SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all of the information in this DRHP, including the risk and uncertainties described below, before making an investment in our equity shares. If any of the following risk actually occurs, our business, results of our operations and financial condition could suffer, the trading price of our equity shares could decline, and you may lose all or part of your investment.

This DRHP also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this DRHP.

Unless specified or quantified in the relevant risk factors set forth below, our Company is not in a position to ascertain the financial and other implication of any of the other risks mentioned herein.

Materiality

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively;
3. Some events may not be material individually but may be found material collectively;
4. Some events may not be material at present but may be having material impact in future.

Internal Risk Factors

- 1. If we experience insufficient cash flows to meet required payments on working capital requirements, there may be an adverse effect on our results of operations.***

Working capital requirement in our business is relatively high because of the contractually agreed progressive lease payment schedules based on our MoU's with various companies from whom we have taken aircrafts and helicopters on dry and wet lease basis. We would rely on our ability to generate sufficient operating cash flows from our charter operations which are also partially run through agreements with clients for one to three years and partially through charter services on need basis in order to maintain the required cash flows for meeting these requirements.

Some of these MoU's have terms in which a minimum lease amount and a minimum base rate of flying is to be paid to the "Lessor" irrespective of whether the helicopter / aircraft was available for flying during the said period. Our inability to maintain the operational capacity and utilisation of our fleet, due to various factors including but not limited to fleet and equipment wear and tear, external exigencies, lack of demand due to economic downturns, new competitors and other related factors could entail us to incur indebtedness in order to maintain these regular cash flow requirements.

Continued increases in working capital cash flow requirements may also limit our ability to provide for capital expansion or pay dividends and hence have an adverse effect on our financial condition and results of operations.

- 2. The lease agreements entered into for Helicopters and Aircrafts operated on a dry lease basis have certain terms and conditions that expose us to certain inherent risks, which if experienced, could materially, adversely affect our results of operations and financial condition.***

We currently operate three helicopters and one aircraft taken on a dry lease basis from various parties valid for specific periods. However, as part of such agreements certain key responsibilities are entrusted on our company w.r.t helicopters and aircraft health and maintenance at the end of the lease agreement,

including but not limited to an irrevocable de-registration of the helicopter / aircraft from the Republic of India (which is acceptable to the lessor), an approved FAA (USA) certificate of fitness, rectification of damage, if any etc. In the event of any negative event including any of the above, the lessor shall have the right to perpetually withhold / forfeit the "Refundable Deposit" paid by us, extend the term of lease and expect the lease rentals until the completion of these key conditions, and or begin litigation proceedings against us at the home country of the lessor.

So far, there are been no disputes or litigations involving our lessors, however, there can be made no assurance that we shall be able to meet the conditions specified on expiry of lease agreement satisfactorily and that any negative event w.r.t same shall not adversely affect our results of operations and financial condition.

3. Our business operations and profitability may be adversely affected by increasing rates of Aviation Tribune Fuel (ATF), which is a key component of our operating costs.

ATF Prices in India continue to be higher than the global rates, making ATF account for almost 35-40% of the operating cost as compared to the global average of 20-25%. The following illustrations explain the rising trend in ATF Prices in the major metro's of India over the last year:

* All figures are INR per Kilolitre

Any ad-hoc increases in ATF prices or undue volatility in the same would adversely affect our profitability margins and operational efficiency.

4. If we are unable to acquire the necessary helicopters and aircrafts, we may not be able to take advantage of the growth opportunities.

We currently operate 3 helicopters and 1 aircraft on a dry lease basis and several other helicopters and aircrafts on a wet lease basis from time to time based on demand from customers for charter flights and flight hiring. Further, we plan to acquire 1 helicopter and 1 aircraft from the issue proceeds.

While up to now, we have been able to acquire / make available sufficient helicopters and aircrafts, non-availability of helicopters/aircrafts or the failure of our suppliers to deliver the helicopters/aircrafts that we have ordered on a timely basis, could limit our ability to take advantage of growth opportunities. This could adversely impact our profitability.

Thus in the event the helicopters / aircrafts are not delivered in time or the contract for purchase / lease would be cancelled or modified, we would not be able to bring about a timely induction of these helicopters / aircrafts for the contracts and thereby lose the contract. This could adversely affect our profitability.

5. *Our business operations and expansion activities may be constrained by inadequate airport infrastructure and slower than expected improvement of the same in India.*

Underdeveloped Airport and ATC Infrastructure remains to be a major hurdle for the expansion of private aviation in India. Following are the major issues concerning the development of private aviation in India w.r.t lack of Airport Infrastructure:

- There are fewer dedicated business-aircraft terminals in India as compared to other large economies such USA, UK and China. This means that private jet travellers have to go through the same security checks as all the general scheduled airline flyers and this in effect dilutes the operational efficiencies that can be provided by Private Air Charters.
- Lack of available Private Aviation Infrastructure in India and sharing of infrastructure with the Scheduled Airlines, leads to Lack of available Runways, Slot Constraints, and Air Traffic Congestion which in effect lead to Long Holding Times (on Ground and on Air), Lower Utilisation of Aircraft and hence reduced operational profitability.
- Lack of Night Parking Stands at major airports and lack of navigational aids at many smaller airports lead to sub-optimal route network strategies.

The Indian Government along with the Ministry of Aviation has shown an intent to improve the airport infrastructure for private airlines, however, inadequate airport infrastructure and slower than expected improvement in the same, could adversely affect our growth plans and business strategies.

6. *Our industry is heavily regulated and our business activities require various approvals, licenses, registrations and permissions. Our operations and/or profitability could be adversely affected if we fail to obtain, in a timely manner or at all, or comply with the conditions that may be attached to, such approvals, licenses, registrations and permissions.*

The aviation industry is heavily regulated in many jurisdictions. We require various approvals, licenses, registrations and permissions for our business activities. Each authority may impose its own requirements or delay or refuse to grant approval, even when the same permission/license has already been granted in another state or country. Our business, prospects, results of operations and financial condition could be adversely affected if we fail to obtain such approvals, licenses, registrations and permissions, in a timely manner or at all.

Further, our existing and new fleet services may require various approvals to continue operations. Such approvals, licenses, registrations and permissions may impose conditions upon us to give prior intimation to the relevant licensing authority before effecting any change *inter alia* in ownership or constitution. Our business, prospects, results of operations and financial condition could be adversely affected if we fail to comply with applicable conditions that may be attached to any such approvals, licenses, registrations and permissions.

Certain applications filed by us are pending approval or registration. A list of such applications is set forth below.

- i) The company has applied to the Airports Authority of India for allocation of land to set up a hangar at Chennai airport.

- ii) The company has applied to Ministry of Civil Aviation and Director General of Civil Aviation for purchase of PC Pilatus 12 Aircraft.
- iii) The company is yet to obtain registration with the ESI Corporation. Application was filed on 30th March 2011.

Further various licenses / permits etc shall be expiring within the forthcoming period / years and shall require renewals. Any inability or delay in renewing/applying any such key Liscence, registration, approval or permission would adversely affect our results of operations and financial conditions.

For further details please refer "Government and Other Key Approvals" beginning on page 166 of this DRHP.

7. We are significantly dependent on a few major customers. Our top ten customers have contributed 82% of our turnover in FY 2010 and approximately 70% for the nine months period ended December 31, 2010.

The revenues from our top 10 customers constituted approximately 82 % and 70% of our revenues for FY 2010 and for the nine months period ended December 31, 2010 respectively. These customers charter helicopters/aircrafts from our Company. While our Company has done substantial business with these customers in the past, we do not have any legally binding agreements or commitments to supply to them in the future and we cannot assure that we would receive any orders at all from any of these customers in the future, or receive orders from them on terms and conditions commercially acceptable to us.

Secondly, due to the niche nature of our industry, wherein we do not provide services to all public at large (like in the case of scheduled airlines) and shall be catering to only a elite class of customers, we shall be more dependent on regular business from such customers.

Loss of one or more of our major customers would have a material adverse effect on our business, results of operations and financial condition.

8. As on December 31, 2010, our company had to pay Tax Deducted at Source aggregating to ₹ 81.18 Lacs. We are hence subject to penalties / interest levied by the department or counterparties, on whose payments these taxes were deducted for delay in such payment.

Our company has deducted tax at source under various heads of expenditure in the F.Y. 2009-10 and F.Y. 2010-11, which should have been paid to the Income Tax department on or before the seventh day of the month succeeding the month of deduction for deductions made in all the months excepting March and on or before April 30 in case where deduction of tax at source was made in the month of March. However, we are still to pay ₹ 81.18 Lacs of Taxes deducted at source to the Income Tax Department which are overdue. The company shall hence face risks pertaining to any levy of interest or penalty by the Income Tax department or any other adverse action from the counterparties, on whose payments these Taxes were deducted.

9. We operate in competitive markets. Our business, operations and financial performance will depend on how effectively we compete.

Certain of our competitors, including Government-owned entities, may have significantly greater resources than those available to us.

We believe competition in our industry is based on the ability to provide services and business capabilities including:

- Competitive Fares;
- Timely Service;
- Quality of Aircrafts / Helicopters;
- Customized Service Approach;

- Higher number of routes; and
- Safety and Security Management.

Further, our market position will depend upon effective business development initiatives and its ability to anticipate and respond to various factors affecting its industry, including and service innovations and particular issues important to competition for longer-term charter contracts.

There are currently 125 NSOP's registered with DGCA and authorised to operate Private Aircrafts / Helicopters, out of whom 30 NSOP's are for private use of the owners and 95 NSOP's provide Air Charter Services. (Source: DGCA)

Competition within the Indian Non Scheduled Aviation Industry may intensify as new NSOP's are established. Increased competition could lead to intense price competition, which could adversely affect our profit margins and increase the importance of the economies of scale. In addition, our competitors may also:

- respond more quickly to competitive pressures;
- introduce packaged services that are preferred by our customers;
- acquire air fleet that is more technologically advanced or more economically efficient;
- price their products and services more competitively;
- develop and expand their network infrastructure and service offerings more efficiently;
- utilize better, more user-friendly and more reliable technology; or
- take greater advantage of organic and inorganic growth opportunities, including acquisitions, alliances and other opportunities.

