the last 3 and 5-year periods. These ratings do not take into consideration any entry or exit load. 5-stars indicate that a fund is in the top 10% of its category, next 22.50% indicates 4 star, middle 35% receive 3 star rated fund in terms of historical risk-adjusted returns. These Fund Ratings are as on September 2010. The Value Research Ratings are published in Monthly Mutual Fund Performance Report and Mutual Fund Insight. The Ratings are subject to change every month. The Rating is based on primary data provided by respective funds, Value Research does not guarantee the accuracy.

² The Economic Times Intelligence Group (ETIG) Quarterly Mutual Fund Tracker: The ETIG list Mutual Fund (MF) schemes on the basis of their risk adjusted performance. The period under consideration is 3 years. The return score is arrived at by allotting 60% weight to the past 3 years' absolute return and 40% weight to the past 1 year return. These weighted returns are compared vis-a-vis the average return for the category under consideration to arrive at the return score for each scheme. The top 10% funds in each category are then classified as 'Platinum' funds; the next 20% are graded 'Gold'; and the next 40% are classified as 'Silver'. The quarter under consideration is July 2010 to September 2010.

September 30, 2010. Of these three funds, L&T Freedom Income - Short Term Fund is rated 4-star by Value Research¹ and L&T Liquid Fund are rated 4-star by Value Research¹ as at February 28, 2011, and L&T Select Income Fund - Flexi Debt is not rated. The balance of our fixed income funds are rated below 4-stars or are unrated.

There is also one hybrid income scheme, L&T Monthly Income Plan. L&T Monthly Income Plan has AUM of ₹ 1,132.92 million as at September 30, 2010, and is rated 3-star by Value Research¹ as at February 28, 2011. L&T Monthly Income Plan is also "Gold" rated by the Economic Times Intelligence Group as at December 31, 2010.

Past performance of the schemes mentioned above may or may not be sustained in future and is no guarantee of future results. Please refer to the Scheme Information Document and Statement of Additional Information carefully before investing. For further details please visit L&T Mutual Fund's website at www.lntmf.com.

Our funds are sold directly by L&TIM to both retail and institutional customers, as well as through other intermediaries.

Portfolio Management Services Segment

L&TIM obtained a SEBI license for conducting portfolio management services on May 31, 2010 and we commenced operations of this business segment in October, 2010 with two products, namely the Dynamic Alpha fund, and a Fund of Funds, which focus on creating investment portfolios consisting of a variety of stocks, fixed income instruments, structured products and other assets. As at September 30, 2010, we had ₹ 2,243.80 million under management in investment portfolios.

Within the portfolio management services segment, we have the capability and flexibility to customize and personalize portfolios in order to achieve individual customer's desired investment objective.

We may pursue portfolio management services mandates with both institutional customers and high net worth individuals. With respect to institutional customers, we have one sub-advisory mandate with third-party investment funds.

AUM, Revenues and Fees

We earn revenues by charging fees for managing the investment assets of customers. We generally calculate investment advisory fees as a percentage of the value of AUM, with such fees varying by type of asset class, investment service, size of account, and total amount of assets we manage under the mutual fund segment and the portfolio management services segment. Accordingly, fee income generally increases or decreases as AUM increase or decrease. Increases in AUM generally result from market appreciation, positive investment performance for customers, or net asset inflows from new or existing customers. Similarly, decreases in AUM generally result from market depreciation, negative investment performance for customers, or net asset outflows due to customer redemptions, account terminations, or asset withdrawals.

Fees paid by the funds to L&TIM are reflected in the applicable investment management agreement entered into between L&TIM and L&T Mutual Fund Trustee Limited. The investment management agreement between L&T Mutual Fund Trustee Limited and L&TIM provides for termination by L&TIM on 180 days' written notice to L&T Mutual Fund Trustee. L&T Mutual Fund may terminate the agreement in accordance with relevant SEBI rules and regulations, and with the prior approval of SEBI.

Fees paid by our portfolio management customers to L&TIM are reflected in the applicable disclosure document, client agreement or investment management agreement. Investment management agreements for portfolio management services, including sub-advisory services, are typically terminable by the customer at will. With respect to our portfolio management services, we may also charge a performance-based fee in addition to or in lieu of a base fee. Performance-based fees are calculated as either a percentage of absolute investment results or a percentage of investment results in excess of a stated benchmark over a specified period of time, and they are recorded as revenue at the end of the measurement period. Accordingly, if performance-based fees were to become an important part of our business, the seasonality and volatility of our revenues and earnings may become more significant.

We sometimes experience periods when the number of new accounts or the amount of AUM increases significantly, as well as periods when the number of customer accounts or the amount of AUM decreases significantly. These shifts result from wide-ranging factors, including conditions of financial markets, our investment performance for customers, and changes in the investment preferences of our customers.

The tables below summarize our AUM and revenues by category of investment. As we have only obtained our license for portfolio management services on May 31, 2010, and we are still in the process of establishing this business segment, none of our AUM or revenues (as at the dates indicated) are attributable to portfolio management services.

L&TIM has entered into various selling and distribution agreements pursuant to which it pays sales commissions to the financial intermediaries that distribute our funds. L&T Finance acts as a distributor for the various schemes of L&T Mutual Fund and, accordingly, L&T Finance may from time to time, as applicable pursuant to the terms of its distribution agreement with L&TIM, accrue commissions in respect of its distribution of units of the various L&T Mutual Fund schemes. None of the distributors of the L&T Mutual Fund, including L&T Finance, is under any obligation to sell a specific amount of L&T Mutual Fund units, and each of them may also sell shares of mutual funds sponsored by other affiliates and unaffiliated organizations.

Computer Age Management Services Pvt. Ltd. acts as registrar for L&T Mutual Fund, and HDFC Bank Limited provides custodian and related services for the funds as well as unitholder servicing for each fund's unitholder accounts. Each of these service providers receives a fee under each of its servicing agreements with L&TIM and L&T Mutual Fund Trustee Limited. Each servicing agreement must be approved annually by the L&T Mutual Fund Trustee Limited board of trustees, including a majority of the independent trustees.

L&TIM has discretion to select brokers to execute trades on behalf of L&T Mutual Fund and other customers. These brokers are selected in accordance with an internal approval process (which conforms to the appropriate SEBI guidelines and regulations) involving a panel of portfolio managers and analysts, and are subject to annual review and confirmation by our compliance team. These brokers are paid commissions for executing orders and, in certain instances, may receive commissions which reflect the provision of research that benefit our customers.

OUR FUNDING STRUCTURE

Our Company, L&T Infra and L&T Finance are NBFC-ND-SIs. Accordingly, neither of our Company, L&T Infra nor L&T Finance accepts deposits, and as such, we rely on equity (in the form of shareholders' funds) and loan funds (in the form of various secured and unsecured borrowings) in order to meet our capital and funding requirements. Of these funding sources, secured loans remains the most significant source of funding across all three of our core finance business groups. Secured loans represented 54.56%, 64.67%, 69.85% and 54.67% of the total source of funds of our Infrastructure Finance Group (through L&T Infra) as at September 30, 2010 and as at March 31, 2010, 2009 and 2008, respectively, and 49.75%,

62.11%, 46.62% and 48.52% of our Retail Finance Group and Corporate Finance Group (through L&T Finance) as at September 30, 2010 and as at March 31, 2010, 2009 and 2008, respectively.

As a general principle, we prefer to borrow long-term funds from a diversified lender base and we accordingly aim to develop our balance sheet by matching such funds with the maturities of our assets and interest rate structure. We believe that a diversified lender profile ensures that we are not overly dependent on any one source or a few financial institutions. In light of this, and our growing funding requirements, we have made conscious efforts to diversify our lender base to include a larger number of different types of banks (public sector banks, domestic private banks and foreign banks) and financial institutions (principally in the form of debt placed through retail and institutional participation) (refer to the section titled "*Management's Discussion and Analysis of Financial Condition and Results of Operations – Factors Affecting Our Results of Operations - Availability of capital and cost effective funding sources*" on page 248 of this Draft Red Herring Prospectus).

In addition, our aim is to ensure that we have a judicious mix of wholesale and retail funding at any given point in time. For example:

- L&T Infra, our wholly-owned subsidiary through which we conduct the operations of our Infrastructure Finance Group, has been classified as an IFC, which allows it to raise capital through an infrastructure bond offering only available to notified IFCs and to select other notified institutions. Such an infrastructure bond offers certain tax benefits to investors, **provided that** bond is issued with maturity of 10 years and subject to a five year lock-in of investors in the bonds.
- L&T Finance, our wholly-owned subsidiary through which we conduct the operations of our Retail Finance Group and Corporate Finance Group, has issued in aggregate series of secured NCDs through two public offerings (the details of which are described below).

See the section titled "*Risk Management*", below, for a discussion of the asset-liability management policies and principles of our Infrastructure Finance Group and Retail and Corporate Finance Groups, respectively.

The following table sets out the funding structure of L&T Infra as at September 30, 2010 and March 31, 2010, 2009 and 2008, respectively:

We believe that our credit ratings from both CARE and ICRA (as at the date of this Draft Red Herring Prospectus, L&T Finance has a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which indicates high credit quality and that the rated instrument carries low credit risk), and L&T Infra has a CARE rating of AA+ (which indicates that such instruments offer high safety for the timely servicing of debt obligations and carry very low credit risk) and an ICRA rating of LAA+ (which indicates high credit quality and that the rated instrument carries low credit risk)) also enables us to access funds at competitive rates. See the section titled "Our Competitive Strengths - Good financial and capital position, as well as access to multiple sources of capital", above. In addition, we believe that our ability to leverage the "Larsen and Toubro" brand name allows us to benefit from the strong brand equity it provides in order to access retail funding at competitive rates, and which would not otherwise be able to access as readily. See the section titled "Our Competitive Strengths – Strong Parentage and Brand Equity of L&T", above.

In September 2009, L&T Finance completed its first public issue of 5,000,000 secured redeemable NCDs with a face value of ₹ 1,000 each to domestic investors in India. The issue, which aggregated to ₹ 10,000 million included an option to retain over-subscription for up to an additional ₹ 5,000 million, which was fully exercised. The proceeds of the issue were used for the various financing activities of L&T Finance, including lending and investments, the repayment of existing loans and for general business operations (such as meeting capital expenditure and working capital requirements). A tranche of the NCDs issued had a tenor of up to 10 years, which we believe to be rare in the domestic market for NCDs in India. In addition, 35% of the allotment was to retail investors.

In March 2010, L&T Finance completed its second public offering of NCDs to domestic investors in India. The issue of 2010 A Series 2,500,000 secured redeemable NCDs with a face value of ₹ 1,000 each. The issue, which aggregated to ₹ 5,000 million, included an option to retain over-subscription for up to an additional ₹ 2,500 million, which was fully exercised. The proceeds of the issue were used for the various financing activities of L&T Finance, including lending and investments, the repayment of existing loans and for general business operations (such as meeting capital expenditure and working capital requirements). The NCDs issued had a tenor of three years, and 30% of the allotment was to retail investors.

Capital Adequacy

Our Company (as an NBFC), L&T Infra (as an NBFC and IFC) and L&T Finance (as an NBFC and AFC) are subject to the capital adequacy requirements prescribed by the RBI. See the section titled "*Management's Discussion And Analysis Of Financial Condition And Results Of Operations – Capital*" on page 276 of this Draft Red Herring Prospectus, for a discussion of the capital adequacy position of each of our Company, L&T Infra and L&T Finance. Also, refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus, for a discussion of the capital adequacy requirements of the RBI to which we are subject.

OUR LOAN PORTFOLIO AND POLICIES

The principal focus of our Infrastructure Finance, Corporate Finance and Retail Finance Groups is the provision of loans and advances to our customers. Our loans are to a broad cross-section of Indian business and society, with products that range from microfinance loans to individuals in rural India, to asset-backed term loans to major corporate entities. The lending policies that we have in place are aimed at ensuring that our loan portfolio remains of a high quality. We also maintain prudent provisioning and write-off policies in respect of our NPAs.

Lending Policies

In light of the diverse nature of the products we offer and our customer-base, our lending policies are decentralized. As such, each of our Infrastructure Finance Group (through L&T Infra) and our Retail and Corporate Finance Groups (on a combined basis, through L&T Finance), maintains its own internal credit policies and approval processes, which are developed and implemented according to the underlying nature of their respective operations and the particular nature of their customers and products.

Infrastructure Finance Group: Investment and Credit Policy and Approval Process

Our Infrastructure Finance Group manages its own investment and credit approval process in accordance with its finance investment and credit policy, which were approved by the board of directors of L&T Infra. A dedicated Investment and Credit Committee ("**Infrastructure ICC**") oversees the application of, and compliance with, this policy, and retains the sole responsibility for approving advances made by our Infrastructure Finance Group at meetings which are generally convened once in every two week cycle.

Eligibility and Policy Objectives

Public sector and private sector companies, public-private sector SPVs under PPP initiatives, partnership firms, unincorporated joint ventures (but only where the joint venture partners are incorporated entities) and trusts and societies (aimed at establishing educational or medical facilities, or for commercial purposes) are eligible borrowers from our Infrastructure Finance Group.

The policy objectives of our Infrastructure Finance Group include, amongst others -

- building a business model in conformity with the RBI's policies and guidelines for NBFCs, and that would optimize the benefits thereof for our stakeholders;

- building a sound and diversified asset portfolio through risk-pricing based lending and growth-oriented early-stage investments, with the aim of earning superior returns on capital employed; and
- optimize the risk-return profile of the infrastructure loan portfolio with an emphasis on credit quality, supervision, timely collection and well-defined exit options from investments.

Project and Credit Assessment Process

Before presenting a proposal for approval to the Infrastructure ICC, a dedicated team within the project finance segment, appraises the proposed project for which funding is sought and conducts due diligence investigations on the project and project sponsor. The following aspects of the project are assessed:

- the project sponsor and the project group;
- the industry and sector in which the project is being undertaken;
- The nature of the project and structure of the concession;
- technical feasibility evaluation of the project;
- commercial and economic viability evaluation;
- credit checks and due diligence with the existing lenders and/or bankers of the sponsor(s) and or Credit Information Bureau (India) Limited;
- interaction with the key management personnel of the project group and sponsor to understand their perspective on the project and sector-specific commercial considerations and business dynamics;
- risk identification, risk allocation, risk mitigation and risk pricing of the transaction;
- site visits are undertaken by the appraising team to ascertain what local factors would have an impact on the project's viability;
- in the case of projects which require viability gap funding under a government scheme, we ensure that due commitments from the relevant government agencies for such a facility are in place;
- arrangements for the monitoring of the project and project assets by competent external technical agency, where considered necessary, are put in place; and
- in respect of specialized asset leases such as aircrafts, ships and oil rigs, an assessment of the residual values thereof is undertaken with the help of external agencies.

Once the proposal has been assessed, the Infrastructure ICC makes a determination on the size of the exposure to be taken, based on the findings of the assessment process, and by reference to the Infrastructure Finance Group's exposure norms to an individual company, group or industry. See the section titled "*Asset Composition – Concentration of Total Exposure*", below.

Our Infrastructure Finance Group has developed an internal ratings model, which is similar to models used by external rating agencies in terms of methodology and rating scales. Accordingly, all credit proposals are evaluated and their internal ratings presented to the ICC as an input for its decision-making process. Also, these internal ratings are periodically reviewed, based on operational performance and external developments, if any.

Repayment Schedule

The repayment of loans and facilities is normally fixed on a case-by-case basis, depending on the nature of the project, its projected cash flows and the maturity profile of our Infrastructure Finance Group's own funding mix. A pre-payment premium may be charged in case of early repayment of the facility. However, any post-approval changes in the repayment schedule would conform to the provisions of a "Schedule of Delegation of Powers for Investment and Credit approvals and Portfolio Management", as approved by the Infrastructure ICC.

Exit Options

A fundamental element of the projects that our Infrastructure Finance Group funds is the availability of clearly defined exit opportunities from the investments we make. As such, all of our equity investments,

convertible instruments, mezzanine debt and any similar financial products, as well as operating leases, should necessarily have clearly identified (and agreed upon by the customer, where applicable) exit options. Any recommendation to exit - particularly when earlier than as provided for in the documentation - would be based on a detailed evaluation by our project finance team of the commercial merits of exiting the investment, and would conform to the provisions of the "Schedule of Delegation of Powers for Investment and Credit approvals and Portfolio Management" approved by the Infrastructure ICC.

In addition, and in the case of operating leases, due diligence is carried out in conjunction with technical teams on the status of the assets and its residual values at the time of exercising such exit options.

Security

The project assets typically form the security for the credit facilities we provide. The details of the security to be charged in favor of our Infrastructure Finance Group, are stipulated by the Infrastructure ICC and suitably reflected in the security documents in the credit approval process. The security package for each facility is structured in such a manner so as to adequately cover the risks associated with the facility.

In the case of structured products, facilities can be approved by the Infrastructure ICC without requiring conventional security on the basis of a suitable financing structure and with comfort from other covenants such as a ceiling on overall debt-equity ratio, escrow account mechanism, negative lien agreement, pledge of shares, assignment of rights or corporate guarantees. In cases of funding which are serviced entirely from project revenues, escrow and/or water-fall arrangements are acceptable to support the security provided.

In the case of loans made for specific infrastructure assets, the security is normally an exclusive, *pari passu* or first charge on the underlying assets to be financed. For short-term interim loans such as bridge finance facilities for infrastructure projects and/or the acquisition of assets, the security is generally in the form of a hypothecation of movables, corporate/personal guarantees and/or pledges of shares, as well as other forms of security considered sufficient by the Infrastructure ICC.

Appropriate processes to create enforceable security in the form of a mortgage and or hypothecation are rigorously followed.

The margin requirements for different types of security are decided by the Infrastructure ICC from time to time, and exceptions, if any, will be handled in accordance with the guidelines of the Infrastructure ICC.

Documentation

Our Infrastructure Finance Group only makes disbursements on the completion of all requisite legal documentation.

The documentation process seeks to ensure that:

- our customers' obligations are clearly defined and established by the documents;
- the charges created on our customers' assets as security for the debt and/or other facilities provided are suitably registered and maintained, such that it is enforceable at all times during the term of the loan provided; and
- our rights to enforce the security for the recovery of the debt and/or facilities provided (including committed return thereon, if any), through a court of law or other applicable forum, is as extensive and unambiguous as possible under relevant statutes of limitations in jurisdictions of India as well as in the countries where the assets are registered or located.

We evolve and adopt standard documentation and commitment processes for various products and services we offer. For each structured finance facility, specific covenants are designed in consultation with our legal counsel. Where any deviation from the terms of the standard facility documents is warranted, approval of the appropriate authority in accordance with the "Schedule of Delegation of Powers for Investment & Credit Approvals and Portfolio Management" approved by the Infrastructure ICC, is obtained. In addition, the Schedule prescribes specific procedures for the execution of standard facility agreements and documentation in respect of the creation of interim and final security. Such documentation, aimed at protecting our rights to recourse against the underlying security, is completed and in the process, all prevailing laws and regulations of relevant jurisdictions are observed and reflected in the documentation.

In addition, we also ensure that comprehensive insurance of the secured assets is in place, and that such insurance policies are kept updated and valid. The insurance policies are typically issued to our infrastructure customers, and assigned in favor of L&T Infra and any co-financiers sharing the security on a *pari passu* basis, where applicable, as the loss-payees.

Retail and Corporate Finance Group: Credit Policy and Approval Process

L&T Finance has credit appraisal policies in place in order to manage the credit risks associated with the loans made by our Retail Finance Group and Corporate Finance Group. Various aspects of credit risk management are addressed by different processes and teams within L&T Finance, and are designed to manage risks at different stages of the financing process, i.e.: both pre- and post-disbursement.

Credit Assessment Process

We have a centralized credit team which is responsible for the development of a framework use for the evaluation and sanctioning of loan proposals across both our Retail Finance Group and Corporate Finance Groups.

All new products developed are vetted by the credit team, and are presented to L&T Finance's Board of Directors for approval.

Further, an authorization matrix is prepared by the credit team in consultation with the relevant business group, and is presented to the L&T Finance's Board of Directors for approval. This matrix sets out the relevant exposure and authorization limits. Depending on the value of the proposal, the approval tiers are defined and duly authorized persons to whom authority has been delegated (in accordance with the authorization matrix) have the power to approve the proposal.

In our Retail Finance Group, scorecards play a vital role in the lending decision. A comprehensive score card is developed by the credit team, and takes into account all relevant parameters that assist in the evaluation of the credit-worthiness of the borrower. The focus of the credit decision is the asset being financed, related cash flows and the risks associated with the asset and the borrower. The scorecard typically includes aspects such as:

- the demographic profile of the borrower;
- financial position;
- risk factors; and
- asset/security related information.

The credit team then prepares a credit approval memorandum ("**CAM**"), which is designed to capture all the relevant aspects of the loan proposal that are required for the evaluation and authorization of a loan. The CAM serves as the basis for the loan approval. The scorecards have minimum cut-off scores, which have to be met in order for the proposal to be processed at that approval tier, else it moves to the next higher approval tier for processing.

In our Corporate Finance Group, owing to the relatively larger size (compared to our retail products) of loan proposals, detailed appraisal notes are prepared by the credit team, which cover the following aspects of a loan proposal relevant to the borrower:

- industry (elements such as the nature of industry, regulations, growth potential and entry barriers);
- market position (elements such as the size of the company and order book details);
- operational efficiency (elements such as competitiveness and technical expertise);
- management quality (elements such as experience, promoter background and their past track record); and
- financial strength (elements such as balance sheet size, key ratios and financial flexibility).

These parameters and their constituent elements are indicative and may vary from deal to deal based on the loan proposal.

In the case of asset finance loans, the asset being financed typically form the basis of security for loans

and advances extended by both our Retail Finance Group and Corporate Finance Group. Further, the asset's value and income-generating capability forms an integral component of the credit assessment process.

For all cases, due diligence is undertaken in respect of Know Your Customer policies, credit references and banking history.

Following the preparation of appraisal notes, the credit team presents the proposal to the respective approving authorities (based on the authorization matrix) for a decision, and communicates the decision to the relevant business group for further processing.

Once a proposal is approved, a specific CAM number is generated by the credit team for that proposal, and an approved copy of the proposal together with the CAM number (as well as any loan sanctioning conditions) is communicated to the relevant business group. If there are any sanction conditions, the operations team ensures that all such sanction conditions are complied with before the loan is disbursed. Any condition requiring our legal team's involvement is also addressed by them before disbursement.

Collection and Recovery

We have a dedicated asset management team whose responsibility is to streamline the asset management activities across all the asset finance segments (primarily, the Retail Finance Group), given the growing book size of L&T Finance. We believe that this helps the business groups to focus on business generation and collections while an expert team deals with NPA management, repossessions and resales of assets in as timely and efficient a manner as possible. We also believe that this enables the timely involvement of recovery experts in the debtor management process.

The asset management team has a collection function which manages all accounts moving into the delinquency stage. These accounts are managed through either the collection of dues or the repossession and resale of assets through appropriate legal measures. In addition, the team is responsible for identifying signs of delinquency at an early stage, implementing appropriate recovery measures in order to prevent the degradation of accounts, repossession of assets in cases of wilful default, storing and valuation of asset, obtaining best possible prices on resale, minimizing repossession sale losses, instituting appropriate legal action (in conjunction with the legal team) and obtaining property details of the customer for attachment of the assets.

The repossession of assets typically only takes place when recovery is not possible. Repossession is undertaken by an appointed panel of repossession agents, and in accordance with the guidelines prescribed by L&T Finance. Once the asset is repossessed, the customer is given an opportunity to clear any outstanding amounts and take back possession of the asset, failing which we proceed with the sale of the asset. Asset liquidation is normally done within 45-60 days of repossession to ensure minimal depreciation and a higher price on resale. Any shortfall on sale of assets is recovered from the customer through arbitration loss recovery.

Asset Composition

In our Infrastructure Finance Group, the total loans made to our infrastructure finance customers amounted to ₹ 42,884.99 million as at March 31, 2010, compared to ₹ 22,660.47 million as at March 31, 2009, which represents an increase of 89.25%. The total loans made to our infrastructure finance customers amounted to ₹ 52,729.81 million as at September 30, 2010.

In our Retail and Corporate Finance Groups, the loans and advances to our retail and corporate finance customers amounted to ₹ 69,820.53 million as at March 31, 2010, compared to ₹ 50,418.83 million as at March 31, 2009, which represents an increase of 38.48%. The loans and advances to our retail and corporate finance customers amounted to ₹ 84,099.80 million as at September 30, 2010.

The following table sets out the distribution of our total loans and advances by core business group as at September 30, 2010:

² L&T Finance

³ Includes loans and advances made by our other group companies, including IIDL (Refer to the section titled "Our Group Structure and Subsidiaries", above).

Concentration of Total Exposure

As an NBFC, and in accordance with RBI norms, our policy is to limit our exposure to a single "group" of borrowers (based on a commonality of management and effective control) and a single "borrower" to the prescribed percentages of our owned funds (which comprises share capital and free reserves), respectively.

For our Infrastructure Finance Group, as a result of L&T Infra being classified as an IFC by the RBI, our single borrower limit for loans has been increased by an additional 10% of L&T Infra's owned fund and our single group limit for loans has been increased by an additional 15% of L&T Infra's owned fund (refer to the section titled "Regulations and Policies in India", on page 186 of this Draft Red Herring Prospectus).

Infrastructure Finance Group Exposures

The following table sets forth the 10 largest single and group exposures of our Infrastructure Finance Groups (through L&T Infra) as determined by the RBI guidelines, as of September 30, 2010:

Retail and Corporate Finance Group Exposures

As at September 30, 2010, the top 10 largest single exposures of our Retail and Corporate Finance Groups (through L&T Finance) as determined by the RBI guidelines was in aggregate ₹ 7,613.38 million, which accounted for 9.05% of the total exposure of our Retail and Corporate Finance Group, and 54.39% of our owned funds.

Industry Exposures

For details of our Infrastructure Finance Group's industry exposure, see "Our Business and Operations – Our Infrastructure Finance Group – Industry and Sector Focus", above. According to our Infrastructure Finance Group's investment and credit policy, exposures to any single infrastructure industry segment (such as energy or telecommunications) is limited to 35% of our loan portfolio value. In the event that any single industry exposure is to exceed 35% in a given year, L&T Infra board approval is required.

Our Retail Finance Group and Corporate Finance Group do not measure industry-specific exposures, owing to the diverse nature of their product and services offerings and customer profile.

Classification of Assets

Our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group classify their respective assets (including leases) in accordance with RBI guidelines. In accordance with these guidelines, assets are regarded as "non-performing" if any amount of interest or principal remains overdue for more than 180 days.

Accordingly, the assets of our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group are classified as follows:

Class of Asset	Definition
Standard Assets:	Assets that do not display any problems or which do not carry more than the normal risk attached to the business of the borrower.
Sub-standard Assets:	Assets that are non-performing for a period not exceeding 18 months.
Doubtful Assets:	Assets that are not performing for more than 18 months.
Loss Assets:	Assets where loss has been identified and the amount has been written off, wholly or partly. Such an asset is considered "not recoverable" and of such little value that its continuance as a bankable asset is not warranted, although there may be some salvage or recovery value.

Provisioning and Write-off Policies

Our Infrastructure Finance Group (through L&T Infra) and Retail and Corporate Finance Groups (through L&T Finance), have developed and apply separate provisioning and write-off policies (as part of their respective investment and credit policies) for NPAs. Both sets of policies meet or exceed those which are prescribed by applicable RBI guidelines.

Infrastructure Finance Group

Our Infrastructure Finance Group categorizes its assets based on the classification prescribed by the RBI.

The table below sets out the provisioning requirements applied for loans and other credit facilities provided by our Infrastructure Finance Group:

Class of Asset	Provisioning Requirement
Standard Assets	A general provision of 0.25% of the outstanding standard assets.
Sub-standard Assets:	A general provision of 10% of the total outstanding amount.
Doubtful Assets:	<ul style="list-style-type: none">100% provision to the extent to which the loan is not covered by the realizable value of the security to which we have valid recourse.
	<ul style="list-style-type: none">For the secured portion, depending upon the period for which the asset has remained doubtful, provision is made at the following rates:
	<ul style="list-style-type: none">Up to one year: 20%
	<ul style="list-style-type: none">Up to three years: 30%
	<ul style="list-style-type: none">More than three years: 50%
Loss Assets:	The entire asset is written-off. If the assets are permitted to remain on our books for any reason, 100% of the outstanding amount.

As a matter of prudence, L&T Infra makes provisions against standard assets over and above RBI norms.

The table below sets out the provisioning requirements applied for finance and operating leases provided by our Infrastructure Finance Group:

Class of Asset	Provisioning Requirement
Where any amounts of hire charges or lease rentals are overdue for a period of up to 12 months:	Nil
Standard Assets	A general provision of 0.25% of the outstanding standard assets.
Sub-standard Assets:	Where any amounts of hire charges or lease rentals are overdue for more than 12 months but up to 24 months – 10% of the book value
Doubtful Assets:	<ul style="list-style-type: none">Where any amounts of hire charges or lease rentals are overdue for more than 24 months but up to 36 months – 40% of the net book value.
	<ul style="list-style-type: none">Where any amounts of hire charges or lease rentals are overdue for more than 36 months but up to 48 months – 70% of the net book value.
Loss Assets:	Where any amounts of hire charges or lease rentals are overdue for more than 48 months – 100% of the net book value.

Retail Finance Group and Corporate Finance Group

The provisioning and write-off policies of our Retail and Corporate Finance Groups are more stringent

and conservative than those prescribed by the RBI for NBFCs. We believe that this will ensure that the losses in any given year will not have a significant impact on the profitability of our Retail and Corporate Finance Groups, particularly in years with low asset growth.

For the purposes of provisioning, we classify the products of our Retail and Corporate Finance Groups into three sub-categories, as the table below reflects:

NPA Provisioning Policy	Retail and Corporate Finance Group Products
<i>Asset-backed Loans</i>	Retail Finance Group:
	<ul style="list-style-type: none"> • Kisan Gaurav and Kisan Bandhu

¹ For microfinance products, any account in respect of which the equated monthly instalments are greater than 180 days is fully provisioned.

For Asset-backed Loans, the maximum of the provisioning requirements of the RBI guidelines and the principal amount at risk less the notional asset (which forms the security for the loan) value is used for provisioning purposes. As such, it is necessary that we conduct a due and proper valuation of each asset financed, which includes an assessment of the asset's original equipment manufacturer, its year of manufacture, capacity and location. The table below sets out the provisioning requirements applied for Asset-backed Loans provided by our Retail and Corporate Finance Groups:

In accordance with the recent amendment to the Non-Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, with effect from January 17, 2011, L&T Finance makes a general provision of 0.25% of all its outstanding standard assets.

Non-Performing Assets

² We have made provisions of ₹ 208.00 million on standard assets as at September 30, 2010, and ₹ 251.60 million on standard assets as on March 31, 2010. Note that, in accordance with the amendment to the Non-Banking Financial (Non Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, provisions on standard assets will not be taken into account at arriving at net NPAs with effect

from January 17, 2011. Accordingly, provisions on standard assets need not be netted from gross advances but shown separately as 'Contingent Provisions against Standard Assets' in the balance sheet.

³ As at September 30, 2010, L&T Finance held repossessed assets worth ₹ 318.80 million (based on internal valuation estimates). We believe that realisation from the resale of these assets could have a positive impact on our Net NPAs.

RISK MANAGEMENT

In the course of our business operations, we are exposed to a number of risks in conducting our core business operations across our Infrastructure Finance Group, Retail Finance Group and Corporate Finance Group. Our general risk management strategy is to actively manage and hedge our interest rate and maturity positions that may create liquidity or market risk to our business.

Our core business groups face the following risks in the course of their operations:

- *Credit Risk* - credit risk is the risk that our customers will fail to discharge their repayment obligations under a loan or lease instrument, and thereby cause us to incur a financial loss.
- *Liquidity Risk* – liquidity risk is the risk that we will be unable to meet our net funding requirements. This can be caused by market disruptions or credit downgrades which may cause certain sources of funding to become unavailable.
- *Interest Rate Risk* – interest rate risk is the risk arising from repricing and/or maturing mismatches between our assets and liabilities, thus impairing our net interest income.
- *Operating and other Risks* – operating risk is the risk of loss arising from inadequate or failed internal process, people, systems and/or from external events, including legal risk. In addition, we also face risks arising from yield-curve or mismatch risk, strategic risk and reputational risk.

Our Infrastructure Finance Group (through L&T Infra) and Retail and Corporate Finance Group (through L&T Finance) maintain separate credit and interest rate risk management policies and principles, and both adhere to the RBI's ALM Guidelines for NBFCs in relation to their management of liquidity risk.

Credit Risk

Infrastructure Finance Group

The credit risk of our Infrastructure Finance Group is managed through comprehensive policies and processes that ensure adequate identification, measurement, monitoring and control as well as reporting of credit risk exposure. Refer to the sections titled "Our Loan Portfolio and Policies – Lending Policies", "Concentration of Total Exposure" and "Provisioning and Write-off Policies", above, for a discussion of these policies.

Retail and Corporate Finance Groups

As with our Infrastructure Finance Group, the credit risk of our Retail and Corporate Finance Group is

managed through comprehensive policies and processes that ensure adequate identification, measurement, monitoring and control as well as reporting of credit risk exposure. Refer to the sections titled "*Our Loan Portfolio and Policies – Lending Policies*", "*Concentration of Total Exposure*" and "*Provisioning and Write-off Policies*", above, for a discussion of these policies.

Interest Rate Risk

Infrastructure Finance Group

Asset-liability management addresses two of our Infrastructure Finance Group's major risk types, namely liquidity risk and interest rate risk. The Infrastructure Finance Group's Asset-Liability Management Committee ("**Infrastructure ALCO**") is responsible for the formulation, revision and administration of the L&T Infra asset-liability management policy and reports directly to the board of directors of L&T Infra.

For effective MIS reporting, L&T Infra considers, evaluates and implements a suitable data management system optimally capable of meeting ALM reporting needs.

The Infrastructure ALCO has a dedicated support function which generates a variety of reports used in managing the interest rate risk of the Infrastructure Finance Group.

The principal report used to fulfill this function is the Gap Management Report, which provides data used by the Infrastructure ALCO to measure risk to net interest income arising from the re-pricing of assets and liabilities over time. As such, the assets and liabilities of the Infrastructure Finance Group are organized into re-pricing "buckets". This analysis allows the Infrastructure Finance Group to determine the effect on income due to a change in the interest rates.

In addition to the Gap Management Report, the Infrastructure ALCO also runs simulations (or "stress tests") in order to measure the possible impact of rate and scenario changes on the net income of the Infrastructure Finance Group.

The following table sets out an analysis of the maturity profile of certain of L&T Infra's interest-bearing assets and interest-bearing liabilities across time buckets as at September 30, 2010 and March 31, 2010 and 2009:

The Infrastructure Finance Group aims to reduce risk to earnings from adverse movements in interest rates. The Infrastructure ALCO has devised a prime lending rate (the "**Infrastructure PLR**"), and which is a floating rate of interest applied to the loans of our Infrastructure Finance Group that is calculated by reference to the cost of borrowing, prevailing interest rate and market risk (as a function of loan tenors and the interest rate outlook), and the minimum return on capital which our Infrastructure Finance Group would seek to achieve on a given loan. The Infrastructure PLR is reviewed periodically by the Infrastructure ALCO and re-priced based on prevailing movements in interest rates, and their impact on returns on capital. Accordingly, the Infrastructure PLR reflects movements in money markets and interest rates generally, and allows our Infrastructure Finance Group to take such movements into account when pricing its loans.

In addition to the Infrastructure PLR, our Infrastructure Finance Group can also create assets which are linked to some other established benchmark as may be approved by the Infrastructure ALCO. The interest rate on assets are linked to such benchmarks, so that any increase/decrease in interest cost can be passed on to borrowers. The Infrastructure Finance Group's gap and interest rate exposure is compiled and reviewed on a monthly basis.

Retail and Corporate Finance Groups

Our Retail and Corporate Finance Groups have a formal written risk management policy in order to manage interest rate and liquidity risk. The Retail and Corporate Finance Groups' Asset-Liability Management Committee (the "**Finance ALCO**") is responsible for the formulation, revision and administration of the L&T Finance risk management policy, and reports directly to the board of directors of L&T Finance.

The combination of principles are as follows:

Borrowing Mix

The loan assets of our Retail and Corporate Finance Groups are divided into long-term and short-term loan assets.

Short-term loan assets are those loans and advances with maturities of between 30 days and 364 days, and typically have an average maturity of 90 days. Short-term loan assets are priced using a floating rate of interest, and are re-priced on a quarterly basis by reference to prevailing market rates. Long-term loan assets are those loans and advances with maturities of 365 days or more, and usually vary between one year and seven years. The average maturity of long-term assets is typically 28 months. Long-term loan assets are all priced on the basis of a fixed rate of interest.

In light of this maturity profile of the loan assets of our Retail and Corporate Finance Groups, the Finance ALCO aims to ensure that the borrowings of our Retail and Corporate Finance Groups comprise short-term borrowings of 35-40%, and long-term borrowings of 60-65% of our total borrowings.

We believe that this enables us to effectively match the yields and maturities of our loan assets with those of our borrowings.

Pricing Matrix

The Finance ALCO has established a pricing matrix which reflects the marginal cost of borrowing. This pricing matrix is published every two weeks and communicated to the various business heads of our Retail and Corporate Finance Groups, who use the pricing matrix to price the incremental disbursements of their respective business segments.

We believe that the use of this pricing matrix ensures that interest rate movements are taken into account when pricing both the short- and long-term loans and advances of our Retail and Corporate Finance Groups.

Pricing Mechanism

The Finance ALCO has devised a prime lending rate (the "**Finance PLR**"), which is a floating rate of interest applied to the loans and advances of our Retail and Corporate Finance Groups that is calculated based on L&T Finance's average cost of funds. The Finance PLR is reviewed periodically by the Finance ALCO and re-priced based on prevailing movements in interest rates, and their impact on our average cost of funds. Accordingly, the Finance PLR reflects movements in money markets and interest rates generally, and allows our Retail and Corporate Finance Groups to take such movements into account when pricing the loans and advances of our Retail and Corporate Finance Groups.

Other Control Principles

When L&T Finance borrows on the basis of a floating rate of interest, as a matter of policy we only do so where such floating rate of interest is limited by reference to pre-determined caps and floors. This enables us to maintain control and visibility of interest rate movements in our borrowings. In addition, interest rate swaps and hedging position are taken in the event of mismatches occurring between floating rate borrowings and fixed rate loan assets.

As with the Infrastructure ALCO, the Finance ALCO utilizes a gap management report, which provides data used by the Finance ALCO to measure risk to net interest income arising from the re-pricing of assets and liabilities over time. As such, the assets and liabilities of the Infrastructure Finance Group are organized into re-pricing "buckets". This analysis allows the Retail and Corporate Finance Groups to determine the effect on income due to a change in the interest rates.

The following table sets out an analysis of the maturity profile of certain of L&T Finance's interest-bearing assets and interest-bearing liabilities across time buckets as at September 30, 2010 and March 31, 2010 and 2009:

Liquidity Risk

Our Infrastructure Finance Group's aim is to maintain an adequate level of liquid assets to meet the contractual maturity of existing funding, to fund investment opportunities, to satisfy credit demands and to provide cover against contingent liquidity risks derived from unforeseen events.

The determination of the adequacy of our Infrastructure Finance Group's liquidity position is based upon an analysis of the existing liquidity position relative to the following factors:

- historical funding requirements;
- current liquidity position;
- anticipated future funding needs;
- present and anticipated asset quality;
- present and future earnings capacity; and
- available sources of funds.

Suitable contingency plans are put in place by the Infrastructure ALCO in order to meet any liquidity shortfalls.

For measuring and managing net funding requirements, our Infrastructure Finance Group uses the "maturity ladder approach", and makes appropriate contingency plans to meet unexpected shortfalls. The cumulative surplus or deficit of funds at selected maturity dates are calculated. A statement of structural liquidity exposure is produced by calculating our Infrastructure Finance Group's net liquidity gap, and by comparing current ratios with targets.

The maturity profile set out in the statement of structural liquidity is used for measuring the future cash flows in different time buckets. The time buckets are as follows:

- 1 day to 1 month;
- Over 1 month and up to 2 months;
- Over 2 months and up to 3 months;
- Over 3 months and up to 6 months;
- Over 6 months and up to 1 year;
- Over 1 year and up to 1.5 years;
- Over 1.5 years and up to 2 years;
- Over 2 years and up to 3 years;
- Over 3 years and up to 5 years;
- Over 5 years and up to 7 years; and
- Over 7 years.

These time buckets are managed in accordance with the ALM Guidelines for NBFCs, issued by the RBI from time to time.

A cash credit facility of the value of 10% of the average asset size is in place at all times in order to manage mismatches.

The net liquidity gap and tolerance levels are estimated by taking the following factors into account:

- preparing the statement of structured liability (all cash inflows and outflows are placed in the maturity ladder according to the expected timing);

- a dynamic liability statement is produced, and by reference to which the Infrastructure ALCO estimates the short-term liquidity profiles on the basis of business projections and other commitments;
- a tolerance level is calculated based on relevant factors such as disbursements, asset-liability base, nature of business and future strategy.

The net liquidity gap is then calculated as being:

$$NetLiquidityGap = \frac{(Inflows - Outflows)}{Outflows}$$

Based on the above, our Infrastructure Finance Group also prepares periodic scenario analysis with different degrees of rollovers and different levels of asset securitization, asset sale and other realizations to develop and test our contingency funding requirements. Pursuant to such analysis, a plan is prepared to meet liquidity requirements in the event of such contingency eventuating, as well as the cost of meeting such a contingency. The Infrastructure ALCO reviews the results of this exercise periodically.

OUR BUSINESS SUPPORT SERVICES

We believe that the commercial success of our diverse finance operations is largely dependent upon strong and seamless business support services. As such, the following are the key elements of business support to our Infrastructure Finance Group, Corporate Finance Group, Retail Finance Group and Investment Management Group:

Each of the business groups have dedicated resources to support them, and are supervised and guided by a common head of support service.

Credit Analysis

Both our Infrastructure Finance Group and Retail and Corporate Finance Groups maintain dedicated credit committees to manage and implement their respective credit and investment policies, and which comprise some of the directors and personnel from senior management of each of L&T Infra and L&T Finance. Refer to the section titled "*Our Loan Portfolio and Policies – Lending Policies*", above, for a discussion of our credit policies.

Legal

We have an in-house legal department, with a dedicated team of qualified and experienced advocates, lawyers and consultants who specialize in various aspects of an NBFCs' and mutual fund's operations. The legal department extends its services to all the operational and business heads of the Infrastructure Finance Group, Corporate Finance Group, Retail Finance Group and Investment Management Group, and provides advice on all legal and commercial issues and in the drafting of various agreements which we may enter into from time to time. The legal department is also responsible for monitoring and advising management with respect to changes in legislation, statutory rules and regulations, judicial precedent set by courts, updates of current legal practices, and news, journals and reviews regarding the industry. The legal department also provides advice on the means and modes of recovery of outstanding loans, and initiating recovery proceedings.

In addition, our Investment Management Group also retains a dedicated compliance department which is responsible for ensuring compliance with laws, rules and regulations specific to the mutual fund business.