There can be no assurance that we will be able to continue to compete effectively. If our Air Charter Services are not competitive, our business, financial condition and results of operations may be adversely affected.

10. If we fail to comply adequately with airworthiness requirements, one or more of our helicopters / aircrafts may be grounded by the DGCA or our license to operate may be suspended, which would adversely affect our revenues and operations.

Failure to comply with any DGCA and/or manufacturer directives or bulletins could lead to one, some or all of our helicopters / aircrafts being grounded. Any non-compliance or delay on complying with any guidelines or directives may result in levying of penalties against us, which may affect our performance.

11. We may not be able to increase our customer base, revenue and profitability.

We may not be able to increase our customer base in our businesses as a result of competition and lower demand for Charter Services from corporate and other key industries. In order to grow our revenue and profitability in our business, we may become reliant on growth of these Industries such as Offshore Oil Exploration, Medical Tourism, etc. However, in order to increase our customer base, it may be necessary to lower our rates, or it may be necessary to increase our customer acquisition costs, which may increase our operating costs, which may lead to a decline in our "Average Revenue per Flight Operated" or due to price inefficiency we may have to increase our "Idle Time", either or both of which could result in lower margins, slower growth and lower profitability. Any new services may not be technically or commercially successful or launched according to expected schedules. Any such failure may have a material adverse effect on our revenue and profitability.

In addition, we may not be successful in the execution of our business strategies, including those described in detail under "Business Overview – Business Strategy" on page 91 of this DRHP. We may experience delays in the implementation of these strategies for various reasons, including a failure to acquire necessary fleet, capital shortfalls, failure of third party suppliers to deliver services and products in a timely manner and our inability to meet our own implementation schedules. There can be no assurance that our business strategies will be satisfactorily implemented and the growth of our business may be adversely affected.

12. Air charter operations involve risks that may not be covered by our insurance or may increase the cost of our insurance.

Operations of helicopters and private aircrafts involve some degree of risk. Hazards, such as accidents, adverse weather and marine conditions, collisions and fires, are inherent in furnishing air charter services and can cause personal injury and loss of life, severe damage to and destruction of property and equipment, and in suspension of operations. As a result of these and other factors, we may not be able to maintain adequate insurance in the future at rates we consider reasonable.

While we believe that we are adequately covered by insurance in light of our historical need for insurance coverage, the loss of this coverage or the loss, expropriation or confiscation of, or severe damage to, a large number of our helicopters / aircrafts could adversely affect our operations and financial condition. Aviation insurers could further increase their premiums in the event of additional terrorist attacks, hijackings, airline crashes or other events adversely affecting the aviation industry. Significant increases in insurance premiums could increase our costs and adversely affect our operations and financial condition. As a result of these and other factors, no assurance can be given that we will be able to maintain adequate insurance in the future at rates we consider reasonable.

There can be no assurance that any claim under the insurance policies maintained by us will be honored fully, in part or in time. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flows may be adversely affected.

13. Some of our promoters, group companies and directors are party to certain legal proceedings.

Our company has no outstanding litigations or disputes as on the date of this DRHP.

However, some of our Promoters, Directors and Group companies have certain outstanding litigations, which if decided against them could have a material adverse effect on our goodwill and financial condition. The same are summarized below:

Name of Promoter /Promoter Group / Director involved	Case initiated by /against	Case No. and Court/Magistrate/Appellate Authority	Amount involved (If quantifiable)
Swajas Air Charters & Hotels Private Limited	By Captain K.K.Sainani against Swajas Air Charters & Hotels Private Limited	Civil Suit, C.S.No.726 of 2009 at High Court, Original Side, Chennai	₹ 17.82 Lacs + interest and costs

Ltd rep. by its Managing Director, Mr. Suresh Babu	Civil Suit bearing CS 782 of 2010 at High Court, Chennai	₹ 28.90 Lacs + Interest and costs

For further details regarding the cases and issues mentioned above, please refer “Outstanding Litigations and Material Developments” beginning on page 164 of this DRHP.

14. Contingent liabilities not provided for, which if materialize may have an adverse affect on our financial condition and future financial performance.

The contingent liabilities not provided for as on December 31, 2010 are as follows:

Particulars	Amount (₹ In Lacs)
Outstanding Performance Bank Guarantee	130.93
Total	130.93

In the event, any of the above contingent liabilities materialize it may have an adverse affect on our financial condition and future financial performance. For further details, please refer “Annexure 20” of the “Auditor’s Report” on page 152 of this DRHP.

15. Certain other ventures promoted by our Promoters are authorised to engage in a similar line of business and may hence be a potential conflict of interest in the future.

Certain entities within our Promoter Group are authorized under their constitutional documents to engage in a similar line of business as us. For further details with respect to our Promoters and members of our Promoter Group, please refer “Our Promoters and Promoters Group” beginning on page 126 of this DRHP.

We cannot assure you that our Promoters will not favour the interests of the members of our Promoter Group over our interests. Such other members of our Promoter Group, including those in a similar line of business, may dilute our Promoter’s attention to our business, which could adversely affect our business, prospects, financial condition and results of operations. We have not entered into any non-solicitation or non-compete agreement with any member of our Promoter Group.

While such members of our Promoter Group are not currently carrying on any business in conflict with our Company, there is no assurance that such a conflict will not arise in the future, or that we will be able to suitably resolve any such conflict without an adverse effect on our business or operations. There can be no assurance that our Promoters or members of our Promoter Group will not provide comparable services, expand their presence, solicit our employees or acquire interests in competing ventures in the locations or segments in which we operate. A conflict of interest may occur between our business and the business of the members of our Promoter Group, which could have an adverse effect on our business, prospects, results of operations and financial condition.

16. Our ability to maintain our competitive position and to implement our business strategy is dependent to a significant extent on our senior management team and other key personnel.

We depend on our current senior management for the implementation of our strategy and the operation of our day to-day activities. Furthermore, relationships of members of senior management are important to the conduct of our business. Competition for experienced management personnel in the private aviation sector is intense, the pool of qualified candidates is limited, and we may not be able to retain the services of our senior executives or key personnel or attract and retain high-quality senior executives or key personnel in the future. Consequently, there can be no assurance that these individuals will continue to make their services available to us in the future. Any significant loss of senior management or key personnel could materially and adversely affect our business, financial condition, results of operations and prospects.

Our key management personnel have not entered into confidentiality and/or non-competition agreements with us. Hence, if any member of our senior management team or any of our other key personnel joins a

competitor or forms a competing company, we may consequently lose our proprietary know-how including service structure, pricing of charter flights, client information, and in-house safety procedures, etc. Further, the outgoing senior management might also make the other technical and non-technical team of the company to join them.

17. If we are unable to recruit and retain skilled employees, including pilots and others, our operations and expansion plans may be adversely affected, and accordingly impact our revenue

We compete with other aviation operators for labour in skilled personnel positions. Our competitors may offer wage and benefit packages that are more attractive than our wage and benefit packages. In addition, from time to time, the aviation industry in India has experienced a shortage of skilled personnel, especially pilots, qualified engineers, quality control personnel and technicians. The compensation paid for such skilled personnel has also witnessed significant upward movement. The recent past has witnessed poaching of pilots by competing operators. The Government of India accordingly imposed a minimum of six months notice period for resigning pilots. Any relaxation of their directions in the future could worsen the shortage.

Our expansion plans will require us to hire, train and retain a significant number of new employees in the future, and to continue to do so on an ongoing basis particularly on or around the time we take possession of more helicopters and aircrafts. However, as existing players expand or as new competitors enter the aviation market and as we acquire additional helicopters and aircrafts, we may have increasing difficulty recruiting and retaining sufficient numbers of pilots, qualified engineers and technicians to meet our current and future requirements.

If we are unable to attract and retain skilled employees, including pilots and others, we may have to reduce our operations, which could harm our revenues, or we may not be able to develop our business in accordance with our business and expansion plans.

18. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. Such employee misconduct includes breach in security requirements, hiding unauthorized or unsuccessful activities and improper use of confidential information. It is not always possible to detect or deter misconduct, and the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in such case, our business, financial condition, results of operations and reputation could be adversely affected.

19. Our compliance and risk management methods might be ineffective and may result in outcomes that could adversely affect our reputation, financial condition and operating results.

The Government of India and the Ministry of Civil Aviation through the DGCA has broad powers to supersede our Board of Directors and suspend or revoke our approval to operate as a NSOP. Our ability to comply with applicable laws and regulations is largely dependent on our establishment and maintenance of compliance, audit and reporting systems, as well as our ability to attract and retain qualified compliance and other risk management personnel. We cannot assure you that these systems and procedures are fully effective.

We face the risk of significant intervention by regulatory authorities, including extensive examination and surveillance activity. In the case of non-compliance or alleged non-compliance with applicable laws or regulations, we could be subject to investigations and judicial or administrative proceedings that may result in substantial penalties or civil lawsuits, including by customers, for damages, which can be

significant. Any of these outcomes could adversely affect our reputation, financial condition and operating results. In extreme cases, these outcomes could adversely affect our ability to conduct our business.

In addition, our policies and procedures to identify monitor and manage our Safety and Security related risks may not be fully effective. Some of our risk management methods depend upon evaluation of information regarding pilots, aircraft health, customers or other matters that are publicly available or otherwise accessible by us. That information may not always be accurate, complete, up-to-date or properly evaluated.

Though, we would try to the best of our ability that all compliances are met on a timely basis, we cannot assure you that our policies and procedures will always be effective or that we will always be successful in monitoring or evaluating the risk to which we are or may be exposed, which could lead to an inadvertent breach of law and hence adversely affect our ability to conduct our business.

20. We have in the past entered into related party transactions and may continue to do so in the future.

We have entered into transactions with our promoters, our Group Companies and affiliates. While we believe that all such transactions have been conducted on an arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. For fiscal 2010 and for the nine months ended December 31, 2010, based on our audited and restated financial statements, our aggregate related party transactions were ₹ 119.25 Lacs and ₹ 47.61 Lacs, respectively. For further details, please refer "Annexure 19 – Related Party Transactions" of the "Auditors Report" on page 151 of this DRHP.

21. Our funding requirements and deployment of net proceeds of the Issue are based on management estimates and have not been independently appraised, and are not subject to monitoring by any independent agency

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates, current quotations from suppliers and our current business plan. The fund requirements and intended use of proceeds have not been appraised by any bank or financial institution and are based on our estimates and on third party quotations. We may have to revise our expenditure and fund requirements as a result of variations in the cost structure, changes in estimates, changes in quotations, exchange rate fluctuations and external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure & fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our Board. In addition, schedule of implementation as described in the chapter "Objects of the Issue" on page 68 of this DRHP are based on management's current expectations and are subject to change due to various factors, some of which may not be in our control. For further details, please refer to the section "Objects of the Issue" on beginning on page 63 of this DRHP.

We are not required to appoint any Monitoring Agency for the issue in terms of the SEBI (ICDR) Regulations, 2009.

22. The trading price of our Equity Shares may be affected by variations in our operations, and financial conditions

We expect our quarterly operating results to fluctuate in the future based on a variety of factors, including:

- the timing and success of our growth plans as we lease or purchase additional helicopters / aircrafts, increase operations from existing bases or start new bases;
- changes in contract revenues, fuel, aircraft and helicopter rentals, and maintenance costs;
- increases in personnel, marketing and other operating expenses to support our anticipated growth; and changing competitive environment

In addition, it is possible that in any future quarter our operating results could be below the expectations of investors and any published reports or analysis regarding the Company. In that event, the price of our Equity Shares could decline, perhaps substantially.

23. The properties used by our Company for our registered office, and certain other key operational activities are not owned by us. Any adverse impact on the title/ownership rights of the Licensor/owner or breach of the terms/ non renewal of the lease / license agreement as per terms and conditions favorable to us or at all may temporarily impede our effective operations

Following are the locations of the premises which are rented / leased / not owned by us:

Nature of Property	Address of Property	Name of Owner	Lease valid upto
Registered and Corporate Office	1/62-4, 1st Street, Ravi Colony, St. Thomas Mount, Chennai – 600 016.	Dr. Prabhu Thilaak	01/07/2011
Line Maintenance office (Office inside the Airport Premises)	Airport Authority of India, Chennai	Airport Authority of India	19/04/2012

If such leases are terminated or not renewed, we may suffer a disruption in our operations and alternative premises may not be available at the same or similar costs or locations, either or both of which could have a material adverse effect on our business, financial condition and results of operations.

24. The Company has not paid any dividend on equity shares and we cannot assure that we will pay any dividend in future also.

The Company has not paid any dividend on the Equity Shares in the past. Whether our Company pays dividends in the future and the amount of any such dividends, if declared, will depend upon a number of factors, including our results of operations and financial condition, contractual restrictions (including the terms of some of our financing arrangements that restrict our ability to pay dividends) and other factors considered relevant by our Board of Directors and shareholders. There is no assurance that our Company will declare and pay, or have the ability to declare and pay, any dividends on Equity Shares at any point in the future.

25. Our Promoters, Mr. R. Jayakumar and Mr. Christopher Ian Want, will continue to have significant shareholding in our Company after this Issue and it may influence our material policies, especially on matters which require special resolution, in a manner that could conflict with the interests of our Company's other shareholders.

Prior to this Offer, our Promoters, Mr. R. Jayakumar and Mr. Christopher Ian Want, collectively owned 43.66% of our Company's equity share capital. Following this issue, they may own approximately [●]% of our Company's post-issue Equity Share capital. As a result of their shareholding in our Company, it may retain certain influence on our business including matters relating to any sale of all or substantially all of our assets. This influence could delay, defer, or prevent a change in control, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control even if it is in our best interest. Also, so long as they continue to have such significant shareholding in our Company, they may influence our material policies, especially on matters which require special resolution, in a manner that could conflict with the interests of our Company's other shareholders.

26. Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be impaired.

Certain of our agreements, including, but not limited to, the Dry Lease /Wet Lease Agreements and lease agreements of our properties may not be adequately stamped or registered under Indian law. In the event of any such irregularity, we may not be able to enforce our rights under such agreements, businesses or properties in the event of a dispute with a third party unless we pay the applicable duty as well as a penalty of up to ten times the amount of the stamp duty.

27. Delays or defaults in client payments could result in reduction of profits

The Company regularly provides credit to its corporate and other regular clients for air charter services. The credit period typically ranges from 15 to 90 days. The Company may hence, be subject to working capital shortages due to delays or defaults in client payments.

Although the company does not have a material “bad debts” related track record till date, there can be no assurance given to fact that client payment defaults or delays in the future once we expand our operations will not occur and will not affect our operating and financial efficiencies.

28. We have issued Equity shares in the last one year from the date of this DRHP, which could have been issued at a price lower than the issue price.

Following Equity shares that have been issued in the last one year from the date of this DRHP, which could have been issued at a price lower than the issue price:

Date of Allotment of fully Paid-up Shares	Number of Equity Shares Allotted	Face Value (Rs.)	Issue Price (Rs.)	Nature of Allotment	Nature of Consideration
June 10, 2010	32,860	10	350	Preferential Allotment	Cash
January 31, 2011	181,713	10	350	Preferential Allotment	Cash

29. We have issued shares for consideration other than cash, and there can be made no assurance that we have received the requisite value in return for such issuance.

Following are the Equity shares that have been issued by our company for a consideration other than cash:

Date of Allotment of fully Paid-up Shares	Number of Equity Shares Allotted	Face Value (Rs.)	Issue Price (Rs.)	Nature of Allotment	Nature of Consideration
July 24, 2008	346,500	10	-	Allotment of shares for takeover of Assets & Liabilities of Swajas Air Charter (Proprietary Concern)	Other than Cash

The equity shares allotted in lieu of taking over the assets and liabilities of Swajas Air Charter (Proprietary Concern) have been allotted based on a valuation certificate dated 22nd July 2008 received from M/s. K. Jayasekar & Co., Chartered Accountants, showing a Net Asset Value of Rs. 34,65,000/- and hence 3,46,500 shares have been allotted to our Promoter Mr. R. Jayakumar as consideration for the same.

There can be made no assurance that such valuation represents the real inherent value of the Net Assets taken over by the company.

30. We pay most of our aircraft/helicopter lease rentals in foreign currency and also import a significant portion of the spares, special tools and equipment, used in our business and as a result we are subject to foreign currency fluctuations in respect of lease rental payments and purchases of various spares, special tools and equipment.

We have taken dry lease of various helicopters/aircraft from foreign lessors and therefore the lease payments are effected in foreign currency. Further, we import a significant portion of the spares, special tools and equipment for the maintenance of our helicopters/aircraft and would also be required to import various equipment and tools for our proposed MRO/Hangar services. Generally, we pay for such spares and special tools in foreign currencies, including the U.S. Dollar; as a result, we are subject to foreign currency fluctuations in respect of such purchases. The exchange rate between the Rupee and other currencies, including the U.S. Dollar, has changed substantially in recent years and may fluctuate substantially in the future. We do not have any outstanding Derivative Contracts to hedge the risk of fluctuations in foreign exchange rates. Therefore, such fluctuations may have an adverse effect on our results of operations.

31. We may face labour disruptions that would interfere with our operations.

We are exposed to the risk of strikes and other industrial actions. As of March 31, 2011, we had 80 full-time employees, all based in India. As of March 31, 2011, none of our employees belonged to any trade union. Also, there has not been any labor dispute w.r.t our company in the past. However, we cannot guarantee that we will not experience any strike, work stoppage or other such industrial action in the future, including by our employees.

Also, our suppliers may experience strikes, work stoppages or other such industrial action in the future. Any such event could disrupt our operations, possibly for a significant period of time, result in increased wages and other costs and otherwise have a material adverse effect on our business, results of operations and financial condition. For more information, please refer “Business Overview - Personnel” on page 100 of this DRHP.

32. The name and logo of our Company have not been registered under the Trade Marks Act, 1999. We have applied for the registration of the same, with the Trade Marks Registry, Chennai.

We have filed applications for registering the name and logo of our Company and mark “SWAJAS”, along with various other marks pertaining to our products, under various classes under the Trade Marks Act, 1999 and these applications are pending with the Trade Mark Registry at Chennai. There can be no assurance that our trade mark applications will be accepted and the trademarks will be registered.

Further, our applications for the registration certain trademarks may be opposed by third parties, and we may have to incur significant cost and spend time in litigations in relation to these oppositions. In the event we are not able to obtain registrations for the trademarks for which we have applied for registration, we may not be able to avail of the legal protection and legal remedies (in case of infringement) available as a proprietor of registered trademarks.

For further details, please refer ‘Business Overview’ beginning on page 89 of this DRHP.

33. We had negative cash flows from Operating Activities for certain periods. Any negative cash flow in future could affect our operations and financial conditions.

We had negative cash flow from various activities, as per audited financial statements, details of which are as under:

Particulars	Nine months period ended December 31, 2010 (₹ in Lacs)	Financial Year Ended March 31, 2010 (₹ in Lacs)	Period ended March 31, 2009 (₹ in Lacs)
Cash Flow from Operating Activities	(89.34)	167.53	(154.61)
Cash Flow from Investing Activities	(248.33)	(244.97)	(28.92)
Cash Flow from Financing Activities	743.59	255.76	192.09
Cash flow for the period	405.92	178.32	8.55

The net cash flow of a company is a key indicator to show the extent of cash generated from operations of the company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

34. We are subject to restrictive covenants in certain short-term and long-term debt facilities provided to us by our lenders.

We have entered into agreements for availing financial facilities from various lenders. Certain covenants in these agreements require us to obtain approval/ permission from our lenders in certain conditions. These conditions include, amongst others, implementation of any scheme of expansion / diversification / renovation/capital expenditure, formulation of any scheme of amalgamation or reconstruction, undertaking of guarantee obligation, any change in our capital structure, among others. We cannot assure that these approvals would be forthcoming when we apply for the same.

For further details in this regard, including approvals obtained from our lenders for the Issue, please refer “Financial Indebtedness” beginning on page 163 of this DRHP.

35. Our Company has unsecured loans which are repayable on demand.

As on December 31, 2010 our Company has unsecured loans amounting to ₹ 15.39 Lacs, all of which is from the promoter and group / associate companies, which is repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations. For further details of these unsecured loans, please refer “Annexure 14-Unsecured Loans” of the “Auditor’s Report” on page 149 of this DRHP.