Internal Audit and Compliance

The audit and compliance department of our Infrastructure Finance Group and Retail and Corporate Finance Groups is responsible for evaluating the effectiveness of governance, risk management and controls within the organization as a whole, as well as ensuring compliance with respect to RBI and other Indian statutory guidelines and regulations. Our audit team carries out various types of audits, such as concurrent audits, operational and management audits, compliance audits and special assurance audits. Reports are disseminated by the audit team to the business departments directly or indirectly related to the audit. The audit team provides suggestions to the audit committee on the composition of the panel of external audit firms for conducting audits.

The compliance department of the Investment Management Group is primarily responsible for ensuring compliance with the SEBI (Mutual Fund) Regulations, 1996, SEBI (Portfolio Managers) Regulations,

1993, circulars and guidelines issued by the Association of Mutual Funds in India and other applicable laws, rules, regulations governing the operations of a mutual fund and portfolio management business generally. In particular, the compliance department drafts scheme information documents, statements of additional information, key information memoranda of our various schemes; ensures compliance with applicable laws (when we launch new schemes and/or advertise and/or distribute publications); drafts manuals (such as compliance manuals and insider trading policies); monitors the implementation of policies and communications with regulators; and provides general regulatory advice to the other internal departments of our Investment Management Group.

Process

Our Retail and Corporate Finance Groups maintain a dedicated process department, which was constituted in Fiscal Year 2009, with the objective of ensuring standardized operating procedures (for example, know-your-customer and documentation) for various products and geographies of our Retail and Corporate Finance Groups. We believe this contributes substantially in the training of our employees and enhances compliance and risk management as well as customer services.

Corporate Strategy and Analytics

With effect from Fiscal Year 2009, a new support group, corporate strategy and analytics, has been constituted to serve our Infrastructure Finance Group and Retail and Corporate Finance Groups. Their role is to analyze business data within our company and provide business intelligence by observing trends, deviations, shortcomings, and high performing areas with reference to various performance parameters like productivity, profitability, potential risk areas and delinquencies.

They also facilitate important processes such as benchmarking with competitors and peers and the design and implementation of risk management tools.

Treasury

Treasury performs the functions of procurement, deployment, disbursement, collection and disposal of funds. The responsibility of treasury department is classified into borrowing and underlying research; securitization, money market and derivatives research; ratings, management information systems and compliance documentation; and trade finance and cash management.

To cater to the growing complexities in terms of product structures and also to meet control and reporting requirements, our Infrastructure Finance Group and Retail and Corporate Finance Groups have put in place an automated treasury software solution. This enables monitoring of the debt position on a daily basis and also provides critical reports for decision-making. This software solution also caters to the daily cash management activity, thereby ensuring efficient management of funds. A separate software solution has also been implemented which meets the ALM requirements and provides value added reports such as statements of structural liquidity and interest rate sensitivity reports. See the section titled "*Risk Management*", above. This system support has automated most of the routine treasury procedures and has provided us with reliable support in the operations of our group-wide borrowing program, with suitable internal controls in place.

Our Investment Management Group maintains a dedicated treasury department which monitors the inflows to, and outflows from, our various schemes on a daily basis. Any scheme can have inflows in the form of subscriptions from investors, the sale or maturity of securities held in the portfolio of the scheme and dividend and interest payments in relation to any securities in the portfolio. Similarly, outflows can take the form of redemption payouts to investors, the purchase of securities for the scheme, brokerage or any other expenses relating to the scheme. In addition, the department also monitors the confirmation of various transactions with counterparties and monitors intraday limits with banks.

Corporate Accounts and Operations Department

The corporate accounts and operations department of our Infrastructure Finance Group and Retail and Corporate Finance Groups is responsible for accounts, assessing and computing direct and indirect taxation and RBI regulatory compliance in respect of our Infrastructure Finance Group and Retail and Corporate Finance Groups. Our back office administration is managed by a dedicated operations department. Operations personnel are present at all major business centres, and through a combination of ERP solutions and maintaining a presence close to the markets, they are able to deliver optimum service and support to the business function and to customers.

Our Investment Management Group maintains a dedicated fund accounting department which retains responsibility for the timely calculation and declaration of the net asset value of the schemes of L&T

Mutual Fund. It is also responsible for valuing the securities and other instruments held in the portfolio of the schemes, and for the preparation and publication of the unaudited results of the schemes (on a half yearly basis), the preparation of financial statements and notes to accounts of the schemes on (an annual basis), and interacting with the internal and statutory auditors.

Information Technology

We believe that the IT department performs a crucial function in creating and maintaining scalable, cost-effective and sustainable operating models for our various business groups and segments. We have built, and continue to enhance, our IT systems in order to create competitive advantages for our organization, and enable us to achieve and maintain optimum levels of customer service and operational efficiency.

Our operations are geographically dispersed and the nature of our various businesses leads to a large volume of transactions on a daily basis. Our Infrastructure Finance Group and Retail and Corporate Finance Groups have implemented appropriate application and solutions to manage the timeliness, accuracy and reliability of data captured across the geographies in which we operate. Our IT department is responsible for the functioning and maintenance of the ERP solutions, and also IT hardware requirements for our field operations. In addition to the ERP solution, our IT department is also responsible for the maintenance and management of our networking technologies and various business applications and the implementation of our new customer interaction and relationship application, which we believe will enhance service delivery to our customers and opportunities for our groups and segments to increase cross-selling initiatives.

Our Investment Management Group's IT department is responsible for maintaining the overall IT infrastructure of the business group, as well as implementing IT solutions aimed at automation of our business processes and improving productivity. In addition, our IT department conducts data mining and generates a variety of management information systems reports which are used to evaluate emerging trends in investor behaviour, and which we use to make adjustments to our marketing and product strategies accordingly.

Corporate Secretarial

The corporate secretarial department is responsible for handling the corporate and secretarial activities of our Infrastructure Finance Group and Retail and Corporate Finance Groups, including formulating and ensuring good secretarial practices, maintaining high standards of corporate governance, convening and conducting meetings, processing documents, the creation and registration of charges, the maintenance of statutory registers, filing of forms and returns with statutory authorities, and ensuring compliance with various laws, rules and regulations, and liaising with appropriate Indian government departments at the Central and State levels, as well as regulatory and statutory authorities such as the RBI and SEBI.

The Investment Management Group's secretarial department is responsible for handling the corporate and secretarial activities of the Investment Management Group, which includes both L&TIM and L&T Mutual Fund Trustee Limited, including convening and conducting meetings, maintaining of statutory registers, filing of forms and returns with statutory authorities, and ensuring compliance with various laws, rules and regulations, in conjunction with the Investment Management Group's compliance department (see above).

Human Resources

The human resources ("HR") department of our Infrastructure Finance Group and Retail and Corporate Finance Groups is responsible for overseeing all matters involving our employees, including developing and implementing our talent acquisition plan and strategy; establishing a performance management plan and compensation; and implementing employee engagement and people development initiatives. We emphasize a performance driven culture by focusing on key performance indicators ("KPI") and competency assessments. Our HR department has instituted KPIs at both the organizational level and department level to motivate employees to focus on both organization and group performance. Employees are also subject to periodic individual assessments, and given attribute ratings to capture competencies and potential. Overall, there is a high level of transparency in the appraisal process. All promotions are based on an assessment by a panel, with compensation periodically benchmarked and corrected to market standards.

The Investment Management Group's HR department retains responsibility for assessing and managing staffing needs, recruitment, training, performance Management and ensuring staff compliance with various employee policies. It is also responsible for managing remuneration and benefits of all employees of the Investment Management Group.

SALES AND MARKETING

As at February 28, 2011, we had 890 points-of-presence across 23 states in India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers (a point of presence dedicated exclusively to the distribution of the *Kisan Gaurav* product in the rural products segment of our Retail Finance Group) and 414 customer care centers across all of our business groups and segments. In the last few years, we have increased our geographic coverage from 226 points-of-presence in August 2006 to 890 points-of-presence as at February 28, 2011. Our investment management business alone has increased its number of branch offices from 19 to 52 since January 2010, when we acquired L&TIM. Our workforce, comprising full-time employees, outsources personnel and personnel retained on a contractual basis, has been increased more than 3 times in order to support this physical and geographic growth, up from a head-count of 1,214 in March 2008 to 4,358 as at February 28, 2011.

Infrastructure Finance Group

We place substantial emphasis on the L&T "ecosystem" (being the network of customers and suppliers of, and companies within, the L&T Group, particularly with interests in infrastructure-related industries such as engineering and construction) as a source of industry/domain knowledge/expertise for the project finance and financial advisory services segments.

In the project finance segment, we conduct regular meetings with established industry participants and existing customers to identify their requirements, and actively identify new customers by targeting growing developments and contractors. We obtain a significant number of transactions from our existing client base. In addition, we regularly advertise in industry magazines, and also sponsor infrastructure-related conferences. We also maintain corporate membership of organizations such as the Confederation of Indian Industry and the Federation of Indian Chambers of Commerce and Industry and the Indian Merchant Chamber.

In the financial advisory services segment, we use a variety of direct marketing methods such as conducting client pitches and presentations.

Corporate and Retail Finance Groups

We originate our retail and corporate transactions either through our network of dealers, or through direct sales by our in-house sales team. We believe that dealers form the most important point of contact for our Retail and Corporate Finance Groups' businesses.

All of the individual business segments of each of our Retail and Corporate Finance Groups do not maintain a physical presence at every location where we have a point-of-presence. For example, we may have a point-of-presence in respect of the construction equipment finance segment in one location, but not necessarily also in respect of transportation equipment finance or rural product finance. However, we believe that this presents advantages of scale owing to our active cross-selling of the products and services of our Retail and Corporate Finance Groups, as, in the example above, the construction equipment finance segment will actively seek out new opportunities and leads for new transactions on behalf of transportation equipment finance and rural product finance (as well as our other business groups and segments). As such, we believe that this directly contributes to our profit as the incremental revenues generated arise at minimal marginal cost.

In addition:

- we actively leverage our existing customer database to extract leads for potential new customers. The diverse nature of our products and services, together with our cross-selling initiatives, helps us to actively address all of the financing requirements that existing and potential new customers may have;
- we participate in various industry-wide events which we believe serves as a platform to showcase our offerings to prospective customers. In addition to being a source of new business, participation in these events also provides us with marketing opportunities to increase our visibility in the market place;
- we have tie-up arrangements in place with various original equipment manufacturers, who refer new transactions to us; and
- In addition, we have approximately 50 Smartrupee® Investment Centers across various Larsen and Toubro locations in India, and which are aimed at accessing the vast base of Larsen and Toubro employees. These centers also help to create financial awareness among Larsen and Toubro

employees whilst also exploiting opportunities to provide investment solutions through third party products.

Microfinance

The sales and distribution of the products of our microfinance segment is divided into different regions, with each region functioning independently of the other. Employees are responsible for business in specific locations, and business sourcing generally happens through the input of regional teams who have specific insights into the behaviour of borrowers in a specific zone or area.

Our regional teams visit various villages in a given region in order to ascertain the specific characteristics pertinent to the village. These are then mapped against our microfinance credit guidelines. If the village satisfies this appraisal process, prospective customers are then individually appraised as to their creditworthiness. Creditworthy customers are encouraged to form joint liability groups within themselves, with efforts towards ensuring that people from the same community are not a part of the same group.

Investment Management Group

Our Investment Management Group's funds are sold directly to both retail and institutional customers. Our Investment Management Group has dedicated sales persons (which include both full-time and part-time employees) who are solely responsible for managing relationships with retail and institutional customers. Our funds are also sold through non-exclusive distributors, which include banks, financial advisory companies and independent financial advisors with a pan-India presence. These distributors typically receive commission payments from our Investment Management Group and L&T Mutual Fund. In addition, our Investment Management Group publishes monthly fund factsheets, newsletters, investor updates and product brochures as part of its marketing activities.

COMPETITION

Given the diversity of our four core business groups, and the products and services which each of those offer, we face competition from the full spectrum of public sector banks, private sector banks (including foreign banks), financial institutions and other NBFCs who are active in infrastructure, retail and corporate finance. In relation to the advisory services we offer across our four core business groups, we also face competition from investment banks and consulting organizations.

We also face significant competition in the asset management and microfinance businesses which we have acquired or established over the last few years. Our competitors in these businesses may be substantially larger and have considerably greater financing resources than those available to us. Also, some of our competitors may have greater technical, marketing and other resources and greater experience in these businesses. Such competitors also compete with us for management and other human resources and operational resources and capital.

EMPLOYEES

Our workforce consists of employees, outsourced personnel and personnel retained on a contractual basis. As at February 28, 2011, our workforce comprised 1,647 employees and 2,711 outsourced personnel and personnel retained on a contractual basis (such as for specific assignments, and those on retainer for business development purposes). Our full-time employees are employed by L&T Infra, L&T Finance and L&TIM, as the case may be, and are entitled to statutory employment benefits, such as retirement benefits.

The following tables sets out a breakdown of our employees and contractors by business group as at February 28, 2011:

Business Group	Full-time Employees	Outsourced Personnel/ Contract-based Personnel
Infrastructure Finance Group	82	5
Retail and Corporate Finance Groups	1,424	2,553
Investment Management Group	141	153
TOTAL:	1,647	2,711

INTELLECTUAL PROPERTY

Our Company's subsidiary, L&T Finance, has seven registered trademarks in India. Further, the “L&T” trademark is registered in favour of our Promoter. Refer to the section titled “*Risk Factors- Risks Relating to our Group*”. We do not own the “L&T” trademark and logo. LITIGATION

There are legal proceedings and claims pending against us which have arisen in the ordinary course of business. A discussion of such litigation is set out in the section titled "*Outstanding Litigation and Material Developments*" on page 288 of this Draft Red Herring Prospectus.

REGULATIONS AND POLICIES IN INDIA

The following description is a summary of some of the relevant regulations and policies as prescribed by the central and state governments in India that are applicable to our business. The information detailed in this section has been obtained from publications available in the public domain. The regulations set out below are not exhaustive, and this section is only intended to provide general information to the investor and is neither designed nor intended to be a substitute for professional legal advice.

Our Company is an NBFC-ND-SI registered with the RBI. Our Company's subsidiaries L&T Finance and L&T Infra are also NBFC-ND-SIs registered with the RBI. L&T Finance has been classified as an "Asset Finance Company" and L&T Infra has been classified as an "Infrastructure Finance Company". Our business activities are governed by the rules, regulations, notifications and circulars issued by the Reserve Bank of India applicable to non-deposit accepting NBFCs. Our investment management business is regulated by the SEBI. L&TIM is an AMC and has a portfolio management licence granted by SEBI.

The Reserve Bank of India Act, 1934

The RBI is entrusted with the responsibility of regulating and supervising activities of NBFCs by virtue of powers vested to it through Chapter III B of the RBI Act. Section 45-I (f) of the RBI Act defines an NBFC as:

- a financial institution which is a company;
- a non-banking institution which is a company and which has as its principal business the receiving of deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or
- such other non-banking institution or class of such institutions as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

As per the RBI Act, a financial institution has been defined as a non-banking institution carrying on as its business or part of its business, amongst other activities, the financing, whether by way of making loans or advances or otherwise, of any activity, other than its own, the acquisition of shares, stock, bonds, debentures or securities issued by a government or local authority or other marketable securities of a like nature, or the carrying on of any class of insurance business.

Any company which carries on the business of a non-banking financial institution as its principal business is to be treated as an NBFC. The RBI, pursuant to a press release dated April 8, 1999, has further indicated that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to determine its principal business. A company would be categorized as an NBFC if its financial assets were more than 50% of its total assets (netted off by intangible assets) and income from financial assets is more than 50% of the gross income. Both these tests are required to be satisfied as the determinant factor for classifying the principal business of a company as that of an NBFC.

With effect from January 9, 1997, NBFCs are not permitted to commence or carry on the business of a non-banking financial institution without obtaining a Certificate of Registration (CoR). Further, with a view to imparting greater financial soundness and achieving the economies of scale in terms of efficiency of operations and higher managerial skills, the RBI raised the requirement of minimum net owned fund from ₹ 2.5 million to ₹ 20 million for an NBFC commencing business on or after April 21, 1999. Further, every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution and it held a valid CoR.

Capital Reserve fund

Pursuant to Section 45-IC of the RBI Act, every NBFC is required to create a reserve fund and transfer thereto a sum not less than 20% of its net profit every year, as disclosed in the profit and loss account and before any dividend is declared. Such a fund is to be created by every NBFC including an NBFC not accepting/holding public deposit. Further, no appropriation can be made from such fund by the NBFC except for the purposes specified by the RBI from time to time and every such appropriation shall be reported to the RBI within 21 days from the date of such withdrawal.

Prudential Norms

The RBI has issued the Non Banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007, as amended ("**Prudential Norms Directions**"),

which contain detailed directions on prudential norms for an NBFC-ND. The Prudential Norms Directions, amongst other requirements prescribe guidelines regarding income recognition, asset classification, provisioning requirements, constitution of audit committee, capital adequacy requirements, concentration of credit/investment and norms relating to infrastructure loans. In terms of the Prudential Norms Directions, all NBFCs-ND with an asset size of ₹ 1,000 million or more as per their last audited balance sheet will be considered as an NBFC-ND-SI.

Asset Classification

The Prudential Norms Directions require that every NBFC shall, after taking into account the degree of well defined credit weaknesses and extent of dependence on collateral security for realisation, classify its lease/hire purchase assets, loans and advances and any other forms of credit into the following classes:

Standard assets;

Sub-standard assets;

Doubtful assets; and

Loss assets.

Further, such class of assets would not be entitled to be upgraded merely as a result of rescheduling, unless it satisfies the conditions required for such upgradation.

Provisioning Requirements

An NBFC-ND, after taking into account the time lag between an account becoming non performing, its recognition, the realization of the security and erosion overtime in the value of the security charged, shall make provisions against sub-standard assets, doubtful assets and loss assets in the manner provided for in the Prudential Norms Directions.

Disclosure Requirements

An NBFC-ND is required to separately disclose in its balance sheet the provisions made in terms of the above paragraph without netting them from the income or against the value of the assets. These provisions shall be distinctly indicated under separate heads of accounts and shall not be appropriated from the general provisions and loss reserves held, if any, by it. Further every NBFC-ND-SI shall disclose the following particulars in its balance sheet (i) capital to risk assets ratio (CRAR), (ii) exposure to real estate sector, both direct and indirect, and (iii) maturity pattern of assets and liabilities.

Exposure Norms

The Prudential Norms Directions prescribe credit exposure limits in respect of the loans granted and investments undertaken by an NBFC-ND-SI. An NBFC-ND-SI shall not lend money exceeding 15% of its owned fund to any single borrower and the lending to any single group of borrowers shall not exceed 25% of the NBFC-ND-SI's owned fund. As regards investments, an NBFC-ND-SI shall not invest in the shares of a company exceeding 15% of its owned fund, while the investment in the shares of a single group of companies shall not exceed 25% of its owned fund.

The loans and investments of NBFC-ND-SI taken together should not exceed 25% of its owned fund to or in a single party and 40% of its owned fund to or in a single group of parties. However, this prescribed ceiling shall not be applicable to an NBFC-ND-SI for investments in the equity capital of an insurance company to the extent specifically permitted by the RBI. Further, an NBFC-ND-SI, which is classified as AFC, may in exceptional circumstances, exceed the above ceilings on credit / investment concentration to a single party or a single group of parties by 5% of its owned fund, with the approval of its board of directors.

NBFCs-ND-SI may exceed the concentration of credit and investment norms, as specified above, by 5% for any single party and by 10% for a single group of parties, if the additional exposure is on account of infrastructure loan (as defined in the Prudential Norms Directions) and/ or investment.

IFCs may exceed the concentration of credit norms specified above for NBFCs-ND-SI in lending to any single borrower by an additional 10% of their owned fund and any single group of borrowers by 15% of their owned fund. The loans and investments of IFCs taken together may exceed the credit concentration norms specified above by an additional 5% of their owned fund to a single party and an additional 10% of their owned fund to a single group of parties.

Any NBFC-ND-SI not accessing public funds, either directly or indirectly may make an application to the RBI for modifications in the prescribed ceilings. Further, every NBFC-ND-SI is required to formulate a policy in respect of exposures to a single party/a single group of parties.

Capital Adequacy Norms

As per the Prudential Norms Directions, every NBFC-ND-SI is subject to capital adequacy requirements. A minimum capital ratio consisting of Tier I and Tier II capital of not less than 12% of its aggregate risk weighted assets on balance sheet and of risk adjusted value of off-balance sheet items is required to be maintained. "Tier I" capital means owned fund as reduced by investment in shares of other non-banking financial companies and in shares, debentures, bonds, outstanding loans and advances including hire purchase and lease finance made to and deposits with subsidiaries and companies in the same group exceeding, in aggregate, 10% of the owned fund and perpetual debt instruments issued by an NBFC-ND-SI in each year to the extent it does not exceed 15% of the aggregate Tier I capital of such company as on March 31 of the previous accounting year; and "Tier II" capital includes (a) preference shares other than those which are compulsorily convertible into equity; (b) revaluation reserves at discounted rate of 55%; (c) general provisions and loss reserves to the extent these are not attributable to actual diminution in value or identifiable potential loss in any specific asset and are available to meet unexpected losses, to the extent of one and one fourth percent of risk weighted assets; (d) hybrid debt capital instruments; (e) subordinated debt; and (f) perpetual debt instruments issued by an NBFC-ND-SI which is in excess of what qualifies for Tier I capital, to the extent the aggregate does not exceed Tier I capital.

Currently, the RBI requires that such ratio shall not be less than 15% by March 31, 2011. Also, the total of Tier II capital of an NBFC-ND-SI at any point of time shall not exceed 100% of Tier I capital.

Information to be furnished in relation to certain changes

As per the Prudential Norms Directions, an NBFC-ND is required to furnish the following information to the Regional Office of the Department of Non-Banking Supervision of the RBI within one month of the occurrence of any change: (i) complete postal address, telephone/fax number of the registered/corporate office, (ii) name and residential address of the directors of the company, (iii) names and official designations of its principal officers, (iv) names and office address of its auditors, and (v) specimen signatures of the officers authorized to sign on behalf of the company.

Norms applicable to AFCs

AFC would be defined as any company which is a financial institution carrying on as its principal business the financing of physical assets supporting productive/economic activity, such as automobiles, tractors, lathe machines, generator sets, earth moving and material handling equipments, moving on own power and general purpose industrial machines. Principal business for this purpose is defined as aggregate of financing real/physical assets supporting economic activity and income arising therefrom is not less than 60% of its total assets and total income respectively.

The above type of companies may be further classified into those accepting deposits or those not accepting deposits.

Norms applicable to NBFCs classified as Infrastructure Finance Companies

On February 12, 2010, the RBI introduced a new classification of NBFCs termed as 'Infrastructure Finance Companies' ("IFC"), with a view to encouraging a greater flow of capital into infrastructure development.

To qualify and maintain its status as an IFC, among other conditions, an NBFC must satisfy the following:

- at least 75.0% of the NBFC's total assets should be deployed in infrastructure loans (as defined in the Prudential Norms Directions);
- the NBFC must have net owned funds of at least ₹ 3.0 billion;
- the NBFC must have a minimum credit rating of "A" or its equivalent from any of CRISIL, CARE, FITCH or ICRA or a comparable rating from any other credit rating agency accredited by the RBI;
- the NBFC must have a minimum CRAR of 15.0% (with a minimum Tier 1 capital of 10.0%); and

- the NBFC must not accept deposits.

IFCs are entitled to various benefits such as:

- lower risk weight on their bank borrowings, from 100.0% to as low as 20.0% for AAA rated borrowers;
- higher permissible bank borrowings (both lending and investment, including off balance sheet expenses), increased from 10.0% of its capital funds that a bank may lend to an NBFC to 15.0% of capital funds as per its last audited balance sheet that it may lend to an IFC, provided that such bank exposure may be increased to 20% if the exposure is on account of funds on-lent by the IFC to the infrastructure sector;
- they are permitted to raise external commercial borrowings (ECBs) for on-lending to the infrastructure sector under the automatic route (subject to compliance with the applicable prudential guidelines and hedging of the currency risk in full) up to 50% of their owned funds; and
- they are permitted to exceed the concentration of credit norms specified above for NBFCs-ND-SI in lending to any single borrower by an additional 10% of their owned fund and any single group of borrowers by 15% of their owned fund. The loans and investments of IFCs taken together may exceed the credit concentration norms specified above by an additional 5% of their owned fund to a single party and an additional 10% of their owned fund to a single group of parties.

Norms applicable to Core Investment Companies

NBFCs carrying on the business of acquisition of shares and securities which satisfy the following conditions as on the date of the last audited balance sheet are eligible to be classified as core investment companies ("CICs") under the Core Investment Companies (Reserve Bank) Directions, 2011:

- it holds not less than 90% of its net assets in the form of investment in equity shares, preference shares, bonds, debentures, debt or loans in group companies;
- its investments in the equity shares (including instruments compulsorily convertible into equity shares within a period not exceeding 10 years from the date of issue) in group companies constitutes not less than 60% of its net assets;
- Net assets, for the purpose of this clause, would mean total assets excluding, (i) cash and bank balances; (ii) investment in money market instruments and money market mutual funds; (iii) advance payments of taxes; and (iv) deferred tax payment.
- it does not trade in its investments in shares, bonds, debentures, debt or loans in group companies except through block sale for the purpose of dilution or disinvestment;
- it does not carry on any other financial activity referred to in Section 45 I(c) and 45 I(f) of the RBI Act, 1934, except investment in bank deposits, money market instruments including money market mutual funds, government securities, bonds or debentures issued by the group companies, loans granted to group companies or guarantees issued on behalf of group companies.

CICs with an asset size ₹ 1 billion or more either individually or in aggregate along with other Core Investment Companies in the group and raises or holds public funds will be considered as Systemically Important Core Investment Companies ("CICs-ND-SI") and would be required to obtain a certificate of registration from RBI under Section 45-IA of the Reserve Bank of India Act, 1934.

Every CIC-ND-SI is required to ensure that at all times it maintains a minimum Capital Ratio whereby its adjusted net worth shall not be less than 30% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items as on the date of the last audited balance sheet as at the end of the financial year.

Every CIC-ND-SI is required to ensure that its outside liabilities at all times shall not exceed 2.5 times its adjusted net worth as on the date of the last audited balance sheet as at the end of the financial year.

Every CIC that complies with the conditions described in the preceding two paragraphs, is eligible to apply to the RBI for an exemption from the compliance with the requirements of maintaining the statutory minimum Net Owned Fund and the requirements of the Prudential Norms Directions, including requirements of capital adequacy and exposure norms.

Norms applicable to Micro Finance Institutions in the state of Andhra Pradesh

The Andhra Pradesh Government has enacted the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Ordinance, 2010 ("**MFI Ordinance**") to protect women Self Help Groups ("**SHGs**") in the state of Andhra Pradesh from exploitation by Micro Finance Institutions ("**MFIs**"). Under the provisions of the MFI Ordinance all MFIs operating in the state of Andhra Pradesh and providing financial support of any nature to low income population require registration with the government of the state of Andhra Pradesh. Subsequently, with effect from January 1, 2011, the Government of Andhra Pradesh introduced the Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act, 2011 (Act No. 1 of 2011) (the "**MFI Act**"). The main object of the MFI Act is to protect women SHGs in the state of Andhra Pradesh from exploitation by microfinance institutions. The MFI Act provides for *inter alia* registration and cancellation of registration of microfinance institutions, filing of periodic returns by microfinance institutions, limits on interest recoverable by microfinance institutions, prohibition on security for loans provided to SHGs and prior approval for grant of further loans to SHGs. Below are certain key features of the MFI Act:

- MFIs cannot grant any loans or recover any loans to SHGs without registration with the government of the state of Andhra Pradesh;
- MFIs cannot seek any security for loans or for any kind of financial help to SHGs;
- No MFI shall recover from the borrower towards interest in respect of any loans advanced by it, whether before or after the commencement of the MFI Act, an amount in excess of the principal amount;
- MFIs to seek the approval of the registering authority of the government of the state of Andhra Pradesh before lending to a SHG which has an outstanding bank loan;
- All MFIs are required to file a monthly return with the registering authority of the government of the state of Andhra Pradesh;
- Constitution of fast track courts for dispute resolution between SHGs, their members and MFIs;
- Section 16 of the MFI Act provides for punishment of up to three years of imprisonment and/ or penalty of up to ₹ 100,000 to the persons connected with and responsible for the day-to-day control, business and management of MFIs including the partners, directors and employees of the MFIs, who resort to any kind of coercive practices against SHGs, their members or their family members;
- Punishment of up to three years imprisonment and penalty of up to ₹ 100,000 to the persons connected with and responsible for the day-to-day control, business and management of MFIs including the partners and directors of the MFIs, if, among others, the MFIs carry on business of providing loans as defined under the MFI Act, without obtaining registration under Section 3 of the MFI Act;
- Punishment of up to six months imprisonment and/ or penalty of up to ₹ 10,000 to any person contravening any provisions of the MFI Act other than Sections 3 and 16 of the MFI Act.

Report of the Sub-Committee of the Central Board of Directors of Reserve Bank of India to Study Issues and Concerns in MFI Sector.

The board of directors of the RBI, at their meeting held on October 15, 2010 formed a sub-committee of the board (the "**Malegam Committee**") to study issues and concerns in the microfinance sector in so far as they related to the entities regulated by the RBI.

The terms of reference of the Malegam Committee included, amongst other things, review of the definitions of 'microfinance' and 'micro finance institutions' for the purpose of regulation of NBFCs undertaking microfinance; examination of the prevalent practices of MFIs in regard to interest rates, lending and recovery practices to identify trends that impinge on borrowers' interests; delineation of the objectives and scope of regulation of NBFCs undertaking microfinance and the regulatory framework needed to achieve those objectives, examination of applicability of money lending legislation of the States and other relevant laws to NBFCs/MFIs and the role that associations and bodies of MFIs could play in enhancing transparency disclosure and best practices; examination of the conditions under which loans to MFIs can be classified as priority sector lending and make appropriate recommendations *etc.*

In this regard, the Malegam Committee submitted its report on the issues and concerns in the MFI sector on January 19, 2011. Some of the key recommendations set out in the report are as follows:

- A separate category be created for NBFCs operating in the microfinance sector, such NBFCs being designated as NBFC-MFI.
- An NBFC-MFI may be defined as “A company (other than a company licensed under Section 25 of the Companies Act, 1956) which provides financial services pre-dominantly to low-income borrowers with loans of small amounts, for short-terms, on unsecured basis, mainly for income-generating activities, with repayment schedules which are more frequent than those normally stipulated by commercial banks and which further conforms to the regulations specified in that behalf”.
- NBFC-MFIs should satisfy the conditions that, amongst other things, (1) not less than 90% of its total assets (other than cash and bank balances and money market instruments) are in the nature of ‘qualifying assets’. A “qualifying asset” shall mean a loan which satisfies the following criteria:- (a) the loan is given to a borrower who is a member of a household whose annual income does not exceed ₹50,000; (b) the amount of the loan does not exceed ₹25,000 and the total outstanding indebtedness of the borrower including this loan also does not exceed ₹25,000; (c) the tenure of the loan is not less than 12 months where the loan amount does not exceed ₹15,000 and 24 months in other cases with a right to the borrower of prepayment without penalty in all cases; (d) the loan is without collateral; (e) the aggregate amount of loans given for income generation purposes is not less than 75% of the total loans given by the MFIs; (f) the loan is repayable by weekly, fortnightly or monthly installments at the choice of the borrower; and (2) the income it derives from other services is in accordance with the regulation specified in that behalf.
- An NBFC which does not qualify as an NBFC-MFI should not be permitted to give loans to the microfinance sector, which in the aggregate exceed 10% of its total assets.
- All NBFC-MFIs should have a minimum net worth of ₹150 millions.
- There should be only three components in the pricing of the loan, namely (i) a processing fee, not exceeding 1% of the gross loan amount (ii) the interest charge and (iii) the insurance premium.
- NBFC-MFIs should be required to maintain a capital adequacy ratio of 15% and, all of the net owned funds should be in the form of Tier I Capital. MFIs should be encouraged to issue preference capital with a ceiling on the coupon rate and this can be treated as part of Tier II capital subject to capital adequacy norms. There should be a “margin cap” of 10% in respect of MFIs which have an outstanding loan portfolio at the beginning of the year of ₹1000 millions and a “margin cap” of 12% in respect of MFIs which have an outstanding loan portfolio at the beginning of the year of an amount not exceeding ₹1,000 millions. There should also be a cap of 24% on individual loans.
- MFIs should lend to an individual borrower only as a member of a JLG and should have the responsibility of ensuring that the borrower is not a member of another JLG.
- A borrower cannot be a member of more than one SHG/JLG.
- Not more than two MFIs should lend to the same borrower.
- There must be a minimum period of moratorium between the grant of the loan and the commencement of its repayment.
- The regulator should monitor whether MFIs have a proper code of conduct and proper systems for recruitment, training and supervision of field staff to ensure the prevention of coercive methods of recovery.
- Bank advances to MFIs shall continue to enjoy “priority sector lending” status. However, advances to MFIs which do not comply with the regulation should be denied “priority sector lending” status.
- If the Committee’s recommendations are accepted, the need for a separate Andhra Pradesh Micro Finance Institutions (Regulation of Money Lending) Act will not survive.
- 1st April 2011 may be considered as a cut- off date by which time the recommendations of Malegam Committee, if accepted, must be implemented. In particular, the recommendations as to the rate of interest must, in any case, be made effective to all loans given by an MFI after March 31, 2011.

- As regards the other arrangements, Reserve Bank of India may grant such extension of time as it considers appropriate in the circumstances. In particular, this extension may become necessary for entities which currently have activities other than microfinance lending and which may need to form separate entities confined to microfinance activities.

Other Regulations

Monthly Return

As per the RBI circulars dated September 6, 2005 and June 4, 2009, all NBFC-ND-SIs with an asset size of ₹ 1,000 million and above are required to submit a monthly return on the important financial parameters to the RBI. It has been clarified by the RBI that the asset size as stated aforesaid may be less than ₹ 1,000 million as on the balance sheet date, but may subsequently add on assets before the next balance sheet due to several reasons, including business expansion. Once the asset size of the NBFC reaches ₹ 1,000 million or above, it shall come under the regulatory requirement of the NBFC-ND-SI despite not having such assets as on the last balance sheet.

It has been further clarified by the RBI that if the asset size of the NBFC falls below ₹ 1,000 million in any given month (which may be due to temporary fluctuations and not due to actual downsizing), then such an NBFC shall continue to submit the monthly returns on the important financial parameters to the RBI until the submission of the next audited balance sheet to the RBI and a specific dispensation is received in this regard.

Asset Liability Management

The RBI has prescribed the Guidelines for Asset Liability Management ("ALM") System in relation to NBFCs ("ALM Guidelines") that are applicable to all NBFCs through a Master Circular on Miscellaneous Instructions to All Non-Banking Financial Companies dated July 1, 2010. As per this Master Circular, the NBFCs (engaged in and classified as equipment leasing, hire purchase finance, loan, investment and residuary non-banking companies) meeting certain criteria, including, an asset base of ₹ 1,000 million, irrespective of whether they are accepting / holding public deposits or not, are required to put in place an ALM system. The ALM system rests on the functioning of ALM information systems within the NBFC, ALM organization including an Asset Liability Committee ("ALCO") and ALM support groups, and the ALM process includes liquidity risk management, management of marketing risk, funding and capital planning, profit planning and growth projection, and forecasting/ preparation of contingency plans. It has been provided that the management committee of the board of directors or any other specific committee constituted by the board of directors should oversee the implementation of the system and review its functioning periodically. The ALM Guidelines mainly address liquidity and interest rate risks. In case of structural liquidity, the negative gap (i.e. where outflows exceed inflows) in the 1 to 30/31 days time-bucket should not exceed the prudential limit of 15% of outflows of each time-bucket and the cumulative gap of up to one year should not exceed 15% of the cumulative cash outflows of up to one year. In case these limits are exceeded, the measures proposed for bringing the gaps within the limit should be shown by a footnote in the relevant statement.

For further details, please refer to the section titled "Our Business" on page 132 of this Draft Red Herring Prospectus.

Fair Practices Code

On September 28, 2006 the RBI prescribed broad guidelines towards a fair practices code that was required to be framed and approved by the board of directors of all NBFCs. On July 1, 2010 the RBI issued a Master Circular on fair practices and has required that the Fair Practices Code of each NBFC is to be published and disseminated on its website. Among others, the code prescribes the following requirements, to be adhered to by NBFCs:

Inclusion of necessary information affecting the interest of the borrower in the loan application form.

- Devising a mechanism to acknowledge receipt of loan applications and establishing a time frame within which such loan applications are to be disposed.
- Conveying, in writing, to the borrower the loan sanctioned and terms thereof. The acceptance of such terms should be kept on record by the NBFC.

- Giving notice to the borrower of any change in the terms and conditions and ensuring that changes are effected prospectively.
- Refraining from interfering in the affairs of the borrowers except for the purposes provided in the terms and conditions of the loan agreement.
- Not resorting to undue harassment in the matter of recovery of loans, and an appropriate grievance redressal mechanism for resolving disputes in this regard is to be established.
- Periodical review of the compliance of the fair practices code and the functioning of the grievances redressal mechanism at various levels of management, a consolidated report whereof may be submitted to the board of directors.

KYC Guidelines

The RBI has issued a Master Circular on KYC guidelines dated July 1, 2010 and advised all NBFCs to adopt such guidelines with suitable modifications depending upon the activity undertaken by them and ensure that a proper policy framework on KYC and anti-money laundering measures is put in place. The KYC policies are required to have certain key elements such as customer acceptance policy, customer identification procedures, monitoring of transactions and risk management, adherence to KYC guidelines by the persons authorized by the NBFCs' and including brokers/ agents, due diligence of persons authorized by the NBFCs and customer service in terms of identifiable contact with persons authorized by NBFCs.

Corporate Governance Guidelines

In order to enable NBFCs to adopt best practices and greater transparency in their operations, the RBI introduced corporate governance guidelines on May 8, 2007. The RBI consolidated the corporate governance guidelines issued by it from time to time in the Master Circular dated July 1, 2010. As per this Master Circular, all NBFCs-ND-SI are required to adhere to certain corporate governance norms, including:

Constitution of an audit committee;

- Constitution of a nomination committee to ensure fit and proper status of the proposed and existing Directors;
- Constitution of asset liability management committee to monitor the asset gap and strategize actions to mitigate the associated risk. Further a risk management committee may also be formed to manage the integrated risk;
- Informing the Board of Directors, at regular intervals, the progress made in having a progressive risk management system, a risk management policy and the strategy being followed. The Board of Directors also needs to be informed about compliance with corporate governance standards, including in relation to the composition of various committees and their meetings; and

Frame internal guidelines on corporate governance for enhancing the scope of the guidelines.

Rating of Financial Product

Pursuant to the RBI circular dated February 4, 2009, all NBFCs with an asset size of ₹ 1,000 million and above are required to furnish at the relevant regional office of the RBI, within whose jurisdiction the registered office of the NBFC is functioning, information relating to the downgrading and upgrading of assigned rating of any financial products issued by them within 15 days of such change.

Norms for Excessive Interest Rates

The RBI, through its circular dated May 24, 2007, directed all NBFCs to put in place appropriate internal principles and procedures in determining interest rates and processing and other charges. In addition to the aforesaid instruction, the RBI has issued a Master Circular on Fair Practices Code dated July 1, 2010 for regulating the rates of interest charged by the NBFCs. These circulars stipulate that the board of each NBFC is required to adopt an interest rate model taking into account the various relevant factors including cost of funds, margin and risk premium. The rate of interest and the approach for gradation of risk and the rationale for charging different rates of interest for different categories of borrowers are required to be disclosed to the borrowers in the application form and expressly communicated in the sanction letter. Further, this is also required to be made available on the NBFCs website or published in

newspapers and is required to be updated in the event of any change therein. Further, the rate of interest would have to be an annualized rate so that the borrower is aware of the exact rates that would be charged to the account.

Enhancement of Capital funds Raising Option

Pursuant to the RBI circular on Enhancement of NBFCs' Capital Raising Option for Capital Adequacy Purposes dated October 29, 2008, NBFCs-ND-SI have been permitted to augment their capital funds by issuing perpetual debt instruments ("**PDI**") in accordance with the prescribed guidelines provided under the circular. Such PDI will be eligible for inclusion as Tier I capital to the extent of 15% of the total Tier I capital as on March 31 of the previous accounting year. Any amount in excess of the amount admissible as Tier I capital will qualify as Tier II capital within the eligible limits. The minimum investment in each issue/tranche by any single investor shall not be less than ₹ 0.5 million. It has been clarified that the amount of funds so raised shall not be treated as public deposit within the meaning of clause 2 (1) (xii) of the Non Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998.

Supervisory Framework

In order to ensure adherence to the regulatory framework by NBFCs-ND-SI, the RBI has directed such NBFCs to put in place a system for submission of an annual statement of capital funds, and risk asset ratio etc. as at the end of March every year, in a prescribed format. This return is to be submitted electronically within a period of three months from the close of every financial year. Further, a NBFC is required to submit a certificate from its statutory auditor that it is engaged in the business of non banking financial institution requiring to hold a CoR under the RBI Act. This certificate is required to be submitted within one month of the date of finalization of the balance sheet and in any other case not later than December 30 of that particular year. Further, in addition to the auditor's report under Section 227 of the Companies Act, the auditors are also required to make a separate report to the Board of Directors on certain matters, including correctness of the capital adequacy ratio as disclosed in the return NBS-7 to be filed with the RBI and its compliance with the minimum CRAR, as may be prescribed by the RBI.

Anti Money Laundering

The Prevention of Money Laundering Act, 2002 ("**PMLA**") was enacted to prevent money-laundering and to provide for confiscation of property derived from or involved in, money-laundering and for matters connected therewith or incidental thereto. The Government of India under PMLA has issued the Prevention of Money-laundering (Maintenance of Records of the Nature and Value of Transactions, the Procedure and Manner of Maintaining and Time for Furnishing Information and Verification and Maintenance of Records of the Identity of the Clients of the Banking Companies, Financial Institutions and Intermediaries) Rules, 2005, as amended ("**PML Rules**"). PMLA & PML Rules extends to all banking companies, financial institutions, including NBFCs and intermediaries.

The RBI has issued a Master Circular dated July 1, 2010 to ensure that a proper policy frame work for the PMLA and PML Rules is put into place. Pursuant to the provisions of PMLA, PML Rules and the RBI guidelines, all NBFCs are advised to appoint a principal officer for internal reporting of suspicious transactions and cash transactions and to maintain a system of proper record (i) for all cash transactions of value of more than ₹ 1 million; (ii) all series of cash transactions integrally connected to each other which have been valued below ₹ 1 million where such series of transactions have taken place within one month and the aggregate value of such transaction exceeds ₹ 1 million.

All NBFCs are required to take appropriate steps to evolve a system for proper maintenance and preservation of account information in a manner that allows data to be retrieved easily and quickly whenever required or when requested by the competent authorities. NBFCs are also required to maintain for at least ten years from the date of transaction between the NBFCs and the client, all necessary records of transactions, both domestic or international, which will permit reconstruction of individual transactions (including the amounts and types of currency involved if any) so as to provide, if necessary, evidence for prosecution of persons involved in criminal activity. Further, NBFCs shall exercise ongoing due diligence with respect to the business relationship with every client and closely examine the transactions in order to ensure that they are consistent with their knowledge of the client, his business and risk profile and where necessary, the source of funds.

Additionally, NBFCs should ensure that records pertaining to the identification of their customers and their address are obtained while opening the account and during the course of business relationship, and that the same are properly preserved for at least ten years after the business relationship is ended. The identification records and transaction data is to be made available to the competent authorities upon request.