36. We have not placed order for 49.99% of the machinery required for our objects of the issue. Out of the total machinery for which order is yet to be placed 93.80% will be imported.

No orders have been placed for 49.99% of the machinery in value terms, required pursuant to our object of the issue as is detailed below:

Type of Plant & Machinery	Estimated Cost (₹ In Lacs)	Indigenous / Imported	Order Status
Bell 407 – Helicopter	1237.60	Imported	Order placed and advance of ₹ 450.00 Lacs is already paid by the company
PC Pilatus Aircraft	941.85	Imported	Order yet to be placed

Plant and Machinery for Proposed Hangar/MRO Facility	295.03	74.02% - Imported	Order yet to be paid
--	--------	-------------------	----------------------

Delay in placing the order for these machineries required for the objects could result in a cost and time over run, which would adversely affect the operations and profitability of our Company. Further, more than 93.80% of the machinery in value terms out of the machinery yet to be ordered, required pursuant to the Objects of the Issue will be imported. Delay in delivery of the said machinery and fleet or damage or loss in transit will adversely affect our business, operations and profitability. Further we will also be exposed to the risk on account of fluctuation in the currency rate. For further details, please refer “Objects of the Issue” beginning on page 63 of this DRHP.

37. The aircraft (PC Pilatus) and the helicopter (Bell 412) proposed to be acquired from the issue proceeds are second hand in nature.

We propose to purchase 1 Bell 407 helicopter and 1 PC Pilatus Aircraft from the Issue proceeds. These machines are second hand in nature. If we are not able to maintain the quality of these machines, this may have an adverse effect on our results of operations and financial condition.

38. Some of our group companies have incurred losses in the past.

Following group companies have incurred losses in the past few years. Following are the PAT figures of our group companies in the last three years:

(₹ In Lacs)

Name of Group Company	F.Y. 2009-10	F.Y. 2008-09	F.Y. 2007-08
Swajas Air Charters & Hotels Pvt. Ltd.	(0.23)	0.10	2.93
Swajas Aviation Infrastructure Pvt. Ltd.	(0.43)	-	-

39. There have been delays in certain key filings/intimations to RBI w.r.t our foreign shareholdings and allotments.

The company has filed necessary forms with RBI for intimation of funds received under the Foreign Direct Investment (FDI) and also necessary FCGPR forms with Reserve Bank of India, Chennai for allotment of shares to foreign investors, including issue of bonus shares, on various occasions. There have been delays in filing of these forms. The company awaits allotment of UIN nos. from RBI for such FDI inflows into the Company. The company may hence face risks pertaining to levy of compounding fees/penalty in this regard.

40. We have been in delay in applying for ESIC Registration.

The company has become eligible to apply for ESIC registration since September 2010; however, the company has made an application to the ESI Corporation for ESIC Registration only in March 2011. Even though the company has made a provision of Rs. 0.79 lacs in the December 31, 2010 accounts for the ESIC related payments to be made, this provision does not include any penalty or other charges that may be levied by the ESI Corporation for such delay. The company may hence face risks pertaining to levy of compounding fees/penalty in this regard.

EXTERNAL RISK FACTORS

Risks relating to India

41. Hostilities with neighboring countries and civil unrest in India may have material adverse impact on the market for securities in India.

India has from time to time experienced instances of hostilities from neighboring countries, including Pakistan and China. In recent years, military confrontations between India and Pakistan have occurred in Kashmir and along the India-Pakistan border, although the Governments of India and Pakistan have recently engaged in conciliatory efforts. Military activity or terrorist attacks like terror attacks on Mumbai in November 2008, in the future could influence the Indian economy by disrupting communications and making travel more difficult. Such political tensions could create a greater perception that investments in Indian companies involve a high degree of risk. Events of this nature in the future, as well as social and civil unrest, could influence the Indian economy and could have material adverse effect on the market for securities of Indian companies.

42. A slowdown in economic growth in India and other unfavorable changes in political and economic factors may adversely affect our business and results of operations.

Our business facilities and clients are primarily located in India. Our Company, the market price and liquidity of our Equity Shares, may be adversely affected by fluctuations in foreign exchange rates and controls, interest rates, changes in Government policy, taxation, social and civil unrest and other negative political developments like any abrupt change in the Central or any State Government wherever we have business interests, etc., economic developments like very high rate of inflation, slowdown in growth, decrease in foreign investments, etc. or other developments in or affecting India. Particularly slowdown in economic growth may make the Governments spend relatively less on agriculture and agricultural growth is also linked to overall economic growth, which may ultimately be unfavorable to the Company's business. During the past decade, the Government has pursued policies of economic liberalization, including significantly relaxing restrictions on the private sector. Nevertheless, the role of Government and State Governments in the Indian economy in relation to producers, consumers and regulators has remained significant. It cannot be assured that the liberalization policies will continue in future. For example, because of the change in Central Government certain liberalization policies like disinvestment in public sector enterprises, capital account convertibility etc. have been put on hold. The Government may also pursue other policies which could have a material adverse effect on our business. The rate of economic liberalization could change, and specific laws and policies affecting our business, suppliers, foreign investment, currency exchange rates and other matters affecting our business are also subject to change. A significant change in the Government's or Indian State Governments' economic liberalization and deregulation policies could adversely affect business and economic conditions in India generally and our business and financial condition and prospects in particular.

43. Increasing employee compensation in India may erode some of our competitive advantage and may reduce our profit margins.

Wage costs in India have historically been significantly lower than the wage costs in the developed countries for comparably skilled professionals in the industry, which has been one of our competitive strengths. However, wage increases in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. This could impact our performance, profit margins and may have a material adverse effect on our business.

44. Depreciation of the Rupee against foreign currencies may have an adverse effect on our results of operations.

While a substantial portion of our revenues will be denominated in Rupees, from time to time we import equipment and raw material from foreign countries, our lease payments to Fleet owners are based in US Dollars, and we may in the future incur indebtedness denominated in foreign currencies to finance the expansion of our business. Furthermore, some of our corporate clients make payments in foreign currencies to us. Any depreciation of the Rupee against these currencies will significantly increase the Rupee cost to us of servicing and repaying our foreign currency payables. Likewise, appreciation of the Rupee shall adversely affect our reliability of foreign collections. For example, the exchange rate for US\$ 1 = Rs. 39.97 as of March 31, 2008 depreciated to US\$ 1 = Rs. 50.95 as of March 31, 2009, which further appreciated to Rs. 44.46 as of March 31, 2011. If we are unable to recover the costs of foreign exchange variations, depreciation of the Rupee against foreign currencies may adversely affect our results of operations and financial condition.

45. Natural calamities and force majeure events may have an adverse impact on our business.

Air Charter Operations are prone to accidents due to bad weather conditions in air and on ground. We would also be prone to other natural hazards such as Earthquakes, Floods, and Landslides etc. Natural disasters may cause significant interruption to our operations, disruption to our flight schedules and damage to the needed airport infrastructure that could have a material adverse impact on us. Secondly, the extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

Risks relating to Investment in Indian Equities

46. The market price of our Equity Shares may fluctuate due to the volatility of the Indian securities market.

There may not be an active or liquid market for our Equity Shares, which may cause the price of the Equity Shares to fall and may limit your ability to sell the Equity Shares. The Issue Price of the Equity Shares in this Issue will be determined by our Company in consultation with the BRLM, and it may not necessarily be indicative of the market price of the Equity Shares after this Issue is complete. You may be unable to resell your Equity Shares at or above the Issue Price and, as a result, you may lose all or part of your investment. The price at which the Equity Shares will trade after this Issue will be determined by the marketplace and may be influenced by many factors, including:

- our financial results and the financial results of the companies in the businesses we operate in;
- the history of, and the prospects for, our business and the sectors and industries in which we compete;
- an assessment of our management, our past and present operations, and the prospects for, and timing of, our future revenues and cost structures;
- the present state of our development; and
- the valuation of publicly traded companies that are engaged in business activities similar to ours.

In addition, the Indian stock market has from time to time experienced significant price and volume fluctuations that have affected the market prices for the securities of Indian companies. As a result, investors in the Equity Shares may experience a decrease in the value of the Equity Shares regardless of our operating performance or prospects. The market price of our Equity Shares may fluctuate due to the volatility of the Indian securities market and may be more volatile than the securities markets in other countries. Stock exchanges in India have, in the past, experienced substantial fluctuations in the prices of listed securities. The stock exchanges in India have experienced problems, including broker defaults and settlement delays, which, if were to continue or recur, could affect the market price and liquidity of the securities of Indian companies, including our Equity Shares. In addition, the governing bodies of the various Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

47. There are restrictions on daily movements in the price of equity shares of a listed company in India, which may adversely affect a shareholder's ability to sell, or the price at which any shareholder can sell equity shares at a particular point in time.

On listing of our Equity Shares, we would be subject to a daily "circuit breaker" imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The maximum movement allowed in the price of the Equity Shares before the circuit breaker is triggered is determined by the Stock Exchange based on the historical volatility in the price and trading volume of the Equity Shares. The Stock Exchange does not inform the listed company of the triggering point of the circuit breaker in effect from

time to time, and may change it without the knowledge of the listed company. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time

48. You will not be able to immediately sell any of our Equity Shares purchased through this Issue on Stock Exchanges until the receipt of appropriate trading approvals from Stock Exchanges.

Our Equity Shares will be listed on the NSE and the BSE. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Investors demat accounts with depository participants in India are expected to be credited within two working days of the date on which the basis of allotment is approved by the Designated Stock Exchange. Thereafter, upon receipt of trading approval from the Stock Exchanges, trading in the Equity Shares is expected to commence within seven working days of the date on which the basis of allotment is approved. We cannot assure you that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified above. Any delay in obtaining the approvals would restrict your ability to dispose of your Equity Shares.

A. OVERVIEW

We are a Non-Scheduled Airline Operator servicing a fleet of fixed-wing aircraft and helicopters across India. On incorporation, the company had taken over the assets and liabilities of M/s. Swajas Air Charters, an air craft brokerage proprietary concern of Mr. R. Jayakumar, the promoter and Managing Director of the Company which he was operating from 1996. The company, today, has gradually grown to dry lease and wet lease a number of helicopters and aircrafts of its own and has become one of the key Non-Scheduled Operator in Southern India having gained experience over the years. The services provided can fulfill various Aviation requirements which range from corporate travel to emergency medical services as well as from aircraft management to maintenance and technical support.

Our company offers a number of services falling under the segments of:

1. General Air-Charter Services
2. Off-Shore Transportation & Logistics
3. Charter Tourism
4. Medical Evacuation Services
5. Operations & Maintenance

We initially carried out air charter services through a wet lease model wherein the lessor of the aircraft provided the aircraft along with the complete crew, maintenance and insurance requirements. As the company matured and gained experience, we started a dry-lease arrangement whereby the lessor only provided the aircraft. The other requirements of insurance, crew, ground staff, supporting equipment, maintenance, etc were managed by Swajas Air Charters Limited.

We presently operate the following Aircraft & Helicopters on a dry-lease basis:

Sr. No.	Model Name	Brief Description
Aircrafts		
1	Cessna Citation XL	Turbo – Fan Powered, Corporate Jet
Helicopters		
2	Bell 407	Single – Engine, Business Class Helicopter
3	Bell 412EP	Twin – Engine, Business Class Helicopter
4	Bell 412EP	Twin – Engine, Offshore Transportation Helicopter

Our Revenues have grown from ₹ 751.97 Lacs in fiscal 2008-09 to ₹ 2333.71 Lacs in the 9 months ending 31st December 2010 in the fiscal 2010-11 at a CAGR of 40.25%. B. COMPETITIVE STRENGTHS

We are in the business of providing various Air Charter services pre-dominantly in Southern India. We are a registered permit holder to operate non-scheduled air transport services with the Office of Director General of Civil Aviation, Government of India. We believe that following are our principle competitive strengths:

Strong Relationships:

We provide services to clients operating in various sectors under contracts, which are for a period of one to three years with one or more renewal options. Mr. R. Jayakumar, one of the promoters of the Company has been in this industry over the last 20 years, where through him we have been able to develop strong relationships with our clients and also retain them through continuous support. Further, our other promoter Mr. Christopher Ian Want has strong relationships with several foreign aircraft suppliers which further complemented with his extensive experience in Aircraft Identification, selection and acquisition related activities, we shall be able to leverage these relationships in ensuring the on-going good strength of our fleet.

Natural Barriers to Entry:

We are one of the few companies operating in this highly regulated industry which requires considerable expertise and experience for qualifying to carry out business and in which there is considerable time period involved for gaining an entry into the industry. Personnel are another important factor for success in this industry, since the regulations and client requirements require minimum experience of the pilots. We have thus achieved an early-mover advantage, being one of the few companies operating in this niche area and having all the necessary clearances, infrastructure and operational background. All these factors act as natural barriers for any potential competitors.

In-house Fleet and existing flight operational experience:

To meet the operational requirements of our clients, we currently have an in-house fleet strength of 3 helicopters and 1 aircraft operating on a dry-lease basis and we also operate various other aircrafts and helicopters on wet lease and other such arrangements and when required. The Bell 412EP and the Bell 407 are considered as benchmarks in their class for performance, availability and reliability. The Bell 412EP has been flying successfully for medium range distances in the offshore routes as well as other routes. The Bell 407 and Agusta A109E have been flying successfully on medium range routes. This strengthens our flight operations, spares inventory, crewing, engineering activities, insurance, overhead and related activities. We believe with that existing flight experience coupled with in-house fleet and aircraft acquisition capabilities; we can increase our operational scalability on increased demand.

In-house Maintenance, Repairs & Overhaul (MRO) Support Capabilities:

We are able to support our operations in an efficient manner because of our strong in-house MRO capabilities, which we currently execute by hiring space from the Airport Authority of India as and when required. Mostly, our in-house capability enables us to reduce the time taken for servicing our helicopters, as we do not have to ship the helicopter to external agencies, leading to enhanced serviceability of our fleet and additional flying hours due to quicker turnaround time. We also have the advantage of low labour costs in India, which helps reduce our costs further. We believe that the combination of the above factors enables us to offer our services at competitive rates in comparison to other operators. These capabilities will further be utilized, when our in-house MRO Facility is activated as proposed.

Experienced and Professional Management:

We have an experienced and professional management team overseeing our operations. Our Managing Director has over 20 years of experience in the Air Charter industry in India and all our key personnel have strong aviation backgrounds and experience in their areas of operation. We have 10 pilots and 5 Aircraft Maintenance Engineers with most of our pilots coming from defense backgrounds with thousands of hours of prior flying experience. We also have sufficient number of Instructors and Examiners to conduct the necessary training for the currency of their licenses. Lastly, our AME's have wide experience in maintaining helicopters and aircrafts in India. As a result, we boast of highly trained and specialized members in all areas of our operations, including compliances of various Government regulatory issues, flight planning, dispatch, maintenance, crewing and training.

Focus on Safety

We have developed sophisticated safety and training programs & practices that have resulted in our strong safety record. We have been compliant with the stringent safety and performance requirements required by our clients, DGCA and the helicopter manufacturers. We have also independently addressed the safety aspect of our operations across all activities including the air crew and ground crew, helicopter, flight operations, maintenance and training by setting up internal systems. Our internal systems and operations have always been compliant with the safety requirements mandated by our clients, which are over and above the DGCA standard.

C. BUSINESS STRATEGY:

The key components of our business strategies are as follows:

Strengthen our competitive position in the existing market:

We intend to strengthen our competitive position by winning new business, renewing existing contracts, cost reduction and through continuing focus on safety. We plan to leverage our in-house capabilities of flight experience, aircraft maintenance, relations with key aircraft and helicopter manufacturers and lessors and an existing operational available fleet, to improve our market share in the NSOP aviation market. We also plan to cater to the customized needs and requirements for special applications & events:

- Aviation Support for Film Production in the Indian Film Industry,
- Aerial Reconnaissance,
- Aerial Photography & Video Shooting,
- Flower & Leaflet Dropping,
- Election Campaigning,
- Banner Towing ,
- Geophysical & Mapping Surveys,
- Search And Rescue,
- Construction,
- Electronic News Gathering,
- Law Enforcement,
- Power Line Maintenance,
- Fire Fighting, etc.

Development of Air Ambulance Services:

We plan to acquire a PC Pilatus Aircraft and modify the interiors in order to make it into an Air Ambulance. The types of air-ambulance services provided vary substantially from one operator to another. The type of services proposed to be offered by SACL fall under the Franco-German model and Anglo-American Model where the emphasis is to bring definitive care rapidly to the patients, wherever they are and also involve physicians attempting complex interventions only when the patient reaches the hospital respectively. We

believe that Air Ambulance services, being a high margin niche business, will help the company further improve its operating margins and goodwill in the market.

Growth through Fleet Expansion:

Our current fleet size stands at 3 helicopters and 1 aircraft on dry lease and various other helicopters and aircrafts on wet lease and other arrangements as and when need arises. We plan to increase the size of our fleet by acquiring one of the existing Bell 412 Helicopter operated on Dry-Lease and one additional PC Pilatus Aircraft from the issue proceeds. We also intend to increase our dry-lease portfolio in the coming periods in order to cater to the growing demands of this sector and hence facilitate growth.

Strengthening and Expansion of Infrastructure:

We plan to further develop and strengthen our MRO and support capabilities by adding to our existing infrastructure. We initially plan to construct a full service hangar and avionics shop at Chennai aerodrome. The facilities at these hangars will provide support for the current as well as the planned fleet expansion deployed. Secondly, we plan to acquire our own office space from the issue proceeds, hence improving the asset base of the company and also reducing the cash flow burden w.r.t office lease payments.

Enhancement of Safety Standards:

Safety is our priority and while we already in compliance with the regulatory standards of the DGCA. We have an in-house Quality Control Department as well as a Quality Assurance Department that supervises the execution of stringent maintenance practices and procedures. This team constantly monitors the activities of all our personnel to ensure that only the best and safest is delivered to our customers.

Book Building Process

Book Building Process refers to the process of collection of Bids, on the basis of the Red Herring Prospectus within the Price Band. The Issue Price is fixed after the Bid/ Issue Closing Date.

The principal parties involved in the Book Building Process are:

- 1) The Company;
- 2) Book Running Lead Manager;
- 3) Syndicate Member(s) who are intermediaries registered with SEBI or registered as brokers with BSE/NSE are eligible to act as underwriters. Syndicate Member(s) are appointed by the BRLM's;
- 4) Escrow Collection Banks; and
- 5) Registrar to the Issue.

The Issue is being made through a 100% Book Building Process wherein up to 50% of the Net Issue shall be allocated on a proportionate basis to Qualified Institutional Buyers, out of which 5% of QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remaining QIB portion shall be available for allocation on a proportionate basis to all Qualified Institutional Buyers, including Mutual Funds, subject to valid bids being received at or above Issue Price. Further not less than 15% of the Net Issue shall be available for allocation on proportionate basis to Non-Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders subject to valid bids being received from them at or above the Issue Price.

Our Company shall comply with Regulations issued by SEBI for this Issue. In this regard, our Company has appointed M/s. Aryaman Financial Services Limited as the BRLM to manage the Issue and to procure subscription to the Issue.

Under the SEBI Regulations, QIBs are not allowed to withdraw their Bids after the Bid/Issue Closing Date.

In addition, QIBs are required to pay the QIB Margin Amount, representing 100% of the Bid Amount, upon submission of their Bids. Allocation to QIBs will be on a proportionate basis. For details, please refer the chapter titled 'Issue Structure' beginning on page 182 of this DRHP.

Resident Retail Individual Bidders have the option to submit their Bids under the "ASBA Process", which would entail blocking of funds in the investor's bank account rather than transfer of funds to the respective Escrow Accounts. For details, please refer "Issue Procedure" beginning on page 187 of this DRHP.

The process of book building under the SEBI Regulations is subject to change. Investors are advised to make their own judgment about an investment through this process prior to submitting a Bid in the Issue.

Illustration of Book Building and the Price Discovery Process *(Investors may note that this illustration is solely for the purpose of easy understanding and is not specific to the Present Issue)*

Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 25 to Rs. 30 per share, Issue size of 3000 equity shares and receipt of six bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the website of the BSE (www.bseindia.com) and NSE (www.nseindia.com). The illustrative table as shown below shows the demand for the shares of the company at various prices and is collated from bids from various investors.