Applicable Foreign Investment Regime

FEMA Regulations

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications thereunder, and the policy prescribed by the Department of Industrial Policy and Promotion, GoI, ("**FDI Policy**") and the FDI Policy issued by the DIPP (circular 2 of 2010, with effect from October 1, 2010).

The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000, as amended ("**FEMA Regulations**") to prohibit, restrict or regulate, transfer by or issue of security to a person resident outside India. As specified by the FEMA Regulations, no prior consent and approval is required from the FIPB or the RBI, for FDI under the "automatic route" within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI.

Foreign Direct Investment

FDI is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the approval route, depending upon the sector in which FDI is sought to be made. Investors are required to file the required documentation with the RBI within 30 days of such issue/ acquisition of securities. Under the approval route, prior approval of the FIPB and/or RBI is required. FDI for the items/activities not under the automatic route (other than in prohibited sectors) may depend upon the activity be brought in through the approval route. Further:

- (a) As per the sector specific guidelines of the Government of India, 100% FDI/ NRI investments are allowed under the automatic route in certain NBFC activities subject to compliance with guidelines of the RBI in this regard. FDI in an NBFC that is an "Investing Company", such as our Company, is not under the automatic route and requires prior approval of the Government of India.
- (b) Minimum Capitalisation Norms for fund-based NBFCs are the following:
 - (i) For FDI up to 51% - US\$ 0.5 million (₹ 23 million) to be brought upfront;
 - (ii) For FDI above 51% and up to 75% - US\$ 5 million (₹ 2.26 million) to be brought upfront; and
 - (iii) For FDI above 75% and up to 100% - US\$ 50 million (₹ 2.264 million) out of which US\$ 7.5 million (₹ 340 million) to be brought upfront and the balance in 24 months.
- (c) Minimum capitalization norm of US\$ 0.5 million (₹ 23 million) is applicable in respect of all permitted non-fund based NBFCs with foreign investment.
- (d) Foreign investors can set up 100% operating subsidiaries without the condition to disinvest a minimum of 25% of its equity to Indian entities, subject to bringing in US\$ 50 million (₹ 2.264 million) specified in (b) (iii) above (without any restriction on number of operating subsidiaries without bringing in additional capital).
- (e) Joint ventures operating NBFC's that have 75% or less than 75% foreign investment will also be allowed to set up subsidiaries for undertaking other NBFC activities, subject to the subsidiaries also complying with the applicable minimum capital inflow, i.e., (b) and (c) above.

Where FDI is allowed on an automatic basis without FIPB approval, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where FIPB approval is obtained, the prior approval of the RBI may also be required.

NBFC's having FDI are required to submit a certificate from the statutory auditors on half yearly basis certifying compliance with the terms and conditions of the FDI regulations. Such certificate should be submitted not later than one month from the close of the half year to which the certificates pertains to the regional office of the RBI in whose jurisdiction the head office of the Company is registered.

Calculation of Total Foreign Investment in Indian Companies

On February 13, 2009, the Indian Government issued two press notes setting out guidelines for foreign investment in India. Press Note 2 of 2009 prescribes the guidelines for the calculation of total foreign

investment (direct and indirect) in Indian companies. Press Note 3 of 2009 prescribes the transfer of ownership or control of Indian companies in sectors with caps from resident Indian citizens to non-resident entities. Additionally, Press Note 4 of 2009 issued on February 25, 2009 clarifies the guidelines on downstream investments by Indian companies. These press notes have been consolidated by the Government of India through the FDI Policy issued by the Department of Industrial Policy & Promotion (Circular 2 of 2010, with effect from October 1, 2010). The FDI Policy is expected to be reviewed every six months.

Our Company has obtained an approval from the FIPB dated December 16, 2010, permitting eligible non-resident investors *i.e.* FIIs, NRIs, FVCIs registered with SEBI, multilateral and bilateral development financial institutions and other eligible non-resident investors to participate in this Issue to the extent of 20% of the post Issue paid-up Equity Share capital of our Company and subject to the inflow of FDI pursuant to the Issue being less than ₹ 10,000 million. In the event our Company undertakes the Pre-IPO Placement in favour of any non-resident investor, our Company shall seek the requisite approval of the FIPB.

Laws relating to the Insurance Sector

Any person including companies registered under the Companies Act and any NBFC registered with the RBI desirous to act as a corporate agent or composite corporate agent is required to obtain a licence from the Insurance Regulatory and Development Authority of India under the provisions of the Insurance Regulatory and Development Authority (Licensing of Corporate Agents) Regulations, 2002, as amended. Further, pursuant to the RBI circular dated February 10, 2004, NBFCs registered with RBI may take up insurance agency business subject to its obtaining requisite permission from the IRDA and compliance with the IRDA regulations. Further, administration of group insurance policies are subject to the guidelines on Group Insurance Policies issued by IRDA on July 14, 2005. These guidelines prescribe, amongst other stipulations, formulation of a 'group' and guidelines on the premium to be charged and benefits admissible to each member of such group, commission to be paid to the agent or corporate agent, and restrictions on payment of any description to the agent or corporate agent or group organizer or group manager, administering such group policies.

Laws relating to our Mutual Funds operations

The SEBI Act provides that in India mutual fund business can only be carried on by the person who has obtained the certificate of registration from SEBI under the provisions on the SEBI (Mutual Funds) Regulations, 1996. The SEBI (Mutual Funds) Regulations, 1996, *inter alia*, govern:

1. approvals required for and the functioning of the asset management company, trustees and custodians;
2. floating of schemes by the mutual fund;
3. investment and valuation criteria to be adhered by the mutual fund; and
4. limitations on the fees charged by asset management company.

Pursuant to SEBI Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009, the entry load was banned for all the schemes of mutual funds with effect from August 1, 2009 and pursuant to SEBI Circular dated July 29, 2010, it is clarified that AMCs shall not collect any additional management fees referred to in Regulation 52(3) of SEBI Mutual Funds Regulation, 1996. In case of investments made by the Sponsor(s), no brokerage or commission shall be paid.

In order to empower investors in deciding the commission paid to distributors in accordance with the level of service received, it has been decided that:

1. There shall be no entry load for all Mutual Fund schemes;
2. The scheme application forms shall carry a suitable disclosure to the effect that the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor;
3. Of the exit load or CDSC charged to the investor, a maximum of 1% of the redemption proceeds shall be maintained in a separate account which can be used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Any balance shall be credited to the scheme immediately; and
4. The distributors should disclose all the commissions (in the form of trail commission or any other

mode) payable to them for the different competing schemes of various Mutual Funds from amongst which the scheme is being recommended to the investor.

These guidelines are applicable for:

1. Investments in mutual fund schemes (including additional purchases and switch-in to a scheme from other schemes) with effect from August 1, 2009;
2. Redemptions from mutual fund schemes (including switchout from other schemes) with effect from August 1, 2009;
3. New mutual fund schemes launched on or after August 1, 2009;
4. Systematic Investment Plans (SIP) registered on or after August 1, 2009; and
5. The AMC's are required to bring the contents of these guidelines to the notice of their distributors and monitor compliance.

There has been a waiver of load for direct applications by a SEBI Circular No. SEBI/IMD/CIR No.10/112153/07 dated December 31, 2007. SEBI has decided that with effect from January 4, 2008 no entry load shall be charged for applications received directly by the AMC(s) through the internet or submitted directly to the AMC(s) or collection center/investor service centre and not routed through any distributor or agent or broker. This waiver was applicable to both additional purchases under the same folio and 'switch in' to a scheme from other schemes also done directly by the investor. AMC's shall follow the provisions pertaining to informing the unitholders upon a change in load structure.

Subsequently, SEBI vide its circular no. SEBI/IMD/CIR No.16/ 193388/2010 dated February 02, 2010 revised the provisions regarding valuation of money market and debt instruments. The same is to ensure that the value of these instruments in the portfolio of Mutual Fund Schemes reflect the current market scenario.

According to AMFI circular nos. 35/MEM-COR/54/10-11 dated August 16, 2010 and 35/MEM-COR/62/10-11 dated October 7, 2010 all AMC's are requested to initiate necessary steps to ensure KYC compliance in accordance with the SEBI Circular dated February 12, 2010 (Master Circular on Anti-Money Laundering/ Combating Financing of Terrorism) irrespective of the amount of investment for Corporate, Partnership Firms, Trusts, HUF, NRIs and investors coming through Channel Distributors with effect from October 1, 2010. In respect for reduction of threshold amount for individual investors the same will be effective from January 1, 2011.

AMFI Best Practice Guidelines Circular No.16/2010-11 dated August 16, 2010 all AMC are advised w.e.f. November 15, 2010 not to accept subscriptions with Third-Party payments except in the following exceptional situations:

- a. Payment by Parents/Grand-Parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000/- (each regular purchase or per SIP installment).
- b. Payment by Employer on behalf of employee under Systematic Investment Plans through Payroll deductions.
- c. Custodian on behalf of an FII or a Client.

In case of above exceptions, AMC are advised to obtain additional documents.

Competition Act, 2002 (the “Competition Act”)

The Competition Act aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Act, although enacted in 2002, is being brought into force in a phased manner. Provisions relating to anti-competitive agreements and abuse of dominant position were brought into force with effect from May 20, 2009 and thereafter the Competition Commission of India (“Competition Commission”) became operational from May 20, 2009. Further, the GoI has issued certain notifications dated March 4, 2011 pursuant to which Section 5 and Section 6 of the Competition Act (dealing with combinations, mergers and acquisitions) will become effective from June 1, 2011.

Under the Competition Act, the Competition Commission has powers to pass directions / impose penalties in cases of anti-competitive agreements, abuse of dominant position and combinations. In the event of failure to comply with the orders or directions of the Competition Commission, without reasonable cause, such person is punishable with a fine extending to ₹ 0.1 million for each day of such non-compliance, subject to a maximum of ₹ 100.0 million. If there is a continuing non-compliance the person may be punishable with imprisonment for a term extending up to three years or with a fine which may extend up to ₹ 250.0 million or with both. In case of offences committed by companies, the persons responsible for the conduct of the business of the company as well as the company will be liable under the Competition Act, except when the offence was committed without their knowledge and they had exercised due diligence to prevent it. Where the contravention committed by the company took place with the consent or connivance of, or is attributable to any neglect on the part of, any director, manager, secretary or other officer of the company, such person is liable to be punished. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anticompetitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes or is likely to cause an appreciable adverse effect in the relevant market in India. The Lok Sabha has passed a bill to transfer the pending monopolies and restrictive trade practices cases under the Consumer Protection Act, 1986 to the Competition Appellate Tribunal. Once this bill is notified the Competition Appellate Tribunal will take up the pending cases of unfair trade practices under the Consumer Protection Act, 1986. This bill will replace the ordinance which was introduced on October 14, 2009 to make the Monopolies and Restrictive Trade Practice Commission non functional.

Other than ₹ 20,000 payable to non-executive Directors as sitting fees for each meeting of the Board or any of its committees, no other remuneration is paid.

Terms and conditions of Manager's appointment

Mr. N. Suryanarayanan was appointed as the Manager of L&TFH for a period of five years without any remuneration by the Board of Directors on May 14, 2009.

He was also appointed as the Chief Accounts Officer of our Company by the Board of Directors on September 25, 2010.

The Board of Directors of our Company held a meeting on October 25, 2010 and approved the nomination of Mr. Y.M. Deosthalee, who is currently a non executive Chairman of our Company, as the Chairman and Managing Director ("CMD") of the company. His appointment as CMD will be effective from the date of listing of the Equity Shares of our Company pursuant to the Issue and his remuneration will be finalized upon such appointment. Mr. N. Suryanarayanan will cease to be the Manager of our Company upon appointment of Mr. Y. M. Deosthalee as the CMD coming into effect from the date of listing of the Equity Shares of our Company pursuant to the Issue.

Borrowing powers of the Board

In terms of our Articles, the Board of Directors may, from time to time, at its discretion by a resolution passed at its meeting raise or borrow or secure the payment of any sum or sums of money for the purposes of our Company. However, if the moneys sought to be borrowed together with the moneys already borrowed (apart from temporary loans obtained from our Company's bankers in the ordinary course of business) should exceed the aggregate of the paid-up capital of our Company and its free reserves (not being reserves set apart for any specific purpose), the Board of Directors is required to obtain the consent of our Company in a general meeting prior to undertaking such borrowing.

Corporate governance

We have complied with the requirements of corporate governance contained in the listing agreements to be entered into with the Stock Exchanges, particularly those in relation to the composition of the Board of Directors, constitution of committees such as Audit Committee, Nomination, Compensation & Remuneration Committee and Shareholders'/Investors' Grievance Committee. Further, the provisions of the listing agreements to be entered into with the Stock Exchanges become applicable to us at the time of seeking in-principle approval of the Stock Exchanges.

Our Company undertakes to take all necessary steps to comply with all the requirements of the SEBI ICDR Regulations on corporate governance and adopt the corporate governance code as per Clause 49 of the Listing Agreement to be entered into with the Stock Exchanges.

Currently our Board has nine Directors, and the Chairman of the Board is a non-executive non-independent Director. In compliance with the requirements of Clause 49 of the Listing Agreement, our Board consists of (i) not less than 50% non-executive Directors and (ii) at least 50% Independent Directors. Our Board has constituted the following committees:

- (a) Audit Committee;
- (b) Shareholders'/Investors' Grievance Committee;
- (c) Nomination & Remuneration Committee; and
- (d) IPO Committee.

Audit Committee

The Audit Committee of our Board was reconstituted by our Directors by a board resolution dated September 25, 2010 pursuant to Section 292A of the Companies Act. The Audit Committee comprises of:

Name of the Director	Designation in the Committee	Nature of Directorship

Terms of reference of the Audit Committee includes:

1. Hold discussions with the auditors periodically about internal control systems, the scope of audit including the observations of the auditors and review the quarterly, half-yearly and annual financial statements before submission to the Board and also ensure compliance of internal control systems.
2. Oversight of our Company's financial reporting process and the disclosure of its financial information to ensure that the financial statement is correct, sufficient and credible.
3. Recommending to the Board, the appointment, re-appointment and, if required, the replacement or removal of the statutory auditor and the fixation of audit fees.
4. Approval of payment to statutory auditors for any other services rendered by the statutory auditors.
5. Reviewing, with the management, the annual financial statements before submission to the Board for approval, with particular reference to:
 - i. matters required to be included in the Director's Responsibility Statement to be included in the

Board's Report in terms of clause (2AA) of section 217 of the Companies Act;

- ii. changes, if any, in accounting policies and practices and reasons for the same;
 - iii. major accounting entries involving estimates based on the exercise of judgment by management;
 - iv. significant adjustments made in the financial statements arising out of audit findings;
 - v. compliance with listing and other legal requirements relating to financial statements;
 - vi. disclosure of any related party transactions; and
 - vii. qualifications in the draft audit report.
6. Reviewing, with the management, the quarterly financial statements before submission to the board for approval.
 7. Reviewing, with the management, the statement of uses / application of funds raised through an issue (public issue, rights issue, preferential issue, etc.), the statement of funds utilized for purposes other than those stated in the offer document/prospectus/notice and the report submitted by the monitoring agency monitoring the utilisation of proceeds of a public or rights issue, and making appropriate recommendations to the Board to take up steps in this matter.
 8. Reviewing, with the management, performance of statutory and internal auditors, adequacy of the internal control systems.
 9. Reviewing the adequacy of internal audit function, if any, including the structure of the internal audit department, staffing and seniority of the official heading the department, reporting structure coverage and frequency of internal audit.
 10. Discussions with the internal auditors on any significant findings and follow up there on.
 11. Reviewing the findings of any internal investigations by the internal auditors into matters where there is suspected fraud or irregularity or a failure of internal control systems of a material nature and reporting the matter to the board.
 12. Discussions with statutory auditors before the audit commences, about the nature and scope of audit as well as post-audit discussion to ascertain any area of concern.
 13. To look into the reasons for substantial defaults in the payment to the debenture holders, shareholders (in case of non payment of declared dividends) and creditors.
 14. Review of information as prescribed under Clause 49 (II)(E) of the listing agreement.

Shareholders'/Investors' Grievance Committee

The Shareholders'/Investors' Grievance Committee was constituted by our Directors by a board resolution dated September 25, 2010 and comprises of:

Name of the Director	Designation in the Committee	Nature of Directorship
Mr. Ajit Kumar Jain	Chairman	Independent
Mr. R. Shankar Raman	Member	Non-executive
Mr. Subramaniam N.	Member	Independent

The Shareholders'/Investors' Grievance Committee is responsible for the redressal of shareholders and investors' grievances such as non-receipt of share certificates, annual report and payment and receipt of dividend. The committee oversees performance of the registrars and transfer agents of our Company and recommends measures for overall improvement in the quality of investor services.

Nomination & Remuneration Committee

The Nomination & Remuneration Committee was constituted by our Directors by a board resolution dated September 25, 2010 and reconstituted pursuant to a Board resolution dated October 25, 2010. The Nomination & Remuneration Committee comprises:

OUR PROMOTER

Our Promoter

The Promoter of our Company is Larsen & Toubro Limited.

Larsen & Toubro Limited

L&T was incorporated on February 7, 1946. The registered office of the company is at L&T House, Ballard Estate, Mumbai - 400 001.

L&T's PAN number is AAACL0140P.

L&T does not have any identifiable promoters and is widely held and professionally managed company.

Brief history

L&T was formed as a partnership in 1938 by Henning Holck-Larsen and Soren Kristian Toubro, Danish engineers, who came to India as representatives of a global cement company. In 1946, the partnership was incorporated as a private limited company, and in 1950 converted to a public limited company. L&T's business originally consisted of trading and indigenous manufacture of equipment. L&T rapidly entered new fields – including construction, project execution and manufacture of switchgear. L&T's heavy fabrication facilities at Powai, Mumbai were continuously and substantially expanded to meet emerging needs in the 1960's and 1970's. L&T entered the business of cement manufacture in the early 1980s. In 1987, L&T established a fabrication facility on the waterfront at Hazira, which has enhanced its ability to fabricate large equipment. Additionally, L&T has strengthened its manufacturing capabilities by setting up several new facilities, including those at Ahmednagar in Maharashtra, Mysore in Karnataka, Coimbatore in Tamil Nadu and Talegaon in Maharashtra. L&T currently has a manufacturing footprint in India, China, Oman, Saudi Arabia, UAE, Malaysia, Indonesia and Australia. Design engineering facilities are part of L&T's campuses at several locations including Mumbai, Vadodara, Faridabad, Chennai, Bengaluru and Mysore. With a view to focus on its core strengths of engineering and construction, and as part of a continuing review of its business portfolio, L&T has either discontinued or divested its stake in several business lines including dairy equipment, packaging equipment and tractor manufacturing among others. The cement business was de-merged in 2004.

SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with Generally Accepted Accounting Principles ('GAAP') and in compliance with the provision of the Companies Act, 1956 and the Accounting Standards as specified in the Companies (Accounting Standard) Rules, 2006, prescribed by the Central Government.

The preparation of financial statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Differences, if any, between the actual results and estimates, is recognized in the period in which the results are known.

The accounts of subsidiaries & associates have been prepared in compliance with Accounting Standards as specified in the Companies (Accounting Standards) Rules, 2006, prescribed by the Central Government.

Necessary adjustments for differences in the accounting policies, wherever applicable, have been made in the consolidated financial statements.

B. Revenue Recognition

Revenue is recognized based on the nature of activity when consideration can be reliably measured and there exists reasonable certainty of its recovery.

The relevant Subsidiary Companies comply with the guidelines issued by the Reserve Bank of India in respect of prudential norms for income recognition.

- i. Income from hire purchase and lease transactions is accounted on accrual basis, pro-rata for the period, at the rates implicit in the transaction. Income from bill discounting, advisory and syndication services and other financing activities is accounted on accrual basis
- ii. Based on the tenor of loans and volume of upfront fees collected amortisation of processing fees is done over the period of the loan. In case of short term loans & cases where volume of processing fees is not material, the same is accounted as income in the year of receipt. Interest from interest-bearing assets is recognised on an accrual basis over the life of the asset based on the constant effective yield. The effective interest is determined on the basis of the terms of the cash flows under the contract including related fees, premiums, discounts or debt issuance costs, if any.
- iii. Trusteeship fees are accounted on an accrual basis in accordance with the Trust deed and are dependent on the net asset value as recorded by the respective mutual fund schemes
- iv. Income from investments is accounted on accrual basis.
- v. Dividend income is accounted when the right to receive the income is established
- vi. Other items of income are accounted as & when the right to receive arises.

L&T FINANCE HOLDINGS LIMITED (CONSOLIDATED)
(formerly L&T Capital Holdings Limited)

C. Principles of Consolidation

- I) The financial statements of the Parent Company and its Subsidiaries have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses, after eliminating intra-group balances and the unrealised profits / losses on intra-group transactions, and are presented to the extent possible, in the same manner as the Company's independent financial statements.
- II) Investments in associate companies have been accounted for, by using equity method whereby investment is initially recorded at cost and the carrying amount is adjusted thereafter for post acquisition change in the Company's share of net assets of the associate. The carrying amount of investment in associate companies is reduced to recognise any decline which is other than temporary in nature and such determination of decline in value, if any, is made for each investment individually.

D. Investments

Long-term investments – other than associates are carried at cost, after providing for any diminution in value, if such diminution is of other than temporary in nature.

Current investments are carried at the lower of cost or net realizable value. The determination of the carrying costs of such investments is done on the basis of specific identification.

- E.** The Subsidiary Companies complies with the guidelines issued by the Reserve Bank of India in respect of Prudential Norms for Provisioning for Non-Performing Assets.

F. Scheme Expenses

Mutual Fund scheme expenses represent expenses incurred for the activities of the Mutual Fund schemes which are borne by the Company / debited to the Company by the schemes due to limitation of expenses stipulated in the offer document of the related schemes

G. Lease Equalisation:

Lease equalisation adjustment is the difference between capital recovery included in lease rentals and depreciation provided in books.

H. Foreign currency transactions, Forward contracts and Derivatives

The reporting currency of the company is the Indian Rupee

Foreign currency transactions are recorded on initial recognition in the reporting currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are:

- i) adjusted in the cost of fixed assets to which the exchange differences relate.
- ii) recognised as income or expense in the period in which they arise, in cases other than (i) above.

Forward contracts other than those entered into to hedge foreign currency risk on unexecuted firm commitments or of highly probable forecast transactions are treated as foreign currency transactions and accounted accordingly. Exchange differences arising on such contracts are recognised in the period in which they arise and the premium paid/received is accounted as expenses/income over the period of the contract.

Cash flows arising on account of roll over/cancellation of forward contracts are recognised as income/expenses of the period in line with the movement in the underlying exposure.

L&T FINANCE HOLDINGS LIMITED (CONSOLIDATED)
(formerly L&T Capital Holdings Limited)

Derivative contracts are recognized in financial statements and re-measured at fair value (mark to market) as on the balance sheet date. Wherever the test of effectiveness of the hedge is met the effective portion of the resultant gain or loss is recognised in the profit and loss account in the period in which the hedged item affects the earnings. All other gains or losses on such contracts are recognized in the profit & loss account immediately.

I. Fixed Assets

Owned assets

Assets held for own uses are stated at original cost net of tax / duty credits availed, if any, less accumulated depreciation, accumulated amortization. Expenses that are specifically attributable to construction or acquisition of fixed assets or bringing the fixed assets to working condition are associated and capitalized as a part of the cost of the fixed assets.

Leased assets

Assets leased under finance lease are stated as Loans and Advances as required by Accounting Standard (AS) 19. Assets under operating lease are stated at original cost less accumulated depreciation.

Assets taken on lease

Assets acquired under leases where the company has substantially all the risks and rewards of ownership are classified as finance leases. Such assets are capitalised at the inception of the lease at the lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability of each period.

Operating Leases

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Profit and Loss Account on accrual basis

Impairment of assets:

As at each balance sheet date, the carrying amount of assets is tested for impairment so as to determine:

- i. the provision for impairment loss, if any, required; or
- ii. the reversal, if any, required of impairment loss recognized in previous periods.

Impairment loss, if any, is recognized when the carrying amount of an asset or group of assets, as the case may be, exceeds the recoverable amount.

Recoverable amount is determined:

- i. in the case of individual asset, at higher of the net selling price and the value in use;
- ii. in the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at higher of the cash generating unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

J. Employee Benefits

i. Short Term Employee Benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits like salaries, wages, short term compensated absences, etc. and the expected cost of bonus, ex-gratia, are recognized in the period in which the employee renders the related service.

ii. Post-Employment Benefits

- a. **Defined Contribution Plans**: The Company's superannuation scheme, state governed provident fund scheme, insurance scheme and employee pension scheme are defined contribution plans. The contribution paid / payable under the schemes is recognized during the period in which the employee renders the related service.

L&T FINANCE HOLDINGS LIMITED (CONSOLIDATED)
(formerly L&T Capital Holdings Limited)

- b. **Defined Benefit Plans:** Employee's gratuity fund schemes, post-retirement medical care schemes, pension scheme and provident fund scheme managed by trust are the company's defined benefit plans. Wherever applicable, the present value of the obligation under a such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities, of a maturity period equivalent to the weighted average maturity profile of the related obligations at the balance sheet date.

Actuarial gains and losses are recognised immediately in the Profit and Loss Account.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on the net basis.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs. Past service cost is recognised as expense on a straight-line basis over the average period until the benefits become vested.

- iii. **Long Term Employee Benefits**

The obligation for long term employee benefits such as long term compensated absences, is recognised in the similar manner as in the case of defined benefit plans as defined benefit plans.

K. Borrowing Costs :

Borrowing costs that are attributable to the acquisitions, constructions or production of qualifying assets are capitalised as part of the cost of such assets till the time as the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

L. Depreciation

Owned assets

Depreciation on assets held for own use has been provided on straight-line basis as per Schedule XIV to the Companies Act, 1956, except for specialised software, computers & office equipment which are depreciated @ 33.33%, 20 % & 10 % per annum respectively. These rates are fixed in consonance with the expected useful life of the assets. Depreciation on assets acquired and given to employees under the hard furnishing scheme has been provided @ 18% per annum on straight line basis, except assets costing ₹ 5,000 or less which are depreciated on straight line basis as per Schedule XIV to the Companies Act, 1956. Depreciation for additions during the year is provided on pro-rata basis.

Assets given on lease

In respect of the assets given on finance lease, Accounting Standard (AS) 19 has been applied. Investment in leased assets is shown under loans and advances duly adjusted for recoveries during the lease period as required under the said Standard.

In respect of assets given on operating lease, depreciation is provided on straight line basis *pro-rata* from the month of acquisition/capitalization at the rates which have been determined on the basis of type of the asset, lease tenor, economic life of the asset, etc. These rates vary from 7% to 20% per annum.

Assets taken on lease

Accounting Standard (AS) 19 has been applied to the assets taken on lease on or after 1st April, 2001. These assets have been depreciated over the period of lease for a value net of its residual value implied in the transactions.

L&T FINANCE HOLDINGS LIMITED (CONSOLIDATED)
(formerly L&T Capital Holdings Limited)

M. Intangible Assets and Amortisation

i. An Intangible is recognised if, and only if:

- a) it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and
- b) cost of the asset can be measured reliably.

ii. Goodwill represents the difference between the Group's share in the net worth of a subsidiary or an associate, and the cost of acquisition at each point of time of making the investment in the subsidiary or the associate. For this purpose, the Group's share of net worth is determined on the basis of the latest financial statements prior to the acquisition after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Capital Reserve on consolidation represents negative goodwill arising on consolidation.

Goodwill arising out of acquisition of equity stake in a subsidiary, an associate is amortised in equal amounts over a period of ten years from the date of first acquisition. In the event of cessation of operations of a subsidiary, associate or joint venture, the unamortised Goodwill is written off fully.

N. Taxes on Income:

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income-Tax Act 1961, and based on the expected outcome of assessments / appeals.

Deferred tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and the laws enacted or substantively enacted as on the balance sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised

O. Provisions, Contingent liabilities and contingent assets:

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if

1. the company has a present obligation as a result of a past event,
2. a probable outflow of resources is expected to settle the obligation; and
3. the amount of the obligation can be reliably estimated.

Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received, if obligation is settled.

Contingent liability is disclosed in the case of

1. a present obligation arising from a past events when it is not probable that an outflow of resources will be required to settle the obligation
2. a present obligation when no reliable estimate is possible; and
3. a possible obligation arising from past events where the probability of outflow of resources is not remote

Contingent assets are neither recognised nor disclosed.

Provisions, Contingent liabilities and Contingent assets are reviewed at each balance sheet date.

SIGNIFICANT ACCOUNTING POLICIES

B. Basis of Accounting

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with Generally Accepted Accounting Principles ('GAAP') and in compliance with the provision of the Companies Act, 1956 and the Accounting Standards as specified in the Companies (Accounting Standard) Rules, 2006, prescribed by the Central Government.

The preparation of financial statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities as of the date of the financial statements.

B. Investments

Long-term investments are carried at cost, after providing for any diminution in value, if such diminution is of permanent nature.

Current investments are carried at lower of cost or market value. The determination of the carrying costs of such investments is done on the basis of specific identification.

C. Revenue Recognition

Revenue is recognized based on the nature of activity when consideration can be reliably measured and there exists reasonable certainty of its recovery. Income from investments is accounted on accrual basis.

The Company complies with the guidelines issued by the Reserve Bank of India in respect of prudential norms for income recognition.

ANNEXURE 9

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with Generally Accepted Accounting Principles ('GAAP') and in compliance with the provisions of the Companies Act, 1956 and the Accounting Standards as specified in the Companies (Accounting Standards) Rules, 2006, prescribed by the Central Government. Insurance and other claims are accounted for as and when admitted by the appropriate authorities.

The preparation of financial statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affects the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates includes the useful lives of fixed assets, provisions for doubtful debts/advances, future obligations in respect of retirement benefit plans, etc. Actual results could differ from these estimates. Any revisions to accounting estimates is recognised prospectively in the current and future periods. Wherever changes in presentation are made, comparative figures of the previous year are regrouped accordingly.

2. Fixed Assets

Owned assets

Assets held for own uses are stated at original cost net of tax / duty credits availed, if any, less accumulated depreciation.

Leased assets

Assets leased under finance lease are stated as Loans and Advances as required by Accounting Standard (AS) 19 Leases.

Assets under operating lease are stated at original cost less accumulated depreciation.

Assets taken on lease

Assets acquired under lease where the company has substantially all the risks and rewards of ownership are classified as finance leases. Such assets are capitalised at the inception of the lease at the lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability of each period.

Assets acquired on lease where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Profit and Loss Account on accrual basis.

L&T FINANCE LIMITED (UNCONSOLIDATED)

3. Intangible Assets

An Intangible is recognised if, and only if:

- a) it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and
- b) the cost of the asset can be measured reliably.

4. Impairment of assets:

As at each balance sheet date, the carrying amount of assets is tested for impairment so as to determine:

- i. the provision for impairment loss, if any, required; or
- ii. the reversal, if any, required of impairment loss recognized in previous periods.

Impairment loss, if any, is recognized when the carrying amount of an asset or group of assets, as the case may be, exceeds the recoverable amount.

Recoverable amount is determined:

- i. in the case of individual asset, at higher of the net selling price and the value in use;
- ii. in the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at higher of the cash generating unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

5. Investments

Long-term investments are carried at cost, after providing for any diminution in value, if such diminution is of other than temporary in nature.

Current investments are carried at lower of cost or market value. The determination of the carrying costs of such investments is done on the basis of specific identification.

6. Foreign currency transactions, Forward contracts and Derivatives

The reporting currency of the company is the Indian Rupee

Foreign currency transactions are recorded on initial recognition in the reporting currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of transaction.

Forward contracts other than those entered into to hedge foreign currency risk on unexecuted firm commitments or of highly probable forecast transactions are treated as foreign currency transactions and accounted accordingly. Exchange differences arising on such contracts are recognised in the period in which they arise and the premium paid/received is accounted as expenses/income over the period of the contract.

L&T FINANCE LIMITED (UNCONSOLIDATED)

Cash flows arising on account of roll over/cancellation of forward contracts are recognised as income/expenses of the period in line with the movement in the underlying exposure.

Derivative contracts are recognized in financial statements and re-measured at fair value (mark to market) as on the balance sheet date. Wherever the test of effectiveness of the hedge is met the effective portion of the resultant gain or loss is recognised in the profit and loss account in the period in which the hedged item affects the earnings. All other gains or losses on such contracts are recognized in the profit & loss account immediately.

7. Revenue Recognition

Income from Hire purchase and operating lease transactions are accounted on accrual basis, *pro-rata* for the period, at the rates implicit in the transactions. Processing fees/Management fees, Income from bill discounting, other financing activities, other compensation and Investments are accounted on accrual basis.

Revenue is recognised based on the nature of activity when consideration can be reasonably measured and there exists reasonable certainty of its recovery.

8. The Company complies with the guidelines issued by the Reserve Bank of India in respect of Prudential Norms for Income Recognition and Provisioning for Non-Performing Assets.

9. Employee Benefits

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the services are classified as short-term employee benefits. Benefits such as salaries, wages, short term compensated absences etc. and expected cost of bonus, ex-gratia are recognized in the period in which the employee renders the related service.

(a) Post Employment Benefits:

Defined Contribution Plans: The Company's superannuation scheme and employee provident fund are defined contribution plans. The contribution paid/payable under the scheme is recognized during the period in which the employee renders the related service.

(b) Defined Benefit Plans:

The employees' gratuity fund scheme is the company's defined benefit plan. The present value of the obligation under such defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of services as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations.

Actuarial gains and losses are recognized immediately in the profit and loss account.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis.

L&T FINANCE LIMITED (UNCONSOLIDATED)

Gain or losses on the curtailment or settlement of any defined benefit plan are recognized when the curtailment or settlement occurs. Past service cost is recognized as expense on a straight-line basis over the average period until the benefits become vested.

Long Term Employee Benefits: The obligation for long term employee benefits such as long term compensated absences is recognized as defined benefits plans.

10. Borrowing Costs:

Borrowing costs that are attributable to the acquisitions, constructions or production of qualifying assets are capitalised as part of the cost of such assets till the time as the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.

All other borrowing costs are recognized as an expense in the period in which they are incurred.

11. Depreciation

Owned assets

Depreciation on assets held for own use has been provided on straight-line basis as per Schedule XIV to the Companies Act, 1956, except for computer software, computers and office equipments. Computer software @ 33.33%, computers @ 20% and office equipments @ 10% per annum. These rates are fixed in consonance with the expected useful life of the assets. Depreciation on assets acquired and given to employees under the hard furnishing scheme has been provided @ 18% per annum on straight line basis, except assets costing ₹ 5,000 or less which are depreciated on straight line basis as per Schedule XIV to the Companies Act, 1956.

Assets given on lease

In respect of the assets given on finance lease, Accounting Standard (AS) 19 Leases has been applied. Investment in leased assets is shown under loans and advances duly adjusted for recoveries during the lease period as required under the said Standard.

In respect of assets given on operating lease, depreciation is provided on straight line basis *pro-rata* from the month of acquisition/capitalization at the rates which have been determined on the basis of type of the asset, lease tenor, economic life of the asset, etc. These rates vary from 7% to 20% per annum.

Assets taken on lease

Accounting Standard (AS) 19 Leases has been applied to the assets taken on lease on or after 1st April, 2001. These assets have been depreciated over the period of lease for a value net of its residual value implied in the transactions.

L&T FINANCE LIMITED (UNCONSOLIDATED)

12. Taxes on Income:

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income-Tax Act 1961, and based on the expected outcome of assessments / appeals.

Deferred tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and the laws enacted or substantively enacted as on the balance sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised

13. Provisions, Contingent liabilities and contingent assets:

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if

1. the company has a present obligation as a result of a past event,
2. a probable outflow of resources is expected to settle the obligation and
3. the amount of the obligation can be reliably estimated

Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in the case of

1. a present obligation arising from a past event when it is not probable that an outflow of resources will be required to settle the obligation
2. a present obligation when no reliable estimate is possible; and
3. a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent assets are neither recognized nor disclosed.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

Basis used to determine the overall expected return:

The Trust formed by the Company manages the Investments of Gratuity Fund. Expected rate of return on investment is determined based on the assessment made by the Company at the beginning of the year on the return expected on its existing portfolio, along with the estimated incremental investments to be made during the year. Yield on the portfolio is calculated based on suitable mark-up over the benchmark Government securities of similar maturities.

SIGNIFICANT ACCOUNTING POLICIES**A. Basis of Accounting**

The financial statements are prepared under the historical cost convention on an accrual basis of accounting in accordance with the generally accepted accounting principles, Accounting Standards notified under Section 211(3C) of the Companies Act, 1956 and the relevant provisions thereof along with the applicable guidelines issued by Reserve Bank of India ("RBI").

B. Use of Estimate

The preparation of financial statements requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as of the date of the financial statements and the reported income and expenses during the reporting period. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

C. Tangible and Intangible Fixed Assets

Tangible fixed assets are stated at cost of acquisition, including any cost attributable for bringing the asset to its working condition, less accumulated depreciation.

Intangible fixed assets comprising of software are stated at cost of acquisition, including any cost attributable for bringing the asset to its working condition, less accumulated amortisation. Any expenses on such software for support and maintenance payable annually are charged to the revenue account.

D. Investments

The Company being regulated as a Non Banking Financial Company (NBFC) by the RBI, investments are classified under two categories i.e. Current and Long Term and are valued in accordance with the RBI guidelines and the Accounting Standard (AS) 13 on 'Accounting for Investments'.

'Long Term Investments' are carried at acquisition / amortised cost. A provision is made for diminution other than temporary on an individual basis.

'Current Investments' are carried at the lower of cost and fair value on an individual basis.

E. Advances

Advances are classified under four categories i.e. (i) Standard Assets, (ii) Sub-standard Assets, (iii) Doubtful Assets and (iv) Loss Assets in accordance with the RBI guidelines.

In respect of Loans and Debentures / Bonds in the nature of an advance, where interest is not serviced, provision for diminution is made as per the parameter applicable to Non-Performing Advances.

Provision on restructured advances is made at in accordance with the guidelines issued by the RBI.

Provision on Standard Assets is made as per the provisioning policy of the Company or where additional specific risks are identified by the Management, based on such identification.

F. Foreign Currency Transactions, Forward Contracts and Derivatives

Foreign currency transactions are accounted at the exchange rates prevailing on the date of each transaction. Foreign currency monetary items outstanding as at the Balance Sheet date are reported using the closing rate. Gains and losses resulting from the settlement of such transactions and translation of monetary assets and liabilities denominated in foreign currencies are recognised in the Profit and Loss Account.

Premium in respect of forward contracts is charged to revenue over the period of the contract. Forward contracts outstanding as at the Balance Sheet date are revalued at the closing rate.

G. Revenue Recognition

- (a) Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.
- (b) Interest from interest-bearing assets is recognised on an accrual basis over the life of the asset based on the constant effective yield. The effective interest is determined on the basis of the terms of the cash flows under the contract including related fees, premiums, discounts or debt issuance costs, if any.
- (c) Revenue from the various services the Company render are recognised when the following criteria are met: persuasive evidence of an arrangement exists, the services have been rendered, the fee or commission is fixed or determinable, and collectability is reasonably assured.
- (d) Dividend is accounted when the right to its receipt is established.

H. Employee Benefits

Defined-Contribution Plans

The Company offers its employee defined contribution plans in the form of provident fund and family pension fund. Provident fund and family pension funds cover substantially all regular employees. Contributions are paid during the year into separate funds under certain fiduciary-type arrangements. Both the employees and the Company pay predetermined contributions into provident fund and family pension fund. The contributions are normally based on a certain proportion of the employee's salary.

Defined-Benefits Plans

The Company offers its employees defined-benefit plans in the form of a gratuity scheme (a lump sum amount). Benefits under the defined benefit plans are typically based on years of service and the employee's compensation (generally immediately before retirement). The gratuity scheme covers substantially all regular employees. The gratuity scheme is not funded. Commitments are actuarially determined at year-end. On adoption of the revised Accounting Standard (AS) 15 on "Employee Benefits", actuarial valuation is based on "Projected Unit Credit" method. Gains and losses of changed actuarial assumptions are charged to Profit and Loss Account.

Other Employee Benefits

Compensated Absences which accrue to employees and which can be carried to future periods but are expected to be encashed or availed in the 12 months immediately following the year end are reported as expense during the year in which the employees perform services that the benefit covers and the liabilities are reported at the undiscounted amount of the benefit after deducting amounts already paid.

Where there are restrictions on availment / encashment of such benefits or where the availment is otherwise not expected to wholly occur in the next 12 months, the liability on account of the benefits is actuarially determined using the Projected Unit Credit method.

I. Depreciation and Amortisation

- Tangible Assets

Depreciation on fixed assets is provided using the straight line method, at the rates prescribed in Schedule XIV of the Companies Act, 1956. Depreciation on additions during the year is provided on a pro-rata basis. Assets costing less than ₹ 5,000 each are fully depreciated in the year of capitalisation.

- Intangible Assets

Licenses for computer software are amortised over the estimated useful life not exceeding 3 years.

J. Impairment of assets

Tangible fixed assets and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount, which is the higher of the asset's net selling price or its value in use.

L&T Infrastructure Finance Company Limited (Unconsolidated)

K. Operating Leases

Leases of assets under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the Profit and Loss Account, on a straight line basis, over the lease term.

L. Taxes on Income

Current tax is determined as the amount of tax payable in respect of taxable income for the year as determined in accordance with the provision of Income Tax Act, 1961.

Deferred tax is recognised on timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets are recognised with regard to all deductible timing differences to the extent it is probable that taxable profit will be available against which deductible timing differences can be utilised. When the Company carries forward unabsorbed tax losses and unabsorbed depreciation, deferred tax assets are recognised only to the extent there is virtual certainty backed by convincing evidence that sufficient future taxable income will be available against which deferred tax assets can be realised. The carrying amounts of deferred tax assets are reviewed at each Balance Sheet date and reduced by the extent that it is no longer probable that sufficient taxable profit will be available to allow all or a part of the deferred tax asset to be utilised.

M. Provisions, Contingent liabilities and Contingent assets

A provision is recognised when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions are not discounted to their present values and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities and assets are not recognised.

N. Cash flow Statement

The Cash Flow Statement is prepared in accordance with indirect method as explained in the Accounting Standard on Cash Flow Statements (AS) 3.

O. Cash and Cash Equivalents

Cash and Bank Balances that have insignificant risk of change in value, which have durations up to three months, are included in cash and cash equivalents in the Cash Flow Statement.

P. Share Issue Expenses

Share issue expenses are charged off to the Profit & Loss Account in the year in which they are incurred.

NOTES TO RESTATEMENT ADJUSTMENTS**a. Accounting for recognition of interest income on loans:**

Till the period ended 31st March, 2008, interest was computed on the basis of contractual interest rate and income on processing of loans was recognised upon clearance of disbursement memorandum. During the year ended 31st March, 2009, the Company had modified the basis of recognising revenues from interest bearing assets. Based on the guidance provided in Accounting Standard (AS) 30 on Financial Instruments: Recognition and Measurement, the Company had based its income recognition on interest bearing assets and had used the effective interest rate in place of the contractual rate. In determining the effective interest rate, cash flows are estimated taking into consideration all contractual terms including fees received, transaction costs, and other premiums or discounts, if any. Thus, with effect from 1st April, 2008, income is amortised over the expected life of the related instrument through the application of a constant effective yield on the instrument. Accordingly, restatement adjustment has been made in the restated summary financial statements of periods/ years 2006-07, 2007-08, 2008-09, 2009-10 and half year ended 30 September 2010.

b. Accounting for miscellaneous expenditure:

During the period from 18 April, 2006 to 30 June, 2007, the Company had incurred miscellaneous expenditure in the nature of Share issue Expenses. This expenditure was being amortised over a period of five years as per the Company's accounting policy prevailing at that point of time. In 2008-09, the Company changed its accounting policy to write-off the share issue expenditure in the year in which it is incurred. Accordingly, restatement adjustments have been made in the restated summary financials of periods/ years 2006-07, 2007-08 and 2008-09.

c. Tax impact on restatement adjustments:

Income Tax has been computed on restatement adjustments made as detailed above and has been adjusted in the restated profits for the periods/ years 2006-07, 2007-08, 2008-09, 2009-10 and half year ended 30 September 2010.