No. of equity shares bid for	Bid Price (Rs.)	Cumulative equity shares bid	Subscription
500	30	500	16.67%
750	29	1250	41.66%
1000	28	2250	75.00%
750	27	3000	100.00%
2750	26	5750	191.66%
2500	25	8250	275.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired quantum of shares is the price at which the book cuts off i.e. Rs. 27 in the above example. The Issuer in consultation with the BRLM will finalize the issue price at or below such cut off price i.e. at or below Rs. 27. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in respective categories.

Steps to be taken by the Bidders for bidding:

- Check eligibility for making a Bid. Please refer to 'Issue Procedure' beginning on page 187 of this DRHP;
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure that the Bid cum Application Form, including the ASBA Form is duly completed as per the instructions given in this DRHP and in the Bid cum Application Form; and
- Provide PAN card details on the Bid cum Application Form / ASBA Form without which the documents will be considered incomplete and are liable to be rejected. It is to be specifically noted that Bidders should not provide the GIR number instead of the PAN as the Bid is liable to be rejected on this ground.
- The Bidder should ensure the correctness of his or her Demographic Details (as defined in 'Issue Procedure- Bidder's PAN, Depository Account and Bank Account Details' on page 204 of this DRHP) given in the Bid cum Application Form vis-à-vis those with his or her Depository Participant so as to ensure receipt of allotment advice/refund orders with correct details at his/her present address

b) Setting up of MRO/Hangar Facility

Our aircraft maintenance, if regular in nature gets carried out at the Parking Space allotted to us in Chennai Airport. For more complex repairs and MRO activities, we currently lease hangar space and MRO Facility from the Airport Authority of India on an as and when basis for our current fleet of 3 helicopters and 1 aircraft.

The company intends to set up an In-house MRO facility at the Chennai Airport which would be used to offer MRO services to its own aircraft/helicopter as well as that of others on general aviation.

With the increasing size of the elite class of India and the subsequent increasing number of charter planes there is a huge potential for MRO services which has not kept pace with the growth in Aviation business in India. The company's objective is to tap the potential demand for MRO Services by other private operators and also increase operational efficiencies of the in-house aircrafts and helicopters.

In this connection, the company has applied to Airports Authority of India, Chennai for allotment of land for construction of approximately 10000 sq. ft hangar facility. Approval is awaited from the said authorities for the proposed activities. Once the approval is received, establishment of an MRO facility would include construction of Hangar and equipping the facility with various domestic as well as imported special tools, spares and equipment.

Overview of the Indian Economy

Since its liberalization in the 1990's the Indian Economy's GDP growth rate has averaged around 7% since 1997 and India was able to keep its economy growing at a healthy rate even during the 2007-2009 recession, managing a 9.67% GDP growth rate in 2010.

In 2010, India's PPP Gross Domestic Product stood at over \$4 trillion, making it the fourth largest economy by volume. The sectoral break up of India's national GDP is as follows:

However, rising inflation became a major concern, and measures to check it are being implemented. In 2010, the rate of inflation was around 8.6%.

Overview of the Global Aviation Industry

The air transport industry is a vital part of the increasingly globalised world economy, facilitating the growth of trade, tourism and international investment, and connecting people across continents making it a major contributor to global economic prosperity.

Air travel is no longer considered an ordeal but an experience, which is why today increased emphasis is being made on travel time, quality of flight experience, sound levels and comfort, and this is due to the fact that air travel is becoming a preferred way to travel be it long, short or just plan intra-city distances.

The growth of world air traffic today is predominately fueled by strong economic growth combined with increasingly liberalized and competitive markets and this in essence is expected to drive above-trend traffic in turn outpacing airline capacity expectations.

According to estimates released by aircraft manufacturer Boeing, strong economic growth mostly driven by intra & inter region trade and liberalized markets has generated robust demand of air travel, while airline efficiency improvements have been offsetting high fuel prices enabling overall industry profitability. Interestingly, world economics since 2004 is growing at a stable 3.4 percent and this is expected to continue through to the end of this decade.

The total value of goods transported by air represents 35% of all international trade. The industry generates a total of 32 million jobs globally, through direct, indirect, induced and catalytic impacts, which is equivalent to 7.5% of world GDP. Approximately 2,000 airlines around the world operate a total fleet of 23,000 aircrafts which serve 3,750 airports through a route network of several million kilometers managed by around 160 air navigation service providers.

Overview of the Indian Civil Aviation Industry

The history of civil aviation in India started with its first commercial flight on February 18, 1911. It was a journey from Allahabad to Naini made by a French pilot Monseigneur Piguet covering a distance of about 10 km. Since then efforts are on to improve the health of India's Civil Aviation Industry.

For many years since its inception the Indian Aviation Industry was plagued by inappropriate regulatory and operational procedures resulting in either excessive or no competition. Nationalization of Indian Airlines (IA) in 1953 brought the domestic civil aviation sector under the purview of Indian Government. Government's intervention in this sector was meant for removing the operational limitations arising out of excess competition.

The upswing in India's economy since 2003 led by renewed global investor interest, clubbed with the rise in disposable incomes lead to a greater buying power of India's middle class which along with the popularisation of "low cost airlines has helped the Indian aviation sector to grow at a fast pace over the last decade.

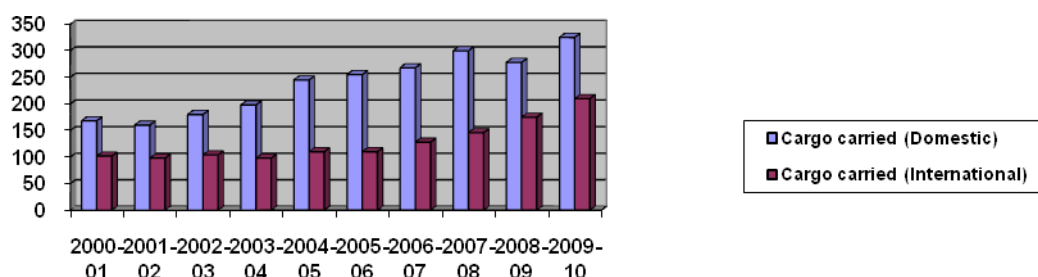

The number of Domestic passengers carried in 2000-2001 was about 14 million which increased to more than 45 million in 2009-10, registering a CAGR of 12.39%. The number of International passengers carried in 2000-2001 was around 4 million which increased to almost 12 million in 2009-10, registering a CAGR of 11.61%.

(Figures in 000's)
(Source: www.mospi.nic.in)

The amount of Domestic cargo carried increased from about 1.5 lacs in 2000-2001 to above 3 lacs in 2009-2010, registering a CAGR of 7.34%.

The amount of International cargo carried increased from 1 lac in 2000-01 to above 2 lacs in 2009-10, registering a CAGR of 7.70%.

(Figures in 000's)
(Source: www.mospi.nic.in)

Indian carriers have 480 aircraft on order for delivery by 2012, which compared with a fleet size of 310 aircraft operating in the country presently, is substantial capacity addition and shows the expected growth from this sector. A. OVERVIEW

We are a Non-Scheduled Airline Operator servicing a fleet of fixed-wing aircraft and helicopters across India. On incorporation, the company had taken over the assets and liabilities of M/s. Swajas Air Charters, an air craft brokerage proprietary concern of Mr. R. Jayakumar, the promoter and Managing Director of the Company which he was operating from 1996. The company, today, has gradually grown to dry lease and wet lease a number of helicopters and aircrafts of its own and has become one of the key Non-Scheduled Operator in Southern India having gained experience over the years. The services provided can fulfill various Aviation requirements which range from corporate travel to emergency medical services as well as from aircraft management to maintenance and technical support.

Our company offers a number of services falling under the segments of:

1. General Air-Charter Services
2. Off-Shore Transportation & Logistics
3. Charter Tourism
4. Medical Evacuation Services
5. Operations & Maintenance

We initially carried out air charter services through a wet lease model wherein the lessor of the aircraft provided the aircraft along with the complete crew, maintenance and insurance requirements. As the company matured and gained experience, we started a dry-lease arrangement whereby the lessor only provided the aircraft. The other requirements of insurance, crew, ground staff, supporting equipment, maintenance, etc were managed by Swajas Air Charters Limited.

We presently operate the following Aircraft & Helicopters on a dry-lease basis:

Sr. No.	Model Name	Brief Description

B. COMPETITIVE STRENGTHS

We are in the business of providing various Air Charter services pre-dominantly in Southern India. We are a registered permit holder to operate non-scheduled air transport services with the Office of Director General of Civil Aviation, Government of India. We believe that following are our principle competitive strengths:

Strong Relationships:

We provide services to clients operating in various sectors under contracts, which are for a period of one to three years with one or more renewal options. Mr. R. Jayakumar, one of the promoters of the Company has been in this industry over the last 20 years, where through him we have been able to develop strong relationships with our clients and also retain them through continuous support. Further, our other promoter Mr. Christopher Ian Want has strong relationships with several foreign aircraft suppliers which further complemented with his extensive experience in Aircraft Identification, selection and acquisition related activities, we shall be able to leverage these relationships in ensuring the on-going good strength of our fleet.

Natural Barriers to Entry:

We are one of the few companies operating in this highly regulated industry which requires considerable expertise and experience for qualifying to carry out business and in which there is considerable time period involved for gaining an entry into the industry. Personnel are another important factor for success in this industry, since the regulations and client requirements require minimum experience of the pilots. We have thus achieved an early-mover advantage, being one of the few companies operating in this niche area and having all the necessary clearances, infrastructure and operational background. All these factors act as natural barriers for any potential competitors.

In-house Fleet and existing flight operational experience:

To meet the operational requirements of our clients, we currently have an in-house fleet strength of 3 helicopters and 1 aircraft operating on a dry-lease basis and we also operate various other aircrafts and helicopters on wet lease and other such arrangements and when required. The Bell 412EP and the Bell 407 are considered as benchmarks in their class for performance, availability and reliability. The Bell 412EP has been flying successfully for medium range distances in the offshore routes as well as other routes. The Bell 407 and Agusta A109E have been flying successfully on medium range routes. This strengthens our flight operations, spares inventory, crewing, engineering activities, insurance, overhead and related activities. We believe with that existing flight experience coupled with in-house fleet and aircraft acquisition capabilities; we can increase our operational scalability on increased demand.