The estimates of future salary increases, considered in the actuarial valuation, take account of inflation, seniority, promotion and other relevant factors. The above information is certified by an actuary.

The Revised (AS) 15 was implemented from the period ended on 31.03.2008. The impact of Revised (AS) 15 for the period ended on 30th June, 2007 is not material, hence restatement adjustment and disclosure is not made.

The contributions expected to be made by the Company during the financial year 2011-12 amounts to ₹ 1.13 million (financial year 2010-11 : ₹ 0.90 million).

11. During the financial year 2009-10, in respect of a loan classified as a part of “Non Performing Assets”, the Company invoked pledge of 6,946,000 equity shares in the borrower company, pledged with it as collateral by the borrower. Out of the said equity shares, 28,000 nos. were sold upto 30.09.2010 and the proceeds were adjusted against the interest and related costs outstanding against the said loan. As and when the balance shares are sold, the proceeds would be adjusted against the overdue portion of the loan then remaining outstanding.
12. Financial assistance provided through subscription of Compulsorily Convertible Debentures and Cumulative Redeemable Preference Shares aggregating ₹ 3,000 million, although classified as a part of Investments in the Balance Sheet as at 30th September, 2010, has been grouped as a part of Operating Cash Flows in the Cash Flow Statement for the six months ended on that date as such assistance forms a part of the main revenue producing activities of the Company.
13. Special Reserves have been created in terms of Section 36(1)(viii) of the Income Tax Act, 1961 and Section 45-IC of the Reserve Bank of India Act, 1934 out of distributable profits of the Company. Appropriation to these reserves are made annually.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements included in this Draft Red Herring Prospectus. You should also read the section titled "Risk Factors" of this Draft Red Herring Prospectus, which discusses a number of factors and contingencies that could impact our financial condition and results of operations. The following discussion relates to (i) L&TFH on a combined basis, and, unless otherwise stated, is based on restated consolidated financial statements; (ii) L&TFH on a standalone basis, and, unless otherwise stated, is based on restated unconsolidated financial statements; (iii) L&T Finance on a standalone basis, and, unless otherwise stated, is based on restated unconsolidated financial statements; and (iv) L&T Infra on a standalone basis, and, unless otherwise stated, is based on restated unconsolidated financial statements, in each case which have been prepared in accordance with Indian GAAP, the accounting standards and other applicable provisions of the Companies Act, the SEBI ICDR Regulations and the RBI guidelines. The following discussion is also based on internally prepared statistical information and information publicly available from the RBI and other sources. Unless stated otherwise herein, all fiscal year ends occur on March 31; therefore, all references to a particular fiscal year are to the twelve months ended March 31 of that year. Certain prior periods for each of L&TFH and L&T Infra, as discussed in greater detail herein, are comprised of more or less than twelve months, and hence are not comparable to later periods comprised of a full fiscal year. See "- Note Regarding Non-Comparable Fiscal Periods and Unconsolidated Financial Statements" below. Any reference herein or elsewhere in this Draft Red Herring Prospectus to profits "as restated" are to profits which have been subjected to adjustments and on account of restatements in accordance with the SEBI ICDR Regulations, and any references to items of income or expenditure or extraordinary items or taxes on income are to such items as audited, but without making adjustments and on account of the corresponding restatements in accordance with the SEBI ICDR Regulations, if any. Also, any reference herein or elsewhere in this Draft Red Herring Prospectus to a balance as on a reporting date as contained in the Restated Summary Statement of Assets and Liabilities as on that reporting date is to a balance which has been subjected to restatements in accordance with the SEBI ICDR Regulations.

OVERVIEW

We are a financial holding company offering a diverse range of financial products and services across the corporate, retail and infrastructure finance sectors, as well as mutual fund products and investment management services, through our direct and indirect wholly-owned subsidiaries. Our Company is registered with the RBI as an NBFC-ND-SI. We are promoted by Larsen & Toubro Limited ("**L&T**"), one of the leading companies in India, with interests in engineering, construction, electrical and electronics manufacturing and services, information technology and financial services. As of March 17, 2011, the market capitalisation of L&T was ₹ 927,640 million (Source: www.bseindia.com).

We are headquartered in Mumbai, and have a presence in 23 states in India. As at February 28, 2011, we had 890 points-of-presence across India, comprising 113 branch offices, 330 meeting centers, 33 KGSK centers and 414 customer care centers across all of our business groups and segments. Our network of offices has been established to cater to the growing business needs of our diverse customer base, which includes individual retail customers as well as large companies, banks, multinational companies and small and medium-enterprises, and to provide them with satisfactory customer service according to their varying requirements.

Our operations are arranged into four business groups, being the Infrastructure Finance Group, the Retail Finance Group, the Corporate Finance Group and the Investment Management Group, each as defined below.

Our wholly-owned subsidiary, L&T Infrastructure Finance Company Limited ("**L&T Infra**"), conducts our infrastructure finance business (our "**Infrastructure Finance Group**"), which provides financial products and services to our customers engaged in infrastructure development and construction, with a focus on the power, roads, telecommunications, oil and gas and ports sectors in India. L&T Infra is registered with the RBI as an NBFC-ND-SI and an IFC, which allows it to optimize its capital structure by diversifying its borrowings and accessing long-term funding resources, thereby expanding its financing operations while maintaining its competitive cost of funds. The total income of our Infrastructure Finance Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 3,090.85 million and ₹ 4,504.23 million, respectively, which accounted for 32.26% and 31.63% of our total income, respectively. The total loans and advances outstanding of our Infrastructure Finance Group as at September 30, 2010 were ₹ 52,729.81 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 17,518.36 million (excluding ₹ 3,000 million for subscriptions of preference shares and debentures in the normal course of business activity in non-related

companies) and ₹ 37,955.14 million, respectively.

Our wholly-owned subsidiary, L&T Finance Limited ("**L&T Finance**"), conducts our retail finance business and our corporate finance business (our "**Retail Finance Group**" and "**Corporate Finance Group**", respectively). L&T Finance is registered with the RBI as an NBFC-ND-SI and an AFC.

Our Retail Finance Group provides financing to our retail customers for the acquisition of income-generating assets and income-generating activities generally, and comprises the segments of construction equipment finance, transportation equipment finance, rural products finance and microfinance. In addition, our Retail Finance Group caters to the non-financing needs of our retail customers through the distribution of third party financial products such as insurance and mutual funds.

Our Corporate Finance Group provides financial products and services to our corporate customers, and comprises the segments of corporate loans and leases (in the form of asset-backed loans, term loans, receivables discounting, short-term working capital facilities and operating and finance leases), supply chain finance (which includes vendor and dealer finance products) and capital markets products.

The total income of our Retail and Corporate Finance Groups for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 6,390.22 million and ₹ 9,657.30 million, respectively, which accounted for 66.71% and 67.83% of our total income, respectively. The total loans and advances outstanding of our Retail and Corporate Finance Groups as at September 30, 2010 were ₹ 84,099.80 million and total disbursements for the six months ended September 30, 2010 and Fiscal Year 2010 were ₹ 67,144.60 million and ₹ 114,809.42 million, respectively.

As at September 30, 2010, on a consolidated basis, we had total loans and advances outstanding of ₹ 136,832.83 million, and for the six months ended September 30, 2010, we made total disbursements of ₹ 84,662.96 million across our Infrastructure Finance Group, Corporate Finance Group and Retail Finance Group.

Our wholly-owned indirect subsidiary (a wholly-owned subsidiary of L&T Finance) L&T Investment Management Limited ("**L&TIM**"), conducts our investment management business (our "**Investment Management Group**"), which comprises the mutual fund segment (including the management, administration and distribution of L&T Mutual Fund) and the portfolio management services segment (including portfolio management and sub-advisory services). L&TIM (formerly DBS Cholamandalam Asset Management Limited) was acquired by L&T Finance on January 20, 2010, together with L&T Mutual Fund Trustee Limited (formerly DBS Cholamandalam Trustee Limited), the trustee company for L&T Mutual Fund. The total income of our Investment Management Group for the six months ended September 30, 2010 and Fiscal Year 2010 was ₹ 32.14 million and ₹ 44.20 million, respectively, which represented 0.34% and 0.31% of our total income for the six months ended September 30, 2010 and Fiscal Year 2010, respectively. Of the total income for Fiscal Year 2010, ₹ 16.74 million (or 0.12% of our total income for Fiscal Year 2010) was attributable to L&TIM following L&T Finance's acquisition of this business. Our AUM as at September 30, 2010 was ₹ 31,642.13 million.

NOTE REGARDING NON-COMPARABLE FISCAL PERIODS AND UNCONSOLIDATED FINANCIAL STATEMENTS

L&TFH was incorporated on May 1, 2008, meaning our Fiscal Year 2009 was for a period of less than twelve months. Furthermore, prior to March 31, 2009, we had minimal operations in the form of various passive investments. On March 31, 2009, we acquired both L&T Finance (together with its subsidiaries) and L&T Infra. As a result, our Fiscal Year 2009 is for an irregular period with very limited business activity, and our Fiscal Years 2009 and 2010 are not comparable.

L&T Infra was incorporated on April 18, 2006, and received its certificate of registration from the RBI on January 10, 2007. Prior to January 10, 2007, L&T Infra did not have any business operations, and the period from January 10, 2007 to March 31, 2007 was not a full quarter. Accordingly, the management of L&T Infra concluded that the audited financial statements for the period ended March 31, 2007 would not provide a useful reflection of the financial affairs and condition of L&T Infra, and the first audited financials were prepared for the period ended June 30, 2007. Subsequently, the fiscal year-end was changed to coincide with the fiscal year-end of L&T (March 31), beginning on April 1, 2008. As a result of the foregoing, L&T Infra's first two fiscal years are for irregular terms (i.e. from April 18, 2006 to June 30, 2007; and from July 1, 2007 to March 31, 2008), and are not comparable with one another, nor are they comparable with the financial statements for Fiscal Year 2010 and Fiscal Year 2009.

The financial statements of L&T Infra and L&T Finance are presented in this Draft Red Herring Prospectus on an unconsolidated basis, while those for L&TFH have been presented on an unconsolidated

and consolidated basis. Although the business and operations of L&T Infra and L&T Finance make up most of the business and operations of L&TFH, L&TFH also derives revenues and incurs expenses from other sources, primarily investments in certain infrastructure and finance-related entities. Similarly, the financial statements for L&T Finance are presented in this Draft Red Herring Prospectus on an unconsolidated basis; however, L&T Finance also derives revenue and incurs expenses from its subsidiaries, L&TIM and L&T Mutual Fund Trustee Limited. See the section titled "*Our Business – Our Group Structure and Subsidiaries*" on page 133 of this Draft Red Herring Prospectus. As a result of the foregoing, the unconsolidated financial statements of each of L&T Infra and L&T Finance, when taken together, are not necessarily comparable to the consolidated financial statements of L&TFH.

NOTE REGARDING USE OF L&T TRADEMARK

The "L&T" trademark is registered in favour of our Promoter. Pursuant to a trademark license agreement dated December 1, 2010 (the "**Trademark License Agreement**") with our Promoter, our Company, L&T Finance, L&T Infra, L&T MFTL and L&TIM have been granted a global non-exclusive, non-transferrable license to use the "L&T" trademark and logo for a consideration of up to 0.15% of the consolidated assets of L&TFH or 5% of the consolidated PAT of L&TFH, whichever is lower plus service tax. As the Trademark License Agreement has come into effect on December 1, 2010, these payments are not reflected in the historical financial results of the Company, L&T Finance or L&T Infra. The Trademark License Agreement can be terminated by the parties thereto upon written notice in accordance with its terms. Furthermore, the Trademark License Agreement can also be terminated by any party upon change in management control of any of the licensees or upon breach of the terms of the Trademark License Agreement by any of the licensees. In the event that the Trademark License Agreement is terminated, we may have to discontinue the use of the "L&T" trademark and logo, and this may have a material adverse effect on our financial results in the future.

FACTORS AFFECTING OUR RESULTS OF OPERATIONS

The following factors are the primary factors that have affected and, we expect, will continue to affect our business, financial condition, results of operation and prospects. Our business is also subject to various risks and uncertainties, including those discussed in the section titled "*Risk Factors*".

General economic growth in India

Our financial results are affected in large measure by general economic growth in India. In the past, India has experienced rapid economic growth, particularly through 2008. As a result of the global economic downturn, this high growth trajectory was impeded in 2009. Throughout 2010 and the first half of 2011, the growth rate has once again picked up, with increases over prior comparable periods. See the section titled "*Industry Overview – The Indian Economy*" on page 113 of this Draft Red Herring Prospectus. As a result of these fluctuations, in Fiscal Year 2009 we witnessed only a moderate increase versus 2008 in the aggregate amount of loans and advances made to our customers. However, during Fiscal Year 2010, we saw a substantial year-on-year increase in the aggregate amount of loans and advances. If this economic resurgence abates, customers may delay or cancel projects and proposed purchases, which would result in less demand for our products and services. If this growth continues we expect customers to follow through with existing projects and purchases, and possibly initiate more new projects and purchases, thereby increasing demand for our products and services.

Economic developments in relevant sectors of the Indian economy

Our financial results are affected by developments in certain sectors of the Indian economy for which we provide financing. With respect to L&T Infra, we are most active in providing financing products and services in the power, roads, telecommunications, oil and gas and ports sectors in India. With respect to L&T Finance, we provide both retail and corporate products and services primarily for the financing of commercial assets in sectors such as transport, construction and agriculture. These sectors are susceptible to sector-specific influences and developments, such as the adoption of appropriate government policies and the actions of regulatory authorities, which in turn affect the demand for income-generating assets in these sectors. As the demand for these assets increases or decreases, we expect demand for our products and services to increase or decrease accordingly.

With respect to the regulation of relevant industry sectors, infrastructure development in particular has historically been dependent on government funding, both at the central and state level. However, the participation of private enterprise in infrastructure projects is expected to be substantial in the near term. For example, private investment in infrastructure projects for roads over the next five years is estimated to be ₹ 1.9 trillion. See the section titled "*Industry Overview – The Infrastructure Finance Industry in India – Sectoral Focus – Roads Sector*" on page 120 of this Draft Red Herring Prospectus. Notwithstanding this

private participation, government spending is likely to continue to be a major source of funding for infrastructure development, and as a result, the precise nature and pace of certain policy and regulatory changes will have an impact on our growth and financial results.

Interest rates and inflation

Interest rates have a substantial effect on our cost of funding, our business volume and our profit margin.

The interest rate spread between our borrowing rate and lending rate, and specifically our ability to maintain an effective interest rate margin in times of interest rate volatility and intense market competition, contributes directly to our net interest income and revenue growth. An increase in our cost of funds, as well as competition from banks and other NBFCs, could reduce spreads earned on our loan products. For more on our net interest margin and cost of funding, see the section titled "*Availability of capital and cost effective funding sources*" below.

Declining interest rates may lead to increased prepayments and repricing of our loans as borrowers seek to take advantage of the more attractive interest rate environment to reduce their borrowing costs. Declining interest rates also may lead to a greater demand for new funds as business owners seek to take advantage of these attractive rates, resulting in a greater volume of financing business. Conversely, when interest rates rise, there are typically less prepayments and less pressure to reprice loans; there is also less demand for new funds, resulting in a lower volume of financing business. In a rising interest rate scenario, our profit margin is thus more dependent on our ability to attract new business, either through existing customers or new customers, than it is in a declining interest rate scenario. If we are not successful in increasing the volume of our business in such a scenario, our profit margin may deteriorate.

Interest rates are typically correlated with inflation rates, as the RBI has historically sought to mitigate rising inflation by raising interest rates. In 2010, wholesale price index ("**WPI** ") inflation, under the new series (Base: 2004-05), increased significantly and reached 10.2% by the end of March 2010. The monthly average of WPI inflation from April 1, 2010 to February 28, 2011 under the new series was 9.3%. As at March 1, 2010, the repurchase and reverse repurchase rates were 4.75% and 3.25%, respectively. Since March 2010, the RBI has revised the repurchase and reverse repurchase rates eight times. As at March 21, 2011, the repurchase rate is 6.75% and reverse repurchase rate is 5.75%. If this inflationary trend continues, we anticipate the RBI will again raise both the repurchase and reverse repurchase rates.

Credit quality and provisioning

The credit quality of our loans is a key driver of our results of operations, as quality loans help to reduce the risk of losses from loan impairment. We believe that our ability to control our NPAs and maintain the credit quality of our portfolio is a function of our strong credit check and asset valuation framework.

As a result of our sound credit quality practices, our net NPA ratios for each of L&T Infra and L&T Finance for Fiscal Year 2010 were 1.66% and 1.68% respectively. For the six month period ended September 30, 2010, these net NPA ratios were 1.01% and 1.23% respectively. See the section titled "*Our Business – Our Loan Portfolio and Policies - Non-performing Assets*" on page 167 of this Draft Red Herring Prospectus. Each of L&T Infra and L&T Finance also employ distinct provisioning practices that are generally more stringent than those required by the RBI. As at March 31, 2010, L&T Infra and L&T Finance had made total credit provisions in respect of loan portfolio assets of ₹ 330.60 million and ₹ 749.65 million, respectively, which are higher than the minimum amounts of ₹ 79.00 million and ₹ 394.79 million, respectively, which would have been required by RBI. As at September 30, 2010, L&T Infra and L&T Finance made total credit provisions in respect of loan portfolio assets of ₹ 312.15 million and ₹ 1,087.30 million, respectively, which again are higher than the minimum amounts of ₹ 104.15 million and ₹ 319.50 million, respectively, which would have been required by RBI.

Government policy and regulation of our business

The growth of our business is dependent on stable government policies and prudent regulation. For example, the introduction of ordinances or regulations, such as the MFI Act, which was recently enacted, may have an adverse impact on our microfinance business. See the section titled "*Risk Factors*" on page 17 of this Draft Red Herring Prospectus. L&TFH, L&T Infra and L&T Finance each hold licenses with the RBI as NBFCs. In addition, L&T Infra is a designated IFC, L&T Finance is a designated AFC. See the section titled "*Industry Overview – Non-Banking Finance Companies – Core Investment Companies*" on page 117 of this Draft Red Herring Prospectus.

Availability of capital and cost effective funding sources

We rely on equity (in the form of shareholders' funds) and loan funds (in the form of various secured and unsecured borrowings) in order to meet our capital and funding requirements. Of these funding sources, secured loans remain our most significant source of funding.

Our ability to meet demand for new loans and other forms of financing will primarily be dependent on increased borrowing from external sources and the issuance of new debt. Our debt funding sources are varied, as we believe that a diversified lender profile ensures that we are not overly dependent on any one source or a few institutions. In light of this, and our growing funding requirements, we have made conscious efforts to diversify our lender base to include a larger number of banks, insurance companies (both public and private), mutual funds, pension funds and public investors. Our aim is to ensure that we have a judicious mix of wholesale and retail funding at any given point in time.

Our debt service costs as well as our overall cost of funds depend on many external factors, including developments in the Indian credit markets and, in particular, interest rate movements and the existence of adequate liquidity in the debt markets. Internal factors which will impact our cost of funds include changes in our credit ratings and available credit limits. Any increase in our cost of funds may require us to raise interest rates on our disbursements.

For both secured and unsecured loan funds in aggregate, L&T Infra's average cost of funds for Fiscal Year 2010 was 9.81% and the average yield on the loan portfolio of L&T Infra was 13.69%, resulting in an average net interest margin of 6.20%. L&T Finance's average cost of funds for Fiscal Year 2010 was 7.93%, and the average yield on the loan portfolio of L&T Finance was 15.67%, resulting in an average net interest margin of 7.83%. Average leverage for L&T Infra and L&T Finance as on March 31, 2010 was 3.07 times and 5.54 times respectively. Average leverage for L&T Infra and L&T Finance as on September 30, 2010 was 3.66 times and 5.65 times, respectively. See the sections titled "*Results of Operations – L&T Finance – Summary Results of Operations*" and "*Results of Operations – L&T Infra – Summary Results of Operations*" for further information, including on the calculation of ratios.

Operating expenses

Our results of operations are affected by our ability to manage operating expenses, including those relating to office space and headcount. As we expand our business and product and service offerings, we will need to increase headcount and hence, office space. For Fiscal Year 2010 and the six month period ended September 30, 2010, our administrative and other expenses were ₹ 2,452.80 million and ₹ 1,248.76 million, respectively. Rent expenses for the Fiscal Year 2010 and the six month period ended September 30, 2010 represented 7.5% and 8.86%, respectively, of our total operating and other expenses, as we lease substantially all our facilities.

Diversification of our business, products and services

We believe that our financial performance is tied to our ability to provide diversified products and services to existing and new clients, whether this is within our existing lines of business or new ones. In the past, we have expanded our business to include investment management (January 2010), microfinance (April 2008), financial products distribution (September 2007) and infrastructure finance (January 2007). To the extent that this diversification strategy is successful, it may mitigate various risks associated with concentration, particularly wide-ranging fluctuations in our revenue stream due to singular factors connected with limited business lines.

Physical and geographic reach

Our results of operations are dependent upon the effectiveness of the geographic reach of our network of offices and points-of-presence. As of February 28, 2011, we had 890 points-of-presence across 23 states in India. Our ability to maintain and expand our network of offices and points of presence in a cost effective and efficient manner will have a direct result on our financial performance and results of operation.

Fluctuations in customer base

Our financial results are directly affected by our number of customers. As more customers utilize our products and services, we typically see a corresponding growth in our interest income, commissions and fees received. Conversely, if our customer base were to erode, this would have a negative impact on our revenues.

CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those accounting policies that reflect significant judgments and which may result in materially different results under different assumptions and conditions. Each of L&TFH, L&T Finance and L&T Infra, as applicable, reviews estimates and underlying assumptions on an ongoing basis and recognizes any revisions to these accounting estimates in the financial period in which the estimates are revised and in any future periods affected. The most significant of these critical accounting policies for each of L&TFH, L&T Finance and L&T Infra are set out below.

Fixed assets

Assets held for own use are stated at original cost including any cost attributable to bringing the asset to working condition net of tax/duty credits availed, if any, less accumulated depreciation. Assets leased under finance lease are stated as loans and advances as required by Accounting Standards (AS) 19 Leases. Assets under operating lease are stated at original cost less accumulated depreciation.

Assets acquired under leases where the company has substantially all the risks and rewards of ownership are classified as finance leases. Such assets are capitalized at the inception of the lease at the lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability of each period.

Assets acquired on leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Profit and Loss Account on accrual basis.

Intangible assets

An intangible asset is recognized if, and only if, it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and the cost of the asset can be measured reliably.

Impairment of assets

As at each balance sheet date, the carrying amount of assets is tested for impairment so as to determine: the provision for impairment loss, if any, required; or, the reversal, if any, required of impairment loss recognized in previous periods.

Impairment loss, if any, is recognized when the carrying amount of an asset or group of assets, as the case may be, exceeds the recoverable amount.

The recoverable amount is determined:

1. in the case of individual asset, at higher of the net selling price and the value in use;
2. in the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at higher of the cash generating unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

Investments

Long-term investments are carried at cost, after providing for any diminution in value, if such diminution is of a permanent nature.

Current investments are carried at the lower of cost or market value. The determination of the carrying costs of such investments is done on the basis of specific identification.

Revenue Recognition

Revenue is recognized based on the nature of the activity when consideration can be reliably measured and there exists reasonable certainty of its recovery. In each case as applicable for each of L&TFH, L&T Finance and L&T Infra:

- Income from hire purchase and lease transactions is accounted for on an accrual basis, pro-rata for the period, at the rates implicit in the transaction.

- Income from advisory and syndication services is accounted for on accrual basis.
- Trusteeship fees are accounted on an accrual basis in accordance with the relevant trust deed and are dependent on the net asset value as recorded by the schemes of L&T Mutual Fund.
- Income from investments is accounted on an accrual basis.
- Dividend income from units of mutual funds is accounted when the right to receive the income is established.

Furthermore, in the case of L&T Infra: revenue from the various services provided is recognized when persuasive evidence of an arrangement exists, the services have been rendered, the fee or commission is fixed or determinable, and collectability is reasonably assured; and interest from interest-bearing assets is recognized on an accrual basis over the life of the asset based on the constant effective yield, with the effective interest determined on the basis of the terms of the cash flows under the contract including related fees, premiums, discounts or debt issuance costs, if any.

In the case of L&T Finance, income from bill discounting and other financing activities is accounted for on accrual basis, and processing fees are also accounted for on an accrual basis.

Borrowing Costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of such assets until the time as the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognized as an expense in the period in which they are incurred.

Depreciation

Depreciation on assets held for own use has been provided on a straight-line basis as per Schedule XIV to the Companies Act, except for specialized software, computers and office equipment which are depreciated at 33.33%, 20% and 10% per annum respectively. These rates are fixed in consonance with the expected useful life of the assets. Depreciation on assets acquired and given to employees under the hard furnishing scheme has been provided at 18% per annum on a straight line basis, except assets costing ₹ 5,000 or less which are depreciated on a straight line basis as per Schedule XIV to the Companies Act.

In respect of the assets given on finance lease, Accounting Standards (AS) 19 Leases has been applied. Investment in leased assets is shown under loans and advances duly adjusted for recoveries during the lease period as required under the said Standard.

In respect of assets given on operating lease, depreciation is provided on a straight line basis pro-rata from the month of acquisition/capitalization at the rates which have been determined on the basis of the type of the asset, lease tenor, economic life of the asset, etc. These rates vary from 7% to 20% per annum.

In respect of assets taken on lease on or after April 1, 2001, Accounting Standards (AS) 19 Leases has been applied. These assets have been depreciated over the period of the lease for a value net of residual value implied in the transactions.

Taxes on income

Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, and based on the expected outcome of assessments/appeals.

Deferred tax is recognized on timing differences between taxable income and accounting income that originated in one period and is capable of reversal in one or more subsequent periods. Deferred tax assets are recognized with regard to all deductible timing differences to the extent it is probable that taxable profit will be available against which deductible timing differences can be utilized. When unused tax losses and unabsorbed depreciation are carried forward, deferred tax assets are recognized only to the extent there is virtual certainty backed by convincing evidence that sufficient future taxable income will be available against which deferred tax assets can be realized. The carrying amounts of deferred tax assets are reviewed at each balance sheet date and reduced by the extent that it is no longer probable that sufficient taxable profit will be available to allow all or a part of the deferred tax asset to be utilized.

Provisions, contingent liabilities and contingent assets

Provisions are recognized for liabilities that can be measured only by using a substantial degree of estimation, if:

1. the company has a present obligation as a result of a past event;
2. a probable outflow of resources is expected to settle the obligation; and
3. the amount of the obligation can be reliably estimated.

Reimbursement expected in respect of expenditure required to settle a provision is recognized only when it is virtually certain that the reimbursement will be received if the obligation is settled. For more information about our provisioning policy and practices, refer to the section titled “*Our Business – Our Loan Portfolio and Policies – Provisioning and Write-off Policies*” on page 165 of this Draft Red Herring Prospectus.

Contingent liability is disclosed in the case of:

1. a present obligation arising from a past event when it is not probable that an outflow of resources will be required to settle the obligation;
2. a present obligation when no reliable estimate is possible; and
3. a possible obligation arising from past events where the probability of outflow of resources is not remote.

Contingent assets are neither recognized nor disclosed. Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

Advances

Loans and advances disbursed in lending activities are classified into four categories, namely (i) Standard Assets, (ii) Sub-standard Assets, (iii) Doubtful Assets and (iv) Loss Assets, in accordance with the RBI guidelines. For a discussion on the provisioning policies applied with respect to these assets, refer to the section titled “*Our Business – Our Loan Portfolio and Policies – Provisioning and Write-Off Policies*” on page 165 of this Draft Red Herring Prospectus.

RESULTS OF OPERATIONS

L&TFH (Consolidated)

Income

Our revenue (referred to herein and in our financial statements as our “**income**”) consists of income from operations and other income.

Income from operations consists primarily of income from finance operations through L&T Finance and L&T Infra. We also derive some income from interest and dividends from shares we hold in certain banks. We do not consider the amounts of income from interest and dividends to be material to our business, as they constituted less than 1.29% of our total income in Fiscal Year 2010.

Other income consists primarily of other income from our finance businesses, as well as income from dividends, interest on investments and sales of investments, primarily mutual fund units and shares.

See the sections titled “– *L&T Infra – Income*” and “– *L&T Finance – Income*” of this Draft Red Herring Prospectus for a more detailed description of income and other income for each of these business groups.

Expenditure

Our expenditures consist primarily of interest and other finance charges incurred by our finance and infrastructure businesses in relation to bank loans, debentures and other borrowings, as well as provisions, write-offs and foreclosures. Our provision expense is derived primarily from L&T Finance in respect of provisioning for NPAs and losses on foreclosures relating to repossession of assets, and L&T Infra in respect of provisions for NPAs and prudential provisions for standard assets. See the section titled “*Our Business – Our Loan Portfolio and Policies*” on page 158 of this Draft Red Herring Prospectus. We also have other administrative expenses, which include primarily rent, travel and conveyance costs,

maintenance and repairs, IT and communications expenses and professional services (primarily to rating agencies and industry consultants).

Other expenditures include employee costs, depreciation and amortization and preliminary expenses written off. Employee costs consist primarily of salary, reimbursements of staff costs, staff welfare payments and contributions to provident and pension funds. Preliminary expenses written off are primarily pre-operating expenses incurred by L&T Aviation Services Private Limited and L&TFH. For a discussion of our depreciation policies, see the section titled “– *Critical Accounting Policies – Depreciation*” above.

See the sections titled “– *L&T Infra – Expenditure*” and “– *L&T Finance – Expenditure*” of this Draft Red Herring Prospectus for a more detailed description of expenses for each of these business groups.

Exceptional Item

Our subsidiary L&TIM has, in the past on an exceptional basis, funded L&T Mutual Fund for certain expenses incurred by L&T Mutual Fund, primarily as the result of primarily as the result of amounts paid to certain investment funds to offset losses against investments and expenses incurred

Profit/(Loss) on Sale of Subsidiaries/Associates’ Share of Loss

We record profit or loss on sales of subsidiaries. Our share of profit/loss in associates is also accounted for by following principles of consolidation.

In accordance with our accounting policies, investments in associate companies have been accounted for by using an equity method, whereby the investment is initially recorded at cost and the carrying amount is adjusted thereafter for post acquisition change in our share of the net assets of the associate. The carrying amount of investments in associate companies is reduced to recognize any decline which is other than temporary in nature, and such determination of decline in value, if any, is made for each investment individually.

Tax

Current tax includes income tax and wealth tax. Deferred tax includes deferred tax liabilities to account for the difference between book depreciation and tax depreciation, as well as deferred tax assets resulting from provisions for doubtful debts and advances debited to the profit and loss account, as well as any impact due to restatement.

Summary Results of Operations

The following table sets forth selected line items from our restated audited financial statements as of and for the six month period ended September 30, 2010 and the Fiscal Years ended March 31, 2010 and 2009. Our restated audited financial statements are included under the section entitled “*Financial Information*” on page F-1 of this Draft Red Herring Prospectus. Since we were incorporated on May 1, 2008, our fiscal year 2009 was for a period of less than twelve months; we also had minimal business operations, in the form of passive investments, prior to March 31, 2009, at which date we acquired L&T Finance and L&T Infra. Hence, our fiscal years 2009 and 2010 are not comparable. See the section titled “– *Note Regarding Non-Comparable Fiscal Periods and Unconsolidated Financial Statements*” above.

Six Month Period Ended September 30, 2010

Income

Our income for the six month period ended September 30, 2010 amounted to ₹ 9,579.62 million, consisting primarily of operating income and other income from L&T Finance and L&T Infra. See the sections titled "*L&T Infra – Income*" and "*L&T Finance – Income*" below. Of this amount, L&T Finance contributed ₹ 6,390.22 million, or 66.71% of our total income, and L&T Infra contributed ₹ 3,090.85 million, or 32.26% of our total income. Operating income from these companies consisted primarily of interest income on loans and advances. Income from operations other than from L&T Finance and L&T Infra consisted primarily of fee income derived from L&TIM. Other income from sources other than L&T Finance and L&T Infra consisted primarily of dividend and interest income from investments.

Expenditure

Our expenditures for the six month period ended September 30, 2010 amounted to ₹ 6,386.21 million, consisting primarily of interest and other finance charges, provisions/write-offs and foreclosure losses on repossession of assets and other administrative expenses. Interest and other finance charges related primarily to our bank loans, redeemable non-convertible debentures, commercial paper and other borrowings. Provisions/write-offs and foreclosures related primarily to L&T Finance's provisions on NPAs and L&T Infra's prudential provisions on standard assets. Other administrative expenses related primarily to rent, mutual fund expenses with respect to advertising and publicity expenses for various schemes, travel and conveyance expenses, and advertising expenses with respect to L&T Finance and L&T Infra.

Net Profit Before Tax, Exceptional Item, Prior Period Item and Profit/(Loss) on Sale of Subsidiaries/Associates Share of Loss

For the reasons stated above, our net profit before tax, exceptional item, prior period item and profit/(loss) on sale of subsidiaries/associates share of loss, for the six month period ended September 30, 2010 amounted to ₹ 3,193.41 million. As a percentage of total income, this amounted to 33.34% for the six month period ended September 30, 2010.

Tax

Current tax (including wealth tax) and deferred tax for the six month period ended September 30, 2010 amounted to ₹ 1,099.28 million, including a deferred tax credit of ₹ 36.25 million. The deferred tax credit related primarily to timing differences between the accounting income and the taxable income for the period, utilizing the tax rates and laws enacted or substantively enacted as on the balance sheet date.

Exceptional Item

During the six month period ended September 30, 2010, we incurred a charge of ₹ 59.95 million for certain exceptional items in the form of reimbursements made by L&TIM to L&T Mutual Fund in respect of certain expenses incurred by L&T Mutual Fund, primarily as the result of amounts paid to certain investment funds to offset losses against investments and expenses incurred.

Profit/(Loss) on Sale of Subsidiaries/Associates' Share of Loss

Profit/(Loss) on sale of subsidiaries/associates' share of loss amounted to ₹ (4.26) million for the six month period ended September 30, 2010.

Net Profit After Extraordinary Items

For the reasons stated above, our net profit after extraordinary items in Fiscal Year 2010 amounted to ₹ 2,029.92 million. As a percentage of total income, our net profit after extraordinary items amounted to 21.19%.

Total Adjustments, net of Tax Impact

Total adjustments for the six month period ended September 30, 2010 amounted to ₹ 5.38 million and consisted primarily of adjustments resulting from changes in our accounting policy. During the Fiscal Year ended March 31, 2009, L&T Infra modified the basis of recognizing revenues from interest bearing assets, using an effective interest rate in place of the contractual rate. In determining the effective interest rate, cash flows are estimated taking into consideration all contractual terms including fees received, transaction costs, and other premiums or discounts, if any. Thus, with effect from April 1, 2008, such income has been amortized over the expected life of the related instrument through the application of a constant effective yield on the instrument. See the section titled "– *Analysis of Certain Changes – Changes in Accounting Policies*" below.

Net Profit, as Restated

As a result of the foregoing factors, our net profit, as restated, for the six month period ended September 30, 2010 amounted to ₹ 2,035.30 million. As a percentage of total income, our net profit, as restated amounted to 21.25% for the six month period ended September 30, 2010.

Year Ended March 31, 2010

Income

Our income for Fiscal Year 2010 amounted to ₹ 14,239.15 million, consisting primarily of operating income and other income from L&T Finance and L&T Infra. See the sections titled "– *L&T Infra – Income*" and "– *L&T Finance – Income*" of this Draft Red Herring Prospectus. Of this amount, L&T Finance contributed ₹ 9,657.30 million, or 67.83% of our total income, and L&T Infra contributed ₹ 4,504.23 million, or 31.63% of our total income. Operating income from these companies consisted primarily of interest income on loans and advances. Income from operations other than from L&T Finance and L&T Infra consisted primarily of fee income derived from L&TIM. Other income from sources other than L&T Finance and L&T Infra consisted primarily of dividend and interest income from investments.

Expenditure

Our expenditures in Fiscal Year 2010 amounted to ₹ 10,297.45 million, consisting primarily of interest and other finance charges, provisions/write-offs and foreclosure losses on repossession of assets and other administrative expenses. Interest and other finance charges related primarily to our bank loans, redeemable non-convertible debentures, commercial paper and other borrowings. Provisions/write-offs and foreclosures related primarily to L&T Finance's provisions on NPAs and L&T Infra's prudential provisions on standard assets. Other administrative expenses related primarily to rent, maintenance and repairs, IT and communications expenses.

Net Profit Before Tax, Exceptional Item, Prior Period Item and Profit/(Loss) on Sale of Subsidiaries/Associates Share of Loss

For the reasons stated above, our net profit before tax, exceptional item, prior period item and profit/(loss) on sale of subsidiaries/associates share of loss, in Fiscal Year 2010 amounted to ₹ 3,941.70 million. As a percentage of total income, this amounted to 27.68% in Fiscal Year 2010.

Tax

Current tax (including wealth tax) and deferred tax for Fiscal Year 2010 amounted to ₹ 1,340.95 million, including a deferred tax credit of ₹ 182.50 million. The deferred tax credit related primarily to timing differences between the accounting income and the taxable income for the year, utilizing the tax rates and laws enacted or substantively enacted as on the balance sheet date.

Exceptional Item

In Fiscal Year 2010, we incurred a charge of ₹ 15.41 million for an exceptional item in the form of funding by L&TIM to L&T Mutual Fund in respect of certain expenses incurred by L&T Mutual Fund, primarily as the result of amounts paid to certain investment funds to offset losses against investments and expenses incurred.

Profit/(Loss) on Sale of Subsidiaries/Associates' Share of Loss

Profit/(Loss) on sale of subsidiaries/associates' share of loss amounted to ₹ 16.21 million in Fiscal Year 2010. This amount related to the sale by L&T Finance of its subsidiary, L&T General Insurance Company Limited, on November 5, 2009, and the share of profit/loss from our associate company, NAC Infrastructure Equipment Ltd.

Net Profit After Extraordinary Items

For the reasons stated above, our net profit after extraordinary items in Fiscal Year 2010 amounted to ₹ 2,596.47 million. As a percentage of total income, our net profit after extraordinary items amounted to 18.2%.

Total Adjustments, net of Tax Impact

Total adjustments for Fiscal Year 2010 amounted to ₹ 33.61 million and consisted primarily of adjustments resulting from changes in our accounting policy. During the Fiscal Year ended March 31, 2009, L&T Infra modified the basis of recognizing revenues from interest bearing assets, using an effective interest rate in place of the contractual rate. In determining the effective interest rate, cash flows are estimated taking into consideration all contractual terms including fees received, transaction costs, and other premiums or discounts, if any. Thus, with effect from April 1, 2008, such income has been amortized over the expected life of the related instrument through the application of a constant effective yield on the instrument. See the section titled "– Analysis of Certain Changes – Changes in Accounting Policies" below.

Net Profit, as Restated

As a result of the foregoing factors, our net profit, as restated, in Fiscal Year 2010 amounted to ₹ 2,630.08 million. As a percentage of total income, our net profit, as restated amounted to 18.47% in Fiscal Year 2010.

Eleven-Month Period Ended March 31, 2009

Our Company was incorporated on May 1, 2008. As a result, our financial results for the period ended March 31, 2009 reflect only eleven months of operations. In addition, L&T Finance and L&T Infra were transferred to L&TFH on March 31, 2009. As a result, the results of operations of these two subsidiaries for the year ended March 31, 2009 did not contribute to our consolidated results for the period ended March 31, 2009. We did not have material income or incur material expenses during the period ended March 31, 2009.

L&TFH (Unconsolidated)

In the eleven-month period ended March 31, 2009, L&TFH did not have any material operations, and therefore did not generate any material revenues or incur any material expenditures.

On an unconsolidated basis, L&TFH derives income from operations, primarily from its investment activities. In Fiscal Year 2010, L&TFH's income from operations amounted to ₹ 53.64 million. For the six month period ended September 30, 2010, L&TFH's income from operations amounted to ₹ 55.23 million.

L&TFH's expenditures consist of administration and other expenses, which relate primarily to administrative and statutory fees and professional services. In Fiscal Year 2010, L&TFH's administration and other expenses amounted to ₹ 24.89 million, most of which was attributable to filing fees with the registrar of companies. For the six month period ended September 30, 2010, L&TFH's administration and other expenses amounted to ₹ 4.50 million.

L&T Finance

Income

Our subsidiary L&T Finance's revenue (referred to herein and in its financial statements as L&T Finance's "income") consists of income from operations from our finance business and other income.

- Income from operations consists primarily of interest on loans and advances that we provide to finance assets, operating lease income and income from distribution fees.
- Other income consists mainly of income from investments and profit on the sale/redemption of investments.

Expenditure

The largest component of L&T Finance's expenditure is interest and other finance charges. Expenditure also includes administration and other expenses, depreciation and amortization, and employee cost.

- Interest and other finance charges consists primarily of interest paid on L&T Finance's loans, its non-convertible debentures, its commercial paper and its other borrowings.
- Administration and other expenses includes provisions/write-offs and foreclosures, and other administrative expenses (including primarily rent, travel and conveyance costs, maintenance and repairs, IT and communications expenses and professional services (primarily to rating agencies and industry consultants).
- Depreciation and amortization relates primarily to L&T Finance's operating leases on vehicles, computers and plant and machinery.
- Employee cost includes primarily salaries, as well as reimbursements of staff costs, staff welfare payments and contributions to provident and pension funds.

Tax

Current tax includes income tax and wealth tax. Deferred tax includes deferred tax liabilities to account for the difference between book depreciation and tax depreciation, as well as deferred tax assets resulting from provisions for doubtful debts and advances debited to the profit and loss account. Fringe benefits tax is tax levied on various employer expenses, including travel, transportation and retirement plan contributions, and was abolished in July 2009.

Summary Results of Operations

The following table sets forth selected line items from L&T Finance's restated audited financial statements as of and for the six month period ended September 30, 2010 and the Fiscal Years ended March 31, 2010, 2009, 2008, 2007 and 2006. L&T Finance's restated audited financial statements are included in this document under the section entitled "*Financial Information*".

⁽²⁾ Cost of funds: interest and other finance charges on borrowings divided by the average of opening and closing year-end borrowings. See "Note on certain variations" below.

- (3) Net interest margin: total income (excluding non-operating income) less interest and other finance charges on borrowings, divided by the average of opening and closing year-end gross loans and advances outstanding (including sundry debtors).
- (4) Average leverage: average of opening and closing year-end borrowings, divided by the average of year-end net worth.
- (5) Return on equity: profit after tax for the Fiscal Year, as applicable, divided by the average of opening and closing year-end net worth.
- (6) Return on assets: profit after tax for the Fiscal Year, divided by the average of opening and closing year-end total assets.

Financial ratios for the six month period ended September 30, 2010 may not be indicative when annualized, and are not included in the above table.