In-house Maintenance, Repairs & Overhaul (MRO) Support Capabilities:

We are able to support our operations in an efficient manner because of our strong in-house MRO capabilities, which we currently execute by hiring space from the Airport Authority of India as and when required. Mostly, our in-house capability enables us to reduce the time taken for servicing our helicopters, as we do not have to ship the helicopter to external agencies, leading to enhanced serviceability of our fleet and additional flying hours due to quicker turnaround time. We also have the advantage of low labour costs in India, which helps reduce our costs further. We believe that the combination of the above factors enables us to offer our services at competitive rates in comparison to other operators. These capabilities will further be utilized, when our in-house MRO Facility is activated as proposed.

Experienced and Professional Management:

We have an experienced and professional management team overseeing our operations. Our Managing Director has over 20 years of experience in the Air Charter industry in India and all our key personnel have strong aviation backgrounds and experience in their areas of operation. We have 10 pilots and 5 Aircraft Maintenance Engineers with most of our pilots coming from defense backgrounds with thousands of hours of prior flying experience. We also have sufficient number of Instructors and Examiners to conduct the necessary training for the currency of their licenses. Lastly, our AMEs have wide experience in maintaining helicopters and aircrafts in India. As a result, we boast of highly trained and specialized members in all areas of our operations, including compliances of various Government regulatory issues, flight planning, dispatch, maintenance, crewing and training.

Focus on Safety

We have developed sophisticated safety and training programs & practices that have resulted in our strong safety record. We have been compliant with the stringent safety and performance requirements required by our clients, DGCA and the helicopter manufacturers. We have also independently addressed the safety aspect of our operations across all activities including the air crew and ground crew, helicopter, flight operations, maintenance and training by setting up internal systems. Our internal systems and operations have always been compliant with the safety requirements mandated by our clients, which are over and above the DGCA standard.

C. BUSINESS STRATEGY:

The key components of our business strategies are as follows:

Strengthen our competitive position in the existing market:

We intend to strengthen our competitive position by winning new business, renewing existing contracts, cost reduction and through continuing focus on safety. We plan to leverage our in-house capabilities of flight experience, aircraft maintenance, relations with key aircraft and helicopter manufacturers and lessors and an existing operational available fleet, to improve our market share in the NSOP aviation market. We also plan to cater to the customized needs and requirements for special applications & events:

- Aviation Support for Film Production in the Indian Film Industry,
- Aerial Reconnaissance,
- Aerial Photography & Video Shooting,
- Flower & Leaflet Dropping,
- Election Campaigning,
- Banner Towing ,
- Geophysical & Mapping Surveys,
- Search And Rescue,
- Construction,
- Electronic News Gathering,
- Law Enforcement,
- Power Line Maintenance,
- Fire Fighting, etc.

Development of Air Ambulance Services:

We plan to acquire a PC Pilatus Aircraft and modify the interiors in order to make it into an Air Ambulance. The types of air-ambulance services provided vary substantially from one operator to another. The type of services proposed to be offered by SACL fall under the Franco-German model and Anglo-American Model where the emphasis is to bring definitive care rapidly to the patients, wherever they are and also involve physicians attempting complex interventions only when the patient reaches the hospital respectively. We

believe that Air Ambulance services, being a high margin niche business, will help the company further improve its operating margins and goodwill in the market.

Growth through Fleet Expansion:

Our current fleet size stands at 3 helicopters and 1 aircraft on dry lease and various other helicopters and aircrafts on wet lease and other arrangements as and when need arises. We plan to increase the size of our fleet by acquiring one of the existing Bell 412 Helicopter operated on Dry-Lease and one additional PC Pilatus Aircraft from the issue proceeds. We also intend to increase our dry-lease portfolio in the coming periods in order to cater to the growing demands of this sector and hence facilitate growth.

Strengthening and Expansion of Infrastructure:

We plan to further develop and strengthen our MRO and support capabilities by adding to our existing infrastructure. We initially plan to construct a full service hangar and avionics shop at Chennai aerodrome. The facilities at these hangars will provide support for the current as well as the planned fleet expansion deployed. Secondly, we plan to acquire our own office space from the issue proceeds, hence improving the asset base of the company and also reducing the cash flow burden w.r.t office lease payments.

Enhancement of Safety Standards:

Safety is our priority and while we already in compliance with the regulatory standards of the DGCA. We have an in-house Quality Control Department as well as a Quality Assurance Department that supervises the execution of stringent maintenance practices and procedures. This team constantly monitors the activities of all our personnel to ensure that only the best and safest is delivered to our customers.

We believe that the team is experienced and licensed to carry out various maintenance activities.

We follow a progressive maintenance program with checks scheduled at 100 hours, 300 hours and 600 hours. To be able to offer the highest aircraft serviceability to our clients, we carry out most of our scheduled maintenance in-between flights and at the end of the flying day. This offers an unhindered utilization of the fleet during the daylight hours and thus the maximum flying time to the client. The unscheduled maintenance requirements are addressed immediately as and when they arise whether between flights or after the flying day. This kind of maintenance program allows us to maximize revenues by offering higher flying hours as well as meeting the serviceability requirement of our clients.

We believe that our in-house capabilities enable us to have lower overhaul costs compared to an operator who uses external agencies. It also ensures that there are no logistic costs involved in shipping parts to external agencies thus reducing the time that the helicopter is not available for use.

We also have an approved safety shop for overhaul and repair of safety items such as life vests, life rafts and floats and also an approved electrical shop for overhaul of batteries installed on the helicopters.

Major checks required as per the manufacturers schedule / DGCA requirements:

Type of Check	In-House Facility	Average Time Taken
100 Hours	YES/NO	24 Hours
300 Hours	YES/NO	2 Days
600 Hours	YES/NO	3 Days

Engine Overhaul	YES/NO	11 Days
3000 Hours / 5 Year Check	YES/NO	30 Days

Our facilities and procedures are periodically audited by DGCA and international agencies for ensuring adherence to highest industry standards. Some of the prominent auditors include DGCA, Transocean, Aviation Management Systems (AMS), DET NORSKE VERITAS AUDIT, (DNB), OIL AND GAS ITALY (ENI) etc.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive or complete, and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice.

Laws and Regulations relating to the Aviation Industry

The primary legislation governing the aviation sector in India is the Aircraft Act and the Aircraft Rules, 1937 which are enacted under the Aircraft Act. The statute empowers various authorities including the DGCA to regulate aircraft operations in India.

In addition to the aforesaid legislation, the following are some of the important enactments applicable to entities which provide air transport services in India:

1. **The Airports Authority of India Act, 1994:** a statute creating the Airports Authority of India (AAI), and providing for the administration and cohesive management of aeronautical communication stations, airports and civil enclaves where air transport services are operated or are intended to be operated.
2. **The Carriage by Air Act, 1972:** a statute giving effect to the Convention for the Unification of Certain Rules Relating to International Carriage by Air signed at Warsaw on October 12, 1929 (as amended by the Hague Protocol on the September 28, 1955), acceded to by India. India has also extended the provisions of this act to non-international carriage by air.
3. **The Tokyo Convention Act, 1975:** a statute giving effect to the Convention of Offences and Certain Other Acts Committed on Board Aircraft, as signed at Tokyo on September 14, 1963 and acceded to by India.
4. **The Anti-Hijacking Act, 1982:** a statute giving effect to the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on December 16, 1970; and acceded to by India.
5. **The Suppression of Unlawful Acts Against Safety of Civil Aviation Act, 1982:** An Act to give effect to the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation signed on September 23, 1971 at Montreal and acceded to by India.

In addition to the above enactments and the Aircraft Rules, air transport services in India are governed by other rules including:

6. **The Aircraft (Public Health) Rules, 1954;**
7. **The Aircraft (Demolition of Obstructions Caused by Buildings, Trees Etc.) Rules, 1994; and**
8. **The Aircraft (Carriage of Dangerous Goods) Rules, 2003.**

In addition to the above, legislations relating to direct and indirect taxation, environmental and pollution control regulations, intellectual property, labour and employment related legislation apply to us, as they apply to all industries. We are required to obtain various consents, approvals and permissions prior to or during the course of our operations under the aforesaid legislation.

Regulators

Director General of Civil Aviation (DGCA)

Domestic aviation in India is regulated by the Ministry of Civil Aviation (MoCA) and its two attached offices, the Bureau of Civil Aviation Security (BCAS) which is the central agency for aviation security; and the Director General of Civil Aviation which is responsible for the regulation of air transport services in India and for the enforcement of civil air regulations, air safety and airworthiness standards.

The DGCA is the principal regulator in the Indian civil aviation sector. *Inter alia*, the office of the DGCA promulgates, implements and monitors standards relating to the operations and airworthiness of an aircraft, licensing of personnel such as flight crew, flight dispatchers and aircraft maintenance engineers, air transport operations, investigation of minor accidents, etc. The detailed terms and conditions of these standards, including, without limitation, the authorities involved, the application processes and the requirements of renewal are prescribed by the Aircraft Act, the Aircraft Rules, CARs, ATACs, AICs and other circulars and advisory circulars.

Amongst other things, the DGCA is responsible for the following:

- **Aircraft registration:** DGCA is responsible for registration of all civil aircraft in India. Rule 30 of the Aircraft Rules empowers the DGCA to register aircraft and to grant certificate of registration in India;
- **Airworthiness certification:** Rule 15 requires that all aircraft registered in India to possess a current and valid Certificate of Airworthiness before it is flown. Under the provisions of Rule 50A, the DGCA issues/renews or revalidates the Certificate of Airworthiness;
- **Grant of approval to maintenance organizations:** Rule 133B certifies approved organizations for maintenance of aircraft.
- **Continuing airworthiness information:** DGCA issues continuing airworthiness information in the form of mandatory modifications/inspections which prescribe the mandatory actions required for the continued safe operation of the aircraft. These mandatory modification/inspection notify aircraft owners of potentially unsafe and other conditions affecting the airworthiness of their aircraft and/or accessories;
- **Grant of air operator's permits:** DGCA, under the provisions of Rule 134 of the Aircraft Rules grants permission to persons to operate an air transport service to, within and from India.