Note on certain variations:

- (a) Yield on loans and advances: Yields may not be entirely indicative to the extent that, at times, there may be interest income earned on certain short term assets which may not form part of the closing book of loans and advances, especially for Fiscal Years 2008 and 2009. This has contributed to a higher overall average yield for each of these two Fiscal Years as compared to the yield for Fiscal Year 2007.
- (b) Cost of funds: Average costs may not be entirely indicative to the extent that there may be costs incurred on certain short term loans (to finance short term assets), which may not form part of closing borrowings, for example, for the Fiscal Years 2008 and 2009. This has contributed to a higher overall average cost of funds for each of these two Fiscal Years as compared to the average cost of funds for Fiscal Year 2007. In addition, the average financing cost of Fiscal Year 2009 was impacted by (i) costs incurred on derivatives (both cash and mark-to-market losses and revaluation of foreign currency loans); and (ii) the economic downturn during Fiscal Year 2009, during which the borrowings were higher in the first half of the year compared to the later half, resulting in lower average yearly balances and relatively higher borrowing expenses, resulting in a higher average cost of funds. See the section titled "*Industry Overview – The Indian Economy – Overview*" on page 113 of this Draft Red Herring Prospectus. In addition, the average financing cost for Fiscal Year 2008 was impacted by a large volume of very short term loans, which resulted in lower annual average borrowings.

Six Month Period Ended September 30, 2010

Overview

The following is intended to provide a meaningful discussion of some of L&T Finance's relevant financial ratios and financial highlights for the period:

- Average loans and advances as on September 30, 2010, calculated based on the average of the outstanding amounts as on the period opening and period ending dates, were ₹ 78,876.54 million.
- Interest cost for the period was ₹ 2,854.17 million, and average borrowings as on September 30, 2010, calculated based on the average of the outstanding amounts on the period opening and period ending dates, were ₹ 71,192.26 million.
- Provisions for the period were ₹ 322.07 million and losses relating to foreclosures on term loan agreements were ₹ 248.34 million. While loans and advances have increased by 20.45% since March 31, 2010, GNPA's as at September 31, 2010 were ₹ 2,114.36 million, representing an increase of 9.05%. As a result, our GNPA's, as a percentage of our gross loans outstanding, as at September 30, 2010 stood at 2.53%, compared to 2.75% as at March 31, 2010.
- Profit after tax for the period was ₹ 1,229.29 million, and the average total assets as on September 30, 2010 were ₹ 78,876.54 million, resulting in a return on assets of 1.46% (not annualized).
- Average leverage as on September 30, 2010 (the average of period opening and closing borrowings, divided by the average of period opening and closing net worth) was 5.65 times.
- Average total net worth for the period was ₹ 12,633.96 million, and the return on equity was 9.73% (not annualized).

- Earnings per share, on a fully diluted basis (not annualized), was ₹ 5.76 per share.

Income

L&T Finance's income for the six month period ended September 30, 2010 amounted to ₹ 6,390.22 million, consisting primarily of interest on term loans and other financing activities resulting from our finance operations.

The average volume of L&T Finance's loans and advances, defined as the average of the opening and closing balances of its outstanding loans and advances for the six month period ended September 30, 2010, amounted to ₹ 78,876.54 million.

Expenditure

L&T Finance's total expenditures for the six month period ended September 30, 2010 amounted to ₹ 4,528.47 million, consisting primarily of interest relating to fixed loans from commercial banks to fund financing activities and administration and other expenses relating primarily to provisions/write-offs and foreclosure and other administrative expenses, including travelling and conveyance costs, advertising and publicity expenses and rent. As a percentage of income, L&T Finance's expenditures were 70.87% of its income for the six month period ended September 30, 2010.

Employee costs for the six month period ended September 30, 2010 were ₹ 296.82 million. L&T Finance headcount stood at 1,309 as at the end of the period. Depreciation and amortization costs for the same six month period were ₹ 258.47 million.

Profit Before Tax

For the reasons stated above, L&T Finance's profit before tax for the six month period ended September 30, 2010 amounted to ₹ 1,861.75 million. As a percentage of total income, this amounted to 29.13% for the six month period ended September 30, 2010.

Tax

L&T Finance's current tax for the six month period ended September 30, 2010 amounted to ₹ 682.90 million. L&T Finance's effective rate of tax for this period was 36.68%. Deferred tax offset the total tax amount, providing a credit in the amount of ₹ 50.45 million for the six month period ended September 30, 2010.

Fiscal Year Ended March 31, 2010 Compared to Fiscal Year Ended March 31, 2009

Income

L&T Finance's income increased by 16.3% from ₹ 8,302.77 million in Fiscal Year 2009 to ₹ 9,657.30 million in Fiscal Year 2010, primarily as a result of an increase in operating income. Operating income increased by 15.6% from ₹ 8,265.28 million in Fiscal Year 2009 to ₹ 9,558.22 million in Fiscal Year 2010. This increase was primarily the result of a 38.2% increase in the total loans and advances made by L&T Finance from ₹ 49,982.71 million as on March 31, 2009 to ₹ 69,062.23 million as on March 31, 2010, which resulted in an increase in interest income on loans and advances by 33.3% from ₹ 6,567.41 million to ₹ 8,754.58 million. While interest income increased by 33.3%, the overall operating income increased by only 15.6% as a result of a drop in lease income by 65.3%, from ₹ 1,362.55 million in Fiscal Year 2009 to ₹ 472.29 million in Fiscal Year 2010.

The general growth in L&T Finance's business was primarily due to better economic conditions and continued demand for debt financing.

The average volume of L&T Finance's loans and advances, defined as the average of opening and closing year-end balances of its outstanding loans and advances for the Fiscal Year, increased by 23.8% from ₹ 50,019.66 million as on March 31, 2009 to ₹ 61,922.18 million as on March 31, 2010 due to higher volumes of financing in the corporate and retail finance businesses. Rural products finance and microfinance contributed significantly to the growth of retail finance. L&T Finance's financing for these sectors increased in Fiscal Year 2010 compared to Fiscal Year 2009 due to improved economic demand and the strategic focus in these sectors, particularly microfinance.

Expenditure

L&T Finance's total expenditures increased by 6.1% from ₹ 6,849.16 million in Fiscal Year 2009 to ₹

7,294.08 million in Fiscal Year 2010, primarily due to an increase in employee and administration and other costs (mostly from an increase in provisioning, as well as foreclosure losses on repossession of assets). This increase was partially offset by a decrease in interest and finance charges. As a percentage of income, L&T Finance's expenditures decreased to 75.5% in Fiscal Year 2010 compared to 82.5% in Fiscal Year 2009 mainly as result of a decrease in the cost of borrowing.

Interest and other finance charges related to L&T Finance's borrowings decreased by 16.1% from ₹ 5,137.04 million in Fiscal Year 2009 to ₹ 4,310.75 million in Fiscal Year 2010 as a result of a decrease in interest paid, despite an increase in borrowings. This decrease reflects a decrease in borrowing costs resulting from lower interest rates, resulting in an overall decrease in interest and finance charges by 34.46% year-on-year.

Administration and other expenses increased by 146.7% from ₹ 824.16 million in Fiscal Year 2009 to ₹ 2,034.98 million in Fiscal Year 2010 primarily due to an increase in other administrative expenses (which increased primarily due to increases in rent and communications costs), as well as an increase in provisioning/write-offs and foreclosures. The increase in provisioning was primarily due to higher provisioning on NPAs as a matter of prudence, and also due to an overall increase in gross NPAs from ₹ 1,292.13 million in Fiscal Year 2009 to ₹ 1,938.88 million in Fiscal Year 2010. Total NPA provisions/write offs in Fiscal Years 2009 and 2010 were ₹ 53.86 million and ₹ 705.77 million, respectively, resulting in a significant year-on-year increase. This increase was primarily due to higher gross NPAs and prudential provisioning in excess of that required by regulatory norms. Foreclosure losses increased due to repossession in the case of delinquencies and the aggressive disposal of repossessed assets.

Employee costs increased by 49.8% from ₹ 318.90 million in Fiscal Year 2009 to ₹ 477.73 million in Fiscal Year 2010 due to an increase in headcount to service higher volumes of business, particularly in the retail business. L&T Finance headcount increased by 29.9% from 833 in Fiscal Year 2009 to 1,082 in Fiscal Year 2010.

These increases were partially offset by a decrease in depreciation and amortization by 17.3% from ₹ 569.06 million in Fiscal Year 2009 to ₹ 470.62 million in Fiscal Year 2010, which was primarily the result of a reduction in the value of assets under operating leases.

Profit Before Tax

For the reasons stated above, L&T Finance's profit before tax increased by 62.6% from ₹ 1,453.61 million in Fiscal Year 2009 to ₹ 2,363.22 million in Fiscal Year 2010. As a percentage of total income, L&T Finance's profit before tax increased from 17.5% in Fiscal Year 2009 to 24.5% in Fiscal Year 2010, primarily as a result of higher revenue and lower interest costs, leading to higher net interest margin.

Tax

L&T Finance's current tax increased by 120.1% from ₹ 403.10 million in Fiscal Year 2009 to ₹ 887.50 million in Fiscal Year 2010 as a result of the increase in L&T Finance's taxable income. L&T Finance's effective rate of tax was 27.7% in Fiscal Year 2009 and 37.5% in Fiscal Year 2010. Deferred tax liabilities decreased from ₹ 56.50 million as on March 31, 2009 to a tax credit of ₹ 89.00 million as on March 31, 2010.

Fiscal Year Ended March 31, 2009 Compared to Fiscal Year Ended March 31, 2008

Income

L&T Finance's income increased by 37.0% from ₹ 6,060.62 million in Fiscal Year 2008 to ₹ 8,302.77 million in Fiscal Year 2009, primarily as a result of an increase in operating income. Operating income increased by 40.2% from ₹ 5,895.57 million in Fiscal Year 2008 to ₹ 8,265.28 million in Fiscal Year 2009. This increase was primarily due to an increase in the total loans and advances made by L&T Finance from ₹ 45,406.55 million as on March 31, 2008 to ₹ 49,982.71 million as on March 31, 2009, which resulted in an increase in interest income on loans and advances by 46.6% from ₹ 4,480.19 million to ₹ 6,567.41 million.

The increase in income was higher than the increase in our overall asset portfolio from year-to-year, primarily due to the reduction in the portfolio during the course of the Fiscal Year 2009 starting from September 2008 onwards, on account of general economic downturn.

Expenditure

L&T Finance's total expenditure increased by 54.0% from ₹ 4,447.1 million in Fiscal Year 2008 to ₹ 6,849.16 million in Fiscal Year 2009, primarily due to an increase in interest and other finance charges. As a percentage of income, L&T Finance's expenditures increased to 82.5% in Fiscal Year 2009 compared to 73.4% in Fiscal Year 2008 mainly as a result of increases in expenditures for interest and finance charges, administration and other expenses and employee costs.

Interest and other finance charges related to L&T Finance's borrowings increased by 52.7% from ₹ 3,363.41 million in Fiscal Year 2008 to ₹ 5,137.04 million in Fiscal Year 2009, primarily due to the following:

- an increase in borrowings from ₹ 40,430.12 million as at March 31, 2008 to ₹ 44,510.84 million as at March 31, 2009;
- higher costs of borrowing during the Fiscal Year 2009; and
- costs incurred on derivatives (both cash and mark-to-market losses) and revaluation of foreign currency loans, aggregating to ₹ 425.13 million in Fiscal Year 2009.

Administration and other expenses increased by 128.1% from ₹ 361.25 million in Fiscal Year 2008 to ₹ 824.16 million in Fiscal Year 2009 due primarily to an increase in other expenses, which included rent, travel, communications expense and foreclosure losses. This increase was primarily the result of an increase in business volumes, headcount and higher reposessions and sales of assets offered as security for loans.

Employee costs increased by 71.0% from ₹ 186.53 million in Fiscal Year 2008 to ₹ 318.90 million in Fiscal Year 2009 due to an increase in headcount to service higher volumes of business, particularly in the retail business. L&T Finance headcount increased by 30.0% from 641 in Fiscal Year 2008 to 833 in Fiscal Year 2009.

Depreciation and amortization increased by 6.2% from ₹ 535.91 million in Fiscal Year 2008 to ₹ 569.06 million in Fiscal Year 2009, which was primarily the result of an increase in the amount of assets under operating lease.

Profit Before Tax

For the reasons stated above, L&T Finance's profit before tax decreased by 9.9% from ₹ 1,613.52 million in Fiscal Year 2008 to ₹ 1,453.61 million in Fiscal Year 2009. As a percentage of total income, L&T Finance's profit before tax decreased from 26.6% in Fiscal Year 2008 to 17.5% in Fiscal Year 2009, primarily as a result of higher interest cost, higher expenditures and provisioning.

Tax

L&T Finance's current tax decreased by 3.6% from ₹ 418.30 million in Fiscal Year 2008 to ₹ 403.10 million in Fiscal Year 2009 as a result of the decrease in L&T Finance's taxable income. L&T Finance's effective rate of tax was 25.9% in Fiscal Year 2008 and 27.7% in Fiscal Year 2009. Deferred tax liabilities increased from ₹ 41.40 million in Fiscal Year 2008 to ₹ 56.50 million in Fiscal Year 2009.

Fiscal Year Ended March 31, 2008 Compared to Fiscal Year Ended March 31, 2007

Income

L&T Finance's income increased by 120.1% from ₹ 2,753.76 million in Fiscal Year 2007 to ₹ 6,060.62 million in Fiscal Year 2008, primarily as a result of an increase in operating income. Operating income increased by 126.7% from ₹ 2,600.88 million in Fiscal Year 2007 to ₹ 5,895.57 million in Fiscal Year 2008. This increase was primarily the result of an increase in the total loans and advances made by L&T Finance from ₹ 25,821.33 million as on March 31, 2007 to ₹ 45,406.55 million as on March 31, 2008, which resulted in an increase in interest on loans and advances by 169.2% from ₹ 1,663.94 million to ₹ 4,480.19 million.

Expenditure

L&T Finance's total expenditures increased by 124.4% from ₹ 1,981.54 million in Fiscal Year 2007 to ₹ 4,447.10 million in Fiscal Year 2008, primarily due to an increase in interest and other finance charges. As a percentage of income, L&T Finance's expenditures increased to 73.4% in Fiscal Year 2008

compared to 72.0% in Fiscal Year 2007 mainly as the result of increases in expenditures for interest and finance charges, administration and other expenses and employee costs.

Interest and other finance charges related to L&T Finance's borrowings increased by 148.1% from ₹ 1,355.94 million in Fiscal Year 2007 to ₹ 3,363.41 million in Fiscal Year 2008 as a result of increases in the amount of borrowings. Fluctuations in interest rates did not contribute significantly to this increase in interest and finance charges. Rather, these increases reflect a 92.2% increase in L&T Finance's period-end aggregate amount of secured loans and a 28.7% increase in unsecured loans. The aggregate amount of L&T Finance's secured loans increased by 92.2% from ₹ 12,092.79 million at the end of Fiscal Year 2007 to ₹ 23,242.41 million at the end of Fiscal Year 2008, while the aggregate amount of unsecured loans increased by 28.7% from ₹ 13,350.40 million at the end of Fiscal Year 2007 to ₹ 17,187.71 million at the end of Fiscal Year 2008, in each case due to an increase in term loans from banks.

Administration and other expenses increased by 73.1% from ₹ 208.72 million in Fiscal Year 2007 to ₹ 361.25 million in Fiscal Year 2008, primarily due to increases in spending on rent, travel and communications expense (primarily due to an increase in business volumes and headcount), as well as an increase in provisioning (primarily due to an increase in gross NPAs from ₹ 62.95 million as on March 31, 2007 to ₹ 451.41 million as on March 31, 2008). The total NPA provisions/write-offs in Fiscal Years 2007 and 2008 were ₹ 18.12 million and ₹ 60.53 million, respectively, resulting in a year-on-year increase of 234.1%.

Employee costs increased by 120.1% from ₹ 84.73 million in Fiscal Year 2007 to ₹ 186.53 million in Fiscal Year 2008 due to an increase in headcount to service higher volumes of business, particularly in the retail business. L&T Finance headcount increased by 110.2% from 305 in Fiscal Year 2007 to 641 in Fiscal Year 2008.

Depreciation and amortization increased by 61.3% from ₹ 332.15 million in Fiscal Year 2007 to ₹ 535.91 million in Fiscal Year 2008, which was primarily the result of an increase in the amount of assets under operating lease.

Profit Before Tax

For the reasons stated above, L&T Finance's profit before tax increased by 108.9% from ₹ 772.20 million in Fiscal Year 2007 to ₹ 1,613.52 million in Fiscal Year 2008. As a percentage of total income, L&T Finance's profit before tax decreased from 28.0% in Fiscal Year 2007 to 26.6% in Fiscal Year 2008, primarily as a result of an increase in expenditures driven by higher interest and finance charges, employee costs and administration and other expenses.

Tax

L&T Finance's current tax increased by 191.7% from ₹ 143.40 million in Fiscal Year 2007 to ₹ 418.30 million in Fiscal Year 2008 as a result of the increase in L&T Finance's taxable income. L&T Finance's effective rate of tax was 18.6% in Fiscal Year 2007 and 25.9% in Fiscal Year 2008. Deferred tax liabilities increased from ₹ nil in Fiscal Year 2007 to ₹ 41.40 million in Fiscal Year 2008.

L&T Infra

Income

Our subsidiary L&T Infra's revenue (referred to herein and in its financial statements as L&T Infra's "income") consists of operating income from our infrastructure finance business and other income.

- Operating income consists of income from our infrastructure finance operations and includes: (i) interest (including up-front income) on infrastructure loans; and (ii) fees related to arranging the syndication of loans for infrastructure project and advisory services related to these syndications.
- Other income includes: (i) interest on bank deposits; (ii) profits from the sale of current investments, which include investments in mutual fund units; and (iii) dividend income on current investments, including dividends from mutual fund units.

Expenditures

The largest components of L&T Infra's expenditure are interest and other charges, provisions and contingencies and employee cost. Expenditure also includes establishment expenses, other expenses and depreciation and amortization.

- Interest and other charges consist primarily of interest paid on L&T Infra's term loans from banks, as well as interest L&T Infra pays on its debentures and other charges (including arrangement fees, upfront fees, processing fees and other related fees).
- Employee cost includes primarily salaries, as well as reimbursements of staff costs, staff welfare payments and contributions to provident and pension funds.
- Establishment expenses consist of rent, maintenance and electricity charges for L&T Infra's office facilities in Mumbai, Chennai, Delhi and Hyderabad.
- Other expenses include professional fees, primarily for credit rating agencies, industry research and consulting, auditing/accounting services and legal services, travel, memberships and subscriptions to research data services and other general and administrative expenses.
- Provisions and contingencies consist of provisions on standard assets and provisions on non-performing assets.
- Depreciation and amortization relates primarily to L&T Infra's office equipment, software and computers. Due to the nature of L&T Infra's business, L&T Infra does not own any material fixed assets and depreciation and amortization charges have not been material during the periods under review.

Provision for Taxation

Provision for Taxation includes current tax and deferred tax liabilities or assets.

Adjustment on account of change in accounting policies

Financial ratios for the six month period ended September 30, 2010 may not be indicative when annualized, and are not included in the above table.

Six Month Period Ended September 30, 2010

Overview

The following is intended to provide a meaningful discussion of some of L&T Infra's relevant financial ratios and financial highlights for the period:

- Average loans and advances as on September 30, 2010, calculated based on the average of the outstanding amounts as on the period opening and period ending dates, were ₹ 47,807.40 million.
- Interest costs and other charges for the period was ₹ 1,561.13 million, and average borrowings as on September 30, 2010, calculated based on the average of the outstanding amounts as on the period opening and period ending dates, were ₹ 38,796.08 million.
- There was a net reversal of provisioning of ₹ 18.45 million, contributed by a reversal of provisioning on standard assets and stress loans due to amounts paid back. GNPA's as of September 30, 2010 were ₹ 633.75 million, representing a decrease of 19.70% versus March 31, 2010. This resulted in the percentage of GNPA's, as a percentage of our gross loans outstanding, being lower at 1.20% as against 1.84% as of for Fiscal Year 2010.
- Profit after tax for the period was ₹ 985.02 million, and average total assets as on September 30, 2010 were ₹ 49,393.60 million, resulting in a return on assets of 1.99% (not annualized).
- Average leverage as on September 30, 2010 (the average of period opening and closing borrowings, divided by the average of period-end net worth) was 3.66 times.
- Average total net worth for the period was ₹ 10,597.52 million, and the return on average net worth was 9.29% (not annualized).
- Earnings per share, on a fully diluted basis (not annualised), was ₹ 1.44.

Income

L&T Infra's income for the six month period ended September 30, 2010 amounted to ₹ 3,090.85 million, consisting primarily of interest on loans in an amount of ₹ 2,952.96 million. Other income for the period was negligible.

Expenditures

L&T Infra's expenditures for the six month period ended September 30, 2010 amounted to ₹ 1,649.51 million, consisting primarily of interest and other charges amounting to ₹ 1,561.13 million. Interest and other charges consisted primarily of interest payments on L&T Infra's term loans with banks, amounting to ₹ 706.53 million, as well as interest on debentures in the amount of ₹ 688.58 million. As of September 30, 2010, L&T Infra had ₹ 45,224.60 million in secured and unsecured loans outstanding.

Employee cost amounted to ₹ 56.78 million in the six month period ended September 30, 2010, consisting primarily of salaries and reimbursements of staff costs. Establishment expenses in the same period amounted to ₹ 24.13 million, consisting primarily of rent for office space, while other expenses amounted to ₹ 24.79 million and consisted primarily of professional fees for rating agencies and industry consultants and advertisement and publicity.

L&T Infra has written back (Net) ₹ 18.45 million from its provisions or contingencies in the six month period ended September 30, 2010, as the result of repayments received on stressed loan assets for which provisions were previously made.

Profit Before Tax

For the reasons stated above, L&T Infra's profit before tax for the six month period ended September 30, 2010 amounted to ₹ 1,441.34 million. As a percentage of total income, L&T Infra's profit before tax amounted to 46.63% in this period.

Provision for Taxation

L&T Infra's current tax for the six month period ended September 30, 2010 amounted to ₹ 447.50 million. Deferred tax liabilities amounted to ₹ 14.20 million. L&T Infra's effective rate of tax was 32.03% during this period.

Net Profit and Net Profit, As Restated

As a result of the foregoing factors, L&T Infra's net profit for the six month period ended September 30, 2010 amounted to ₹ 979.64 million. Following the restatement of L&T Infra's financial statements for changes in accounting policy, its net profit, as restated amounted to ₹ 985.02 million.

Fiscal Year Ended March 31, 2010 Compared to Fiscal Year Ended March 31, 2009

Income

L&T Infra's income increased by 52.2% from ₹ 2,959.89 million in Fiscal Year 2009 to ₹ 4,504.23 million in Fiscal Year 2010, primarily as a result of an increase in operating income. Operating income increased by 52.3% from ₹ 2,945.45 million in Fiscal Year 2009 to ₹ 4,487.16 million primarily due to an increase in interest on loans by 52.6% from ₹ 2,877.82 million to ₹ 4,391.92 million, which was the result of the general growth of L&T Infra's business, particularly an increase in volume of financing activity.

The general growth in L&T Infra's business was due to several factors, including better economic conditions, an increase in flow of capital into infrastructure development and continued demand for debt financing as a result of low interest rates. The outstanding loans of L&T Infra's increased by 89.3% from ₹ 22,660.47 million as on March 31, 2009 to ₹ 42,884.99 million as on March 31, 2010, primarily due to higher volumes of financing in the power, road and telecommunications sectors.

L&T Infra's income from fees increased by 40.8% from ₹ 67.63 million in Fiscal Year 2009 to ₹ 95.24 million in Fiscal Year 2010, primarily due to the increase in L&T Infra's syndication arranging activities.

Other income increased by 18.2% from ₹ 14.44 million in Fiscal Year 2009 to ₹ 17.07 million in Fiscal Year 2010 primarily due to an increase in dividend income from current investments on mutual fund investments.

Expenditures

L&T Infra's expenditure increased by 56.6% from ₹ 1,820.20 million in Fiscal Year 2009 to ₹ 2,851.04 million in Fiscal Year 2010, primarily due to an increase in interest and other charges. As a percentage of total income, L&T Infra's expenditures increased to 63.3% in Fiscal Year 2010 compared to 61.5% in Fiscal Year 2009 mainly as result of higher interest and finance charges paid on borrowings, which increased due to increases in overall borrowing.

Interest and other charges related to L&T Infra's borrowings increased by 50.7% from ₹ 1,629.72 million in Fiscal Year 2009 to ₹ 2,456.44 million in Fiscal Year 2010 primarily as a result of increases in interest payments on debentures and on term loans arising due to increased borrowings to service the higher volume of business. Increased borrowings were also the result of management's decision to increase the average leverage ratio of L&T Infra, which increased from of 2.71 times as on March 31, 2009 to 3.07 times as on March 31, 2010. See the section titled "*Summary Results of Operations*" above. These increases reflect an 82.7% increase in L&T Infra's year-end outstanding amount of secured and unsecured loans from Fiscal year 2009 to Fiscal Year 2010. The outstanding amount of L&T Infra's secured loans (which include L&T Infra's debentures) increased by 64.4% from ₹ 16,712.00 million at the end of Fiscal Year 2009 to ₹ 27,467.56 million at the end of Fiscal Year 2010, as the amount of secured redeemable non-convertible debentures issued by L&T Infra increased by ₹ 9,550.00 million at the end of Fiscal Year 2010 compared to the end of Fiscal Year 2009. The outstanding amount of L&T Infra's unsecured loans increased by 390.0% from ₹ 1,000.00 million at the end of Fiscal Year 2009 to ₹ 4,900.00 million at the end of Fiscal Year 2010, as L&T Infra obtained additional term loans from banks and others (in the form of inter-company loans from L&T) and issued new commercial paper and debentures, reflecting its increased borrowings to fund the growth of its financing business. Other charges (included in interest and other charges) also increased from Fiscal Year 2009 to Fiscal Year 2010 by 114.2%.

Provisions and contingencies increased by 229.4% from ₹ 77.00 million in Fiscal Year 2009 to ₹ 253.60 million in Fiscal Year 2010 due to increases in provisions on standard assets and provisions for non-performing assets. L&T Infra's provisions in Fiscal Year 2009 consisted of a provision of ₹ 77.00 million towards standard assets due to prudential provisioning. L&T Infra did not make any provisions for non-performing assets in Fiscal Year 2009, due to the fact that L&T Infra did not have any non-performing assets in as on March 31, 2009.

L&T Infra's employee cost increased by 30.7% from ₹ 62.93 million in Fiscal Year 2009 to ₹ 82.25 million in Fiscal Year 2010 primarily due to an increase in salaries resulting from an increase in the number of L&T Infra employees in line with the growth of L&T Infra's business. L&T Infra headcount

increased by 55.3% from 47 as on March 31, 2009 to 73 as on March 31, 2010.

L&T Infra's establishment expenses increased by 40.6% from ₹ 18.79 million in Fiscal Year 2009 to ₹ 26.43 million in Fiscal Year 2010 primarily due to an increase in rental payments for office space resulting from leasing more office space to accommodate increasing headcount.

Other expenses decreased from ₹ 29.98 million in Fiscal Year 2009 to ₹ 29.84 million in Fiscal Year 2010, primarily due to a non-recurring write-off related to share expenses in Fiscal Year 2009, despite an increase in professional fees from ₹ 3.29 million in Fiscal Year 2009 to ₹ 12.16 million in Fiscal Year 2010 resulting primarily from increased fees for rating agencies (in connection with increased borrowings).

Profit Before Tax

For the reasons stated above, L&T Infra's profit before tax increased by 45.1% from ₹ 1,139.69 million in Fiscal Year 2009 to ₹ 1,653.19 million in Fiscal Year 2010. As a percentage of total income, L&T Infra's profit before tax decreased from 38.5% in Fiscal Year 2009 to 36.7% in Fiscal Year 2010, primarily as a result of increased interest costs, prudential provisioning, and administration and other expenses.

Provision for Taxation

L&T Infra's current tax increased by 55.5% from ₹ 407.00 million in Fiscal Year 2009 to ₹ 633.00 million in Fiscal Year 2010 as a result of the increase in L&T Infra's taxable income. Deferred tax assets increased from ₹ 32.60 million in Fiscal Year 2009 to ₹ 93.50 million in Fiscal Year 2010. L&T Infra's effective rate of tax was 32.9% (total tax expense divided by profit before tax, extraordinary and prior period items) in Fiscal Year 2010, compared to 32.9% in Fiscal Year 2009.

Net Profit and Net Profit, As Restated

As a result of the foregoing factors, L&T Infra's net profit increased by 45.0% from ₹ 764.59 million in Fiscal Year 2009 to ₹ 1,108.57 million in Fiscal Year 2010. After giving effect to the restatement of L&T Infra's financial statements for changes in accounting policies, its net profit, as restated increased by 36.0% from ₹ 840.00 million in Fiscal Year 2009 to ₹ 1,142.18 million in Fiscal Year 2010.

Nine Month Period from July 1, 2007 to March 31, 2008 ("Fiscal Period 2008")

L&T Infra's first audited financials were prepared for the period ended June 30, 2007. Subsequently, the Fiscal Year end was changed to March 31. As a result of the foregoing, L&T Infra's Fiscal Year 2008 is for a period from July 1, 2007 to March 31, 2008, and the financial statement for L&T Infra for Fiscal Year 2009 is not directly comparable to this period. See the section titled "– Note Regarding Non-comparable Fiscal Periods and Unconsolidated Financial Statements" above.

L&T Infra did not incur any expenses for provisions or contingencies in Fiscal Period 2008.

Profit Before Tax

For the reasons stated above, L&T Infra's profit before tax in Fiscal Period 2008 amounted to ₹ 685.59 million. As a percentage of total income, L&T Infra's profit before tax amounted to 62.1% in Fiscal Period 2008.

Provision for Taxation

L&T Infra's current tax in fiscal period 2008 amounted to ₹ 226.20 million. Deferred tax liabilities amounted to ₹ 6.29 million. L&T Infra's effective rate of tax was 34.1% in Fiscal Year 2008.

Net Profit and Net Profit, As Restated

As a result of the foregoing factors, L&T Infra's net profit for the Fiscal Period 2008 amounted to ₹ 451.68 million. Following the restatement of L&T Infra's financial statements for changes in accounting policy, its net profit, as restated amounted to ₹ 347.21 million.

Period from April 18, 2006 to March 31, 2007 ("Fiscal Period 2007")

L&T Infra was incorporated on April 18, 2006, and received its certificate of registration from the RBI on January 10, 2007. Prior to January 10, 2007, L&T Infra did not have any business operations, and the period from January 10, 2007 to March 31, 2007 was not a full quarter. The first audited financials were prepared for the period ended June 30, 2007. As a result of the foregoing, L&T Infra's Fiscal Year 2007 is for a period from April 18, 2006 to June 30, 2007, and the financial statement for Fiscal Year 2008 is for a period from July 1, 2007 to March 31, 2008; as a result, these periods are not comparable with one another or later Fiscal Years comprising twelve months. See the section titled "– Note Regarding Non-comparable Fiscal Periods and Unconsolidated Financial Statements" above.

Income

L&T Infra's income for Fiscal Period 2007 amounted to ₹ 131.44 million, consisting of operating income of ₹ 67.63 million and other income of ₹ 63.81 million. Operating income consisted of interest on infrastructure loans in an amount of ₹ 49.51 million. Other income consisted primarily of profit on the sale of current investments.

Expenditures

L&T Infra's expenditures in Fiscal Period 2007 amounted to ₹ 52.49 million, consisting primarily of employee costs of ₹ 22.21 million, establishment expenses of ₹ 11.81 million and other expenses of ₹ 17.71 million. Employee costs consisted primarily of salaries, while establishment expenses consisted primarily of rent for office space and other expenses consisted primarily of share issuance expenses and professional fees.

L&T Infra did not incur any expenses for interest payments and other charges, as it did not have any borrowings, and it did not make any provisions or contingencies in Fiscal Period 2007.

Profit Before Tax

For the reasons stated above, L&T Infra's profit before tax in Fiscal Period 2007 amounted to ₹ 78.95 million. As a percentage of total income, L&T Infra's profit before tax amounted to 60.1% in Fiscal Period 2007.

Provision for Taxation

Capital Resources

The following are the sources of funding for our operations:

- equity from investors;
- secured loan funds, including term loans and placements of debentures;
- unsecured loan funds, including term loans, placements of debentures, commercial paper and inter-corporate deposits; and
- cash flow from operations.

Of these funding sources, secured loan funds remain the most significant source of funding for our business. Secured loan funds represented 64% and 74% of our total liabilities in Fiscal Years 2009 and 2010, respectively, and 60% of our total liabilities for the six months ended September 30, 2010. Secured loan funds are generally secured by a pledge over asset receivables. See the section titled "*Our Business – Our Funding Structure*" on page 155 of this Draft Red Herring Prospectus.

In connection with the financing of certain projects and assets, we have issued secured and unsecured non-convertible debentures through both L&T Finance and L&T Infrastructure in the aggregate amount

of ₹ 36,950.00 million. Of this amount, unsecured debentures accounted for ₹ 1600.00 million and secured debentures accounted for ₹ 35,350.00 million. Our unsecured debentures typically have short maturity terms (less than 30 days), and are rolled over on a recurring basis. Of our secured debentures, ₹ 14,900.00 million mature by September 30, 2011 (including ₹ 1,000.00 million on which we have put/call options exercisable by September 30, 2011), and we currently intend to refinance these amounts at their maturity.

Shareholders' funds

As of September 30, 2010, our total shareholders' funds were ₹ 27,001.67 million, consisting of share capital of ₹ 14,170.24 million, share application money of ₹ nil and reserves and surplus of ₹ 12,831.43 million.

Secured loan funds

Term loans: Our secured loans are generally long term in tenor (one year or more). As of September 30, 2010, we had aggregate outstanding secured term loans of ₹ 37,392.94 million.

Placements of debentures: We place redeemable non convertible secured debentures with both public investors and institutional investors such as banks, mutual funds and insurance companies. As of September 30, 2010, we had aggregate outstanding secured debentures of ₹ 39,200.00 million.

Unsecured loan funds

Term loans: Our unsecured loans are mostly short term in tenor (less than one year), but also include some long term obligations. As of September 30, 2010, we had aggregate outstanding unsecured term loans of ₹ 7,500.00 million.

Placements of debentures: We place unsecured debentures with institutional investors such as banks, mutual funds and insurance companies. As of September 30, 2010, we had aggregate outstanding unsecured debentures of ₹ 750.00 million.

Commercial paper: We regularly access the commercial paper market in order to fund working capital. As of September 30, 2010, we had aggregate outstanding commercial paper of ₹ 37,250.00 million.

Inter-corporate deposits: L&T Group companies occasionally lend funds to both L&T Finance and L&T Infrastructure at market-related rates. As of September 30, 2010, we had aggregate outstanding inter-corporate deposits of ₹ 761.02 million.

Cash flow from operations

Our cash flow from operations, which is discussed above, contributes to our liquidity, reserves and surplus on an ongoing basis. As of September 30, 2010, we had reserves and surplus of ₹ 12,831.43 million. Our ability to generate cash from our operations depends on our future operating performance, which is in turn dependent, among other things, on general economic, financial, competitive, market, regulatory and other factors, as discussed above under "*Factors Affecting Our Results of Operations*" and in the section titled "*Risk Factors*" on page 17 of this Draft Red Herring Prospectus.

As a lending institution, we seek to match our assets with corresponding liabilities, and therefore are dependent on external funding from the debt capital markets as well as from commercial banks and other lending institutions. Because we fund most of our capital needs through loans, our cost of capital rises during periods of increasing market interest rates. The pricing on our issuances of debt will also be negatively impacted by any downgrade or potential downgrade in our credit ratings. In addition, given the volatility in interest rates in India, we cannot predict whether the interest rates on our subordinated debt will be reset at a higher or lower rate.

Although we believe that our expected cash flows from available borrowings, together with our expected cash flows from operations, will be adequate to fund our anticipated liquidity and debt service needs, we cannot assure you that operating cash flows and future debt and equity financing will be available to us on favorable terms or in amounts sufficient to fund our liquidity needs or to pay our debts when due.

FINANCIAL CONDITION

Our net assets, which we define as our total assets less our total liabilities, increased by 53.0% to ₹ 23,466.38 million as of March 31, 2010, from ₹ 15,336.30 million as of March 31, 2009. Our net assets as of September 30, 2010 were ₹ 27,001.67 million.

Total assets	80,014.20	124,658.15	154,940.41

Our total assets increased by 55.80% from ₹ 80,014.20 million as of March 31, 2009 to ₹ 124,658.15 million as of March 31, 2010. The most significant element of this increase was a ₹ 38,506.55 million, or 54.3%, increase in loans and advances made towards financing activities. Our total assets as of September 30, 2010 were ₹ 154,940.40 million, which represents an increase of ₹ 30,282.25 million, or 24.29%, over our total assets as of March 31, 2010.

Liabilities

The following table sets forth the principal components of our liabilities as of March 31, 2009 and March 31, 2010, as well as September 30, 2010:

(₹ in million)

	As of March 31,		As of
	2009	2010	September 30,

Our total liabilities increased by 56.5% from ₹ 64,677.90 million as of March 31, 2009 to ₹ 101,191.77 million as of March 31, 2010. This consisted mainly of a ₹ 32,919.81 million, or 79.2%, increase in secured loans. Our total liabilities as of September 30, 2010 were ₹ 127,938.73 million.

OFF-BALANCE SHEET ARRANGEMENTS AND FINANCIAL INSTRUMENTS

Contingent Liabilities

The following table sets forth the principal components of our contingent liabilities as of March 31, 2009 and March 31, 2010, as well as September 30, 2010.

(₹ in million)

	As of March 31,		As of September 30,
	2009	2010	2010
Income Tax liability in respect of matters in appeal	132.95	248.98	248.49
Sales Tax liability in respect of matter in appeal	37.55	49.59	49.59
Others (bond executed in respect of legal matter)	1.00	1.00	1.00
Total	171.50	299.57	299.08

Contingent liabilities increased by 74.68% from ₹ 171.50 million as of March 31, 2009 to ₹ 299.57 million as of March 31, 2010. The main reason for the increase was an 87% increase in income tax liability in respect of matters in appeal. This sharp increase was due to the fact that we received orders from the income tax department during the year concerning demands in respect of several matters, including recognition of income against assignment of receivables. Our contingent liabilities as of September 30, 2010 amounted to ₹ 299.08 million.

FOREIGN EXCHANGE AND DERIVATIVE TRANSACTIONS

As of September 30, 2010, we had two US Dollar-denominated term loans in the aggregate amount of US\$24.00 million (equivalent to ₹ 1,078.68 million based on the exchange rate of 1 USD = ₹ 44.945 as on September 30, 2010; source: Bloomberg). Our exposure to the US Dollar is hedged through forward contracts. We also occasionally enter into derivative transactions for our own account. Our derivative contracts include rupee-based interest rate swaps and forward rate agreements.

The following table presents the aggregate notional principal amounts of our outstanding interest rate derivative contracts as of March 31, 2009, March 31, 2010, and September 30, 2010, together with the fair values on each reporting date.

CAPITAL

We are currently subject to the capital adequacy requirements for NBFCs prescribed by the RBI. As of March 31, 2009, we were required to maintain a minimum capital to risk asset ratio of 10%. This limit was increased to 12% as of March 31, 2010, and the ratio must equal or exceed 15% by March 31, 2011. In the event that our Company is classified as a CIC, we will become subject to the capital adequacy requirements prescribed by the RBI for Core Investment Companies. Currently, CICs must maintain a minimum capital to risk asset ratio of 30%.

The RBI does not recognize capital adequacy ratios calculated based on consolidated financial information. L&TFH's capital adequacy ratios, based on audited standalone accounts as reported to RBI, are as follows:

	As of March 31,		As of September 30,

Total capital to risk asset ratio required by RBI	10%	12%	N.A.

- (1) Tier I capital includes equity share capital and reserves and surplus, reduced by investments in certain categories specified by RBI which exceed prescribed ceilings, and other intangible assets.
- (2) The total capital to risk assets ratio is calculated as capital funds (Tier I capital plus Tier II capital) divided by risk weighted assets (the weighted average of funded and non-funded items after applying the risk weights as assigned by the RBI).

L&T Finance is subject to the capital adequacy requirements for NBFCs prescribed by the RBI. As of March 31, 2009, L&T Finance was required to maintain a minimum capital to risk asset ratio of 10%. This limit was increased to 12% as of March 31, 2010, and the ratio must equal or exceed 15% by March 31, 2011. As on March 31, 2009, L&T Finance's total capital to risk asset ratio was 16.41%. As on March 31, 2010, L&T Finance's total capital to risk asset ratio was 15.43%.

L&T Infra has been designated an Infrastructure Finance Company as from July 2010, and as such, must maintain a capital to risk asset ratio of 15%. As on March 31, 2009, L&T Infra was subject to the general NBFC capital to risk asset ratio requirement of 10%. This limit was increased to 12% as on March 31, 2010. As on March 31, 2009, L&T Infra's total capital to risk asset ratio was 26.16%. As on March 31, 2010, L&T Infra's total capital to risk asset ratio was 23.27%.

For a complete discussion of regulations relating to capital adequacy ratios, see the section titled "Regulations and Policies in India – The Reserve Bank of India Act, 1934 – Prudential Norms – Capital Adequacy Norms" on page 188 of this Draft Red Herring Prospectus.

CAPITAL EXPENDITURES

Our capital expenditures are principally for acquiring assets for operating leases, office equipment, computers and software, and furniture and fittings. In March 2010, L&T Finance also acquired land in Mumbai for the development of its corporate offices (the "L&T Finance Office Site"). Our capital expenditures in fiscal 2010 were ₹ 2,288.00 million. Our fixed assets of ₹ 3,984.53 million as of March 31, 2010 consist mainly of assets acquired for operating leases and the L&T Finance Office Site. For the six month period ended September 30, 2010, our capital expenditures were ₹ 548.53 million. Our fixed assets during this same period, which amounted to ₹ 4,123.62 million, continued to consist mainly of assets acquired for operating leases and the L&T Finance Office Site.

ANALYSIS OF CERTAIN CHANGES

Changes in Accounting Policies

L&T Finance has not made any changes to its accounting policies which have resulted in any change to its financial statements for the years presented herein. L&T Infra has made certain changes to its accounting policies which have resulted in certain changes to its financial statements for the years presented herein, and these changes are reflected in the restated unconsolidated financial statements of L&T Infra and restated consolidated financial statements of L&TFH. These changes are set forth below:

Changes in Accounting Policies of L&T Infra

Accounting for recognition of interest income on loans

Until the period ended March 31, 2008, interest income on loans was computed on the basis of the relevant contractual interest rate, and income on processing of loans was recognized upon clearance of disbursement memorandum. During the year ended March 31, 2009, L&T Infra modified the basis of recognizing revenues from interest bearing assets. Based on the guidance provided in Accounting Standard (AS) 30 on Financial Instruments: Recognition and Measurement, the company based its income recognition on interest bearing assets and used the effective interest rate in place of the contractual rate. In determining the effective interest rate, cash flows are estimated taking into consideration all contractual terms including fees received, transaction costs, and other premiums or discounts, if any. Thus, with effect from April 1, 2008, such income is amortized over the expected life of the related instrument through the application of a constant effective yield on the instrument. Accordingly, restatement adjustments have been made for the financials of Fiscal Years 2007, 2008, 2009 and 2010, and the six month period ended September 30, 2010.

Accounting for miscellaneous expenditure

During the period ended June 30, 2007, L&T Infra incurred miscellaneous expenditure in the nature of share issue expenses. This expenditure was being amortized over a period of five years as per the company's accounting policy. In Fiscal Year 2009, L&T Infra changed its accounting policy to write-off the share issue expenditure in the year in which it is incurred. Accordingly, restatement adjustments have been made for the financial statements of Fiscal Years 2007, 2008, 2009 and 2010 and the six month period ended September 30, 2010.

Tax impact on restatement adjustments

Income tax has been computed on restatement adjustments made and has been adjusted in the restated profits for the relevant years and periods ended March 31, 2007, 2008, 2009 and 2010 and for the six month period ended September 30, 2010.

Known trends or uncertainties

Our business has been impacted and we expect will continue to be impacted by the trends identified above in "Factors Affecting our Results of Operations" and the uncertainties described in the section titled "Risk Factors" on page 17 of this Draft Red Herring Prospectus. To our knowledge, except as we have described in this Draft Red Herring Prospectus, there are no known factors, which we expect to have a material adverse impact on our revenues or income from continuing operations.

Total turnover in each major industry segment

We do not report industry segments for our consolidated or unconsolidated financial statements prepared

in accordance with Indian GAAP.

Seasonality of business

Our business is not seasonal. However, there could be variation in our quarterly income or profit after tax because of various factors, including those above in "*Factors Affecting our Results of Operations*" and those described in the section titled "*Risk Factors*" on page 17 of this Draft Red Herring Prospectus.

Significant developments subsequent to the last financial period

In the opinion of the Directors, other than as disclosed in this Draft Red Herring Prospectus, there has not arisen, since the date of the last financial statements set out herein, any circumstance that materially or adversely affects our profitability, taken as a whole, or the value of our consolidated assets or our ability to pay our material liabilities over the next twelve months.

Directorships of the Directors

None of the Directors are or were directors of any company whose shares were either (a) suspended from trading by the BSE or the NSE during the last five years from the date of filing this Draft Red Herring Prospectus or (b) delisted from any of the stock exchanges. For the current directorships of the Directors, please see the section "*Our Management*" beginning on page 208 of this Draft Red Herring Prospectus.

Eligibility for the Issue

The Company is eligible for the Issue in accordance with Regulation 26(2) of the SEBI ICDR Regulations, which states as follows:

"26 (2) An issuer not satisfying any of the conditions stipulated in sub-regulation (1) may make an initial public offer if:

(a) (i) the issue is made through the book building process and the issuer undertakes to allot at least fifty per cent. of the net offer to public to qualified institutional buyers and to refund full subscription monies if it fails to make allotment to the qualified institutional buyers ;

OR

(ii) at least fifteen per cent. of the cost of the project is contributed by scheduled commercial banks or public financial institutions, of which not less than ten per cent shall come from the appraisers and the issuer undertakes to allot at least ten per cent of the net offer to public to qualified institutional buyers and to refund full subscription monies if it fails to make the allotment to the qualified institutional buyers;

AND

(b) (i) the minimum post-issue face value capital of the issuer is ten crore rupees;

OR

(ii) the issuer undertakes to provide market-making for at least two years from the date of listing of the specified securities, subject to the following:

(A) the market makers offer buy and sell quotes for a minimum depth of three hundred specified securities and ensure that the bid-ask spread for their quotes does not, at any time, exceed ten per cent;

(B) the inventory of the market makers, as on the date of allotment of the specified securities, shall be at least five per cent. of the proposed issue."

We are an unlisted company not complying with the conditions specified in Regulation 26(1) of the SEBI ICDR Regulations and are therefore required to meet both the conditions detailed in Regulation 26(2)(a) and (b) of the SEBI ICDR Regulations.

- We are complying with Regulation 26(2)(a) of the SEBI ICDR Regulations and at least 50% of the Net Issue is proposed to be Allotted to QIBs and in the event we fail to do so, the full subscription monies shall be refunded to the Bidders.
- We are also complying with Regulation 26(2)(b)(i) of the SEBI ICDR Regulations and the post-Issue face value capital of our Company shall be ₹ [•] million which is more than the minimum requirement of ₹ 10 crore, i.e., ₹ 100 million.

Further, in accordance with Regulation 26(4) of the SEBI ICDR Regulations, our Company will ensure that the number of prospective allottees will not be less than 1,000.

Furthermore, as the post-Issue capital of our Company calculated at the Issue Price is greater than ₹ 40,000 million, the Issue is subject to the conditions prescribed under Rule 19(2)(b) of the SCRR pursuant to which at least 10% of the paid-up capital of our Company shall be Allotted to the public in terms of the Red Herring Prospectus and the Prospectus. In addition, our Company shall raise the public shareholding to the level of at least 25% within a period of three years from the date of listing of the Equity Shares, in the manner specified by SEBI.

Disclaimer from our Company and the Lead Managers

Our Company, the Directors and the Lead Managers accept no responsibility for statements made otherwise than those contained in this Draft Red Herring Prospectus or in any advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, including our Company's website www.ltfinanceholdings.com, or the website of any Promoter, Subsidiaries, Group Company, Promoter Group company, or of any affiliate or associate of our Company or its Subsidiaries, would be doing so at his or her own risk.

Caution

The Lead Managers accept no responsibility, save to the limited extent as provided in the Issue Agreement entered into among the Lead Managers and our Company dated March 29, 2011 and in the Underwriting Agreement dated [•], 2011 entered into among the Underwriters and our Company.

All information shall be made available by us and the Lead Managers to the public and investors at large and no selective or additional information would be available for a section of the investors in any manner whatsoever including at road show presentations, in research or sales reports, at bidding centres or elsewhere.

Neither our Company nor the Syndicate shall be liable to the Bidders for any failure in downloading the Bids due to faults in any software/hardware system or otherwise.

Note:

Investors that bid in the Issue will be required to confirm and will be deemed to have represented to our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares of our Company and will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares of our Company. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Disclaimer in respect of jurisdiction

This Issue is being made in India to persons resident in India including Indian nationals resident in India who are not minors, Hindu Undivided Families (HUFs), companies, corporate bodies and societies registered under the applicable laws in India and authorised to invest in shares, Mutual Funds, Indian

financial institutions, commercial banks, regional rural banks, co-operative banks (subject to RBI permission), Trusts registered under the Societies Registration Act, 1860, as amended from time to time, or any other trust law and who are authorised under their constitution to hold and invest in shares, permitted insurance companies and pension funds and to permitted non-residents, including to FIIs and eligible NRIs. This Draft Red Herring Prospectus does not, however, constitute an offer to sell or an invitation to subscribe to Equity Shares offered hereby in any other jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession this Draft Red Herring Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. Any dispute arising out of this Issue will be subject to the jurisdiction of appropriate court(s) in Mumbai, India only.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Draft Red Herring Prospectus has been filed with SEBI for observations and SEBI has given its observations. Accordingly, the Equity Shares represented thereby may not be offered or sold, directly or indirectly, and this Draft Red Herring Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of this Draft Red Herring Prospectus nor any sale hereunder shall, under any circumstances, create any implication that there has been any change in the affairs of our Company since the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Disclaimer clause under United States Law

The Equity Shares have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, of for the account or benefit of, U.S. persons (as defined in Regulation S) except pursuant to an exemption from, or in a transaction not subject to the registration requirements of the U.S. Securities Act and applicable state securities law. The Company has not registered and does not intend to register under the U.S. Investment Company Act in reliance upon Section 3(c)(7) thereof.

Accordingly, the Equity Shares are being offered and sold (i) in the United States only to, and only to U.S. persons that are, “qualified institutional buyers” (as defined in Rule 144A and referred to in this Draft Red Herring Prospectus as “U.S. QIBs”; which, for the avoidance of doubt, does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Draft Red Herring Prospectus as “QIBs” that are also “qualified purchasers” (QPs) (as defined in section 2(a)(51) of the U.S. Investment Company Act and the rules and regulations thereunder) acting for its own account or for the account of another U.S. QIB i.e. a QP (and meets the other requirements set forth herein), in reliance on the exemption from registration under the U.S. Securities Act provided by Rule 144A or other available exemption and in reliance upon section 3(c)(7) of the U.S. Investment Company Act and (ii) outside the United States to non-U.S. persons in reliance on Regulation S.

Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Underwriting Agreement will provide that the Lead Managers may directly or through its U.S. broker-dealer affiliates arrange for the offer and resale of the securities within the United States only to US QIBS and QPs. In addition, until 40 days after the first date upon which the securities were bona fide offered to the public, an offer of the securities within the United States by a dealer may violate the registration requirements of the Securities Act. Each purchaser of the securities will be deemed to have made the acknowledgements, representations and agreements as described in "*Transfer Restrictions*" below.

Transfer Restrictions

Because the following restrictions will apply to the Issue, purchasers are advised to consult their own legal counsel prior to making any offer, resale, pledge or transfer of the Equity Shares.

Rule 144A

Each purchaser of the Equity Shares within the United States or who is a US person, by accepting delivery of this document, will be deemed to have represented, agreed and acknowledged that:

- (1) It is (a) a US QIB or a QPs, (b) aware the seller of the Equity Shares may be relying on an exemption from registration under the Securities Act provided by Rule 144A, and (c) purchasing the Equity

Shares for its own account or the accounts of US QIBs that are also QPs, with respect to which it exercises sole investment discretion.

- (2) It understands that the Equity Shares have not and will not be registered under the Securities Act or the securities laws of any State of the United States and may be offered, sold, pledged or otherwise transferred only in an "offshore transaction" to non US persons in accordance with Rule 903 or Rule 904 or Regulation S and under circumstances that will not require the Company to register under the US Investment Company Act.
- (3) It understands that the Equity Shares will constitute "**restricted securities**" within the meaning of Rule 144 under the Securities Act, and, for so long as they remain "**restricted securities**", such Equity Shares may not be transferred except as described in paragraph (2) above.

Prospective purchasers are hereby notified that sellers of the Equity Shares in the Issue may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.

Regulation S

Each purchaser of the Equity Shares outside the United States, by accepting delivery of this document, will be deemed to have represented and agreed that it is a non US person who is purchasing the Equity Shares outside the United States in an offshore transaction in accordance with Regulation S under the Securities Act.

Each purchaser of the Equity Shares, by accepting delivery of this document, will be deemed to have represented, agreed and acknowledged that:

- (1) It is relying on this document and not on any other information or representation concerning us or the Equity Shares and neither we nor any other person responsible for this document or any part of it, nor the Lead Managers, will have any liability for any such other information or representation.
- (2) The Company, the Lead Managers and their respective affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements.

Each person in a Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") who acquires any Equity Shares under the offers contemplated in this Draft Red Herring Prospectus will be deemed to have represented and agreed that:

- (a) it is a qualified investor within the meaning of the law implementing Article 2(1)(e) of the Prospectus Directive; and
- (b) In the case of any Equity Shares acquired by a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, such financial intermediary will be deemed to have represented and agreed that the Equity Shares acquired by it in the Issue have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to persons in any Relevant Member State other than qualified investors, as that term is defined in the Prospectus Directive, or in circumstances in which the prior consent of the Lead Managers has been given to the offer or resale.

For the purposes of this representation, the expression an "offer of Equity Shares to the public" in relation to any Equity Shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for the Equity Shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Market Lot and Trading Lot

As per the applicable law, the allotment and trading of our Equity Shares shall only be in dematerialised form for all investors. Since trading of our Equity Shares will be in dematerialised form, the tradable lot is one Equity Share. In terms of Section 68B of the Companies Act, the Equity Shares shall be allotted only in dematerialised form. Allotment in this Issue will be done only in electronic form in multiples of one Equity Share subject to a minimum Allotment of [•] Equity Shares to successful Bidders.

Jurisdiction

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/authorities in Mumbai, India.

Nomination Facility to the Investor

In accordance with Section 109A of the Companies Act, the sole Bidder or First Bidder, along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the bidders, as the case may be, the Equity Shares transferred, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 109A of the Companies Act, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/ transfer/ alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. A fresh nomination can be made only on the prescribed form available on request at the registered office of our Company or at the registrar and transfer agent of our Company.

3. In accordance with Section 109B of the Companies Act, any person who becomes a nominee by virtue of the provisions of Section 109A of the Companies Act, shall upon the production of such evidence as may be required by the Board, elect either:
 - a. to register himself or herself as the holder of the Equity Shares; or
 - b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in this Issue will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the applicant would prevail. If the investors require a change to their nomination, they are requested to inform their respective Depository Participant.

Minimum subscription

If our Company does not receive the minimum subscription of 90% of the Issue to the public, including devolvement of the Underwriters, if any, within 60 days from the Bid/Issue Closing Date, our Company shall forthwith refund the entire subscription amount received forthwith.

If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company shall pay interest as per Section 73 of the Companies Act.

If at least 50% of the Net Issue cannot be allotted to QIBs, then the entire application money will be refunded forthwith.

Our Company shall ensure that the number of prospective allottees to whom Equity Shares in the Issue will be allotted will be not less than 1,000 failing which we shall forthwith refund the entire subscription amount received.

Application under Rule 144A of the U.S. Securities Act

The Equity Shares have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, of for the account or benefit of, U.S. persons (as defined in Regulation S) except pursuant to an exemption from, or in a transaction not subject to the registration requirements of the U.S. Securities Act and applicable state securities law. The Company has not registered and does not intend to register under the U.S. Investment Company Act in reliance upon Section 3(c)(7) thereof.

Accordingly, the Equity Shares are being offered and sold (i) in the United States only to, and only to U.S. persons that are, “qualified institutional buyers” (as defined in Rule 144A and referred to in this Prospectus as “U.S. QIBs”; which, for the avoidance of doubt, does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Prospectus as “QIBs” that are also “qualified purchasers” (QPs) (as defined in section 2(a)(51) of the U.S. Investment Company Act and the rules and regulations thereunder) acting for its own account or for the account of another U.S. QIB i.e. a QP (and meets the other requirements set forth herein), in reliance on the exemption from registration under the U.S. Securities Act provided by Rule 144A or other available exemption and in reliance upon section 3(c)(7) of the U.S. Investment Company Act and (ii) outside the United States to non-U.S. persons in reliance on Regulation S.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Application by Eligible NRIs, FIIs registered with SEBI and FVCIs registered with SEBI

It is to be distinctly understood that there is no reservation for eligible NRIs and FIIs registered with SEBI or FVCIs registered with SEBI. All NRIs, FIIs and foreign venture capital funds, multi-lateral and bilateral development financial institutions and any other foreign investor applicants will be treated on the same basis with other categories for the purpose of allocation.

Our Company has obtained an approval from the FIPB dated December 16, 2010, permitting eligible non-resident investors i.e. FIIs, NRIs, FVCIs registered with SEBI, multilateral and bilateral development financial institutions and other eligible non-resident investors to participate in this Issue to the extent of 20% of the post Issue paid-up Equity Share capital of our Company and subject to the inflow of FDI pursuant to the Issue being less than ₹ 10,000 million. In the event our Company undertakes the Pre-IPO Placement in favour of any non-resident investor, our Company shall seek the requisite approval of the FIPB.

Arrangements for disposal of odd lots

Since our Equity Shares will be traded in dematerialized form only, the market lot for our Equity Shares will be one, no arrangements for disposal of odd lots are required.

Restriction on transfer and transmission of shares

There are no restrictions on transfers and transmission of shares/ debentures and on their consolidation/ splitting except as provided in our Articles of Associations. For details, please refer to the section titled "*Main Provisions of our Articles of Association*" on page 428 of this Draft Red Herring Prospectus. For details on restrictions on foreign ownership, please refer to the section titled "*Regulations and Policies in India*" on page 186 of this Draft Red Herring Prospectus.

Joint Holders

Where two or more persons are registered as the holders of the Equity Shares, they shall be entitled to hold the same as joint tenants with benefits of survivorship.

[#] The Company may allocate up to 30% of the QIB Portion to Anchor Investors on a discretionary basis. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors. For further details, please refer to the section titled "Issue Procedure" on page 393 of this Draft Red Herring Prospectus.

^{###} In case of ASBA Bidders, the SCSBs shall be authorised to block such funds in the bank account that is specified in the ASBA Bid cum Application Form.

^{*} Subject to valid Bids being received at or above the Issue Price. In accordance with Rule 19(2)(b) of the SCRR, this being an Issue for less than 25% of the post-Issue capital, the Issue is being made through the Book Building Process. Pursuant to Regulation 43(2) read with Regulation 26(2) of the SEBI ICDR Regulations, at least 50% of the Net Issue shall be Allotted on a proportionate basis to QIBs. Of the Net QIB Portion, 5% shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder shall be available for allocation on a proportionate basis to QIBs and Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than [[•]] Equity Shares, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders in proportion to their Bids. Further, not less than 15% of the Net Issue will be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue will be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Issue Price.

Spill-over to the extent of any under subscription in any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion may be permitted from any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion, as the case may be, subject to which spill-over shall be permitted from the Net Issue in the following order of preference: (1) Retail Portion; (2) Non-Institutional Portion; and (3) QIB Portion. Provided that at least 50% of the Net Issue shall be Allotted to QIBs and in the event at least 50% of the Net Issue cannot be Allotted to QIBs, the entire application money shall be refunded forthwith. In the event of under subscription in the Net Issue, spill over to the extent of under subscription shall be allowed from the Employee Reservation Portion and/or the L&T Shareholders Reservation Portion, as the case may be. In case of under subscription in any category other than the QIB Portion, investors from other categories or a combination of categories may be allocated Equity Shares amounting to the shortfall if so decided by our Company in consultation with the Lead Managers and the Designated Stock Exchange. Further, Bids by NRIs, FIIs and Foreign Venture Capital Investors shall be in accordance with the FIPB approval dated December 16, 2010, which permits eligible non-resident investors i.e. FIIs, NRIs, FVCIs registered with SEBI, multilateral and bilateral development financial institutions and other eligible non-resident investors to participate in this Issue to the extent of 20% of the post Issue paid-up Equity Share capital of our Company and subject to the inflow of FDI pursuant to the Issue being less than ₹ 10,000 million. In the event our Company undertakes the Pre-IPO Placement in favour of any non-resident investor, our Company shall seek the requisite approval of the FIPB.

^{**} In case the Bid cum Application Form is submitted in joint names, the Bidders should ensure that the demat account is also held in the same joint names and are in the same sequence in which they appear in the Bid cum Application Form. Further, a Bidder Bidding in either of the Employee Reservation Portion or the L&T Shareholders Reservation Portion can also Bid under the Net Issue and such Bids will not be treated as multiple Bids.

^{***} Our Company in consultation with the Lead Managers may decide to offer a discount of up to [[•]] % of the Issue Price to the Eligible Employees. The excess amount paid at the time of Bidding shall be refunded to the Eligible Employees.

Withdrawal of the Issue

Our Company, in consultation with the Lead Managers reserves the right not to proceed with the Issue at any time after the Bid/Issue Opening Date but before the Allotment of Equity Shares. In such an event, our Company would issue a public notice in the newspapers, in which the pre-Issue advertisements were published, within two days of the decision for withdrawal of the Issue, providing reasons for not proceeding with the Issue. Our Company shall also inform the Stock Exchanges on which the Equity Shares are proposed to be listed.

Any further issue of Equity Shares by our Company shall be in compliance with applicable laws.

Bid/Issue Programme

BID/ISSUE OPENS ON	[●]*
BID/ISSUE CLOSES ON**	[●]

* Our Company may in consultation with the Lead Managers consider participation by Anchor Investors. The Anchor Investor Bidding Date shall be one day prior to the Bid/Issue Opening Date.

** Our Company may close the Bid/Issue Period for QIBs one day prior to the Bid/Issue Closing Date.

Bids including any revision in Bids shall be accepted **only between 10.00 a.m. and 5.00 p.m. IST** during the Bidding/Issue Period as mentioned above at the Bidding Centres mentioned on the Bid cum Application Form or, in the case of Bids submitted through ASBA, at the Designated Branches. On the QIB Bid/Issue Closing Date, Bids by QIBs shall be accepted only between **10.00 a.m. and 3.00 p.m. IST** and uploaded until 4.00 p.m. IST. On the Bid/Issue Closing Date, Bids shall be accepted only between **10.00 a.m. and 1.00 p.m. IST** and uploaded until (i) 4.00 p.m. IST in case of Bids by Non-Institutional Bidders, Eligible Employees bidding under the Employee Reservation Portion and L&T Shareholders bidding under the L&T Shareholders Reservation Portion; and (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders. It is clarified that the Bids not uploaded in the book would be rejected. Bids by the ASBA Bidders shall be uploaded by the SCSBs in the electronic system to be provided by the Stock Exchanges.

In case of discrepancy in the data entered in the electronic book *vis-a-vis* the data contained in the physical or electronic Bid cum Application Form, for a particular ASBA Bidder, the Registrar to the Issue shall ask for rectified data from the relevant SCSB.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 1.00 p.m. (Indian Standard Time) on the Bid/Issue Closing Date. On the QIB Bid/Issue Closing Date, Bids by QIBs shall be accepted only between 10.00 a.m. and 3.00 p.m. IST. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding public holidays). Bids by ASBA Bidders shall be uploaded by the SCSBs in the electronic system to be provided by the Stock Exchanges.

On the Bid/Issue Closing Date, extension of time will be granted by the Stock Exchanges only for uploading the Bids received by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of time period for acceptance of Bid cum Application Forms as stated herein and reported by the Lead Managers to the Stock Exchange within half an hour of such closure.

Our Company, in consultation with the Lead Managers, reserves the right to revise the Price Band during the Bidding/Issue Period **provided that** the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed at least two days prior to the Bid/Issue Opening Date and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bidding/Issue Period will be extended for at least three additional Working Days subject to the Bidding/Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bidding/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a press release and also by indicating the changes on the websites of the Lead Managers and at the terminals of the Syndicate.

ISSUE PROCEDURE

This section applies to all Bidders. Please note that all Bidders (except Anchor Investors) can participate in the Issue through the ASBA process. ASBA Bidders should note that the ASBA process involves application procedures that may be different from the procedure applicable to Bidders other than the ASBA Bidders. Bidders applying through the ASBA process should carefully read the provisions applicable to such applications before making their application through the ASBA process. Please note that all the Bidders are required to make payment of the full Bid Amount or instruct the relevant SCSB to block the full Bid Amount along with the Bid cum Application Form.

In respect of QIBs that are Anchor Investors, the Issue procedure set out below should be read with, and is qualified by, the paragraphs below relating to Anchor Investors, including without limitation, the section "*Anchor Investor Portion*" on page 426 of this Draft Red Herring Prospectus.

Book Building Procedure

The Issue is being made through the Book Building Process wherein at least 50% of the Net Issue shall be Allotted to QIBs on a proportionate basis provided that our Company may allocate up to 30% of the QIB portion to Anchor Investors on discretionary basis. Of the Net QIB Portion (excluding the Anchor Investor Portion), 5% shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder shall be available for allocation on a proportionate basis to QIBs and Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. Further, not less than 15% of the Net Issue will be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue will be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Issue Price. Further, up to [•] Equity Shares and [•] Equity Shares shall be available for allocation to Eligible Employees and L&T shareholders, subject to valid bids being received at or above the Issue Price. Allocation to Anchor Investors shall be on a discretionary basis and not on a proportionate basis.

Spill-over to the extent of any under subscription in any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion may be permitted from any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion, as the case may be, subject to which spill-over shall be permitted from the Net Issue in the following order of preference: (1) Retail Portion; (2) Non-Institutional Portion; and (3) QIB Portion. Provided that at least 50% of the Net Issue shall be Allotted to QIBs and in the event at least 50% of the Net Issue cannot be Allotted to QIBs, the entire application money shall be refunded forthwith. In the event of under subscription in the Net Issue, spill over to the extent of under subscription shall be allowed from the Employee Reservation Portion and/or the L&T Shareholders Reservation Portion, as the case may be. In case of under subscription in any category other than the QIB Portion, investors from other categories or a combination of categories may be allocated Equity Shares amounting to the shortfall if so decided by our Company in consultation with the Lead Managers and the Designated Stock Exchange.

All Bidders, other than the ASBA Bidders, are required to submit their Bids through the Syndicate. ASBA Bidders are required to submit their Bids through the SCSBs.

Investors should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not contain details of the Bidders' depository account shall be treated as incomplete and rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. The Equity Shares on Allotment shall be traded only in the dematerialised segment of the Stock Exchanges.

ASBA Process

In accordance with the SEBI ICDR Regulations, all Bidders (including QIB Bidders and excluding Anchor Investors) can participate in the Issue through the ASBA process. ASBA Bidders shall submit an ASBA Bid cum-Application Form either (i) in physical form to the Designated Branch of an SCSB or (ii) in electronic form through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the bank account ("**ASBA Account**") specified in the ASBA Bid cum Application Form used by ASBA Bidders. The SCSB shall block an amount equal to the Bid Amount in the ASBA Account, on the basis of an authorization to this effect given by the account holder at the time of submitting the Bid. The ASBA data shall thereafter be uploaded by the SCSB in the electronic bidding system of the Stock Exchanges. The Bid Amount shall remain blocked in the ASBA Account until approval of the basis of Allotment in the Issue by the Designated Stock Exchange and consequent transfer of the Bid Amount against the allocated shares to the Public Issue Account, or until withdrawal or failure of the Issue or until withdrawal or rejection of the ASBA Bid, as the case may be. Once the basis of

Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the requisite amount to the Public Issue Account. In case of withdrawal or failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Lead Managers and/or the Registrar.

**** Excluding electronic ASBA Bid cum Application Forms*

Bidders (other than ASBA Bidders) are required to submit their Bids through the Syndicate and shall only use the specified Bid cum Application Form bearing the stamp of a member of the Syndicate for the purpose of making a Bid in terms of the Red Herring Prospectus. Before being issued to the Bidders, the Bid-cum-Application Form shall be serially numbered and date and time stamped and such form shall be issued in duplicate signed by the Bidder. The Bid-cum-Application Form shall contain information about the Bidder, the price and the number of Equity Shares that the Bidder wishes to Bid. The Bidder shall have the option to make a maximum of three Bids in the Bid cum Application Form and such options shall not be considered as multiple Bids. Upon dispatch of the CAN and filing of the Prospectus with the RoC, the Bid cum Application Form shall be considered as the application form. Upon completion and submission of the Bid cum Application Form to a member of the Syndicate, the Bidder is deemed to have authorised our Company to make the necessary changes in the Red Herring Prospectus as would be required for filing the Prospectus with the RoC and as would be required by RoC after such filing, without prior or subsequent notice of such changes to the Bidder.

ASBA Bidders shall submit an ASBA Bid cum Application Form through the SCSBs authorising blocking of funds that are available in the bank account specified in the ASBA Bid cum Application Form. The ASBA Bid cum Application Form shall contain all relevant information, including as specified in the relevant regulations, and shall be uniform for all ASBA Bidders. ASBA Bidders shall use the ASBA Bid cum Application Form bearing the code of the Syndicate Member and/or the Designated

Branch of an SCSB for the purpose of making a Bid in terms of the Red Herring Prospectus. The list of banks notified by SEBI to act as SCSBs for the ASBA process and details of Designated Branches of SCSBs collecting the ASBA Bid cum Application Forms are available at <http://www.sebi.gov.in>. On filing of the Prospectus with the RoC, the ASBA Bid cum Application Form shall be considered as a valid Application Form. Upon completing and submitting the ASBA Bid cum Application Form, the ASBA Bidder is deemed to have authorized: (i) the SCSBs to do all acts as are necessary to make an application in the Issue, including uploading his or her or its Bid, blocking or unblocking of funds in the ASBA Account and transfer funds to the Public Issue Account on receipt of instruction from the Registrar to the Issue after approval of the basis of Allotment by the Designated Stock Exchange; and (ii) the Registrar to the Issue to issue instructions to the Controlling Branch of the SCSBs to unblock the funds in the ASBA Account, upon approval of the basis of Allotment by the Designated Stock Exchange. Further, upon completing and submitting the ASBA Bid cum Application Form, the ASBA Bidder is deemed to have authorized our Company to make the necessary changes in the Red Herring Prospectus and the ASBA Bid cum Application Forms as would be required for filing the Prospectus with the RoC and as would be required by SEBI and/or the RoC after such filing, without prior or subsequent notice of such changes to the ASBA Bidder.

- Who can Bid?

- Scientific and/or industrial research organisations authorised to invest in equity shares;
 1. Insurance Companies registered with Insurance Regulatory and Development Authority;
 2. Provident Funds with a minimum corpus of ₹ 250 million and who are authorised under their constitution to hold and invest in equity shares;
 3. Pension Funds with a minimum corpus of ₹ 250 million and who are authorised under their constitution to hold and invest in equity shares;

4. National Investment Fund;
5. Insurance funds set up and managed by army, navy or air force of the Union of India;
6. Insurance funds set up and managed by the Department of Posts India;
7. Eligible Employees; and
8. L&T Shareholders *i.e.* individuals and HUFs who are equity shareholders of the Promoter, L&T (excluding such other persons not eligible under applicable laws, rules, regulations and guidelines) as at the date of the Red Herring Prospectus.

As per the existing regulations, OCBs cannot participate in this Issue. Bids by NRIs, FIIs and Foreign Venture Capital Investors shall be in accordance with the FIPB approval dated December 16, 2010, which permits eligible non-resident investors *i.e.* FIIs, NRIs, FVCIs registered with SEBI, multilateral and bilateral development financial institutions and other eligible non-resident investors to participate in this Issue to the extent of 20% of the post Issue paid-up Equity Share capital of our Company and subject to the inflow of FDI pursuant to the Issue being less than ₹ 10,000 million. In the event our Company undertakes the Pre-IPO Placement in favour of any non-resident investor, our Company shall seek the requisite approval of the FIPB.

Participation by Associates of the Lead Managers and Syndicate Members

The Lead Managers and the Syndicate Members shall not be allowed to subscribe to this Issue in any manner except towards fulfilling their underwriting obligations. However, associates and affiliates of the Lead Managers and the Syndicate Members may subscribe to or purchase Equity Shares, either in the QIB Portion or in Non-Institutional Portion as may be applicable to such Bidders, where the allocation is on a proportionate basis.

The Lead Managers and any persons related to the Lead Managers, the Promoter and the Promoter Group cannot apply in the Issue under the Anchor Investor Portion.

Bids by Mutual Funds

An eligible Bid by a Mutual Fund shall first be considered for allocation proportionately in the Mutual Fund Portion. In the event that the demand is greater than [•] Equity Shares, allocation shall be made to Mutual Funds proportionately, to the extent of the Mutual Fund Portion. The remaining demand by the Mutual Funds shall, as part of the aggregate demand by QIBs, be available for allocation proportionately out of the remainder of the QIB Portion, after excluding the allocation in the Mutual Fund Portion.

One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No mutual fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No mutual fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

2. Bids by Eligible NRIs

1. Bid cum Application Forms have been made available for Eligible NRIs at the Registered Office of the Company and with the members of the Syndicate.
2. Eligible NRI applicants should note that only such applications as are accompanied by payment in free foreign exchange shall be considered for Allotment. Eligible NRIs who intend to make payment through Non-Resident Ordinary (NRO) accounts should use the form meant for Resident Indians and should not use the forms meant for any reserved categories.
3. Bids by Eligible NRIs for a Bid Amount of up to ₹ 200,000 would be considered under the Retail Portion for the purposes of allocation and Bids for a Bid Amount of more than ₹ 200,000 would be

considered under Non-Institutional Portion for the purposes of allocation.

Bids by FIIs

As per the current regulations, the following restrictions are applicable for investments by FIIs:

The issue of Equity Shares to a single FII should not exceed 10% of our post-Issue paid-up capital (i.e. 10% of [•] Equity Shares). In respect of an FII investing in our Equity Shares on behalf of its sub-accounts, the investment on behalf of each sub-account shall not exceed 10% of our total paid-up capital or 5% of our total paid-up capital in case such sub-account is a foreign corporate or an individual. As of now, the aggregate FII holding in us cannot exceed 24% of our total paid-up capital.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of regulation 15A(1) of the Securities and Exchange Board of India (Foreign Institutional Investors) Regulations 1995, as amended (the "**SEBI FII Regulations**"), an FII, as defined in the SEBI FII Regulations, is permitted to issue or otherwise deal in off shore derivative instruments (defined under the SEBI FII Regulations as any instrument, by whatever name called, which is issued overseas by an FII against securities held by it that are listed or proposed to be listed on any recognised stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate foreign regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with 'know your client' norms. The FII is also required to ensure that no further issue or transfer of any offshore derivative instrument issued by it is made to any persons that are not regulated by an appropriate foreign regulatory authority as defined under the SEBI FII Regulations. Associates and affiliates of the Underwriters including the Lead Managers and the Syndicate Members that are FIIs may issue offshore derivative instruments against the Equity Shares Allotted to them in the Issue. Any such offshore derivative instrument does not constitute any obligation of, claim on or an interest in, our Company.

Bids by SEBI registered Venture Capital Funds and Foreign Venture Capital Investors

The SEBI (Venture Capital Funds) Regulations, 1996 and SEBI (Foreign Venture Capital Investor) Regulations, 2000 as amended, prescribe investment restrictions on venture capital funds registered with SEBI.

Accordingly, the holding by any Venture Capital fund registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the Venture Capital Fund. Further, Venture Capital Funds can invest only up to 33.33% of their investible funds by way of subscription to an IPO.

Bids by Eligible NRIs, FVCIs and FIIs on a repatriation basis will be in the names of individuals, or in the names of such FIIs, respectively, but not in the names of minors, OCBs, firms or partnerships, foreign nationals (excluding NRIs) or their nominees.

The above information is given for the benefit of the Bidders. The Company and/or the Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and are advised to ensure that any single Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

Bids by Eligible Employees

Bids under the Employee Reservation Portion shall be subject to the following:

- Only Eligible Employees would be eligible to apply in this Issue under the Employee Reservation Portion.
- The sole/ First Bidder shall be an Eligible Employee.
- Bid shall be made only in the prescribed Bid cum Application Form or Revision Form (i.e. [•] colour Form).
- Only those Bids, which are received at or above the Issue Price, would be considered for allocation under this category.
- Eligible Employees may bid up to ₹ 200,000 in any of the bidding options at Cut-Off Price.

- The value of Allotment to any Eligible Employee shall not exceed ₹ 200,000.
- The Bids must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter.
- Bid by an Eligible Employee can be made also in the "Net Issue" portion and such Bids shall not be treated as multiple bids. Further, Bid by an Eligible Employee in the Employee Reservation Portion and in the L&T Shareholders Reservation Portion shall not be treated as multiple bids.
- If the aggregate demand in this category is less than or equal to [•] Equity Shares at or above the Issue Price, full allocation shall be made to the Eligible Employees to the extent of their demand.
- Spill-over to the extent of any under subscription in the Employee Reservation Portion may be permitted from the L&T Shareholders Reservation Portion, subject to which spill-over shall be permitted from the Net Issue in the following order of preference: (1) Retail Portion; (2) Non-Institutional Portion; and (3) QIB Portion. Provided that at least 50% of the Net Issue shall be Allotted to QIBs and in the event at least 50% of the Net Issue cannot be Allotted to QIBs, the entire application money shall be refunded forthwith.
- Under subscription, if any, in any category other than the QIB Portion, shall be met with spill-over from other categories, at the sole discretion of our Company, in consultation with the Lead Managers. In case of under- subscription in the Net Issue, spill-over to the extent of under subscription shall be permitted from the Employee Reservation Portion.
- If the aggregate demand in this category is greater than [•] Equity Shares at or above the Issue Price, the allocation shall be made on a proportionate basis. For the method of proportionate basis of Allotment, refer to the section titled "*Issue Procedure - Basis of Allotment*" on page 419 of this Draft Red Herring Prospectus.
- An Eligible Employee Discount of up to [•]% to the Issue Price may be offered to Eligible Employees.

Bids by L&T Shareholders

Bids under the L&T Shareholders Reservation Portion shall be subject to the following:

- Only L&T Shareholders (*i.e.* Individuals and HUFs who are equity shareholders of the Promoter, L&T (excluding such other persons not eligible under applicable laws, rules, regulations and guidelines) as at the date of the Red Herring Prospectus) would be eligible to apply in this Issue under the L&T Shareholders Reservation Portion.
- L&T Shareholders must indicate their folio number in the Bid cum Application Form considered for Allotment in the L&T Shareholders Reservation Portion.
- The sole/ First Bidder shall be an L&T Shareholder.

- The Bids must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter.
- Bid by an L&T Shareholder in L&T Shareholders Reservation Portion and in the Net Issue portion shall not be treated as multiple Bids. Further, Bid by an L&T Shareholder in L&T Shareholders Reservation Portion and in the Employee Reservation Portion shall not be treated as multiple Bids. Also, Bid by an L&T Shareholder in the Employee Reservation Portion and in the Net Issue portion shall not be treated as multiple Bids.
- If the aggregate demand in this category is less than or equal to [•] Equity Shares at or above the Issue Price, full allocation shall be made to the L&T Shareholders to the extent of their demand.
- Spill-over to the extent of any under subscription in the L&T Shareholders Reservation Portion may be permitted from the Employee Reservation Portion, subject to which spill-over shall be permitted from the Net Issue in the following order of preference: (1) Retail Portion; (2) Non-Institutional

Portion; and (3) QIB Portion. Provided that at least 50% of the Net Issue shall be Allotted to QIBs and in the event at least 50% of the Net Issue cannot be Allotted to QIBs, the entire application money shall be refunded forthwith.

- Under subscription, if any, in any category other than the QIB Portion, shall be met with spill-over from other categories, at the sole discretion of our Company, in consultation with the Lead Managers. In case of under-subscription in the Net Issue, spill-over to the extent of under subscription shall be permitted from the L&T Shareholders Reservation Portion.
- If the aggregate demand in this category is greater than [•] Equity Shares at or above the Issue Price, the allocation shall be made on a proportionate basis. For the method of proportionate basis of Allotment, refer to the section titled "*Issue Procedure - Basis of Allotment*" on page 419 of this Draft Red Herring Prospectus.

Maximum and Minimum Bid Size

1. *For Retail Individual Bidders:* The Bid must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter, so as to ensure that the Bid Amount payable by the Bidder does not exceed ₹ 200,000. In case of revision of Bids, the Retail Individual Bidders have to ensure that the Bid Amount does not exceed ₹ 200,000. In case the Bid Amount is over ₹ 200,000 due to revision of the Bid or revision of the Price Band or on exercise of Cut-off option, the Bid would be considered for allocation under the Non-Institutional Portion. The Cut-off option is an option given only to the Retail Individual Bidders indicating their agreement to Bid and purchase the Equity Shares at the Issue Price as determined pursuant to the Book Building Process.
2. *For Other Bidders (Non-Institutional Bidders and QIBs):* The Bid must be for a minimum of such number of Equity Shares such that the Bid Amount exceeds ₹ 200,000 and in multiples of [•] Equity Shares thereafter. A Bid cannot be submitted for more than the Issue Size. However, the maximum Bid by a QIB Bidder should not exceed the investment limits prescribed for them by applicable laws. **A QIB Bidder cannot withdraw its Bid after the QIB Bid/Issue Closing Date and is required to pay the full Bid Amount upon submission of the Bid.**

In case of revision in Bids, the Non-Institutional Bidders, who are individuals, have to ensure that the Bid Amount is greater than ₹ 200,000 for being considered for allocation in the Non-Institutional Portion. In case the Bid Amount reduces to ₹ 200,000 or less due to a revision in Bids or revision of the Price Band, Bids by Non-Institutional Bidders who are eligible for allocation in the Retail Portion would be considered for allocation under the Retail Portion. Non-Institutional Bidders and QIBs are not allowed to Bid at 'Cut-off'.

3. *For Bidders in the Anchor Investor Portion:* The Bid must be for a minimum of such number of Equity Shares such that the Bid Amount exceeds ₹ 100 million and in multiples of [•] Equity Shares thereafter. Bids by Anchor Investors under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids. A Bid cannot be submitted for more than 30% of the QIB Portion. **Anchor Investors cannot withdraw their Bids after the Anchor Investor Bidding Date and are required to pay the full Bid Amount upon the submission of the Bid.** In the event of the Issue Price being higher than the price at which allocation is made to Anchor Investors, the Anchor Investors shall be required to pay such additional amount to the extent of shortfall between the price at which allocation is made to them and the Issue Price as per the pay-in date mentioned in the revised CAN. If the Issue Price is lower than the price at which allocation is made to Anchor Investors, the amount in excess of the Issue Price paid by Anchor Investors shall not be refunded to them.
4. *For Employee Reservation Portion:* The Bid must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter, so as to ensure that the Bid Amount by any Eligible Employee does not exceed ₹ 200,000. Bidders in the Employee Reservation Portion may bid at Cut-Off Price. The Allotment in the Employee Reservation Portion will be on a proportionate basis in case of over-subscription in this category. Further, the value of Allotment to any Eligible Employee shall not exceed ₹ 200,000. **Bidders may note that the total Bid Amount will be used to determine whether the Bid exceeds ₹ 200,000 or not.**
5. *For L&T Shareholders Reservation Portion:* The Bid must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares. Bidders in the L&T Shareholders Reservation Portion may bid at Cut-Off Price. The Allotment in the L&T Shareholders Reservation Portion will be on a proportionate basis in case of over-subscription in this category.

Information for the Bidders:

1. The Company and the Lead Managers shall declare the Bid/Issue Opening Date, the QIB Bid/Issue Closing Date and the Bid/Issue Closing Date in the Red Herring Prospectus to be registered with the RoC and also publish the same all editions of Indian Express (a widely circulated English national newspaper), all editions of Jansatta (a widely circulated Hindi national newspaper) and Loksatta (a Marathi newspaper of wide circulation in the place where the Registered Office is situated). This advertisement shall be in the prescribed format.
2. The Company will file the Red Herring Prospectus with the RoC at least three days before the Bid/Issue Opening Date.
3. Copies of the Bid cum Application Form and copies of the Red Herring Prospectus will be available with the Syndicate. The SCSBs shall ensure that the abridged prospectus is made available on their websites. ASBA Bidders can also obtain a copy of the abridged prospectus and/or the ASBA Bid cum Application Form in electronic form from the websites of the SCSBs and the Stock Exchanges.
4. Any Bidder (who is eligible to invest in the Equity Shares) who would like to obtain the Red Herring Prospectus and/or the Bid cum Application Form can obtain the same from the Registered Office.
5. Eligible Bidders who are interested in subscribing for the Equity Shares should approach any of the Lead Managers or Syndicate Members or their authorised agent(s) to register their Bids. Bidders who wish to use the ASBA process should approach the Designated Branches of the SCSBs to register their Bids.
6. The Bids should be submitted on the prescribed Bid cum Application Form only. Bid cum Application Forms (other than the ASBA Bid cum Application Forms) should bear the stamp of the members of the Syndicate, otherwise they will be rejected. Bids by ASBA Bidders shall be accepted by the Designated Branches of the SCSBs in accordance with the SEBI ICDR Regulations and any circulars issued by SEBI in this regard.
7. The Company shall ensure that adequate copies of the Red Herring Prospectus and the ASBA Bid cum Application Form are made available to the SCSBs and the SCSBs will then make such copies available to investors applying under the ASBA process. Additionally, our Company shall ensure that the SCSBs are provided with soft copies of the abridged prospectus and the ASBA Bid cum Application Form. The SCSBs shall make such documents available on their websites. The ASBA Bid cum Application Form shall also be available on the websites of the Stock Exchanges at least one day prior to the Bid/Issue Opening Date. The Lead Managers shall ensure that certain information, including a soft copy of the abridged prospectus, is provided to the Stock Exchanges at least two days prior to the Bid/Issue Opening Date to enable the Stock Exchanges to include such information in the ASBA Bid-cum-Application Form before it is made available on their websites.
8. ASBA Bidders shall correctly mention the bank account number in the ASBA Bid-cum-Application Form and ensure that funds equal to the Bid Amount are available in the bank account maintained with the SCSB before submitting the ASBA Bid-cum-Application Form to the applicable Designated Branch. In case the amount available in the bank account specified in the ASBA Bid cum Application Form is insufficient for blocking the amount equivalent to the Bid Amount, the SCSB shall reject the Bid.
9. If the ASBA Account holder is different from the ASBA Bidder, the ASBA Bid-cum-Application Form should be signed by the account holder as provided in the ASBA Bid-cum-Application Form.