The air transport services offered are

- (a) Scheduled Air Transport Services (Passenger) (CAR Section 3 Series 'C' Part II),
- (b) Non- Scheduled Air Transport Services (Passenger) (CAR Section 3 Series 'C' Part III),
- (c) Air Transport Services (Cargo) (CAR Section 3 Series 'C' Part IV) and
- (d) Non- Scheduled Air Transport Services (Charter Operation) (CAR Section 3 Series 'C' Part V).

These permits are equivalent to the Air Operator's Certificate required to be granted by ICAO member States. Our helicopter operations are covered by the Non-Scheduled Operator's Permit (NSOP) which is discussed below.

- **Grant of licenses to crews and personnel involved in the operation and maintenance of aircraft:** The DGCA grants approvals and licenses to certain personnel such as flight crew, flight dispatchers and aircraft maintenance engineers.

Regulations applicable to our business:

We are engaged in providing non scheduled air transport services in India. Companies engaged in providing non scheduled air transport services are required to obtain the Non-Scheduled Operators Permit (NSOP) from the DGCA.

Operation of Non-scheduled air transport services

A 'scheduled air transport service' means an air transport service undertaken between two or more places and operated according to a published time table or with flights so regular or frequent that they constitute a recognizably systematic series, each flight being open to use by members of the public. A non-scheduled operation means an air transport service other than scheduled air transport service and that may be on charter basis and/or non-scheduled basis. Permission to operate non-scheduled services in India is only granted to:

- a citizen of India; or
- a company registered under the Companies Act, 1956 having its principal place of business within India, its chairman and at least two-thirds of its directors are citizens of India; and, its substantial ownership and control are vested in Indian Nationals.

Requirements for the operating permit also include certain requirements relating to permissible classes of aircraft, a minimum subscribed equity capital depending on the number of aircraft, availability of sufficient maintenance facilities, adequate maintenance and repair facilities, adequate number of flight crew and cabin crew, and adequate ground handling facilities and staff.

Foreign ownership restrictions

Foreign investment in Indian securities is regulated through the Industrial Policy of the Government of India and FEMA. While the Industrial Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Under the current foreign investment policy, FDI in the "Air Transport Services (Domestic Airlines)" sector (including scheduled and non-scheduled operators) is permitted up to 49% and up to 100% by NRIs (both under the automatic route, i.e., without the prior approval of the FIPB). Detailed guidelines in this regard have been issued by the DGCA under AIC No. 09. The Industrial Policy further prohibits foreign airlines from making any direct or indirect equity investment in a domestic airline.

In addition, the guidelines issued by the DGCA from time to time, including AIC No. 09, specify the following restrictions:

- a foreign investing institution or other entity that proposes to hold equity in the domestic air transport sector must not be a subsidiary of a foreign airline;
- a foreign financial institution or other entity that proposes to hold equity in the domestic air transport sector must not have foreign airlines as its shareholder;
- the substantial ownership and effective control of companies operating non-scheduled services must be vested in Indian nationals; and
- a foreign investing institution or other entity that proposes to hold equity in the domestic air transport sector may have representation on the board of directors of a domestic airline company, but such representation shall not exceed one-third of the total strength of such board.

No person shall make a Bid in pursuance of this Issue unless such person is eligible to acquire Equity Shares of our Company in accordance with the AIC No. 09, and other applicable laws, rules, regulations, guidelines and approvals.

Investors making a Bid in response to the Issue will be required to confirm and will be deemed to have represented to our Company, the BRLM, the Underwriters and their respective directors, officers, agents,

affiliates and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to subscribed to the Equity Shares of our Company and will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares of our Company. Our Company, the BRLM, the Underwriters and their respective directors, officers, agents, affiliates and representatives accept no responsibility or liability for advising any investor whether such investor is eligible to subscribe to Equity Shares of our Company.

Regulations applicable to our fleet:

Acquisition of aircraft

The acquisition of aircraft and their use for non scheduled airline operations requires that we obtain various permissions, approvals and consents. The import of aircraft requires a general “no-objection” certificate from the MoCA and subsequently a specific “no-objection” certificate to import aircraft from the DGCA. Further, permission from the RBI is required for foreign currency financing arrangements for the acquisition of aircraft. For aircraft that are in operation elsewhere prior to their import by us, export certificates of airworthiness and certificates of deregistration are required from the regulators in the country of import prior to their import into India. Following the import of aircraft, further permissions, particularly in connection with registration of the aircraft, certification of their airworthiness and an issue or extension of the permit to operate air transport services for non scheduled commercial operations must be obtained and maintained in order for them to be inducted into our fleet and used for our operations. In addition to the above, we also required to obtain and maintain adequate levels of insurance for its scheduled commercial operations, including:

- Insurance for passengers, baggage, crew and cargo; and
- Hull loss and third party risk.

Under the applicable regulations, aircraft imported for non scheduled commercial operations must comply with various functional requirements prior to their certification. These include limitations on maximum permissible age, type of aircraft that may be imported, installation of prescribed instrumentation and safety equipment and restrictions specific to the nature of the arrangement under which aircraft are leased.

Regulations governing our personnel

Personnel employed in our operations including our flight crews, flight dispatchers, and engineering personnel engaged in maintenance are required to be approved or licensed by the DGCA. In addition to the above requirements, certain clearances are required for non-scheduled airlines prior to appointment of various personnel, including:

- Security clearance for non-India pilots and engineers to be obtained under ATC No. 03 of 1998.
- Security clearance for the chairman and directors of all scheduled and non scheduled airline operators under ATC No. 3 of 1998.

Air crew

All of our flight crews are required to obtain aircraft specific licenses from the DGCA prior to the operation of aircraft. These licenses are to be renewed on a periodic basis. Our air crews are also required to undergo proficiency checks on a regular basis in order to keep their licenses current. In addition, our flight crews may also need to satisfy specific requirements in connection with offshore operations. Our air crew training program is required to be approved by the DGCA.

Regulations governing engineering and maintenance

All the AME's employed in connection with our engineering and maintenance operations must be licensed or approved by the DGCA for carrying out their specific maintenance and certification roles. These licenses or approvals have to be renewed on an annual basis. Recurrent training of these personnel is also required to ensure compliance with proficiency requirements.

Further, our quality control documentation is required to be approved by the DGCA.

We are required to maintain certain basic maintenance facilities for our aircraft in order to qualify for a permit to provide non-scheduled air transport services. Consequently, we have obtained approvals from the DGCA to provide different levels of maintenance services for our fleet. We are required to renew these approvals on an annual basis.

Regulations governing security

We are required to comply with BCAS requirements when training our airport based security personnel and our security documentation must be approved by the BCAS. We are also required to obtain BCAS approval for our security arrangements in each airport prior to commencing our operations.

Regulations governing safety

Only scheduled operators are mandatorily required to establish a flight safety cell in order to monitor its flight safety, investigate any safety related incidents and recommend remedial measures in connection with the same; while non-scheduled operators are only 'encouraged' to do so by the applicable CAR. Notwithstanding the recommendatory nature of these guidelines, we have undertaken strict voluntary compliance with the applicable CAR.

Regulations governing quality assurance

We are required to have a quality assurance system to carry out internal audits of its engineering activities. We are also required to appoint a quality control manager whose appointment is to be approved by the DGCA. Further, we are also required to designate an accountable manager who has the corporate authority to ensure compliance of our maintenance operations with DGCA requirements.

The following discussion is based on our restated financial statements, which have been prepared in accordance with Indian GAAP, the accounting standards and other applicable provisions of the Companies Act, 1956, and the SEBI ICDR Regulations, 2009. OVERVIEW

Swajas Air Charters Limited is a Non-Scheduled Airline Operator servicing a fleet of fixed-wing aircraft and helicopters across India. On incorporation, the company had taken over the assets and liabilities of Swajas Air Charters, an air craft brokerage proprietary concern of Mr. R. Jayakumar, the promoter and Managing Director of the Company which he was operating from 1996. The company, today, has gradually grown to dry lease and wet lease a number of helicopters and aircrafts of its own. Swajas Air Charters Limited has become one of the key Non-Scheduled Operator in Southern India having gained experience over the years. The services provided can fulfill various Aviation requirements which range from corporate travel to emergency medical services as well as from aircraft management to maintenance and technical support.

Swajas Air Charters Limited offers a number of services falling under the segments of:

1. General Air-Charter Services
2. Off-Shore Transportation & Logistics
3. Charter Tourism
4. Medical Evacuation
5. Operations & Maintenance

Mr. R. Jayakumar, one of the promoters of our company has got about 20 years of experience in aviation industry and Mr. Christopher Ian Want, USA, who is the other promoter of the company is a pilot by profession. He holds an Airline Transport Pilots Licence (ATP), Flight Engineer Licence (FE) and Gold Seal Instructor Ratings for single, multi engine and instrument aircraft (CFI, CFII and MEI).

Our Company proposes to buy one Bell 407 helicopter and also one PC Pilatus aircraft. With the PC Pilatus Aircraft it intends to commence Air Ambulance Services. The main difference between air ambulances services and medical evacuation services which the company is already offering is that in the case of the former the aircraft will be equipped with all the medical equipment and the medical team on a permanent basis whereas in the case of medical evacuation services, only a normal aircraft will be temporarily converted into an air ambulance.

The company also intends to expand its current fleet strength by taking more aircrafts/helicopter on dry lease.

The Allotment to Bidders shall be made in marketable lots on a proportionate basis as explained below:

- a) Bidders will be categorized according to the number of Equity Shares applied for by them.
- b) The total number of Equity Shares to be Allotted to each category as a whole shall be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the oversubscription ratio.

If that number is lower than 0.5, it would be rounded off to the lower whole number. Allotment to all Bidders in such categories would be arrived at after such rounding off.
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment shall be first adjusted against any other category, where the Allotted shares are not sufficient for proportionate Allotment to the successful Bidders in that category. Restrictions on Foreign Ownership Of Indian Securities

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the GoI, as notified through press notes and press releases issued from time to time, and FEMA and circulars and notifications issued thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures and reporting requirements for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

Subscription by foreign investors (NRIs/FIIs)

FIIs are permitted to subscribe to shares of an Indian company in a public offer without the prior approval of the RBI, so long as the price of the shares is not less than the price at which the shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 1997, as amended; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.