The applicants should note that in the event that the Depository Participant identification number (DP ID), the client identification number (Client ID) and PAN mentioned in their Bid-cum-Application Form/ASBA Bid-cum-Application Form and entered into the electronic bidding system of the Stock Exchanges by the Syndicate Members or Designated Branches of the SCSBs, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database, then such Bid is liable to be rejected.

Based on the information provided by the Depositories, the Issuer shall have the right to accept Bids belonging to an account for the benefit of a minor (under guardianship).

3. Method and Process of Bidding

1. The Company, in consultation with the Lead Managers, will decide the Price Band and the minimum Bid lot size for the Issue and this shall be advertised in all editions of Indian Express (a widely

circulated English national newspaper), all editions of Jansatta (a widely circulated Hindi national newspaper) and Loksatta (a Marathi newspaper of wide circulation in the place where the Registered Office is situated) least two Working Days prior to the Bid/Issue Opening Date. The Syndicate and the SCSBs shall accept Bids from the Bidders during the Issue Period.

2. The Bidding/Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bidding/Issue Period may be extended, if required, subject to the total Bidding/Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bidding/Issue Period, if applicable, will be published in all editions of Indian Express (a widely circulated English national newspaper), all editions of Jansatta (a widely circulated Hindi national newspaper) and Loksatta (a Marathi newspaper of wide circulation in the place where the Registered Office is situated) and also by indicating the change on the websites of the Lead Managers and at the terminals of the members of the Syndicate.
3. During the Bidding/Issue Period, Bidders who are interested in subscribing for the Equity Shares should approach the Syndicate or their authorised agents to register their Bids. Other than ASBA Bidders, Bids by QIBs, including Anchor Investors, will have to be submitted to the Lead Managers or their Associates. The Syndicate shall accept Bids from all Bidders and have the right to vet the Bids during the Bidding/Issue Period in accordance with the terms of the Red Herring Prospectus. Bidders who wish to use the ASBA process should approach the Designated Branches of the SCSBs to register their Bids.
4. Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled "*Bids at Different Price Levels*" below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid price, will become automatically invalid.
5. The Bidder cannot Bid on another Bid cum Application Form after Bids on one Bid cum Application Form have been submitted to any member of the Syndicate or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another member of the Syndicate or SCBS will be treated as multiple Bids and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph titled "*Build-up of the Book and Revision of Bids*".
6. Bids by an Eligible Employee in the Employee Reservation Portion, in the Net Issue portion and in the L&T Shareholders Reservation Portion where such employee is an L&T shareholder shall not be treated as multiple Bids. Further, Bids by an Eligible Employee in the Employee Reservation Portion and in the L&T Shareholders Reservation Portion shall not be treated as multiple Bids.
7. Bids by an L&T Shareholder in the L&T Shareholders Reservation Portion and in the Net Issue portion shall not be treated as multiple Bids. Further, Bids by an L&T Shareholder in the L&T Shareholders Reservation Portion and in the Employee Reservation Portion shall not be treated as multiple Bids.
8. Except in relation to Bids received from the Anchor Investors, the members of the Syndicate/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, ("**TRS**"), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
9. The Lead Managers or their Affiliates shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/Issue Period i.e. one day prior to the Bid/Issue Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
10. Along with the Bid cum Application Form, all Bidders (other than ASBA Bidders) will make payment in the manner described in the section titled "*Issue Procedure – Payment Instructions*" on page 411 of this Draft Red Herring Prospectus.
11. Upon receipt of the ASBA Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the ASBA Bid cum Application Form, prior to uploading such Bids with the Stock Exchanges.

12. If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchanges.
13. If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the ASBA Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
14. The identity of qualified institutional buyers (other than Anchor Investors who have been allocated Equity Shares) bidding in the Issue shall not be made public.

Bids at Different Price Levels

1. The Company, in consultation with the Lead Managers, reserves the right to revise the Price Band during the Bidding/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on either side, i.e., the floor price can move up or down to the extent of 20% of the floor price disclosed at least two days prior to the Bid/Issue Opening Date and the Cap Price will be revised accordingly.
2. The Company, in consultation with the Lead Managers will finalise the Issue Price within the Price Band in accordance with this clause, without the prior approval of, or intimation, to the Bidders.
3. The Company, in consultation with the Lead Managers, can finalise the Anchor Investor Issue Price within the Price Band in accordance with this section, without the prior approval of, or intimation, to the Anchor Investors.
4. The Company in consultation with the Lead Managers, shall decide the minimum number of Equity Shares for each Bid to ensure that the application value is within the range of ₹ 5000 to ₹ 7000.
5. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Retail Individual Bidders, Eligible Employees bidding in the Employee Reservation Portion and L&T Shareholders bidding in the L&T Shareholders Reservation Portion, may Bid at the Cut-off Price. However, Bidding at Cut-off Price is prohibited for QIBs and Non-Institutional Bidders and such Bids from QIBs and Non-Institutional Bidders shall be rejected.
6. Retail Individual Bidders, Eligible Employees bidding in the Employee Reservation Portion and L&T Shareholders bidding in the L&T Shareholders Reservation Portion, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Retail Individual Bidders, Eligible Employees bidding in the Employee Reservation Portion and L&T Shareholders bidding in the L&T Shareholders Reservation Portion shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the members of the Syndicate. In case of ASBA Bidders bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block the amount based on the Cap Price.

Escrow mechanism, terms of payment and payment into the Escrow Accounts

For details of the escrow mechanism and payment instructions, refer to the section titled "*Issue Procedure – Payment instructions*" on page 411 of this Draft Red Herring Prospectus.

Electronic Registration of Bids

1. The members of the Syndicate and the SCSBs will register the Bids using the on-line facilities of the Stock Exchanges. There will be at least one on-line connectivity facility in each city, where a stock exchange is located in India and where Bids are being accepted. Our Company and the Registrar are not responsible for any acts, mistakes or errors or omission and commissions in relation to, (i) the Bids accepted by the Syndicate Members and the SCSBs, (ii) the Bids uploaded by the Syndicate Members and the SCSBs, (iii) the Bids accepted but not uploaded by the Syndicate Members and the SCSBs or (iv) with respect to ASBA Bids, Bids accepted and uploaded without blocking funds in the ASBA Accounts. However, the members of the Syndicate and/or the SCSBs shall be responsible for any error in the Bid details uploaded by them. It shall be presumed that for Bids uploaded by the SCSBs, the Bid Amount has been blocked in the relevant ASBA Account. Details of Bids in the Anchor Investor Portion will not be registered using the online facilities of the Stock Exchanges.
2. The Syndicate and the SCSBs will undertake modification of selected fields in the Bid details already

uploaded within one Working Day from the Bid/Issue Closing Date to amend some of the data fields (currently DP ID, Client ID) entered by them in the electronic bidding system. Bidders are cautioned that a high inflow of Bids typically experienced on the last Working Day of the Bidding may lead to some Bids received on the last Working Day not being uploaded due to lack of sufficient uploading time, and such Bids that could not be uploaded will not be considered for allocation. Bids will only be accepted on Working Days.

3. The Stock Exchanges will offer an electronic facility for registering Bids for the Issue. This facility will be available with the Syndicate and the Designated Branches and their respective authorised agents and the SCSBs during the Bidding/Issue Period. The Syndicate Members and the Designated Branches can also set up facilities for off-line electronic registration of Bids subject to the condition that they will subsequently upload the off-line data file into the on-line facilities for book building on a regular basis. On the Bid/Issue Closing Date, the members of the Syndicate and the Designated Branches shall upload the Bids until such time as may be permitted by the Stock Exchanges. This information will be available with the Lead Managers on a regular basis.
4. Based on the aggregate demand and price for Bids registered on the electronic facilities of the Stock Exchanges, a graphical representation of consolidated demand and price, as available on the websites of the BSE and the NSE, would be made available at the Bidding centres during the Bidding/Issue Period.
5. At the time of registering each Bid other than ASBA Bids, the Syndicate and the Designated Branches shall enter the following details of each Bidder in the on-line system:

- Name of the Bidder

Bidders should ensure that the name given in the Bid cum Application Form is exactly the same as the name in which the Depository Account is held. In case the Bid cum Application Form is submitted in joint names, Bidders should ensure that the Depository Account is also held in the same joint names and are in the same sequence in which they appear in the Bid cum Application Form;

- IPO Name;
- Application Number;
- Investor Category;
- First Applicant PAN;
- Demat ID;
- Beneficiary Account Number and Client ID;
- Quantity Option;
- Price Option;
- Cheque Amount (other than ASBA Bidders);
- Cheque Number (other than ASBA Bidders).

In case of submission of the Bid by an ASBA Bidder through the electronic mode, the ASBA Bidder shall complete the above-mentioned details and mention the bank account number, except the ASBA Bid-cum-Application Form number which shall be system generated.

6. Upon request, a system generated TRS will be given to the Bidder as a proof of the registration of each of the bidding options. It is the Bidder's responsibility to obtain the TRS from the members of the Syndicate or the Designated Branches of the SCSBs, as the case may be. The registration of the Bid by the member of the Syndicate or the Designated Branches of the SCSBs does not guarantee that the Equity Shares shall be allocated/Allotted either by the members of the Syndicate or our Company.
7. Such TRS will be non-negotiable and by itself will not create any obligation of any kind.
8. In case of QIB Bidders (other than ASBA Bidders), the Lead Managers or their Affiliates have the

right to accept the Bid or reject it. However, such rejection shall be made at the time of receiving the Bid and only after assigning a reason for such rejection in writing. In case of Non-Institutional Bidders and Retail Individual Bidders, Bids will be rejected only on technical grounds listed in this Draft Red Herring Prospectus. The members of the Syndicate may also reject Bids if all the information required is not provided and the Bid cum Application Form is incomplete in any respect. The SCSBs shall have no right to reject Bids except on technical grounds.

9. The permission given by the Stock Exchanges to use their network and software of the Online IPO system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements; by our Company, the Lead Managers or Designated Branches of the SCSBs are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our Company, the Promoters, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.
10. Only Bids that are uploaded on the online IPO system of the Stock Exchanges shall be considered for allocation/Allotment. Members of the Syndicate and the Designated Branches of the SCSBs will be given up to one working day after the Bid/Issue Closing Date to verify DP ID and Client ID uploaded in the online IPO system during the Bidding/Issue Period after which the data will be sent to the Registrar for reconciliation and Allotment of Equity Shares. In case of any discrepancy of data between the BSE or the NSE and the members of the Syndicate or the Designated Branches of the SCSBs, the decision of our Company, in consultation with the Lead Managers and the Registrar, shall be final and binding on all concerned.
11. Details of Bids in the Anchor Investor Portion will not be registered on the on-line facilities of electronic facilities of the Stock Exchanges.

Build-up of the Book and Revision of Bids

1. Bids received from various Bidders (except Anchor Investors) through the members of the Syndicate and the SCSBs shall be electronically uploaded to the Stock Exchanges' mainframe on a regular basis.
2. The book gets built up at various price levels. This information will be available with the Lead Managers at the end of each day of the Bidding/Issue Period.
3. During the Bidding/Issue Period, any Bidder who has registered his or her interest in the Equity Shares at a particular price level is free to revise his or her Bid within the Price Band using the printed Revision Form, which is a part of the Bid cum Application Form.
4. Revisions can be made in both the desired number of Equity Shares and the Bid Amount by using the Revision Form. Apart from mentioning the revised options in the Revision Form, the Bidder must also mention the details of all the options in his or her Bid cum Application Form or earlier Revision Form. For example, if a Bidder has Bid for three options in the Bid cum Application Form and such Bidder is changing only one of the options in the Revision Form, he must still fill the details of the other two options that are not being revised in the Revision Form. The members of the Syndicate and the Designated Branches of the SCSBs will not accept incomplete or inaccurate Revision Forms.
5. The Bidder can make this revision any number of times during the Bidding/Issue Period. However, for any revision(s) in the Bid, the Bidders will have to use the services of the same member of the Syndicate or the SCSB through whom such Bidder had placed the original Bid. Bidders are advised to retain copies of the blank Revision Form and the revised Bid must be made only in such Revision Form or copies thereof.
6. In case of an upward revision in the Price Band announced as above, Retail Individual Bidders Eligible Employees bidding in the Employee Reservation Portion who had Bid at Cut-off Price could either (i) revise their Bid or (ii) shall make additional payment based on the cap of the revised Price Band (such that the total amount *i.e.*, original Bid Amount plus additional payment does not exceed ₹ 200,000) with the members of the Syndicate to whom the original Bid was submitted. In case the total amount (*i.e.*, original Bid Amount plus additional payment) exceeds ₹ 200,000, in the case of Retail Individual Bidders, the Bid will be considered for allocation under the Non-Institutional Portion in terms of the Red Herring Prospectus. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of

allocation, such that no additional payment would be required from the Bidder and the Bidder is deemed to have approved such revised Bid at Cut-off Price.

7. In case of a downward revision in the Price Band, announced as above, Retail Individual Bidders Eligible Employees and L&T Shareholders, who have bid at Cut-off Price could either revise their Bid or the excess amount paid at the time of bidding would be refunded from the Escrow Account or unblocked by the SCSBs.
8. The Company, in consultation with the Lead Managers, shall decide the minimum number of Equity Shares for each Bid to ensure that the minimum application value is within the range of ₹ 5,000 to ₹ 7,000.
9. Any upward revision of the Bid shall be accompanied by payment in the form of cheque or demand draft for the incremental amount, if any, to be paid on account of the upward revision of the Bid. With respect to the ASBA Bids, if revision of the Bids results in an incremental amount, the relevant SCSB shall block the additional Bid amount. The excess amount, if any, resulting from downward revision of the Bid would be returned to the Bidder at the time of refund or unblocked by the SCSB, in accordance with the terms of the Red Herring Prospectus. In case of Bids other than ASBA Bids, the members of the Syndicate shall collect the payment in the form of cheque or demand draft or the electronic transfer of funds through RTGS for the incremental amount in the Bid Amount if any, to be paid on account of the upward revision of the Bid at the time of one or more revisions. In such cases, the members of the Syndicate will revise the earlier Bid details with the revised Bid and provide the cheque or demand draft number of the new payment instrument in the electronic book. The Registrar will reconcile the Bid data and consider the revised Bid data for preparing the Basis of Allotment.
10. When a Bidder revises his or her Bid, he or she shall surrender the earlier TRS and may get a revised TRS from the members of the Syndicate or the SCSB, as applicable. It is the responsibility of the Bidder to request for and obtain the revised TRS, which will act as proof of his or her having revised the previous Bid.
11. If an ASBA Bidder wants to withdraw the ASBA Bid-cum-Application Form during the Bidding/Issue Period, the ASBA Bidder shall submit the withdrawal request to the SCSB, which shall perform the necessary actions, including deletion of details of the withdrawn ASBA Bid cum Application Form from the electronic bidding system of the Stock Exchanges and unblocking of funds in the relevant bank account.
12. If an ASBA Bidder, excluding QIBs, wants to withdraw the ASBA Bid-cum-Application Form after the Bid/Issue Closing Date, such ASBA Bidder shall submit the withdrawal request to the Registrar to the Issue before finalization of basis of Allotment. The Registrar to the Issue shall delete the withdrawn Bid from the Bid file. The instruction for and unblocking of funds in the relevant bank account, in such withdrawals, shall be forwarded by the Registrar to the Issue to the SCSB once the basis of Allotment has been approved by the Designated Stock Exchange.
13. QIB Bidders shall not be allowed to withdraw their Bid after the QIB Bid/Issue Closing Date.

Price Discovery and Allocation

After the Bid/Issue Closing Date, the Registrar to the Issue shall aggregate the demand generated under the ASBA process with the Bids received under the non-ASBA process to determine the demand generated at different price levels. Thereafter, the Lead Managers shall analyze the demand generated at various price levels and discuss pricing strategy with our Company.

1. Based on the demand generated at various price levels, our Company, in consultation with the Lead Managers, shall finalise the Issue Price and the number of Equity Shares to be allocated in each investor category.
2. Spill-over to the extent of any under subscription in any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion may be permitted from any of the Employee Reservation Portion or the L&T Shareholders Reservation Portion, as the case may be, subject to which spill-over shall be permitted from the Net Issue in the following order of preference: (1) Retail Portion; (2) Non-Institutional Portion; and (3) QIB Portion. Provided that at least 50% of the Net Issue shall be Allotted to QIBs and in the event at least 50% of the Net Issue cannot be Allotted to QIBs, the entire application money shall be refunded forthwith. In the event of under subscription in the Net Issue, spill over to the extent of under subscription shall be allowed from the Employee Reservation Portion and/or the L&T Shareholders Reservation Portion, as the case may be. In case of under subscription

in any category other than the QIB Portion, investors from other categories or a combination of categories may be allocated Equity Shares amounting to the shortfall if so decided by our Company in consultation with the Lead Managers and the Designated Stock Exchange.

3. Allocation to Non-Residents, including Eligible NRIs and FIIs registered with SEBI, applying on repatriation basis will be subject to applicable law, rules, regulations, guidelines and approvals.
4. The Basis of Allotment shall be put up on the website of the Registrar to the Issue.
5. Allocation to Anchor Investors shall be at the discretion of our Company in consultation with the Lead Managers, subject to compliance with the SEBI Regulations.

Signing of Underwriting Agreement and RoC Filing

1. The Company, the Lead Managers and the Syndicate Members shall enter into an Underwriting Agreement on or immediately after finalisation of the Issue Price.
2. After signing the Underwriting Agreement, our Company will update and file the updated Red Herring Prospectus with the RoC in accordance with the applicable law, which then would be termed the 'Prospectus'. The Prospectus will contain details of the Issue Price, Issue size, underwriting arrangements and will be complete in all material respects.

Pre-Issue Advertisement

Subject to Section 66 of the Companies Act, our Company shall, after registering the Red Herring Prospectus with the RoC, publish a pre-Issue advertisement, in the form prescribed by the SEBI ICDR Regulations, in one English national daily newspaper and one Hindi national daily newspaper, each with wide circulation, and one Marathi newspaper of wide circulation in the place where our Company's Registered Office is situated.

Advertisement regarding Issue Price and Prospectus

The Company will issue a statutory advertisement after the filing of the Prospectus with the RoC. This advertisement, in addition to the information that has to be set out in the statutory advertisement, shall indicate the Issue Price and the Anchor Investor Issue Price. Any material updates between the date of the Red Herring Prospectus and the date of Prospectus will be included in such statutory advertisement.

Issuance of Confirmation of Allotment Notice ("CAN")

1. Upon approval of the Basis of Allotment by the Designated Stock Exchange and Allotment of the Equity Shares, the Lead Managers or the Registrar to the Issue shall send to the members of the Syndicate and to the controlling Branches of the SCSBs, a list of the Bidders who have been Allotted Equity Shares. The approval of the Basis of Allotment by the Designated Stock Exchange for QIB Bidders (including Anchor Investors) may be done simultaneously with or prior to the approval of the Basis of Allotment for the Retail and Non-Institutional Bidders. However, Bidders should note that our Company shall ensure that the Allotment of the Equity Shares is done within nine Working Days of the Bid/Issue Closing Date. Bidder should also note that our Company shall ensure that the instructions by our Company for demat credit of the Equity Shares to all investors in the Issue shall be given on the same or the next date as the date of Allotment.
2. The Registrar to the Issue will then dispatch a CAN to the Bidders who have been Allotted Equity Shares. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

Notice to Anchor Investors: Anchor Investor Confirmation of Allocation Notice, Allotment Reconciliation

At the discretion of our Company the Lead Managers, select Anchor Investors may be sent an Anchor Investor Confirmation of Allocation Notice, within two Working Days of the Anchor Investor Bidding Date, indicating the number of Equity Shares that may be allocated to them. This provisional Anchor Investor Confirmation of Allocation Notice and the final allocation is subject to the physical application being valid in all respect along with receipt of stipulated documents and the Issue Price being finalised at a price not higher than the Anchor Investor Issue Price and Allotment by the Board of Directors. In the event that the Issue Price is higher than the Anchor Investor Issue Price, a CAN will be sent to the Anchor Investors. The price of Equity Shares in such CAN shall be different from that specified in the Anchor Investor Confirmation of Allocation Notice. Anchor Investors should note that they shall be required to

pay additional amounts, being the difference between the Issue Price and the price at which such Anchor Investors made their original Bid, as indicated in the CAN. Any CAN, if issued, to Anchor Investor will supersede in entirety the Anchor Investor Confirmation of Allocation Notice. The final allocation is subject to the physical application being valid in all respects along with receipt of stipulated documents and the Issue Price being finalised at a price not higher than the Anchor Investor Issue Price and Allotment by the Board of Directors.

Unblocking of ASBA Account

Once the basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue shall provide the following details to the Controlling Branches of each SCSB, along with instructions to unblock the relevant bank accounts and transfer the requisite money to the Public Issue Account designated for this purpose, within the timelines specified in the ASBA facility: (i) the number of Equity Shares to be Allotted against each valid ASBA Bid, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each valid ASBA Bid, (iii) the date by which funds referred to in (ii) above shall be transferred to the Public Issue Account, and (iv) details of rejected ASBA Bids, if any, along with reasons for rejection and details of withdrawn and/or unsuccessful ASBA Bids, if any, to enable SCSBs to unblock the respective bank accounts. On the basis of instructions from the Registrar to the Issue, the SCSBs shall transfer the requisite amount against each successful ASBA Bidder to the Public Issue Account and shall unblock the excess amount, if any, in the ASBA Account. However, the Bid Amount may be unblocked in the ASBA Account prior to receipt of notification from the Registrar to the Issue by the Controlling Branch of the SCSB in relation to the approval of the basis of Allotment in the Issue by the Designated Stock Exchange in the event of withdrawal or failure of the Issue or rejection of the ASBA Bid, as the case may be.

Designated Date and Allotment of Equity Shares

1. The Company will ensure that (i) Allotment of the Equity Shares; (ii) credit to the successful Bidder's depository account is completed within 12 Working Days of the Bid/Issue Closing Date.
2. In accordance with the SEBI ICDR Regulations, Equity Shares will be issued and Allotment shall be made only in the dematerialised form to the Allottees.
3. Allottees will have the option to re-materialise the Equity Shares so Allotted as per the provisions of the Companies Act and the Depositories Act.

Investors are advised to instruct their Depository Participant to accept the Equity Shares that may be allocated/Allotted to them pursuant to this Issue.

GENERAL INSTRUCTIONS

Do's:

1. Check if you are eligible to apply having regard to applicable laws, regulations and approvals and the terms of the Red Herring Prospectus;
2. Ensure that you have Bid within the Price Band;
3. Read all the instructions carefully and complete the Bid cum Application Form;
4. Ensure that the details about the PAN, DP ID and Beneficiary Account Number ("BAN") are correct as Allotment of Equity Shares will be in dematerialised form only;
5. Ensure that the Bids are submitted at the bidding centres only on forms bearing the stamp of a member of the Syndicate or with respect to ASBA Bidders ensure that your Bid is submitted at a Designated Branch of the SCSB where the ASBA Bidder or the person whose bank account will be utilised by the ASBA Bidder for Bidding has a bank account;
6. With respect to ASBA Bids, ensure that the ASBA Bid cum Application Form is signed by the account holder in case the applicant is not the account holder. Ensure that you have mentioned the correct bank account number in the ASBA Bid cum Application Form;
7. Ensure that you have collected a TRS for all your Bid options;
8. Ensure that you have funds equal to the Bid Amount in your bank account maintained with the SCSB before submitting the ASBA Bid cum Application Form to the respective Designated Branch of the

SCSB;

9. Ensure that the full Bid Amount is paid for the Bids submitted to the Syndicate and funds equivalent to the Bid Amount are blocked in case of any Bids submitted through the SCSBs.
10. Instruct your respective banks to not release the funds blocked in the bank account under the ASBA process;
11. Submit revised Bids to the same member of the Syndicate through whom the original Bid was placed and obtain a revised TRS;
12. Except for Bids submitted on behalf of the Central Government or the State Government or officials appointed by a court and Bidders resident in the state of Sikkim who may be exempt from specifying their PAN for transacting in the securities market, all Bidders should mention their Permanent Account Number (PAN) allotted under the IT Act. In case of Bids submitted on behalf of the Central Government or the State Government or officials appointed by a court, such Bidders shall provide sufficient documentary evidence in support of the fact that such Bids have been submitted on behalf of the Central Government or the State Government or officials appointed by a court. Residents of Sikkim shall provide sufficient documentary evidence in support of their address as provided in the SEBI MRD circular MRD/DOP/Dep/cir-29/2004 dated August 24, 2004;

10. Do not submit the incorrect PAN, depository participant identification number or client identification number details or submit the GIR number instead of the PAN as the Bid is liable to be rejected on this ground alone.
11. Do not submit a Bid in case not competent to contract under the Indian Contract Act, 1872, as amended;
12. Do not submit a Bid in case you are not eligible to acquire Equity Shares under applicable law or your relevant constitutional documents or otherwise;
13. Do not submit a Bid that does not comply with the securities laws of your respective jurisdictions.

INSTRUCTIONS FOR COMPLETING THE BID CUM APPLICATION FORM

Bidders other than ASBA Bidders can obtain Bid-cum-Application Forms and/or Revision Forms from the members of the Syndicate. ASBA Bidders can obtain ASBA Bid-cum-Application Forms and/or ASBA Revision Forms from the Designated Branches of the SCSBs. ASBA Bidders can also obtain a copy of the ASBA Bid-cum-Application Form and/or ASBA Revision Form in electronic form from the websites of the SCSB or the Stock Exchanges.

Bids must be:

1. Made only in the prescribed Bid cum Application Form or Revision Form, as applicable.
2. Completed in full, in BLOCK LETTERS in ENGLISH and in accordance with the instructions contained herein, in the Bid cum Application Form or in the Revision Form. Incomplete Bid cum Application Forms or Revision Forms are liable to be rejected. Bidders should note that the Syndicate and / or the SCSBs, as appropriate, will not be liable for errors in data entry due to incomplete or illegible Bid cum Application Forms or Revision Forms.
3. Information provided by the Bidders will be uploaded in the online IPO system by the Syndicate and the SCSBs, as the case may be, and the electronic data will be used to make allocation/ Allotment. The Bidders should ensure that the details are correct and legible.
4. For Retail Individual Bidders and Eligible Employees bidding in the Employee Reservation Portion, the Bid must be for a minimum of [•] Equity Shares and in multiples of [•] thereafter subject to a maximum Bid Amount of ₹ 200,000.
5. For L&T Shareholders bidding in the L&T Shareholders Reservation Portion, the Bid must be for a minimum of [•] Equity Shares and in multiples of [•] thereafter.
6. For Non-Institutional Bidders and QIB Bidders, Bids must be for a minimum of such number of Equity Shares that the Bid Amount exceeds ₹ 200,000 and in multiples of [•] Equity Shares thereafter. Bids cannot be made for more than the Issue. Bidders are advised to ensure that a single Bid from them should not exceed the investment limits or maximum number of Equity Shares that can be held by them under the applicable laws or regulations.
7. For Anchor Investors, Bids must be for a minimum of such number of Equity Shares that the Bid Amount exceeds or is equal to ₹ 100 million and in multiples of [•] Equity Shares thereafter.
8. In single name or in joint names (not more than three, and in the same order as their Depository Participant details).
9. Thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.

Bidder's PAN, Depository Account and Bank Account Details

Bidders should note that on the basis of the Depository Participant's identification number, client identification number and PAN provided by them in the Bid cum Application Form, the Registrar

to the Issue will obtain from the Depository the demographic details including address, Bidders bank account details, MICR code and occupation (hereinafter referred to as "Demographic Details"). These Demographic Details would be used for giving refunds (including through physical refund warrants, direct credit, NECS, NEFT and RTGS) to the Bidders. Hence, Bidders may note that in case the Depository Participant's identification number, client identification number and PAN mentioned in the Bid-cum-Application Form and entered into the electronic Bidding system of the Stock Exchanges by the Syndicate do not match with the Depository Participant's identification number, client identification number and PAN available in the Depository's database, the Bid is liable to be rejected. Please note that failure to do so could result in delays in despatch/credit of refunds to Bidders at the Bidders sole risk and neither the Lead Managers or the Registrar to the Issue or the Escrow Collection Banks or the SCSBs nor the Company shall have any responsibility and undertake any liability for the same. Hence, Bidders should carefully fill in their Depository Account details in the Bid cum Application Form.

IT IS MANDATORY FOR ALL THE BIDDERS TO GET THEIR EQUITY SHARES IN DEMATERIALISED FORM. ALL BIDDERS SHOULD MENTION THEIR DEPOSITORY PARTICIPANT'S NAME, DEPOSITORY PARTICIPANT IDENTIFICATION NUMBER AND BENEFICIARY ACCOUNT NUMBER IN THE BID CUM APPLICATION FORM. INVESTORS MUST ENSURE THAT THE NAME GIVEN IN THE BID CUM APPLICATION FORM IS EXACTLY THE SAME AS THE NAME IN WHICH THE DEPOSITORY ACCOUNT IS HELD. IN CASE THE BID CUM APPLICATION FORM IS SUBMITTED IN JOINT NAMES, IT SHOULD BE ENSURED THAT THE DEPOSITORY ACCOUNT IS ALSO HELD IN THE SAME JOINT NAMES AND ARE IN THE SAME SEQUENCE IN WHICH THEY APPEAR IN THE BID CUM APPLICATION FORM.

These Demographic Details would be used for all correspondence with the Bidders including mailing of the CANs and printing of Bank particulars on the refund orders or for refunds through electronic transfer of funds, as applicable. The Demographic Details given by Bidders in the Bid cum Application Form would not be used for any other purpose by the Registrar to the Issue.

By signing the Bid cum Application Form, the Bidder would be deemed to have authorised the depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records.

Refund Orders/CANs/Allotment advice would be mailed at the address of the Bidder as per the Demographic Details received from the Depositories. Bidders may note that delivery of refund orders/CANs may get delayed if the same once sent to the address obtained from the depositories are returned undelivered. In such an event, the address and other details given by the Bidder in the Bid cum Application Form would be used only to ensure dispatch of refund orders. Please note that any such delay shall be at the Bidder's sole risk and neither the Company, Escrow Collection Banks, the Lead Managers shall be liable to compensate the Bidder for any losses caused to the Bidder due to any such delay or liable to pay any interest for such delay.

Bidders may note that in case the DP ID, Client ID and PAN mentioned in the Bid cum Application Form and entered into the electronic bidding system of the Stock Exchanges by the Syndicate do not match with the DP ID, Client ID and PAN available in the Depository's database, the application is liable to be rejected.

The Company in their absolute discretion, reserve the right to permit the holder of the power of attorney to request the Registrar to the Issue that for the purpose of printing particulars on the refund order and mailing of the refund order/CANs/allocation advice or refunds through electronic transfer of funds, the Demographic Details given on the Bid cum Application Form should be used (and not those obtained from the Depository of the Bidder). In such cases, the Registrar to the Issue shall use Demographic Details as given in the Bid cum Application Form instead of those obtained from the depositories.

Bids by Non Residents including NRIs, FIIs and Foreign Venture Capital Funds registered with SEBI on a repatriation basis

4. Bids and revision to Bids must be made in the following manner:
 1. On the Bid cum Application Form or the Revision Form, as applicable ([•] in colour), and completed in full in BLOCK LETTERS in ENGLISH in accordance with the instructions contained therein.
 2. In a single name or joint names (not more than three and in the same order as their Depository Participant Details).

3. Bids on a repatriation basis shall be in the names of individuals, or in the name of FIIs but not in the names of minors, OCBs, firms or partnerships, foreign nationals (excluding NRIs) or their nominees.

Bids by Eligible NRIs for a Bid Amount of up to ₹ 200,000 would be considered under the Retail Portion for the purposes of allocation and Bids for a Bid Amount of more than ₹ 200,000 would be considered under Non-Institutional Portion for the purposes of allocation.

Refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and/or commission. In case of Bidders who remit money through Indian Rupee drafts purchased abroad, such payments in Indian Rupees will be converted into US Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and will be dispatched by registered post or if the Bidders so desire, will be credited to their NRE accounts, details of which should be furnished in the space provided for this purpose in the Bid cum Application Form. The Company will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

As per the existing policy of the Government of India, OCBs are not permitted to participate in the Issue.

There is no reservation for Eligible NRIs and FIIs and such applicants will be treated on the same basis with other categories for the purpose of allocation.

Bids under Power of Attorney

In case of Bids (including ASBA Bids) made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, FIIs, Mutual Funds, insurance companies and provident funds with minimum corpus of ₹ 250 million (subject to applicable law) and pension funds with a minimum corpus of ₹ 250 million a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason therefore.

In addition to the above, certain additional documents are required to be submitted by the following entities:

1. With respect to Bids by FIIs and Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form.
2. With respect to Bids by insurance companies registered with the Insurance Regulatory and Development Authority, in addition to the above, a certified copy of the certificate of registration issued by the Insurance Regulatory and Development Authority must be lodged along with the Bid cum Application Form.
3. With respect to Bids made by provident funds with a minimum corpus of ₹ 250 million (subject to applicable law) and pension funds with a minimum corpus of ₹ 250 million, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be lodged along with the Bid cum Application Form.

The Company, in its absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application form, subject to such terms and conditions that our Company and the Lead Managers may deem fit.

PAYMENT INSTRUCTIONS

Escrow Mechanism for Bidders other than ASBA Bidders

The Company and the Syndicate shall open Escrow Accounts with one or more Escrow Collection Bank(s) in whose favor the Bidders shall make out the cheque or demand draft in respect of his or her Bid and/or revision of the Bid. Cheques or demand drafts received for the full Bid Amount from Bidders in a certain category would be deposited in the Escrow Account.

The Escrow Collection Banks will act in terms of the Red Herring Prospectus and the Escrow Agreement. The Escrow Collection Banks shall maintain the monies in the Escrow Account until the Designated Date for and on behalf of the Bidders. The Escrow Collection Banks shall not exercise any lien whatsoever over the monies deposited therein and shall hold the monies therein in trust for the Bidders. On the

Designated Date, the Escrow Collection Banks shall transfer the funds represented by allocation of Equity Shares (other than ASBA funds with the SCSBs) from the Escrow Account, as per the terms of the Escrow Agreement, into the Public Issue Account with the Public Issue Account Bank. The balance amount after transfer to the Public Issue Account shall be transferred to the Refund Account. Payments of refund to the Bidders shall also be made from the Refund Account as per the terms of the Escrow Agreement and the Red Herring Prospectus.

The Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Banks and the Registrar to the Issue to facilitate collections from the Bidders.

Payment mechanism for ASBA Bidders

The ASBA Bidders shall specify the bank account number in the ASBA Bid cum Application Form and the SCSB shall block an amount equivalent to the Bid Amount in the bank account specified in the Bid cum Application Form. The SCSB shall keep the Bid Amount in the relevant bank account blocked until withdrawal/rejection of the ASBA Bid or receipt of instructions from the Registrar to unblock the Bid Amount. In the event of withdrawal or rejection of Bid cum Application Form or for unsuccessful Bid cum Application Forms, the Registrar shall give instructions to the SCSB to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Bid Amount shall remain blocked in the ASBA Account until finalisation of the Basis of Allotment in the Issue and consequent transfer of the Bid Amount to the Public Issue Account, or until withdrawal/failure of the Issue or until rejection of the ASBA Bid, as the case may be.

Payment into Escrow Account for Bidders other than ASBA Bidders

Each Bidder, shall pay the entire Bid Amount with the submission of the Bid cum Application Form, draw a cheque or demand draft in favor of the Escrow Accounts of the Escrow Collection Bank(s) and submit such cheque or demand draft to the member of the Syndicate to whom the Bid is being submitted. 9. Payments should be made by cheque, or demand draft drawn on any Bank (including a Co-operative Bank), which is situated at, and is a member of or sub-member of the bankers' clearing house located at the centre where the Bid cum Application Form is submitted. Outstation cheques/bank drafts drawn on banks not participating in the clearing process will not be accepted and applications accompanied by such cheques or bank drafts are liable to be rejected.

Payment by cash/stockinvest/money order/postal orders

Payment through cash/stockinvest/money order/postal order shall not be accepted in this Issue.

Submission of Bid cum Application Form

All Bid cum Application Forms or Revision Forms duly completed and accompanied by account payee cheques or drafts shall be submitted to the members of the Syndicate at the time of submission of the Bid. With respect to ASBA Bidders, the ASBA Bid cum Application Form or the ASBA Revision Form shall be submitted to the Designated Branches.

No separate receipts shall be issued for the money payable on the submission of Bid cum Application Form or Revision Form. However, the collection centre of the members of the Syndicate will acknowledge the receipt of the Bid cum Application Forms or Revision Forms by stamping and returning to the Bidder the acknowledgement slip. This acknowledgement slip will serve as the duplicate of the Bid cum Application Form for the records of the Bidder.

OTHER INSTRUCTIONS

Joint Bids in the case of Individuals

Bids may be made in single or joint names (not more than three). In the case of joint Bids, all payments will be made out in favor of the Bidder whose name appears first in the Bid cum Application Form or Revision Form. All communications will be addressed to the First Bidder and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Bids

A Bidder should submit only one Bid (and not more than one) for the total number of Equity Shares required. Two or more Bids will be deemed to be multiple Bids if the sole or First Bidder is one and the same.

In case of a mutual fund, a separate Bid can be made in respect of each scheme of the mutual fund registered with SEBI and such Bids in respect of more than one scheme of the mutual fund will not be treated as multiple Bids **provided that** the Bids clearly indicate the scheme concerned for which the Bid has been made. Bids by QIBs under the Anchor Investor Portion and QIB Portion (excluding Anchor Investor Portion) will not be considered as multiple Bids.

After Bidding on an ASBA Bid cum Application Form either in physical or electronic mode, where such ASBA Bid has been submitted to the Designated Branches of SCSBs and uploaded with the Stock Exchanges, an ASBA Bidder cannot Bid, either in physical or electronic mode, on another ASBA Bid cum Application Form or a Bid cum Application Form. Submission of a second application form, whether an ASBA Bid cum Application Form, to either the same or to another Designated Branch of the SCSB, or a Bid cum Application Form to the members of the Syndicate, will be treated as multiple Bids and will be liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the ASBA Bidder can revise the Bid through the Revision Form, the procedure for which is detailed in "*Build-up of the Book and Revision of Bids*" on page 404 above.

More than one ASBA Bidder may Bid for Equity Shares using the same ASBA Account, provided that the SCSBs shall not accept a total of more than five ASBA Bid cum Application Forms from such ASBA Bidders with respect to any single ASBA Account.

Bids made by Eligible Employees both under the Employee Reservation Portion as well as in the Net Issue shall not be treated as multiple Bids.

- Bid by an L&T Shareholder in L&T Shareholders Reservation Portion and in the "Net Issue" portion shall not be treated as multiple bids. Further, Bids by an L&T Shareholder in L&T Shareholders Reservation Portion and in the Employee Reservation Portion shall not be treated as multiple bids.
- The Company reserves the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories. In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:
 1. All Bids will be checked for common PAN and will be accumulated and taken to a separate process file which would serve as a multiple master.
 2. In this master, a check will be carried out for the same PAN. In cases where the PAN is different, the same will be deleted from this master.
 3. The Registrar to the Issue will obtain, from the depositories, details of the applicant's address based on the DP ID and Beneficiary Account Number provided in the Bid cum Application Form and create an address master.
 4. The addresses of all the applications in the multiple master will be strung from the address master. This involves putting the addresses in a single line after deleting non-alpha and non-numeric characters i.e. commas, full stops, hash, etc. Sometimes, the name, the first line of address and pin code will be converted into a string for each application received and a photo match will be carried out amongst all the applications processed. A print-out of the addresses will be taken to check for common names. Applications with the same name and same address will be treated as multiple applications.
 5. The applications will be scrutinised for DP ID and Beneficiary Account Numbers. In case

applications bear the same DP ID and Beneficiary Account Numbers, these will be treated as multiple applications.

Permanent Account Number or PAN

The Bidders, or in the case of a Bid in joint names, each of the Bidders, should mention his/her Permanent Account Number (PAN) allotted under the Income Tax Act. In accordance with the SEBI ICDR Regulations, the PAN would be the sole identification number for participants transacting in the securities market, irrespective of the amount of transaction. **Any Bid cum Application Form without the PAN is liable to be rejected. It is to be specifically noted that Bidders should not submit the GIR number instead of the PAN as the Bid is liable to be rejected on this ground.**

REJECTION OF BIDS

Bids by persons prohibited from buying, selling or dealing in the shares directly or indirectly by SEBI or any other regulatory authority shall be rejected by our Company in consultation with the Lead Managers. In case of QIB Bidders, our Company in consultation with the Lead Managers may reject Bids **provided that** the reasons for rejecting such Bid shall be provided to such Bidder in writing. In case of Non-Institutional Bidders, Retail Individual Bidders, our Company has a right to reject Bids based on technical grounds. Consequent refunds shall be made by the modes of payment specified under the head "Payment of Refund" and will be sent to the Bidder's address at the Bidder's risk. With respect to ASBA Bids, the Designated Branches of the SCSBs shall have the right to reject ASBA Bids if at the time of blocking the Bid Amount in the Bidder's bank account, the respective Designated Branch ascertains that sufficient funds are not available in the Bidder's bank account maintained with the SCSB. Subsequent to the acceptance of the ASBA Bid by the SCSB, our Company would have a right to reject the ASBA Bids only on technical grounds.

Grounds for Technical Rejections

Bidders are advised to note that Bids are liable to be rejected *inter alia* on the following technical grounds by the Registrar to the Issue:

- Amount paid does not tally with the amount payable for the highest value of Equity Shares bid for. With respect to ASBA Bids, the amounts mentioned in the ASBA Bid cum Application Form does not tally with the amount payable for the value of the Equity Shares Bid for;
- In case of partnership firms, Equity Shares may be registered in the names of the individual partners and no firm as such shall be entitled to apply;
- GIR number furnished instead of PAN;
- Bids by Bidders whose demat accounts have been 'suspended for credit' pursuant to the circular issued by SEBI on July 29, 2010 bearing number CIR/MRD/DP/22/2010
- Bids for lower number of Equity Shares than specified for that category of investors;
- Bids at a price less than the lower end of the Price Band;
- In case of Bids for a higher number of Equity Shares than specified for that category of Bidder, only the maximum amount permissible for such category of Bidders will be considered for Allotment;
- Bids at a price more than the higher end of the Price Band;
- Submission of more than five ASBA Bid cum Application Forms per bank account;
- Bids at Cut-off Price by Non-Institutional and QIB Bidders.
- Bids for number of Equity Shares which are not in multiples of [•];
- Bids by persons who are not Eligible Employees and have submitted their Bids under the Employee Reservation Portion;
- Bids by persons who are not L&T Shareholders and have submitted their Bids under the L&T Shareholders Reservation Portion;

- Bids by L&T Shareholders submitted in the form for any other category including category for the Resident Indian and Eligible NRIs applying on a non-repatriation basis;
- Bids by any applicant under the wrong category of the application form;
- Multiple Bids as defined in the Red Herring Prospectus;
- In case of Bids under power of attorney or by limited companies, corporate, trust etc., relevant documents are not submitted;

Authorisation for blocking funds in the ASBA Account not ticked or provided

- Where PAN details are not as per the data in the demat accounts
- Bids by OCBs
- Bids by any person outside India if not in compliance with applicable foreign and Indian Laws; and
- Bids not uploaded on the terminals of the Stock Exchanges.

For Bid cum Application Forms from non-ASBA Bidders, the basis of allotment will be based on the Registrar's validation of the electronic bid details with the depository records, and the complete reconciliation of the final certificates received from the Escrow Collection Banks with the electronic bid details in terms of the SEBI circular CIR/CFD/DIL/3/2010 dated April 22, 2010. The Registrar to the Issue will undertake technical rejections based on the electronic bid details and the depository database. In case of any discrepancy between the electronic Bid data and the depository records, the Issuer reserves the right to proceed as per the depository records or treat such Bid as rejected.

In terms of the SEBI circular CIR/CFD/DIL/3/2010 dated April 22, 2010, for ASBA Bid cum Application Forms, the Registrar to the Issue will reconcile the compiled data received from the stock exchanges and all SCSBs, and match the same with the depository database for correctness of DP ID, BENEFICIARY ACCOUNT NUMBER ("BAN") and PAN. In cases where any DP ID, BAN and PAN mentioned in the Bid file for an ASBA Bidder does not match the one available in the depository database the Issuer reserves the right to proceed as per the depository records on, such ASBA Bids or treat such ASBA Bids as rejected. The Registrar to the Issue will reject multiple ASBA Bids based on common PAN.

DEMATERIALIZED FORM WITH NSDL OR CDSL

As per the provisions of Section 68B of the Companies Act, the Allotment of Equity Shares in this Issue shall be only in a de-materialised form, (i.e., not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode).

In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated September 15, 2010 between NSDL, our Company and the Sharepro Services (India) Private Limited ;
- Agreement dated September 17, 2010 between CDSL, our Company and the Sharepro Services (India) Private Limited.

All Bidders can seek Allotment only in dematerialised mode. Bids from any Bidder without relevant details of his or her depository account are liable to be rejected.

1. A Bidder applying for Equity Shares must have at least one beneficiary account with either of the Depository Participants of either NSDL or CDSL prior to making the Bid.
2. The Bidder must necessarily fill in the details (including the Beneficiary Account Number and Depository Participant's identification number) appearing in the Bid cum Application Form or Revision Form.
3. Allotment to a successful Bidder will be credited in electronic form directly to the beneficiary account (with the Depository Participant) of the Bidder
4. Names in the Bid cum Application Form or Revision Form should be identical to those appearing in the account details in the Depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the Depository.
5. If incomplete or incorrect details are given under the heading 'Bidder's, PAN Depository Account and Bank Account Details' in the Bid cum Application Form or Revision Form, it is liable to be rejected.
6. The Bidder is responsible for the correctness of his or her Demographic Details given in the Bid cum Application Form vis-à-vis those with his or her Depository Participant.
7. Equity Shares in electronic form can be traded only on the stock exchanges having electronic connectivity with NSDL and CDSL. All the Stock Exchanges where the Equity Shares are proposed to be listed have electronic connectivity with CDSL and NSDL.
8. The trading of the Equity Shares of our Company would be in dematerialised form only for all investors in the demat segment of the respective Stock Exchanges.

Communications

All future communications in connection with Bids made in this Issue should be addressed to the Registrar to the Issue quoting the full name of the sole or First Bidder, Bid cum Application Form number, Bidders Depository Account Details, number of Equity Shares applied for, date of bid form, name and address of the member of the Syndicate or the Designated Branch where the Bid was submitted and cheque or draft number and issuing bank thereof or with respect to ASBA Bids, bank account number in which the amount equivalent to the Bid Amount was blocked.

Investors can contact the Compliance Officer or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of letters of Allotment, credit of Allotted shares in the respective beneficiary accounts, refund orders etc.

All grievances relating to ASBA may be addressed to the Registrar to the Issue, with a copy to the SCSBs, giving full details such as name, address of the applicant, number of Equity Shares applied for, Bid Amount blocked, ASBA Account number and the Designated Branch where the ASBA Bid-cum-Application Form was submitted.

PAYMENT OF REFUND

Bidders other than ASBA Bidders must note that on the basis of Depository Participant's identification number, client identification number and PAN provided by them in the Bid cum Application Form, the

Registrar to the Issue will obtain, from the Depositories, the Bidders' bank account details, including the nine digit Magnetic Ink Character Recognition ("MICR") code as appearing on a cheque leaf. Hence Bidders are advised to immediately update their bank account details as appearing on the records of the Depository Participant. Please note that failure to do so could result in delays in despatch of refund order or refunds through electronic transfer of funds, as applicable, and any such delay shall be at the Bidders' sole risk and neither our Company, the Registrar to the Issue, Escrow Collection Bank(s), Refund Banks, Public Issue Account Bank nor the Lead Managers shall be liable to compensate the Bidders for any losses caused to the Bidder due to any such delay or liable to pay any interest for such delay. Bidders may note that in case the Depository Participant's identification number, client identification number and PAN mentioned in the Bid-cum-Application Form and entered into the electronic Bidding system of the Stock Exchanges by the Syndicate do not match with the Depository Participant's identification number, client identification number and PAN available in the Depository's database, the Bid is liable to be rejected.

Mode of making refunds

6. The payment of refund, if any, for Bidders other than ASBA Bidders would be done through any of the various modes available, as follows:
 1. NECS – Payment of refund would be done through NECS for applicants having an account at any of the centres where such facility has been made available. This mode of payment of refunds would be subject to availability of complete bank account details including the MICR code as appearing on a cheque leaf, from the Depositories. The payment of refunds is mandatory for applicants having a bank account at any of the abovementioned centres, except where the applicant, being eligible, opts to receive refund through direct credit or RTGS.
 2. Direct Credit – Applicants having bank accounts with the Refund Bank (s), as mentioned in the Bid cum Application Form, shall be eligible to receive refunds through direct credit. Charges, if any, levied by the Refund Bank(s) for the same would be borne by our Company.
 3. RTGS – Applicants having a bank account at any of the abovementioned centres and whose refund amount exceeds ₹ 0.2 million, have the option to receive refund through RTGS. Such eligible applicants who indicate their preference to receive refund through RTGS are required to provide the IFSC code in the Bid cum Application Form. In the event the same is not provided, refund shall be made through NECS. Charges, if any, levied by the Refund Bank(s) for the same would be borne by our Company. Charges, if any, levied by the applicant's bank receiving the credit would be borne by the applicant.
 4. NEFT – Payment of refund shall be undertaken through NEFT wherever the applicants' bank has been assigned the Indian Financial System Code (IFSC), which can be linked to a Magnetic Ink Character Recognition (MICR), if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the applicants have registered their nine digit MICR number and their bank account number while opening and operating the demat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of refund will be made to the applicants through this method. The process flow in respect of refunds by way of NEFT is at an evolving stage and hence use of NEFT is subject to operational feasibility, cost and process efficiency. The process flow in respect of refunds by way of NEFT is at an evolving stage, hence use of NEFT is subject to operational feasibility, cost and process efficiency. In the event that NEFT is not operationally feasible, the payment of refunds would be made through any one of the other modes as discussed in the sections.
 5. For all other applicants, including those who have not updated their bank particulars with the MICR code, the refund orders will be despatched through Speed Post/Registered Post. Such refunds will be made by cheques, pay orders or demand drafts drawn on the Escrow Collection Banks and payable at par at places where Bids are received. Bank charges, if any, for cashing such cheques, pay orders or demand drafts at other centres will be payable by the Bidders.
 6. In case of ASBA Bidders, the Registrar to the Issue shall instruct the relevant SCSB to unblock the funds in the relevant ASBA Account to the extent of the Bid Amount specified in the ASBA Bid cum Application Forms for withdrawn, rejected or unsuccessful or partially successful ASBA Bids within 12 Working Days of the Bid/Issue Closing Date.

DISPOSAL OF APPLICATIONS AND APPLICATION MONEYS AND INTEREST IN CASE OF DELAY

Method of Proportionate Basis of Allotment in the Issue

In the event of the Issue being over-subscribed, our Company shall finalise the basis of Allotment in consultation with the Designated Stock Exchange. The Executive Director (or any other senior official nominated by them) of the Designated Stock Exchange along with the Lead Managers and the Registrar to the Issue shall be responsible for ensuring that the basis of Allotment is finalised in a fair and proper manner.

The Allotment shall be made in marketable lots, on a proportionate basis as explained below:

1. Bidders will be categorised according to the number of Equity Shares applied for.
2. The total number of Equity Shares to be Allotted to each category as a whole shall be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio.
3. Number of Equity Shares to be Allotted to the successful Bidders will be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio.
4. In all Bids where the proportionate Allotment is less than [•] Equity Shares per Bidder, the Allotment shall be made as follows:
 - The successful Bidders out of the total Bidders for a category shall be determined by draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and
 - Each successful Bidder shall be Allotted a minimum of [•] Equity Shares.
5. If the proportionate Allotment to a Bidder is a number that is more than [•] but is not a multiple of one (which is the marketable lot), the decimal would be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it would be rounded off to the lower whole number. Allotment to all in such categories would be arrived at after such rounding off.
6. If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment shall be first adjusted against any other category where the Allotted shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment will be added to the category comprising Bidders applying for

minimum number of Equity Shares.

7. Subject to valid Bids being received, allocation of Equity Shares to Anchor Investors shall be at the sole discretion of our Company in consultation with the Lead Managers. Further, please note that Bids by NRIs, FIIs and Foreign Venture Capital Investors shall be in accordance with the FIPB approval dated December 16, 2010, which permits eligible non-resident investors *i.e.* FIIs, NRIs, FVCIs registered with SEBI, multilateral and bilateral development financial institutions and other eligible non-resident investors to participate in this Issue to the extent of 20% of the post Issue paid-up Equity Share capital of our Company and subject to the inflow of FDI pursuant to the Issue being less than ₹ 10,000 million. In the event our Company undertakes the Pre-IPO Placement in favour of any non-resident investor, our Company shall seek the requisite approval of the FIPB.

7. Please note:

1. The illustration presumes compliance with the requirements specified in the section titled "*Issue Structure*" on page 389 of this Draft Red Herring Prospectus.
2. Out of 70 million equity shares allocated to QIBs, 3.50 million (i.e. 5%) will be allocated on proportionate basis among five Mutual Fund applicants who applied for 200 million equity shares in QIB category.
3. The balance 66.5 million equity shares (i.e. 70 – 3.5 (available for MFs)) will be allocated on proportionate basis among 10 QIB applicants who applied for 500 million equity shares (including five MF applicants who applied for 200 million equity shares).
4. The figures in the fourth column titled "*Allocation of balance 66.5 million Equity Shares to QIBs proportionately*" in the above illustration are arrived as under:
 - For QIBs other than Mutual Funds (A1 to A5) = No. of shares bid for (i.e. in column II) X 66.5/496.5.
 - For Mutual Funds (MF1 to MF5) = [(No. of shares bid for (i.e. in column II of the table above) less Equity Shares allotted (i.e., column III of the table above)] X 66.5/496.5.
 - The numerator and denominator for arriving at allocation of 66.5 million shares to the 10 QIBs are reduced by 3.5 million shares, which have already been allotted to Mutual Funds in the manner specified in column III of the table above.

Letters of Allotment or Refund Orders or instructions to the SCSBs

The Company shall give credit to the beneficiary account with depository participants within 12 Working Days from the Bid/Issue Closing Date. Applicants residing at the centres where clearing houses are managed by the RBI, will get refunds through NECS only except where applicant is otherwise disclosed as eligible to get refunds through direct credit and RTGS. The Company shall ensure dispatch of refund orders, if any, by registered post or speed post at the sole or First Bidder's sole risk within 12 Working Days of the Bid/Issue Closing Date. Bidders to whom refunds are made through electronic transfer of funds will be sent a letter through ordinary post, intimating them about the mode of credit of refund within 12 Working Days of the Bid/Issue Closing Date. In case of ASBA Bidders, the Registrar to the Issue shall instruct the relevant SCSBs to unblock the funds in the relevant ASBA Account to the extent of the Bid Amount specified in the ASBA Bid cum Application Forms for withdrawn, rejected or unsuccessful or partially successful ASBA Bids within 12 Working Days of the Bid/Issue Closing Date.

Interest in case of delay in despatch of Allotment Letters or Refund Orders/ instruction to the SCSBs by the Registrar to the Issue.

The Company agrees that (i) Allotment of Equity Shares; and (ii) credit to the successful Bidders' depositary accounts will be completed within 12 Working Days of the Bid/ Issue Closing Date. The Company further agrees that it shall pay interest at the rate of 15% p.a. if the Allotment letters or refund orders have not been despatched to the applicants or if, in a case where the refund or portion thereof is made in electronic manner, the refund instructions have not been given in the disclosed manner within 15 days from the Bid/ Issue Closing Date.

The Company will provide adequate funds required for dispatch of refund orders or Allotment advice to the Registrar to the Issue.

Refunds will be made by cheques, pay-orders or demand drafts drawn on a bank appointed by our Company as a Refund Bank and payable at par at places where Bids are received. Bank charges, if any, for encashing such cheques, pay orders or demand drafts at other centres will be payable by the Bidders.

UNDERTAKINGS BY THE COMPANY

The Company undertakes the following:

- That the complaints received in respect of this Issue shall be attended to by our Company expeditiously and satisfactorily;
- That all steps for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed within four Working Days of finalisation of the basis of Allotment;
- That funds required for making refunds to unsuccessful applicants as per the mode(s) disclosed shall be made available to the Registrar to the Issue by the Issuer;
- That where refunds are made through electronic transfer of funds, a suitable communication shall be sent to the applicant within 12 working days of the Bid/Issue Closing Date, as the case may be, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund;
- That the Promoters' contribution in full has already been brought in;
- That the certificates of the securities/refund orders to the non-resident Indians shall be despatched within specified time;
- That, other than as disclosed in this Draft Red Herring Prospectus, no further issue of Equity Shares shall be made until the Equity Shares offered through the Red Herring Prospectus are listed or until the Bid monies are refunded on account of non-listing, under subscription etc.; and
- That adequate arrangements shall be made to collect all Applications Supported by Blocked Amount and to consider them similar to non-ASBA applications while finalizing the basis of Allotment.

The Company shall not have recourse to the Issue proceeds until the approval for trading of the Equity Shares from all the Stock Exchanges where listing is sought has been received.

Withdrawal of the Issue

The Company, in consultation with the Lead Managers, reserves the right not to proceed with the Issue anytime after the Bid/Issue Opening Date but before the Allotment of Equity Shares. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published within two days of the Bid/Issue Closing Date providing reasons for not proceeding with the Issue. The Company shall also inform the same to Stock Exchanges on which the Equity Shares are proposed to be listed.

If our Company withdraws the Issue after the Bid/Issue Closing Date and thereafter determines that it will proceed with an initial public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI. Notwithstanding the foregoing, the Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the Registrar of Companies.

Any further issue of Equity Shares by our Company shall be in compliance with applicable laws.

Utilisation of Issue proceeds

The Board of Directors certify that:

- All monies received out of the Issue shall be credited/transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 73 of the Companies Act;
- Details of all monies utilised out of Issue shall be disclosed, and continue to be disclosed until the time any part of the issue proceeds remains unutilised, under an appropriate head in our balance sheet indicating the purpose for which such monies have been utilised;

- the utilisation of monies received under Promoters' contribution and from reservations shall be disclosed, and continue to be disclosed until the time any part of the Issue proceeds remains unutilised, under an appropriate head in the balance sheet of our Company indicating the purpose for which such monies have been utilised; and
- the details of all unutilised monies out of the funds received under Promoters' contribution and from reservations shall be disclosed under a separate head in the balance sheet of the issuer indicating the form in which such unutilised monies have been invested.

ANCHOR INVESTOR PORTION

The Company may consider participation by Anchor Investors in the Issue for up to [•] Equity Shares in accordance with the SEBI ICDR Regulations. In accordance with the SEBI ICDR Regulations, only QIBs can participate in the Anchor Investor Portion. Bidding in the Anchor Investor Portion shall open and close on the Anchor Investor Bidding Date, i.e., one (1) day prior to the Bid/Issue Opening Date. The QIB Portion shall be reduced in proportion to the allocation under the Anchor Investor Portion. In accordance with the SEBI ICDR Regulations, the key terms for participation in the Anchor Investor Portion are as follows:

- a. Anchor Investors shall be QIBs as defined under the SEBI ICDR Regulations.
5. The Bid must be for a minimum of such number of Equity Shares such that the Bid Amount is at least ₹ 100 million and in multiples of [•] Equity Shares thereafter. A Bid cannot be submitted for more than 30% of the QIB Portion. In case of a Mutual Fund registered with SEBI, separate Bids by individual schemes of Mutual Funds will be aggregated to determine the minimum application size of ₹ 100 million.
6. One-third of the Anchor Investor Portion shall be reserved for allocation to domestic mutual funds.
7. The Bidding for Anchor Investors shall open one (1) day before the Bid/Issue Opening Date and shall be completed on the same day.
8. The Company, in consultation with the Lead Managers, shall finalize allocation to the Anchor Investors on a discretionary basis, subject to allocation to a minimum of two (2) investors for allocation up to ₹ 2,500 million and five (5) investors for allocation of more than ₹ 2,500 million.
9. Allocation to the Anchor Investors shall be completed on the Anchor Investor Bidding Date. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation is made, shall be made available in public domain by the Lead Managers before the Bid/Issue Opening Date.
10. Anchor Investors shall pay the entire Bid Amount at the time of submission of the Bid. Anchor Investors cannot withdraw their Bids after the Anchor Investor Bidding Date.
11. If the Issue Price is greater than the Anchor Investor Issue Price, the additional amount being the difference between the Issue Price and the Anchor Investor Issue Price shall be paid by the Anchor Investors. If the Issue Price is lower than the Anchor Investor Issue Price, the Allotment to Anchor Investors shall be at the Anchor Investor Issue Price.
12. The Equity Shares Allotted in the Anchor Investor Portion shall be locked-in for a period of 30 days

from the date of Allotment in the Issue.

13. None of the Lead Managers or any person related to the Lead Managers, the Promoter or the Promoter Group shall participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors shall be clearly identified by the Lead Managers and shall be available as part of the records of the Lead Managers for inspection by SEBI.
14. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
15. The payment instruments for payment into the Escrow Account should be drawn in favor of:
 - In case of Resident Anchor Investors: "[●]"
 - In case of Non-Resident Anchor Investors: "[●]"
16. Anchor Investors are advised that the above information should be read together with the contents of this section "*Issue Procedure*" on page 393 of this Draft Red Herring Prospectus.

Reduction of capital

Article 69 provides that "The Company may from time to time by Special Resolution reduce its share capital in any way authorised by law and in particular may pay off any paid up share capital upon the footing that it may be called up again or otherwise and may if and so far as is necessary alter its Memorandum by reducing the amount of its share capital and of its shares accordingly."

Consolidation, division and sub-division of shares.

Article 70 provides that "The Company may in general meeting alter the conditions of its Memorandum as follows :-

1. Consolidate and divide all or any of its share capital into shares of larger amounts than its existing shares.
2. Sub-divide its shares or any of them into shares of smaller amounts than originally fixed by the Memorandum subject nevertheless to the provisions of the Act and of these Articles.
3. Cancel shares which at the date of such general meeting have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled."

Buyback of shares

Article 68 provides that "Notwithstanding anything contained in these Articles, in the event it is permitted by law for a company to purchase its own shares or securities, the Board of Directors may, when and if thought fit, buy back such of the Company's own shares or securities as it may think necessary, subject to such limits, upon such terms and conditions, and subject to such approvals, as may be permitted by law."

Issue of Shares with differential voting rights

Article 5 provides that "In the event it is permitted by the Law to issue shares with non-voting rights attached to them, the Directors may issue such shares upon such terms and conditions and with such rights and privileges annexed thereto as thought fit and as may be permitted by law."

Modification of rights

Article 72 provides that "If at any time the share capital by reason of the issue of Preference Shares or otherwise, is divided into different classes of shares, all or any of the rights and privileges attached to each class may, subject to the provisions of Sections 106 and 107 of the Act, and whether or not the Company is being wound up, be varied, modified, abrogated or dealt with, with the consent in writing of the holders of not less than three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the issued shares of that class and all the provisions contained in these Articles as to general meetings (including the provisions relating to quorum at such meetings) shall *mutatis mutandis* apply to every such meeting. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly prohibited by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* therewith."

Board of Directors to make calls

Article 19 provides that "The Board of Directors may from time to time, but subject to the conditions hereinafter mentioned, make such calls as they think fit upon the members in respect of all moneys unpaid on the shares held by them respectively and not by the conditions of allotment thereof made payable at fixed times and each member shall pay the amount of every call so made on him to the Company or where payable to a person other than the Company to the person and at the time or times appointed by the Directors. A call may be made payable by instalments."

Article 73(b) provides that "The joint-holders of any share shall be liable severally as well as jointly for and in respect of all calls and other payments which ought to be made in respect of such share."

Calls to carry interest

Article 25 provides that "If the sum payable in respect of any call or instalment be not paid on or before the day appointed for payment thereof, the holder for the time being or allottee of the share in respect of which a call shall have been made or the instalment shall be due shall pay interest on the same at such rate of interest as may be determined by the Directors from time to time from the day appointed for the payment thereof to the time of actual payment but the Directors may waive payment of such interest wholly or in part."

Voluntary advances of uncalled share capital

Article 28 provides that "The Directors may, if they think fit, subject to the provisions of section 92 of the Act, agree to and receive from any member willing to advance the same, whole or any part of the moneys due upon the shares held by him beyond the sums actually called for; and upon the moneys so paid or satisfied in advance or so much thereof as from time to time exceeds the amount of the calls then made upon the shares in respect of which such advance has been made upon the Company may pay interest at such rate as the member paying such sum in advance and the Directors agree upon provided that the money paid in advance of calls shall not confer a right to participate in profits or dividend. The Directors

may at any time repay the amount so advanced."

The members shall not be entitled to any voting rights in respect of the moneys so paid by him until the same would but for such payment, become presently payable.

The provision of these Articles shall *mutatis mutandis* apply to the calls on debentures of the Company member three months' notice in writing.

Calls to date from resolution

Article 22 provides that "A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as shall be fixed by the Directors."

Forfeiture of shares

Article 29 provides that "If any member fails to pay the whole or any part of any call or instalment or any money due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same the Directors may at any time thereafter during such time as the call or instalment or any part thereof or other moneys remain unpaid or a judgement or decree in respect thereof remains unsatisfied in whole or in part serve a notice on such member or on the person (if any) entitled to the share by transmission requiring him to pay such call or instalment or such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all expenses (legal or otherwise) that may have been incurred by the Company by reason of such non-payment."

Article 30 provides that "The notice shall name a day (not being less than 15 days from the date of the notice) on or before which such call instalment or such part or other moneys as aforesaid and such interest and expenses as aforesaid are to be paid and if payable to any person other than the Company the person to whom such payment is to be made. The notice shall also state that in the event of non-payment at or before the time and (if payable to any person other than the Company) to the person appointed the shares in respect of which the call was made or instalment is payable will be liable to be forfeited."

Article 33 provides that "Any share so forfeited shall be deemed to be the property of the Company and may be sold, re-allotted or otherwise disposed of either to the original holder thereof, or to any other person, upon such terms and in such manner as the Directors shall think fit."

Further, Article 34 provides that "The Directors may at any time before any share so forfeited shall have been sold, re-allotted or otherwise disposed of annul the forfeiture thereof upon such conditions as they think fit."

Liability to pay money owing at the time of forfeiture

Article 35 provides that "Any member whose shares have been forfeited shall, notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company all calls, instalments, interest expenses and other moneys owing upon or in respect of such shares at the time of the forfeiture together with interest thereon from the time of the forfeiture until payment at such rate of interest as may be determined by the Directors from time to time and the Directors may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture but shall not be under any obligation to do so."

Company's lien on shares

Article 36 provides that "The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect and such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien, if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this Article."

Sale of shares on which Company has lien

Article 37 provides that "For the purpose of enforcing such lien the Directors may sell the shares subject

thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person (if any) entitled by transmission to the shares and default shall have been made by him in payment, fulfilment or discharge of such debts, liabilities or engagements for seven days after such notice. To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof and the purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as aforesaid, the certificates in respect of the shares sold shall stand cancelled and become *null and void* and of no effect, and the Directors shall be entitled to issue a new certificate or certificates in lieu thereof to the purchaser or purchasers concerned."

Application of proceeds of sale

Article 38 provides that "The net proceeds of any such sale after payment of the costs of such sale shall be applied in or towards the satisfaction of the debts, liabilities or engagements of such member and the residue (if any) paid to such member or the person (if any) entitled by transmission to the shares so sold."

Transfer and Transmission of Shares

Form of transfer

Article 42 provides that "Subject to the provisions of Section 108 of the Act or any other applicable provisions, the shares in the Company shall be transferred by an instrument in writing in such form and by such procedure as may from time to time be prescribed by law. Subject thereto the Directors may prescribe a common form for instruments of transfer, which may from time to time be altered by the Directors.

Transfer not to be registered except on production of instrument of transfer

Article 45 provides that "The Company shall not register a transfer of shares in the Company unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupations, if any, of the transferee, has been delivered to the Company along with the certificate relating to the shares, or if no such share certificate is in existence, along with the letter of allotment of the shares; Provided that where, on an application in writing made to the Company by the transferee and bearing the stamp required for an instrument of transfer it is proved to the satisfaction of the Board of Directors that the instrument of transfer signed by or on behalf of the transferor and by or on behalf of the transferee has been lost, the Company may register the transfer on such terms as to indemnity as the Board may think fit; Provided further that nothing in this Article shall prejudice any power of the Company to register as shareholder any person to whom the right to any shares in the Company has been transmitted by operation of law."

Directors may refuse to register transfer

Article 46 provides that "Subject to the provisions of Section 111A of the Act, these Articles and other applicable provisions of the Act or any law for the time being in force, the Board may refuse whether in pursuance of any power of the company under these Articles or otherwise to register the transfer of or the transmission by operation of law of the right to, any shares of interest of a member in shares or debentures of the Company. The Company shall within one month from the date on which the instrument of transfer, or the limitation of such transmission, as the case may be, was delivered to the Company, send notice of the refusal to the transferee and the transferor or to the person giving limitation of such transmission, as the case may be, giving reasons for such refusal. Provided that the registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except where the Company has a lien on shares."

Article 55 provides that "No fee shall be charged for registration of transfer, transmission, probate, succession certificate and Letters of administration, Certificate of death or marriage, Power of Attorney or similar other document. "

Register of transfers

Article 41 provides that "The Company shall keep a book to be called the "Register of Transfers" and therein shall be fairly distinctly entered the particulars of every transfer or transmission of any share."

Title to share of deceased holder

Article 51 provides that "The executors or administrators or a holder of a Succession Certificate in respect

of the estate of a deceased member not being one of two or more joint holders shall be the only person whom the Company will be bound to recognise as having any title to the shares registered in the name of such member and the Company shall not be bound to recognise such executors or administrators unless such executors or administrators shall have first obtained Probate or Letters of Administration as the case may be, from a duly Constituted Court in India, provided that in any case where the Directors in their absolute discretion think fit, the Directors may dispense with production of Probate or Letters of Administration or Succession Certificate and under the next Article 52, register the name of any person who claims to be absolutely entitled to the shares standing in the name of a deceased member, as a member."

Article 52 provides that "Subject to the provisions of the Act and these Articles, any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy or insolvency of any member or by any lawful means other than by transfer in accordance with these presents, may, with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of his title as the Directors shall require either be registered as a member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as a member in respect of such shares; Provided nevertheless that if such person shall elect to have his nominee registered, he shall testify his election by executing in favor of his nominee an instrument of transfer in accordance with the provisions herein contained and until he does so he shall not be freed from any liability in respect of such shares. This Clause is herein referred to as the Transmission Clause."

Board may require evidence of transmission

Article 54 provides that "Every transmission of a share shall be verified in such manner as the Directors may require and the Company may refuse to register any such transmission until the same be so verified or until or unless an indemnity be given to the Company with regard to such registration which the Directors at their discretion shall consider sufficient, provided nevertheless that there shall not be any obligation on the Company or the Directors to accept any indemnity."

Borrowing Powers

Power of borrowing

Article 75 provides that "Subject to the provisions of the Act and these Articles and without prejudice to the other powers conferred by these Articles the Directors shall have the power from time to time at their discretion to borrow any sum or sums of money for the purposes of the Company provided that the total amount borrowed at any time together with the money already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in the ordinary course of business) shall not without the consent of the Company in General Meeting exceed the aggregate of the paid up capital of the Company and its free reserves that is to say reserves not set apart for any specific purpose."

Conditions on which money may be borrowed

Article 76 provides that "Subject to the provisions of the Act and these Articles the Directors may raise and secure the payment of such sum or sums in such manner and upon such terms and conditions in all respects as they think fit and in particular by the issue of bonds, perpetual or redeemable debentures or debenture-stock, or any mortgage or charge or other security on the undertaking or the whole or any part of the property of the Company (both present and future) including its uncalled capital for the time being."

General Meetings

How questions to be decided at meetings

Article 109 Provides that "Subject to the provisions of the Act and these Articles, votes may be given either personally or by an attorney or by proxy or in the case of a body corporate also by a representative duly authorised under Section 187 of the Act and the Articles."

Article 102 provides that "A poll demanded on any question (other than the election of the Chairman or on a question of adjournment which shall be taken forthwith) shall be taken at such place and at such time not being later than forty-eight hours from the time when the demand was made, as the Chairman may direct, subject to provisions of the Act the Chairman of the meeting shall have power to regulate the manner in which a poll shall be taken and the result of the poll shall be deemed to be the decision of the meeting on the resolution on which the poll was taken."

Article 110 (1) provides that "Subject to the provisions of the Act and these Articles upon show of hands every member entitled to vote and present in person (including a body corporate present by a representative duly authorised in accordance with the provisions of Section 187 of the Act and the Article 111 or by attorney or in the case of a body corporate by proxy shall have one vote."

Article 110(2) provides that "Subject to the provisions of the Act and these Articles upon a poll every member entitled to vote and present in person (including a body corporate present as aforesaid) or by attorney or by proxy shall be entitled to vote and in respect of every Share (whether fully paid or partly paid) his voting right shall be in the same proportion as the capital paid up on such Share bears to the total paid-up capital of the Company."

Business may proceed notwithstanding demand of poll

Article 104 provides that "The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded."

Objection to vote

Article 121 provides that "Subject to the provisions of the Act and these Articles, no objection shall be made to the validity of any vote except at the meeting or poll at which such vote shall be tendered and every vote whether given personally or by proxy or by any means hereby authorised and not disallowed at such meeting or poll shall be deemed valid for all purposes of such meeting or poll whatsoever."

Chairman to judge validity

Article 122 provides that "Subject to the provisions of the Act and these Articles, the Chairman of any meeting shall be the sole judge of the validity of every vote tendered at such meeting, and subject as aforesaid the Chairman present at the taking of a poll shall be the sole judge of the validity of every vote tendered at such poll."

Vote of Members

Article 109 provides that "Subject to the provisions of the Act and these Articles, votes may be given either personally or by an attorney or by proxy or in the case of a body corporate also by a representative duly authorised under Section 187 of the Act."

Motion how decided in case of equality of votes

Article 105 provides that "In the case of an equality of votes, whether on a show of hands or on a poll, the Chairman of the meeting at which the show of hands takes place, or at which the poll is demanded, shall be entitled to a casting vote in addition to his own vote or votes to which he may be entitled as a member."

Votes of Joint holders

Article 73 (f) provides that "Any one of two or more joint-holders may vote at any meeting either personally or by attorney duly authorised under a power of attorney or by proxy in respect of such share as if he were solely entitled thereto and if more than one of such joint-holders be present at any meeting personally or by proxy or by attorney then that one of such persons so present whose name stands first or higher (as the case may be) on the register in respect of such share shall alone be entitled to vote in respect thereof but the other or others of the joint-holders shall be entitled to be present at the meeting; Provided always that a joint-holder present at any meeting personally shall be entitled to vote in preference to a joint-holder present by an attorney duly authorised under power of attorney or by proxy although the name of such joint-holder present by an attorney or proxy stands first or higher in the register in respect of such shares. Several executors or administrators of a deceased member in whose (deceased member's) sole name any share stands shall for the purposes of this sub-clause be deemed joint-holders."

No member entitled to vote, etc. while call due to the Company

Article 113 provides that "Subject to the provisions of the Act no member shall be entitled to be present or to vote at any General Meeting either personally or by proxy or attorney or as a proxy or attorney for any other member or be reckoned in quorum whilst any call or other sum shall be due and payable to the Company in respect of any of the shares of such member."

Instrument appointing proxy to be in writing

Article 116 provides that "Every proxy shall be appointed by an instrument in writing signed by the appointor or his attorney duly authorised in writing, or, if the appointor is a body corporate, be under its seal or be signed by an officer or an attorney duly authorised by it."

Form of Proxy

Article 118 provides that "An instrument appointing a proxy shall be in the form as prescribed by the Act or a form as near thereto as circumstances admit."

Instrument appointing proxy to be deposited in office

Article 117 (1) provides that "The instrument appointing a proxy and the power of attorney or other authority, if any, under which it is signed or a notarially certified copy thereof shall be deposited at the office of the Company not less than forty-eight hours before the time of holding the meeting at which the person named in the instrument proposes to vote and in default the instrument of proxy shall not be treated as valid. No instrument appointing a proxy shall be valid after the expiration of twelve months from the date of its execution except in the case of adjournment of any meeting first held previously to the expiration of such time. An attorney shall not be entitled to vote unless the power of attorney or other instrument appointing him or notarially certified copy thereof has either been registered in the records of the Company at any time not less than forty-eight hours before the time for holding the meeting at which the attorney proposes to vote or is deposited at the office of the Company not less than forty-eight hours before the time fixed for such meeting as aforesaid. Notwithstanding that a power of attorney or other instrument appointing him or notarially certified copy thereof or other authority has been registered in the records of the Company, the Company may by notice in writing addressed to the member or the attorney given at least fourteen days before the meeting require him to produce the original power of attorney or authority and unless the same is thereon deposited with the Company not less than forty-eight hours before the time fixed for the meeting the attorney shall not be entitled to vote at such meeting unless the Directors in the absolute discretion excuse such non-production and deposit."

When vote by proxy valid though authority revoked

Article 120 provides that "A vote given in accordance with the terms of an instrument of proxy or a power of attorney shall be valid notwithstanding the previous death of the principal or revocation of the proxy or the power of attorney as the case may be or of the power of attorney under which such proxy was signed or the transfer of the share in respect of which the vote is given, provided that no intimation in writing of the death revocation or transfer shall have been received at the office of the Company before the meeting."

Number of Directors

Article 123 provides that "Until otherwise determined by a general meeting, the number of directors shall not be less than 3 or more than 12."

Appointment of Chairman

Article 156 (1) provides that "The Directors may elect a Chairman of their meetings and determine the period for which he is to hold office."

Article 156 (2) provides that "The Directors may appoint a Deputy Chairman or a Vice Chairman of the Board of Directors to preside at meetings of the Directors at which the Chairman shall not be present."

Dividend

Declaration of Dividend

Article 179 provides that "The profits of the Company subject to any special rights relating thereto created or authorised to be created by the Memorandum or these Articles and subject to the provisions of these Articles shall be divisible among the members in proportion to the amount of capital paid up on the shares held by them respectively.

Provided always that (subject as aforesaid) any capital paid up on a share during the period in respect of which a dividend is declared shall, unless the Directors otherwise determine, only entitle and shall be deemed always to have only entitled, the holder of such share to an apportioned amount of such dividend as from the date of payment."

Interim Dividend

Article 184 provides that "Subject to the provisions of the Act, the Directors may, from time to time, pay to the members such interim dividends as in their judgement the position of the Company justifies."

Capital paid up in advance at interest not to earn dividends

Article 180 provides that "Where capital is paid up in advance of calls upon the footing that the same shall carry interest, such capital shall not, whilst carrying interest, confer a right to participate in profits."

Article 181 provides that "All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such shares shall rank for dividend accordingly."

Dividends not to carry interest

Article 183 provides that "No larger dividend shall be declared than is recommended by the Directors but the Company in general meeting may declare a smaller dividend. No dividend shall be payable except out of the profits of the year or any other undistributed profits or otherwise than in accordance with the provisions of Sections 205, 206 and 207 of the Act and no dividend shall carry interest as against the Company. The declarations of the Directors as to the amount of the net profits of the Company shall be conclusive."

Debts may be deducted

Article 186 provides that "Subject to the provisions of the Act no member shall be entitled to receive payment of any interest or dividend in respect of his share or shares, whilst any money may be due or owing from him to the Company in respect of such share or shares otherwise howsoever either alone or jointly with any other person or persons; and the Directors may deduct from the interest or dividend payable to any member all sums of money so due from him to the Company."

Dividends, how remitted.

Article 188(a) provides that "Unless otherwise directed any dividend may be paid by cheque or warrant sent through post to the registered address of the member or person entitled, or in case of joint-holders to that one of them first named in the register in respect of the joint-holding. Every such cheque shall be made payable to the order of the person to whom it is sent. The Company shall not be liable or responsible for any cheque or warrant lost in transmission or for any dividend lost to the member or person entitled thereto by the forged endorsement of any cheque or warrant or the fraudulent or improper recovery thereof by any other means."

Capitalisation

Power to capitalise

Article 190 (1) provides that "Any general meeting may, upon the recommendation of the Board, resolve that any amounts standing to the credit of the securities premium account or the Capital Redemption Reserve Account or any moneys, investments or other assets forming part of the undivided profits (including profits or surplus moneys arising from the realisation and, where permitted by law, from the appreciation in value of any capital assets of the Company) standing to the credit of the General Reserve, Reserve or any Reserve Fund or any other Fund of the Company or in the hands of the Company and available for dividend be capitalised :-

1. by the issue and distribution as fully paid up, of shares and if and to the extent permitted by the Act, of debentures, debenture stock, bonds or other obligations of the Company, or
2. by crediting shares of the Company which may have been issued and are not fully paid up, with the whole or any part of the sum remaining unpaid thereon.

Provided that any amounts standing to the credit of the securities premium account or the Capital Redemption Reserve Account shall be applied only in crediting the payment of capital on shares of the Company to be issued to members (as herein provided) as fully paid bonus shares."

Article 190 (2) provides that "Such issue and distribution under (1)(a) above and such payment to credit to unpaid share capital under (1)(b) above shall be made to, among and in favor of the members or any

class of them or any of them entitled thereto and in accordance with their respective rights and interests and in proportion to the amount of capital paid up on the shares held by them respectively in respect of which such distribution under (1)(a) or payment under (1)(b) above shall be made on the footing that such members become entitled thereto as capital."

Article 190 (3) provides that "The Directors shall give effect to any such resolution and apply such portion of the profits, General Reserve, Reserve or Reserve Fund or any other Fund or account as aforesaid as may be required for the purpose of making payment in full for the shares, debentures or debenture-stocks, bonds or other obligations of the Company so distributed under (1)(a) above or (as the case may be) for the purpose of paying, in whole or in part, the amount remaining unpaid on the shares which may have been issued and are not fully paid up under (1)(b) above provided that no such distribution or payment shall be made unless recommended by the Directors and if so recommended such distribution and payment shall be accepted by such members as aforesaid in full satisfaction of their interest in the said capitalised sum."

Article 190 (4) provides that "For the purpose of giving effect to any such resolution the Directors may settle any difficulty which may arise in regard to the distribution or payment as aforesaid as they think expedient and in particular they may issue fractional certificates and may fix the value for distribution of any specific assets and may determine that cash payments be made to any members on the footing of the value so fixed and may vest any such cash, shares, debentures, debenture-stock, bonds or other obligations in trustees upon such trusts for the persons entitled thereto as may seem expedient to the Directors and generally may make such arrangement, for the acceptance, allotment and sale of such shares, debentures, debenture-stock, bonds or other obligations and fractional certificates or otherwise as they may think fit."

Article 190 (5) provides that "When deemed requisite a proper contract shall be filed in accordance with the Act and the Board may appoint any person to sign such contract on behalf of the members entitled as aforesaid and such appointment shall be effective."

Capitalisation in respect of partly paid up shares.

Article 191 provides that "Subject to the provisions of the Act and these Articles in cases where some of the shares of the Company are fully paid and others are partly paid, only such capitalisation may be effected by the distribution of further shares in respect of the fully paid shares, and by crediting the partly paid shares with the whole or part of the unpaid liability thereon but so that as between the holders of the fully paid shares, and the partly paid shares the sums so applied in the payment of such further shares and in the extinguishment or diminution of the liability on the partly paid shares shall be so applied *pro rata* in proportion to the amount then already paid or credited as paid on the existing fully paid and partly paid shares respectively."

Winding Up

Article 196 provides that "If the Company shall be wound up, and the assets available for distribution among the members as such shall be insufficient to repay the whole of the paid-up capital, such assets shall be distributed so that as nearly as may be, the losses shall be borne by the members in proportion to the capital paid-up, or which ought to have been paid-up, at the commencement of the winding up, on the shares held by them respectively. And if in a winding up the assets available for distribution among the members shall be more than sufficient to repay the whole of the capital paid-up at the commencement of the winding up, the excess shall be distributed amongst the members in proportion to the capital at the commencement of the winding up paid-up or which ought to have been paid-up on the shares held by them respectively. But this Article is to be without prejudice to the rights of the holders of shares issued upon special terms and conditions."

Article 197 (1) provides that "If the Company shall be wound up, whether voluntarily or otherwise, the liquidators may with the sanction of a special resolution, divide amongst the contributories, in specie or kind, any part of the assets of the Company and may, with the like sanction, vest any part of the assets of the Company in Trustees upon such trusts for the benefit of the contributories, or any of them, as the liquidators, with the like sanction shall think fit."

Article 197 (2) provides that "If thought expedient any such division may subject to the provisions of the Act be otherwise than in accordance with the legal rights of the contributories (except where unalterably fixed by the Memorandum of Association) and in particular any class may be given preferential or special rights or may be excluded altogether or in part but in case any division otherwise than in accordance with the legal rights of the contributories shall be determined on, any contributory who would be prejudiced thereby shall have a right to dissent and ancillary rights as if such determination were a special resolution

passed pursuant to Section 494 of the Act."

Article 197 (3) provides that "In case any shares to be divided as aforesaid involve a liability to calls or otherwise any person entitled under such division to any of the said shares may within ten days after the passing of the special resolution by notice in writing direct the liquidators to sell his proportion and pay him the net proceeds and the liquidators shall if practicable act accordingly."

Rights of shareholders in case of sale

Article 198 provides that "A special resolution sanctioning a sale to any other Company duly passed pursuant to Section 494 of the Act may subject to the provisions of the Act in like manner as aforesaid determine that any shares or other consideration receivable by the liquidators be distributed amongst the members otherwise than in accordance with their existing rights and any such determination shall be binding upon all the members subject to the rights of dissent and consequential rights conferred by the said section."
